WHEAT AT A DOLLAR QUOTED IN CHICAGO IN SUDDEN DECLINE

Break Carries the Option Figures Below the Estimated Cost of Production.

BROKERS IN A RUSH TO SELL

Shipments of the New Crop Cause Fears of Dumping on the Market.

OTHER GRAIN PRICES DROP

But the Government Index Is 16.7 Higher Than a Year Ago for the Chief Crops.

CHICAGO, July 10.—There was a demoralized market for wheat today at the close of the Board of Trade session, with prices down to what was called a bargain counter basis, $1 a bushel. According to well informed authorities, dollar wheat gives the grower less than the cost of production.

The market at the close of trading showed no tendency to rebound, notwithstanding that prices for every future delivery had suffered a break at a new low record for the season. The setback in values as compared with twenty-four hours before was irregular, varying from 2¼ cents to 3⅝ cents a bushel, September delivery closing at $1 to $1.00¾ and December at $1.03 to $1.03⅝.

Although selling out had been general from the beginning of the day's business, no flurry developed until shortly before the close, when it was announced that the arrival of wheat in Chicago from the new 1923 crop had already begun. As Chicago of late has been the highest market in the country, the idea quickly spread that the bulk of the increasing movement of new wheat would be headed in this direction.

Hasty liquidation ensued as prices gave way. This was especially the case with owners who had been clinging to the view that black rust might destroy much of the Spring crop in the Northwest. Instead, cool weather promised to halt the rust and let the Spring crop race to safety.

Meanwhile new export business was small. It was apparently shown that plans to restrict the movement of new wheat to market were not being carried out with anything like the thoroughness which in various quarters had been expected.

The prices of corn and oats, as well as wheat, closed at losses. Corn finished ⅛ to 1⅜ cents down, oats a shade to 1⅛-1¼ cents off, and provisions at a setback ranging from 5 to 40 cents.

Average Crop Prices Fall.

Special to The New York Times.

WASHINGTON, July 10.—With large crops in prospect for the American farmer in the event of a realization of the Government's July forecast of production for wheat, corn, tobacco, oats and other principal products, the agricultural situation has reached the point where the trend of farm prices will become a most important element as the season progresses.

The wheat harvest is in full swing in the Central States. Of all the great crop regions, the wheat belt is regarded by Government experts as being least heartened by the general prospects. In some sections the crop is poor and prices are problematical. The harvest in Winter wheat districts is well along, but grain is only fair. In some of the best sections there was damage from heavy storms and wheat men generally are worried over the price possible this Fall.

Government experts in Washington admit that on some American land now growing wheat farmers may find it difficult to meet world competition and pay adequate return for American labor and land values. But they assert that the wheat problem will not be solved over night, as these are still readjustment times, and that for a product of such worldwide origin five years more may be required to stabilize production.

East Affected by Drought.

Official reports from the great regional sections show that the East has suffered from dry weather. Pastures and meadows are backward, dairy products are increasing in volume, fruit prospects are fairly good and haying and cultivation are somewhat handicapped by lack of labor. In the South section shows the effects of the late start, and is in better shape west of the Mississippi than in Eastern States, while the boll weevil is in evidence generally.

In the corn belt a rush of work is now on, following wet weather. Corn is uneven, but growing rapidly. The run of hogs to the market has been heavy, and farmers are pushed, with help scarce.

In the range country the range is in good condition in the North and short from dry weather in parts of the South, but cattle and sheep generally are reported in good shape. On the Pacific Coast the barley harvest is well along, fruit crops are reported good, but there is some apprehension over prices among Northern wheat growers.

The crop board announces that the level of prices paid to producers for the principal crops decreased 1.8 per cent. during June while the last ten years the price level has decreased about 0.9 per cent. during that month.

On July 1, says the crop board, "the index figure of prices was about 16.7 per cent. higher than a year ago, 30.6 per cent. higher than two years ago, and 17.6 per cent. more than the average of the past ten years on July 1. The prices of the United States declared 8.1 per cent. more May 15 than on May 15 in the past ten years and decreased in the period 1.6 per cent. On

I. C. C. Orders an Inquiry On Anthracite Coal Rates

WASHINGTON, July 10.—Acting upon a recommendation of the Coal Commission, the Interstate Commerce Commission today ordered a general investigation of all rates for transportation of anthracite in the United States and into foreign commerce.

A paragraph of the recent Coal Commission report on the anthracite industry declared that rates on anthracite apparently constituted a very large proportion of the consumer's cost of the commodity. The level of such rates was said to be possibly too high to be justifiable, and the Interstate Commerce Commission was asked to look into the subject.

Complying with the recommendation, the commission today served notice on all common carriers that it would seek evidence on the subject, taking up rates on cargo and bunker coal at ocean ports and rates on boat lines over the Great Lakes. Times and places for hearings will be fixed later.

TO MOVE A MOUNTAIN FOR A GREAT PARK

Palisades Commission Proposes to Transfer Hook Mountain From River Bank.

TO SELL ROCK TO PAY COST

Governor Smith Approves $5,000,000 Quarrying Job Near Haverstraw.

Special to The New York Times.

PEEKSKILL, N. Y., July 10.—A proposal of the Palisades Interstate Park Commission to remove the greater part of Hook Mountain and establish in its place a beautiful playground, like Bear Mountain Park, was discussed today to Governors Smith of New York and Silzer of New Jersey, who were guests of the commission on an all-day inspection tour.

A commission of the Park Commissioners has been working on the plan for almost a year. Sanction of the New York State Legislature to proceed with the work will be asked at its next session, according to Major W. A. Welch, chief engineer of the Interstate Commission.

Hook Mountain is one of the highest peaks on the west shore of the Hudson River, just below Haverstraw. Its four and a half miles of trees and foliage are bitten into by deep quarries, defacing much of the mountain's beauty. The commission plans to remove the remaining portion of the mountain as far inland as the deepest excavation, rounding it out to restore it to its former natural state.

This will entail the removal of ten million cubic yards of rock, according to Major Welch. He figured that the quarrying would cost no more than $5,000,000, which might be defrayed by the sale of the rock of which the mountain is made.

To Build Waterfront Road.

The destruction of this large chunk of mountain would enable the commission to build a road along the waterfront, relieving automobilists of the necessity of driving around Hook Mountain between Nyack and Haverstraw. At present drivers are forced to encircle the mountain when driving from New York to Haverstraw, Bear Mountain and other spots on the Hudson.

If the Legislature finds the commission's plans acceptable, Major Welch asserted that the two roads would each be used for one-way traffic. This will be imperative, he said, because of the constantly increasing number of automobilists who drive up to Bear Mountain and West Point on Sundays and holidays.

Excavating in the hillside along the waterfront was started about twenty-five years ago. In 1906 the commission added the rugged stretch of Hook Mountain to its Palisades possessions and immediately took steps to drive the excavators from the mountain. Quarrying ceased in 1917, but only after the mound had been made unsightly, huge gaps of yellow and brown stone and rock taking the place of trees and shrubbery.

One of the principal towns to be included in the commission's improvements is Rockland Lake Landing, which has a lake as large as Bear Mountain Lake. Major Welch said that the commission would also start an excursion line to

MOVES TO UNIONIZE THE STEEL INDUSTRY AND GET 8-HOUR DAY

Gompers Announces Federation Plan, Saying It Is Psychological Time for Drive.

RADICAL LEADERS BARRED

Bethlehem, Cleveland and Chicago Said to Be Centres Chosen for the Effort.

PROJECT NOW UNDER WAY

Labor Chieftain Asserts 12-Hour Day in the Mills Contributes Toward Success of Campaign.

Special to The New York Times.

WASHINGTON, July 10.—In the face of the promised abolition of the twelve-hour workday in the steel industry, the American Federation of Labor and affiliated bodies have begun a new drive to unionize the 376,000 men in that industry. Announcement of the plan was made today by Samuel Gompers, President of the American Federation of Labor, who said that the time appeared opportune for such a movement, which will have as one of its chief purposes the procurement of an eight-hour day.

The decision to make another attempt to place the steel industry under union rules, after two unsuccessful attempts to do so in 1919 and 1920, resulted from a recent conference of labor leaders, who were considering what should be done with the $70,000 left over from the funds collected for these previous efforts. Mr. Gompers and others agreed that the money should be used as a nucleus for another drive to force the steel industry to come under union labor control.

Accordingly, the American Federation leaders are now quietly organizing to effect this purpose. Mr. Gompers said that the movement will be freed of radicals such as Foster, and will be conducted in a vigorous way.

Bethlehem, Cleveland and Chicago have been selected as the centres of the new drive, it was reported, but Mr. Gompers would neither confirm nor deny that, because any information of this sort, he said, would aid the steel companies in resisting the attack.

"This is the psychological time for the organization of the steel industry," Mr. Gompers said, "and no man has contributed more to it than Mr. Gary. He has promised to do away with the twelve-hour day, but is not making any real effort to do it.

"Seventy thousand dollars has been held in trust since the 1920 steel strike, and if that is not enough to carry on the present fight, it will not lag for want of funds. Labor will support the movement and see that it goes forward. It will not be directed by outside agents, but by men affiliated with the steel industry organizations and American Federation of Labor officials."

"By that you mean that there will be no W. Z. Foster in this movement?" he was asked.

"It seems to me that the newspapers give overly much attention to that man. Publicity is grist to his mill."

Mr. Gompers was asked where the drive would be started, and when.

"All that I can say is that it is now under way under the direction of consecrative labor leaders," he replied. "It is obvious that I cannot say anything more. The great money power behind the steel industry will stop at nothing in such a case. With its admitted relations with detective agencies, its readiness to use all means to prevent organization and the firing of men at the first intimation of any interest in organized labor, any information as to our plans would help them rather than us."

Special to The New York Times.

PITTSBURGH, July 10.—Because the failure of any considerable number of immigrants, lately arrived in New York, to come to this district for employment in the big steel plants, reports are now in circulation that a wage advance will be resorted to in an effort to lure badly needed labor into the industry.

Few of the Southern Europeans who managed to get into this country under the 1923 quota for the purpose of making their homes here are now in Pittsburgh. Less than 1 per cent. of them are in this vicinity, it is estimated. Approximately 800 are in Youngstown, Ohio, and it is reported they will seek employment in the steel mills of that section.

For some reason, not known to the steel officials, the thousands of immigrants who came West from New York passed through this city to Western farms and industries located west of the Pittsburgh steel district. The wage advance, it was said, if granted, would be designed to bring white labor to the mills in these parts.

Egyptian Prince Shot in a London Hotel; His French Bride Held as His Slayer

Copyright, 1923, by The New York Times Company.
Special Cable to THE NEW YORK TIMES.

LONDON, July 10.—Ali Kemal Fahmy Bey, a wealthy young Egyptian, who is reputed to be a Prince, was found shot through the head in the corridor of the fourth floor of the Savoy Hotel this morning. He died a few hours later.

His wife, who was found in a bedroom with bloodstains on her gown, was charged at the Bow Street Police Court today with murdering him, and remanded in custody. She is a French woman and met her husband less than a year ago. They were married in Cairo.

The dead man was a son of a wealthy Egyptian landowner, and had given financial support to numerous charitable and educational institutions in Egypt. It is estimated that he had an annual income of more than £100,000.

He was much devoted to outdoor pastimes and owned the largest motor launch in Egypt.

Just before his marriage he gave instructions for the erection of a small palace at Cairo. This mansion is now practically finished.

The Prince and his wife were prominent figures at Luxor during the Tutankh-Amen season last Winter. They traveled up the Nile on their private dahabeah and on more than one occasion entertained the Earl of Carnarvon and members of his party.

TO DROP 2-TON BOMBS IN TEST ON WARSHIPS

Army Fliers Will Try to Sink Virginia and New Jersey in New Experiments.

ONE TO BE MOVING TARGET

Navy Will Have No Part in Coming Exercises, Scheduled for Late Summer.

Special to The New York Times.

WASHINGTON, July 10.—The Army Air Service is planning another series of bombing tests against battleships similar to those held off the Virginia Capes in 1921. The vessels to be used as targets this year are the battleships Virginia and New Jersey, which will be turned over by the Navy Department under authority of Congress.

The tests have been set for Aug. 15, but it is confessed that a postponement of a few days might be decided upon. At any rate, it is stated they will be held not later than Sept. 1. Unlike those of 1921, they will be conducted entirely under army auspices.

Some dissatisfaction was expressed in army circles over the other tests because specifications were drawn up in advance by a board consisting of army and navy officers, it being alleged in some quarters that the conditions laid down were too favorable to the navy and did not permit a complete and unquestioned demonstration of what the army could do. Nevertheless, fliers succeeded in sinking the former German battleship Ostfriesland, which, according to army adherents, demonstrated that the modern ship-of-war could be "blown out of the war" by aerial bombs.

In the coming tests the navy will leave the affair to the army. There will be no joint board to lay down specifications as to how the tests are to be carried out, but the program will be worked out by army experts. As present plans are progressing, it will be purely and simply a test of the efficacy of airplane bombing in the sinking of ships protected by thick armor plate.

Arrangements may be made to tow at least one of the ships, and probably both, in order that an answer may be given to those critics of aerial bombing who have contended that vessels at rest might frequently be hit by aviators dropping bombs, but that hits with ships in motion would be rare.

It is planned also to demonstrate the effectiveness of gas in connection with aerial bombing. Extensive use is expected to be made of tear-gas bombs, which would allow every aperture of the ships to be permeated with the non-poisonous fumes, and it is possible that men will be placed on the ships when some of these tests are made. By using bombs of slight weight, it is said, men would be able to observe the penetrating effect of the gas without danger.

Although the gas mask has been perfected to such a degree that many soldiers would be willing to expose themselves to poisonous gas while equipped with it, public opinion, it is thought, would not be inclined to countenance such tests. It is possible, however, that they will be made with rats or other animals on board the ships.

As for the great aerial bombs used for destructive bombing, experiments will be made with the most modern missiles thus far developed. Air service officers are particularly eager to test the new 4,000-pound bomb, said to be the largest ever devised by any nation, and made by the aircraft armament division of the ordnance department.

The 4,000-pound demolition bomb is of much the same design as the 2,000-pound bomb used so effectively against the former German ship Ostfriesland in the previous tests. It actually weighs about 4,200 pounds complete, with nose and tail fuses loaded with approximately 2,000 pounds of cast TNT, and is thirteen and a half feet long over all. The body consists of a steel drum twenty-three inches in diameter, with a cast steel nose and cast steel plate at the rear end of the drum.

When dropped in a recent test the bomb was fitted with a delayed action fuse and fell on a firm, sandy soil from an altitude of 4,000 feet. The fuses functioned perfectly, delaying the detonation of the charge until the bomb was well buried. The explosion threw a column of earth 1,500 feet into the air, and was heard more than a thousand feet. The crater averaged sixty-four feet in diameter, with a depth of nineteen feet below the original level and a rim about five feet high. The volume displaced was more than 1,000 cubic yards. The airplane at the instant of release rose about twenty feet, as in a heavy bump, but control was immediately recovered and otherwise no effect was felt from the blast.

The bomb was suspended by two lugs, spaced further apart than usual from a special rack in a Handley-Page plane. Before the experimental flight the rack and plane were given the usual test with a similar bomb loaded with sand of the same weight without explosives. It released from the rack with a pull of less than thirty-five pounds on the release handle.

Air service experts assert that this enormous missile can be dropped with almost deadly accuracy. While the time-fuse device would permit it to be dropped directly on an object with good chance of penetrating an armor of reasonable thickness before the explosion, it is expected that it will be used by the same method which was used in the tests against the Ostfriesland, when bombs were aimed not at the ship itself but as close as possible alongside.

Reports were of the opinion that the ships would suffer from the concussion in the water near the ship did more damage than would have been the case if the target had been struck on deck. The much greater explosive charge of the new bomb, it is pointed out, would increase the destructive effect.

The tests probably will be held in much the same locality as the previous ones and the air service expects to use Langley Field as an operating base.

PARSON APOLOGIZES TO WOMAN HE KISSED

Rev. Mr. Paine Complains, However, That Lieut. Hague Was Unfair in Striking Him.

EXPLAINS ALSO TO BISHOP

Mrs. Hague Defends Her Husband—Naval Inquiry Likely to Be Held.

BOSTON, July 10.—The Rev. George Lyman Paine, Executive Secretary of the Greater Boston Federation of Churches, today sent a letter of apology and explanation to Mrs. Priscilla Redgrave Hague, bride of Lieutenant Wesley McLaren Hague, U. S. N., in connection with the incident which culminated yesterday in a hand-to-hand encounter between Lieutenant Hague and Mr. Paine in the latter's offices. Lieutenant Hague has said that his anger was aroused when the clergyman admitted kissing his bride, and that he went to the clergyman's offices with the intention of administering a thrashing.

The letter of apology in part says:

"I am gentleman enough to begin by apologising to you as a lady, humbly and sincerely, for having, as it seems, given you any slightest cause for annoyance. That was the last thing in the world that was in my mind. Certainly at the time you took no offense, and I would have stopped playfully teasing you with a great shame the moment you showed any displeasure.

"I don't think Mr. Hague is a man in letting me extend my hand for a friendly handshake, and while saying to him 'I'm glad to see you again,' striking with full force in the face and following with left and right blows which I was dazed and trembling. How he first asked for some account of whatever had been done, simple and foolish as it was, and what we had not done, I am sure he never would have struck me at all, nor acted like the madman he did.

"If it were his enemy and not his friend as I still count myself, I could have him arraigned on a charge of assault and battery. I am afraid the affair will be out in the papers, but the less said about it the better and the sooner they will forget it."

In a postscript the clergyman added:

"I can't help adding that I think you owe me an apology for acting as you did."

The episode referred to in the letter was alleged to have occurred when the Rev. Mr. Paine took Mrs. Hague for an automobile ride to Belmont and later for a walk.

This statement was made tonight by Mrs. Hague in connection with the affair.

"When Mr. Paine asked me to go to ride with him I had in mind that he both baptised and married me, and even though my mother, who was unexpectedly present at the time he called, was not invited I saw no harm in going with him. If I had not been reluctantly forced to the conclusion that Mr. Paine's motives were not innocent I would never have written to my husband about the occurrence at all.

"I am proud of my husband and his conduct in the whole affair, and I sincerely hope that Mr. Paine's conduct will be a lesson to all young married couples under similar circumstances.

"For the best way to dismiss the whole matter is to say that very fortunately Mr. Paine's conduct has been such as to endear my husband to me more than ever."

The Rev. Mr. Paine, who officiated at the marriage of Lieutenant and Mrs. Hague and who baptised Mrs. Hague, has stated that he kissed the girl on both occasions, as well as the day of the automobile ride, and that in each case it was merely a display of fatherly affection.

Lieutenant Hague stated that he had today retained counsel in connection with the case. It was also announced that the Rev. Mr. Paine would conduct the services at Trinity Protestant Episcopal Church next Sunday.

Unofficial ecclesiastical and naval inquiries into the fight are forecast. While navy intelligence officers were getting evidence with a view of placing it before a naval board of inquiry, the minister was in conference with the Rt. Rev. Samuel G. Babcock, Suffragan Bishop of the Episcopal diocese, at the Diocese House on Joy Street.

At the conclusion of his talk with Bishop Babcock the clergyman said he would not resign his office as a clergyman and executive head of the Federation.

NINE KILLED, 25 HURT IN POWDER EXPLOSION

Three Women Are Among the Dead in East Alton, Ill., Three More Likely to Die.

ALTON, Ill., July 10 (Associated Press).—Nine persons were killed and twenty-five injured in an explosion this afternoon in the metallic shell department of the Western Cartridge Company's plant at East Alton.

Three of the dead are women—Miss Anna Gorman of Alton, Miss Ruth Green of East Alton and Miss Hazel Young of Rockford. The men were William Brummer of East Alton, Frank Benner of Alton, Russell Reyburn of Brownstown, Ill., Charles Hawkin of Alton and Howard Hughes of Alton.

Two of those injured will die, it is feared, while several others are said to be in a serious condition.

The most seriously injured are Mrs. Sarah Jenkins and Mrs. Minnie Wagner, for whose recovery little hope was held out tonight.

The cause of the explosion has not been ascertained. It occurred in a fireproof structure in which about fifty employes, mostly women, were extracting powder from cartridges.

Fire followed the explosion but was soon extinguished. Today's explosion was said to have been the worst that ever occurred at the plant.

CANNOT BAR DRINKING ON OUR SHIPS AT SEA, SHIP BOARD DECIDES

Sale Is Forbidden, but Captains Are Declared Powerless to Interfere With Passengers.

LEVIATHAN AN INSTANCE

Forfeiture Proceedings Against Liquor, Not Ships, Now Ordered for Offending Vessels Here.

12-MILE PROPOSAL DROPPED

Pepper Confers With Hughes—Says Legislation May Solve Ship Liquor Problems.

WASHINGTON, July 10.—Reports of consumption of private liquor stocks by passengers on board Government-owned ships have brought before the Shipping Board the question of its jurisdiction in the matter, with the resulting decision that its authority, as exercised through the ship's captain, does not run to the extent which would permit any interference with the passengers' actions.

It was indicated, however, that this decision might only be temporary and that steps would be taken to obtain a positive ruling on the question, probably from the Department of Justice.

As the situation now stands the board is convinced that a passenger on the Leviathan, for instance, is entirely within his rights when he produces the makings of a cocktail at his table in the dining saloon and acts as bartender to his companions.

The wide police powers given to the commander of a ship under common law and international customs. It was declared by officials of the board, were materially curtailed by the La Follette act as they affected the crew, and almost obliterated so far as they concerned passengers beyond the point where the safety of ship and cargo is involved.

So far as the officers and crews of shipping board vessels are themselves concerned, Chairman Farley said today that the order issued last October forbidding them to possess liquor while on duty still remains in force.

"At the direction of the President, on Oct. 6, 1922," Mr. Farley said, "the Shipping Board vessels are themselves to be operated 'dry' and all officials are instructed to see that the same is complied with. There has been no deviation from this policy and none is contemplated."

Experts Question Board's Stand.

Inquiry among experts in maritime law did not bring unanimous support of the board's position. Long established recognition of a captain's special responsibilities, according to some authorities, has given him practically limitless authority in suppression of what he may consider illegal acts by any persons on board his ship. In the Navy Department the common law rule of a master's authority has always held, and the only modifications made since the beginning of the navy have been in the form of restriction of punishments which he may inflict.

The decision of the board was not called forth by any recent incident, it was declared today. Attention being called to the action which had been taken on the Leviathan's trial trip, cards were posted in each stateroom requesting the voluntary co-operation of passengers to prevent violation of the liquor statutes.

It was understood that a similar request was carried in each stateroom on the eastward trip which the Leviathan has just completed.

Under another decision dealing with ship liquor, announced today by Commissioner Blair of the Internal Revenue Bureau, forfeiture proceedings will be undertaken by the Department of Justice against contraband liquor. Such suits, however, would not be directed at ships or commanders bringing liquors into American territorial waters.

Commissioner Blair's order will allow customs agents to continue their work of search and seizure, but all legal questions will be handled by the Attorney General.

Instructions were sent to Federal prohibition directors and other enforcement officers by Commissioner Haynes of the prohibition unit today, advising them that the liquors in their custody should be returned to the Collector of Customs at the port in which they were seized. The previous procedure had been to turn over seized liquors to State prohibition

Cousin of the Duchess of York Is Found Shot to Death in Car

Copyright, 1923, by The New York Times Co.
Special Cable to THE NEW YORK TIMES.

LONDON, July 10.—Angus Patrick Bowes-Lyon, nephew of the Earl of Strathmore and cousin of the Duchess of York, was found dead early this morning in a lonely lane near Ripley in Surrey. When discovered the body was seated at the steering wheel of the automobile with the head practically blown to pieces.

The youth, who was aged 24, was in a depressed condition when he recently left his father's London residence and drove off in the car, taking, it is stated, a sporting gun with him. His brother, noting, the gun was missing, jumped into another car and gave chase, but missed him in the neighborhood of Hyde Park.

It is also stated that the dead man left a letter explaining the whole affair and that it mentions the name of a young woman.

REPUBLICANS SPLIT WITH DRY BOSSES

State Chairman Morris Declares Party Won't Be Dictated to by Anti-Saloon League.

SEES "WET" STRENGTH GAIN

Talks After Conference With Hilles and Wadsworth on Plea for Enforcement.

After a talk with Republican National Committeeman Charles D. Hilles, Chairman George K. Morris of the Republican State Committee announced last night that he would send no reply to a recent message from the Anti-Saloon League, calling upon the Republican leaders in this State to take their stand squarely with President Harding in favor of State co-operation in enforcement of the Volstead law.

The message was sent to Chairman Morris from Westerville, Ohio, home of the Anti-Saloon League of America, while the recent "council of war," participated in by the leaders of the league, was in progress there. It was signed by Orville S. Poland, General Counsel of the Anti-Saloon League of New York, who attended as proxy for State Superintendent William H. Anderson, but it had been read to the other "dry" warriors before it was sent.

"Does the Republican leadership of New York indorse the President without qualification, or does it continue its subservience to the 'wet' minority of the party and to be out of harmony with the national leadership as well as in de facto alliance with Tammany?" Chairman Morris was asked in the message.

"I first heard of this message through the newspapers," said Mr. Morris last night. "When I saw the headlines I thought at first that I had gotten into international complications of some sort, not recalling for the moment that Poland was the name of some one connected with the Anti-Saloon League. Since then I have read the message as it was sent to me. I have not answered it and shall not answer it. We are not electing a Governor until next year and there is no occasion for taking a stand now. Besides, we are not going to submit to dictation of that sort from any quarter or as a party be driven into action by persons or groups who come armed with blackjacks to enforce their whims."

Republicans Break With League.

The significance of this statement from Mr. Morris, as well-informed persons view it, is in the fact that it marks a distinct break between the bosses of the Anti-Saloon League in this State and the leaders of the Republican Party, who until a comparatively recent day, have appeared quite willing to take orders from that quarter. It is regarded as unlikely that Mr. Morris spoke on his own authority alone, for it is known that he submitted the message from Mr. Poland to National Committeeman Hilles to United States Senator Wadsworth, to William L. Ward, Chairman of the Executive Committee of the Republican State Committee, and possibly to others.

This view of the situation is borne out by the fact that the Republican leaders in this State are in the fullest accord with the attitude of President Harding as defined in his recent Denver speech, where he came out for co-operation by the States in enforcement of the Eighteenth Amendment and statutes enacted to sustain it. The Mullan-Gage State prohibition enforcement act which was repealed at this session of the Legislature, was a Republican measure. The Republican votes essential to the pas-

FRANCE ASKS BRITAIN TO HELP FIND A WAY OUT OF RUHR DILEMMA

Ready to Recede From Declared Policy if Dignity Is Saved, London Hears.

TASK HARD FOR BALDWIN

London Political Opinion Doubts He Will Succeed, and Financial Circles Are Pessimistic.

AWAIT PREMIER'S SPEECH

Belief Grows He Will Support Suggestion for International Committee of Experts.

Copyright, 1923, by The New York Times Company.
Special Cable to THE NEW YORK TIMES.

LONDON, July 10.—While the utmost secrecy is still maintained in official circles regarding the French reply to the British questionnaire about the Ruhr, THE NEW YORK TIMES correspondent is able to state on information derived from a non-official but trustworthy source that it complicates the whole situation most seriously.

According to this source, France has let herself in for a bad business and knows it, but is not in the least willing to admit it to the world. In fact, this informant says, rather than acknowledge that a mistake has been made the French Government is determined to pursue its declared policy to the bitter end and trust that in the general economic and political cataclysm which such a course may precipitate France will suffer at any rate less than her neighbors.

The communications which have been exchanged recently between the French Ambassador here, Comte de St. Aulaire, and the British Foreign Minister, Lord Curzon, have taken a double form. There have been written communications and oral communications. The British Government wanted a plain, straightforward reply in writing to the series of questions it had put to France with regard to Ruhr policy, a reply which would cover the whole ground.

Europe's Future Involved.

French policy in the Ruhr affects not only France and Germany, it involves the whole economic structure of Europe and, less directly, of the world. Britain is perhaps more immediately concerned with its present and future developments than any other country. The British questionnaire called for a direct and definite statement as to French requirements, French plans in case those requirements were not met by Germany, and French intentions in the event of Great Britain being forced to depart from her attitude of friendly though reluctant acquiescence in what to British eyes seemed an unreasonable and politically dangerous adventure.

France has not given the sort of reply which England wanted. To certain parts of the questionnaire France has made written answers in the form of aide-mémoires which Comte de St. Aulaire handed over to Lord Curzon. These aide-mémoires formulate the declared policy of France, as reflected in recent speeches of President Millerand, Premier Poincaré and other members of the Government. To that policy the French Ambassador was instructed to state that the French Government must and would adhere.

The French Ambassador was further instructed to submit certain considerations to which the Government in Paris were not oblivious. These points were in a sense much more important than the declarations embodied in the aide-mémoires, but they were only to be mentioned in diplomatic conversations and no record of them which Paris would not be at any time in a position to repudiate if need be could be made. Assuming that Lord Curzon should at some period wish to lift the veil of secrecy from his conversations with Comte de St. Aulaire, he would have no scrap of paper to support his individual statement.

Gist of the Oral Communications.

The gist of these oral communications, as divulged to the correspondent, may be put in a few words, as follows: France viewed with the utmost sympathy the considerations which led Great Britain to disassociate herself from French policy in the Ruhr. Possibly the British view was the correct one.

In fact, divested of diplomatic finesse of speech, de St. Aulaire's oral communications were tantamount to an admission that, although the French politicians could not and would not admit it, the policy pursued in the Ruhr had not produced the results expected, and it if should prove necessary to enforce and develop it it would be enforced and developed by the French Government with considerable reluctance and some misgiving as to its future effects.

What could the British Government suggest was asked. Any plan which the French Government could accept without derogation from its declared policy and without loss of prestige would receive most sympathetic consideration in Paris. In other words, the British Government was invited to save the face of the French Government.

That is the position in a nutshell as outlined to the correspondent by an authority who, while occupying no official post is closely in touch with what is going on behind the scenes. It must be added that in the main this information has been confirmed in other quarters.

Political opinion is not so much concerned with the French reply as with the question whether Premier Baldwin and Andrew Bonar Law and Lord Curzon and their colleagues will succeed in finding a way out of the complicated situation, and financial opinion is frankly pessimistic.

Meanwhile arrangements have been definitely made for the Prime Ministers' Question Hour in the House of Commons and Lord Curzon in the House of Lords to make identical statements on Thursday concerning the Government's attitude towards the last German communication, the statement in the House of Com-

Rail Men Want More Than Wartime Pay; Two Brotherhoods Plan to Press Pleas

Special to The New York Times.

CHICAGO, July 10.—General Chairmen of the Railway Conductors' and Trainmen's organizations, following a two days' conference here, decided today that a wage increase to a little higher figure than "wartime pay," allowed by decision No. 2 of the United States Railroad Labor Board, would be demanded when existing contracts expire Oct. 1.

While L. E. Sheppard, head of the conductors, declined to make public the exact amount of increases decided upon, he said the present scale, operative since July 1, 1921, falls from 15 to 24 cents per day under the "wartime" scale.

Decision of the conference will have to be referred to the membership for final action before the demands on the roads are made.

Mr. Sheppard, leading figure at the meeting in the absence of Williams (L. E.), head of the trainmen, predicted that the Eastern and Southern groups of chairmen, who also confer this month, will ask for increases.

"Scales allowed by the so-called war-time' decision, which was passed May 1, 1920, did not prove adequate, and of course the present pay rates are less so," said Mr. Sheppard. "Until our findings are submitted to the men we cannot announce the exact demands to be made. We attempted during our deliberations to pay particular attention to various inequalities in pay existing at present."

The precedent set by the conference, it is predicted, will be followed not only by the other two "conductors and trainmen's groups, but also by the Brotherhood of Locomotive Engineers and by the firemen's and enginemen's organization, though no conferences of the latter have been announced yet.

Decision of the conference will have to be referred to the membership for final action before the demands on the roads are made.

Conferences between officials of the Eastern lines will meet at Cleveland on July 16, and the Southern group in Washington on July 23.

An effort will be made, it is understood, to force the roads to revise the present system of making up monthly pay rolls, according to the number of miles run in each case. This is said to be one of the "inequalities" mentioned by Mr. Sheppard as being threshed out at the meeting.

NOTED BY GIBSON, Specialist in Lenses. Lowest prices; 4 mile. Walk 84. 16 Times Sq. Interview (Ad.)

Bank of Shelby, Whose President Aided Bout, Closes as Result of the Stanton Bank's Fall

Special to The New York Times.

GREAT FALLS, Mont., July 10.—Scores of Shelby residents who were hit by the financial failure of the Dempsey-Gibbons world's championship fight in their home town lost what money they had left when the First State Bank of Shelby failed to open its doors. This is the second bank to close following the financial failure of the fight, the Stanton Bank and Trust Company of Great Falls having closed Monday.

Mayor James A. Johnson of Shelby, who was the heaviest loser on the fight's promotion, is President of the closed Shelby bank. He and George E. Stanton, President of the Great Falls institution were credited with providing $50,000 of the second $100,000 paid to Jack Dempsey on his $300,000 guarantee for his bout with Tommy Gibbons. In a private room at the closed Shelby bank Jack Dempsey's manager was paid the $106,000 at midnight, June 13.

L. C. Skelton, State Superintendent of Banks, who is here to investigate the closing of the two institutions, declined tonight to say the failures were due to the financial losses suffered in the promotion of the Shelby fight.

A statement was posted on the doors of the Shelby Bank this morning that inability to obtain currency from the Stanton Bank made temporary closing necessary.

The Shelby bank has a capital of $200,000, with deposits of almost half a million dollars. The deposits had been greatly increased since the fight by concessionaires and merchants deposited profits made from sales to the fight crowd.

Mark Murrills, cashier of the bank, admitted tonight that Johnson's connection with the fight may have indirectly caused the closing of the institution, as many persons, believing he was using the bank's money to finance the bout withdrew their deposits.

Mark Murrills, President of the bank closed in Great Falls, said today he would give his entire personal fortune toward paying depositors. Officials of the Shelby bank said Johnson's institution would reopen within three days. Mr. Murrills refused to confirm this announcement.

Mayor Johnson, who is more than 60 years old, was reported to have lost from $100,000 to $200,000 in promotion of the title bout. He was brought into the fight business through his son Bobby, 21 years old, former Johnson twirled Jack Kearns an offer for the fight between Dempsey and Gibbons as a joke last February. Kearns accepted the offer and Johnson's Alley stepped into the breach as backer of the match.

mons will be made in reply to a question by Ramsay Macdonald, leader of the Opposition, and it is not supposed that there shall be any general discussion upon it.

It is believed Mr. Baldwin's statement will be of much greater length than the usual reply to a Parliamentary question. He will probably review the general position and again emphasize Great Britain's desire to send a joint reply with the rest of the Allies explaining that the information vouchsafed by France in reply to the British questionnaire had not yet permitted that course to be taken.

The general desire of this country to remain on the most friendly terms with France will be insisted upon, but there is a strong feeling that the Prime Minister may support the suggestion that an international committee of experts should forthwith inquire into Germany's capacity to pay reparations.

NEW PROTEST BY GERMANY.

Britain and Italy Told of Frontier Closing and Death Sentences.

BERLIN, July 10 (Associated Press).—Germany has protested to the British and Italian Governments regarding the closing of the frontiers of the occupied region by France and Belgium.

An official statement issued today says the German Ambassadors in London and Rome have been instructed to emphasize to Great Britain and Italy "the intolerable difficulties and serious dangers arising from this action and the further fact that the Rhineland Deputies are prevented from exercising their constitutional functions by the interruption of all traffic facilities."

The Government also has instructed its Ambassadors to call attention to the death sentences imposed by the French court-martial at Mayence on June 29 upon seven Germans on account of alleged railway sabotage, steps having been taken in other quarters, it is stated, to avert the execution of the sentences.

SABOTAGE DENOUNCED BY RHINE GOVERNOR

Population Urged to 'Refrain From Such Acts of Misguided Patriotism.'

Copyright, 1923, by The New York Times Company.
By Wireless to THE NEW YORK TIMES.

COLOGNE, July 10.—The Oberpresident of the Rhine Province has issued a proclamation, it is believed on instructions from Berlin, denouncing sabotage in the following terms:

"Recently there has been a steady increase in acts of sabotage on the railways, which have resulted in regrettable sacrifices of lives and property.

"The Government dissociates itself from such acts and condemns them most emphatically.

"In so doing it is acting in accordance with the feelings of the whole population.

"Any German who commits sabotage attacks his fellow-countrymen in a reprehensible way.

"I call upon the population earnestly to behave calmly and with due respect for law and right. I earnestly warn every one to refrain from such fatal excesses of misguided patriotism."

BRUSSELS MOB BEATS GERMAN OFFICIAL

Charge Struck Several Times, He Complains—Foreign Minister Jaspar Apologizes.

BRUSSELS, July 10 (Associated Press).—The German Charge d'Affaires called on Foreign Minister Jaspar today and lodged formal complaint of an assault made upon him last night while he was walking in the street with another German.

M. Jaspar expressed regret and promised an official investigation. The German Charge denied giving any cause for the attack.

According to the unofficial version of the affair, the Germans were talking rather loudly in their native tongue when a passer-by shouted "Boches!" A crowd gathered and the attack followed. Before the police could arrive the Charge was struck a number of times.

Two former Belgian soldiers were arrested and later released under bail.

BAN CARTOON ON FRENCH.

Italian Police Act Against Paper—Stop Anti-Fascists Journal.

NAPLES, July 10.—On the request of the French Embassy, it was stated, the police here ordered the sequestration of the current issue of the humorous weekly A B C for a cartoon dealing with the occupation of the Ruhr in a manner considered offensive to French feeling. When the carabineers reached the printing house, however, they found that all the copies ordered sequestered had already been sold.

At Bra, in Cuneo Province, the authorities ordered the suspension of the "Corriere Biellese" for alleged unfair criticism of the Mussolini Government.

Representatives of the Fascisti at Parma destroyed 4,000 copies of the "Corriere della Sera" because of its anti-Fascista policy.

CALLS GERMANY HOPELESS.

Victor Ridder Blames Situation on French Seizure of Ruhr for Coal.

By Wireless to THE NEW YORK TIMES.
Copyright, 1923, by The New York Times Company.

BERLIN, July 10.—"Germany's present situation is hopeless," according to the view expressed by Victor Ridder of the New York Staats Zeitung, to a German interviewer, published in the Nationalistic Lokal Anzeiger. He went on:

"The French don't want money from you. The domination of the German coal fields is their goals. They won't give up the Ruhr in the foreseeable future. I know German industrial conditions too little to know whether there will be putsches if the living conditions wax worse daily. As an American I can only express my personal opinion that Germany's situation was created by the Ruhr occupation. It is hopeless."

The German interviewer says:

"Old Ridder never forgot his Germanheart even during the war. Her son left no doubt that he, too, harbors a deep sympathy in Germany's fate. How sorry and hopeless must our situation be when ever he sees no way out for Germany."

DENY REPORTS ON MEXICO.

State Department Officials Halt Rumor of Immediate Recognition.

WASHINGTON, July 10.—High officials at the State Department late today authorized the statement that they know of no basis in fact for rumors current in Wall Street that American recognition of Mexico was immediately imminent, or that negotiations to that end in Mexico City had been successfully concluded.

The opinion was expressed by some officials that the activities in the Wall Street rumors must be due to the action of the Banking syndicate in calling for deposit of Mexican bonds in connection with the loan agreement worked out by the Lamont banking group. At the same time, however, there was no lose to understand how such an interpretation had been put upon the call for deposit of the bonds.

SALES OF MARKS CEASE IN BERLIN

Foreign Money Dealt In Only by Reichsbank and on Limited Scale.

SHOES AT 1,000,000 MARKS

July Salary Scale for Government Employes Fixes Chancellor's Pay at Rate of $82.75 a Year.

By CYRIL BROWN.
Copyright, 1923, by The New York Times Company.
By Wireless to THE NEW YORK TIMES.

BERLIN, July 10.—The Reichsbank today fixed the mark rate at 182,000 to the dollar. On the other hand, Danzig, Cologne, Amsterdam and London were credibly reported to be trafficking in paper marks as low as 320,000 to the dollar. Under such circumstances nobody except the Reichsbank would part with real money, either in foreign exchange or bank notes, and demands had to be satisfied exclusively by the Reichsbank from its remnant holdings.

As one novelty a Reichsbank representative appeared on the floor of the Boerse's foreign exchange room and announced that buyers of foreign exchange bank notes must within 20 minutes after placing an order make a certified declaration as to the name of the ultimate customer, the naming of a provincial bank being held to be insufficient.

The Reichsbank filled all buying orders in full up to one hundred dollars, twenty-two pounds and one thousand French, Belgian and Swiss francs, pesos, lire, Danish, Norwegian and Swedish kronen, but larger buyers were allowed only from 3 to 5 per cent. of their requirements.

Buyers of small foreign bank notes received on an average 10 per cent. of what they tried to buy. Orders for English bank notes of ten pounds and upward could not be filled at all.

The annual report of the Dresdner Bank for the fiscal year dwarfs anything hitherto in the way of billions and trillions, and will battle a prolonged study of experts to determine just what one of Germany's leading banks is really worth.

The Dresdner's report, published today, leads off by announcing an increase of its capital to 7,000,000,000 marks, thereby doubling all German banks in capitalization. It declares a 200 per cent. dividend as against 16 per cent. for 1921.

The bank participated in 504 consortium deals and evaluates its profits from the bank's handling alone at 1,000 odd marks, somewhere around three ten-thousandths of a cent.

The bank had to increase its personnel 20 per cent. over the preceding year. It took 19,144 employes to handle a total volume of business previously handled by 15,471.

Its gross profits were 18,200,000,000 marks, against 831,000,000 the previous year. Its expenses increased from approximately 500,000,000 to 12,300,000,000, and taxes from 131,000,000 to 3,208,000,000, leaving a net profit of 2,681,000,000, against 293,000,000 the previous year.

The bank advanced approximately 46,000,000,000 marks on goods and merchandise, while at approximately 46,000,000,000 notes and bills discounted 60 per cent. were commercial paper, the balance representing Government Treasury notes.

The million mark shoe has arrived in Germany. The Berlin Association of Customs Bootmakers today fixed the temporary price of men's and women's shoes at that figure.

The fee for naturalization as a German citizen has also been boosted to one million marks, though officially it was said that "deserving impecunious applicants" for German citizenship could obtain a reduction.

A new salary and wage scale for Government officials and employes is announced, the provisional pay for July being an average 90 per cent advance over June. Analysis discloses that this month Chancellor Cuno will be paid at the rate of 982.5% per annum. Cabinet Ministers at the rate of $77.80 yearly, while a Geheimrat gets from $14.80 to $22, according to length of service. But then these public servants will be paid in advance for the whole third quarter of the year. The price of coal at the mines has been increased an average of 50 per cent., effective immediately. This will shortly have a similar effect on living costs all along the line.

FEARS JAPANESE INVASION.

Ex-Premier Urges White Colonization of Australia to Forestall It.

Copyright, 1923, by The Chicago Tribune Co.

SYDNEY, July 10.—Fear of a great invasion of Australia by starving Japanese hordes is expressed in an article by ex-Premier Hughes in the Sydney Daily Telegraph today, in which he discusses Japan's need for an outlet for its surplus population with relation to Australia and argues for speeding up white immigration to forestall the rush of Japanese to this country.

"It will hardly be the place for Australia, who has a great need of increased population, to complain if Japan does not consent to impose checks of her own on her people," he says. "If Japan does not impose checks nothing is surer than that before many years have passed her overcrowded and half-starved millions will make a gradd trek. What shall we do if these millions knock at our doors? How can we deny them admittance?

"These millions with certain death behind them may never come, but if they do they will find us still a mere handful of people in possession of a great continent. And then for us will be the end of our dreams."

"A little time is still ours—how long no man knoweth—wherein we can fill our vacant spaces and do all that needs be done to make good our claim to this great and fruitful continent."

TWO BODIES FOUND IN WATER

One Picked Up in Bay; Another in East River.

The body of an unidentified man about 35 years old, 6 feet 2 inches in height and weighing 180 pounds, was taken from the water last night off Quarantine by Patrolman George McGlynn, in charge of Police Launch 3. The man had black hair and wore a dark suit and black shoes and black socks.

In the East River, off Rutgers Street, the body of an unidentified man was found floating last night by Patrolman Wesp of the Marine Police. The man was about 40 years old, 5 feet in height and weighed about 140 pounds. He had gray hair and a gray mustache and wore a blue shirt, blue trousers, blue overalls, brown socks and black shoes. Both bodies were taken to the Morgue.

TO MARK HISTORIC MANSION

Greenwich Village Society to Put Tablet at Richmond Hill Site.

The Greenwich Village Historical Society will erect a memorial tablet to mark the site of the famous Richmond Hill mansion, erected in Greenwich Village in 1798. This announcement was made last night at a meeting of the society at Club Maganthaler, 143 Waverley Place.

During its long career the Richmond Hill mansion once served as Washington's headquarters. Its approximate site is that now bounded by Macdougal, Spring, Varick and Charlton Streets. It is hard at this time, however, to understand how such an interpretation had been put upon the call for deposit of the bonds.

FRENCH CONSIDER STATE OIL CONTROL

Deputy Ajam Tells the Chamber of American and British Advantages.

Copyright, 1923, by The Chicago Tribune Co.

PARIS, July 10.—Deputy Ajam declared in the French Chamber of Deputies this afternoon that the British possessed sufficient petroleum deposits around the world to make their nation the mistress of oil for 300 years.

"Georges Clemenceau said, 'Gasoline has been as precious to France as blood in this war,' and every one knows that is true," continued M. Ajam, who is the Chairman of a committee to study the various projects to place the distribution of oil under some measure of Government control. The prelude to the principal project explains that the régime is to "prevent French consumers from being exploited by big American and English imports."

Ajam said that France only had a production of 70,000 tons of petroleum annually, with a consumption of 1,200,000 tons. The English now control so many petroleum deposits, he said, that they have a production of 9,000,000 tons annually. "France finds herself at the mercy of these British and American trusts, which some day might unite against us," he added.

The principal project proposes a bureau of the Ministry of Commerce to give French importers information about prices, subsidies, prospecting and direct building of tankers.

"We have only war stocks for forty-five days," said Deputy Lamoureux.

"The new project provides war stocks for two months," interjected the Minister of Commerce.

Deputy Herslot presented a project creating a consortium of all French distributors, like the French potash producing consortium. He said that such a consortium could set its own prices.

"The Standard Oil Company has informed French distributers that it will cease supplying oil to France if a monopoly is established," declared Deputy Lamoureux.

The Royal Dutch has threatened its French distributers in the same way," said Deputy Berthe.

The Chamber decided to adjourn the question until October.

STORM SWEEPS BRITAIN; BOLT HITS ETON CHAPEL

Much Property Damage in London —Paris Is Drenched—23 Killed in Russia.

LONDON, July 10.—Unusually severe thunderstorms, one of which struck London late last night, doing considerable damage to property, continued today in various parts of the country, many cattle being killed. Among the buildings struck by lightning was Eton College, one of the pinnacles of the lower chapel being split off and thrown to the roadway.

Notwithstanding the heavy rainfall, the heat wave continued increasingly oppressive in London.

PARIS, July 10.—A violent thunderstorm of brief duration suddenly broke over Paris today, drenching crowds seeking relief from the four-day heat wave. It reduced the temperature only slightly. The thermometer has been hovering in the nineties, the maximum being 97 last Saturday.

Copyright, 1923, by The Chicago Tribune Co.

RIGA, July 10.—Hailstones weighing from one to two pounds killed twenty-three people and many cattle today near Rostov in the Don district of Russia. The majority of those killed were peasants who ran into the fields to save cattle.

BROCKTON STRIKERS AGAIN STONE POLICE

Hurl Pots and Shovels in Picketing Riot—Several Arrested Get Jail Terms.

BROCKTON, Mass., July 10.—Stones, flower pots and shovels were thrown at a dozen mounted officers and fifty patrolmen who were attempting to move a crowd of more than 1,000 strike sympathizers from the vicinity of factories of the Diamond Shoe Company and the W. L. Douglas Shoe Company at closing time this afternoon.

The police were forced to wield their clubs in dispersing the crowd, among whom there were many women and children. Several officers were hit by the missiles, some of which came from the upper stories of houses. Mounted Officer Michael J. Connolly arrested a woman, a boy and a man for assaulting him.

Electric cars carrying workers from factories in the Montello section were stoned, forcing the police to guard them while passing through the district.

Mrs. Eva Yakasius was sentenced today in the District Court to one month in the House of Correction and fined $10 for loitering. A charge of assault on an officer was dismissed. Tony Mistic was sentenced to three months in the House of Correction for assault on Sergeant W. F. Chandler, one month for disturbance, and fined $10 for loitering.

Fifteen pickets arrested this morning were arraigned this afternoon, pleaded not guilty and their cases were continued to July 16.

Joseph E. Lacoutiere, President of the Brockton Diamond Shoe Workers, the organization on strike, said today the strike picketing would continue as long as there are men and women to do that work. The decision to begin arrests of pickets this week was made after the City Solicitor had ruled that picketing was illegal because the strikers had violated a written contract of another union from which the strikers receded.

CHARGES AID IN $200 THEFT.

One of Victims Causes Arrest in Broadway 16 Days After Loss.

Harry Miller, 21 years old, who said he lived in Worcester, Mass., was locked up in the East Fifty-first Street Station last night on suspicion of having participated in the theft of a gold watch and pearl stickpin, valued at $150, and $50 in banknotes, from two young men in the Commodore Hotel on the morning of June 24.

Miller said he was a laborer. He was arrested in Forty-second Street, near Broadway, on the complaint of Arthur Wright of Pittsburgh, who told Detective Sergeants Hauser and Hooker that while Miller and A. Kenneth McRae, Wright's cousin, son of a Pittsburgh hotel proprietor, were in Wright's room in the hotel, two women, posing as detectives of the Narcotic Squad, entered, searched the room and then announced that they would arrest the occupants without stating the charge.

Wright charges that Miller gave the men the articles mentioned, and that the two led Miller to the street, followed by Wright and McRae, and escaped. Wright happened to meet Miller last night and telephoned for the detectives.

Etna Crater Is Named Mussolini.

CATANIA, Sicily, July 10 (Associated Press).—The party of vulcanologists here to study the recent disastrous eruption of Mount Etna, today voted unanimously to name the new hill created by the lave outpourings of lava Mount Victor in honor of the King, and the new crater Mussolini, after the Premier.

FRANCE TO REMODEL HER PEACE ARMY

Force of 660,000 Men Will Be Modernized in Accordance With Lessons Learned in War.

AIR SERVICE TO BE STRONG

Greater Percentage of Tanks and Artillery Also Contemplated in Plan Submitted to Deputies.

Copyright, 1923, by The New York Times Company.
Special Cable to THE NEW YORK TIMES.

PARIS, July 10.—According to the text of new proposals for the constitution of the framework and effectives of the French Army, the number of officers on the active service list will be reduced to four-fifths what it was before the late war. This number will comprise 107 Divisional Generals and 214 Brigadier Generals, with all their necessary subordinates.

The infantry forces of the country will consist of sixty-four regiments of three or four battalions, ten half brigades of light infantry, six regiments of zouaves, thirty regiments of North African riflemen, thirteen battalions of machine gunners, five groups of cyclists, five regiments of foreigners (Foreign Legion), five battalions of African light infantry and twenty-two regiments of armored cars.

The artillery will consist of twenty-seven regiments of divisional artillery, twelve regiments of horse-drawn heavy guns, five regiments of light artillery, nine regiments of tractor-drawn artillery, five anti-aircraft regiments, six regiments of foot artillery and two regiments of colonials, various type.

Besides these infantry and artillery troops, France will have in her colonial possessions forty-nine regiments of infantry and twenty battalions, forming a corps.

The mounted troops for both home and colonial defence will consist of forty-five regiments of cavalry, five regiments of African light cavalry, thirteen regiments of spahis, twenty machine gun squadrons, one regiment of foreigners and twenty-seven remount companies.

The Engineers' Corps will consist of ninety-five companies of mining engineers, including twenty-eight from North Africa, twenty-eight companies of railroad engineers, forty-three companies of telegraphists and wireless operators, and fifteen other companies especially educated for bridge building, pigeon flying and communication work.

The French air force will consist of 133 fighting squadrons, seventy-five observation squadrons, eighteen companies of balloonists, a company of motor-boat pilots and fifteen companies of mechanics.

This new formation of the army will not come before the Chamber for discussion until after the vacation.

France's Fleet at Action the Air.

PARIS, July 10 (Associated Press).—The plan for the reorganization of France's army of 660,000 men was distributed among the members of Parliament today by Colonel Fabry, reporter for the Chamber Army Commission.

It contemplates a modernized force based on the lessons of the great war, with serious attention to new developments in aviation and war materials. Aviation and gas, the report says, are menaces of the future. Germany, by force of circumstances, must seek her field of action in the air; therefore, France must be strong there.

"We are reducing the army for war, which we are resolved to prevent," continues the report, "but must be ready to strike the first blow. France is now superior to other nations in aviation, except, perhaps in bombing planes, but she cannot be satisfied and must not be content with machine guns in the air, for perhaps the time is near when aerial cannon will appear."

M. Fabry presents three conclusions:

First—France, so long as she bases her existence and respect for her rights upon the prestige of her strength, must, because of her will for peace, maintain a strong army."

Second—"That the army, solidly constructed upon the lessons of the war, ought to be definitely guided toward the utilization of and search for more perfected armaments than those with which the enemy can be equipped, so that the army may retain that preponderance of force we are going to give it."

Third—"The time may come when those who must decide whether to refuse or accept, or even anticipate, war will have to bear a heavy responsibility and, because of the very brutality and efficacy of the first blows struck, it is important to give them instead of receiving them."

A table comparing the proposed organization with the army at the end of the war shows a slightly lower percentage in the infantry, hospital service and administrative employes and a greater percentage of tanks, artillery and aviation. The cavalry numbers more than at the time of the armistice, but is reduced from what had been originally intended.

NOTES CORDIALITY TO ITALY

Castani, Visiting Rome, Says American Rejoice in Her Progress.

ROME, July 10.—The Italian Ambassador to the United States, Prince Castani, who has just arrived here, commented today on Italo-American relations, which he said were constantly growing more cordial. The United States, he said, viewed with satisfaction the Italian economic and industrial revival and the restoration of order and discipline.

"I was useless, he said, to think of the rescinding of war debts by the United States, which, in the view of the Ambassador, the American Government intended that France and Italy should pay, the same as England.

The question of the Ruhr occupation was causing anxiety, the United States fearing serious complication, including a possible Communist movement in Germany, but, added the Ambassador, America did not intend to intervene in European affairs; she preferred to remain an observer.

CANDY BOOM FAILS.

Prohibition Has Not Aided the Business, Says Salesman.

Special to The New York Times.

ATLANTIC CITY, N. J., July 10.—The boom in the candy business anticipated by adoption of the prohibition amendment has failed to materialize, according to Edward C. Clark, of Chicago, President of the National Confectionery Salesman's Association of America, which began its annual convention at Haddon Hall today.

The only effect of prohibition on the candy trade, Mr. Clark told the gathering was to bring into the business many inexperienced manufacturers who had anticipated an enormous increase in business. Approximately 60 per cent. of candy consumed in the United States, he added, is consumed by children in the form of penny sticks.

Maughan's Plane Is Repaired.

ST. JOSEPH, Mo., July 10.—Lieutenant Russell L. Maughan's pursuit plane in which he was forced to land near here yesterday in his dawn-to-dusk cross continent flight was repaired today. Maughan flew from the pasture, nine miles from the city, scene of yesterday's landing, to the municipal flying field here to take on gasoline. He will hop off for Mitchel Field, New York early tomorrow if conditions are favorable.

TURKISH SUCCESSES HOLD UP OUR TREATY

American Negotiations at Lausanne Are Virtually Deadlocked.

ISMET STIFFENS HIS TERMS

Refuses to Grant More Judicial Safeguards to Americans Than to Europeans.

LAUSANNE, July 10 (Associated Press).—The repeated Turkish diplomatic victories over the Allies in the Lausanne discussions have reacted on the American negotiations for a revision of the old Turkish treaty, and things are not going so smoothly at present as had been expected. There is a sort of deadlock on some of the clauses, although neither the Americans nor the Turks will explain the reasons for the hitch.

It is learned that Ismet Pasha, having finished with the Allies, and "having finished them," as some have commented, told his experts to speed up the American negotiations so that the American treaty would be ready for signature immediately after the general European peace document was signed. The Americans, however, are in no hurry and apparently do not intend to be stampeded into agreeing to provisions that do not adequately protect American interests.

The United States is suffering somewhat because of the allied diplomats' failure to attain their objects. The Americans are finding it difficult, if not impossible, to induce the Turks to give them more than Ismet Pasha granted the European powers on important questions such as judicial safeguards for foreigners in Turkey and the treatment of educational and charitable institutions.

American institutions, however, will be fairly well cared for, as Joseph C. Grew, head of the American representatives, has agreed to accept from the Turks the same sort of declaration as is to be given to the Allies on this subject.

Informal discussions on concessions are continuing between the Allies and Turkey and Ismet has promised Mr. Grew that American rights will be fully protected in both the allied and American treaties; so it is hoped that further frank talk will break the deadlock.

The final text of the protocol on concessions, which will be appended to the Near East Peace Treaty, has a clause alluding to the Chester Company, though it is not a direct reference.

It provides that if for any reason Turkey is unable to assure the French company railroad contracts upon which work has been started, or the formalities entered into, some concession will be accorded. This constitutes virtual confirmation of the validity of the Chester contract for railroad construction in Anatolia and means that the French must accept some other concessions in substitution for the Samsun-Sivas Line.

Hope was expressed today in French circles that some direct arrangements might be made between the French and the Chester companies to avoid conflict of their interests. It is interesting to note that the same French company that made an intensive study of railroad construction possibilities in China, though more especially in Turkey, in the future will have certain priority rights when the new concessions are allotted.

This is explained as not according an advantage to the Allies or to the French Government, but to the company which happens to be French-controlled and because it expended an amount of money in making technical studies which have proved valuable to Turkey.

Copyright, 1923, by The Chicago Tribune Co.

CONSTANTINOPLE, July 10.—The new National Assembly will probably be convoked Aug. 1. Its first act will be to ratify the treaty with the Allies, which is expected to be signed at Lausanne July 17 or 18, according to an authorized source.

It is expected that the Allies will start evacuating in the middle of August.

The news of approaching peace is enthusiastically received throughout the country. The press issues extras, but Angora officials caution against overoptimism, pointing out that real peace will be established only after the difficulties of conscious are settled. The attitude of Angora is revealed in the charge: "The Allies are claiming certain imaginary rights for imaginary societies."

London Admits Turks' Triumph.

LONDON, July 10 (Associated Press).—Except for satisfaction that the apparently interminable discussions at Lausanne at last have ended in some sort of agreement, there is little gratification here over the outcome.

Speaking generally, and allowing for approval of certain details of the settlement, the opinion of the newspapers is that Turkey won a substantial victory and obtained immeasurably more terms her nominal conquerors must would have been thought possible a few months ago.

"The historian will set down with amusement the slender resources with which Turkey's representatives have defied and bullied the Allies," says The Daily Chronicle; and this is typical of several other comments. That the settlement is likely to advance the progress of peace in the Near East or lead to an improvement in the general European situation is nowhere confidently believed.

The London Times, regretting that "a definite peace was not imposed swiftly, sternly and categorically upon defeated Turkey four years ago," goes on to say: "The lesson is a bitter one. It is that failure to take advantage of a favorable position is the most fatal blunder in diplomacy, as in other spheres of human activity, and that the toil and sacrifice of war may be rendered nugatory by vacillation after victory.

"The defeated Oriental is abject, and Turkey would have accepted any terms dictated by a united Europe in 1919.

* * *

"The dreary round of nations and individuals seeking concessions from Turkey will begin again; once more Turkey will play off one suitor against another, flattering the pride of this one and enticing the greed of that."

Dwelling upon the advantages foreigners have brought to Turkey in the past and calling attention to how things have changed there as a result of the war, The Times continues:

"Foreign merchants, who will doubtless soon again be willing to try their luck in Turkey, will deserve well of her if they can re-establish the economic prosperity which recent events have rudely shattered. * * * The Turkish Government now is capricious and absolutely unrestrained by law, custom or tradition, and is addicted to the practice of passing retroactive legislation.

"By this Government, the terms of the new draft treaty have yet to be ratified—and when ratified, observed."

BULGARS SEEK NEW PORT.

Won't Be Satisfied, Says Premier, With Outlet Through Karaghatch.

SOFIA, Bulgaria, July 10 (Associated Press).—"Bulgaria must have her promised outlet to the Aegean; she will not be throttled," declared Premier Zankoff in an interview today in connection with the outcome of the Near East peace conference at Lausanne. The action of the Lausanne conferees in giving Karaghatch, in the Adrianople district, to Turkey had put two powers (Turkey and Greece) in a position to bar Bulgaria's way to the sea, he said.

"Bulgaria," continued the Premier, "is fully prepared to sign the Treaty of Neuilly and has fulfilled them all. The Powers made only one concrete promise, and the fulfillment of that is further off than ever. Our delegate at Lausanne has been instructed not to consent to any arrangement for a Bulgarian route to the Aegean through foreign territory.

"The Bulgarian people appeal to the powers to carry out their one promise to Bulgaria."

STURZO OUT AS PARTY CHIEF

Resigns in Italian Catholic Split Over Election Reform.

ROME, July 10 (Associated Press).—The Rev. Luigi Sturzo, Secretary General of the Catholic Party, has resigned owing to the differences in the party over the Government's proposed electoral reform.

The Catholic or Popular Party in Italy has had differences with Premier Mussolini and his Fascists Government, the differences recently resulting in the resignation from the Cabinet of all the Ministers belonging to that party. Mussolini first took objection that the resolutions adopted at the Turin Congress of the party, under the Presidency of Father Sturzo, did not constitute frank adhesion to the Fascists Government.

A recent Rome dispatch said that Deputy Meda, former Minister of the Treasury and one of the leaders of the Catholic Party, together with other Catholic Deputies, including the resigned sub-Secretary of the Foreign Office, Signor Vassallo, were not in agreement with Father Sturzo in his opposition to the proposed electoral reform.

MANGIN DINES AMERICANS.

Final Entertainment Is Given for Volunteers in the French Army.

PARIS, July 10.—Acting for the Government, General Charles Mangin, who commanded the French troops at Verdun, gave a banquet tonight to the group of Americans who served voluntarily in the French Army and who were invited to come to France for the unveiling of the volunteer monument on July 4. The guests also included a number of volunteers living in France, as well as the parents of many Americans killed in the war.

The banquet was given as a farewell to the party, terminating the round of entertainments accorded it by the Government since the unveiling ceremonies. This included a reception by President Millerand and a trip to the battlefields. Tonight's affair was purely informal, although short speeches were made by General Mangin and Commandant Maurice Marcadier, who organized the collection of the funds for the monument.

REPUBLICANS SPLIT WITH DRY BOSSES

Continued from Page 1, Column 7.

sage of the repeal bill in the Assembly came from members representing "wet" districts in this and other large cities who on account of the character of their constituents could not afford to be bound by caucus action which otherwise the Republicans would have taken to prevent the repeal.

Chairman Morris, who during the last few weeks has visited a number of up-State counties, said that undoubtedly there was more "wet" sentiment in the State now than there has been at any time since prohibition went into force, but that it was confined largely to the big cities.

Sees "Wet" Sentiment Growing.

"Six months ago, I would have said that on a State-wide referendum we would have had a 'dry' victory, but now I doubt it," said the Republican State Chairman.

The result of such surveys as have been made by Chairman Morris and some of his lieutenants to gauge "wet" sentiment throughout the State may or may not have had something to do with the decision reached not to hold a State convention this Fall, although candidates are to be nominated for a vacancy on the Court of Appeals bench, due to the retirement under the age limit of Associate Judge John W. Hogan of Onondaga.

In 1922, another "off year," when an Associate Judge of the Court of Appeals was elected, this was made the occasion of a State convention by both the dominant parties. This year, it is most likely, both the Republicans and the Democrats will leave the nomination of candidates for that office to their State committees, who were empowered to act by the State conventions held last year. With no State Convention there will be no opportunity for the adoption of a State platform in which either the repeal of the Mullan-Gage law—some expression upon the question of prohibition and prohibition enforcement would be inevitable, much to the embarrassment of candidates for the Assembly in "wet" districts—keep from the ranks of pessimism and out of regard for rural sentiment, if for no other reasons, the Republicans would be compelled to take their stand with the "drys."

"In view of the growth of 'wet' sentiment won't the approval by Governor Smith of the Mullan-Gage law repeal be helpful to the Democrats in the Assembly elections?" Mr. Morris was asked.

"Up-State, the approval is more likely to lose them votes," the State Chairman replied. "Those who favored the repeal look upon the Governor's action as water over the dam, especially since it has got them nothing they did not have before. Those who opposed his action are very bitter. They look upon it as nullification and a blow at the Constitution of the United States."

No State Convention This Year.

Mr. Morris said he had talked to a number of Republican leaders in counties up-State and that he had heard from others and that to a man they were opposed to a State Convention this year. Under the circumstances, he said, there could be no State platform. Asked if he had received the letter from Representative-elect F. H. LaGuardia, suggesting planks for incorporation in a Republican State platform, the State Chairman said he had just read the missive and sent an acknowledgment of its receipt. Republican leaders do not look for any action in pursuance of the recommendations made by Mr. LaGuardia.

It is doubtful whether the Republicans will provoke a State-wide test of strength again this year by naming a candidate of their own for the Court of Appeals.

"Every leader I have talked to or heard from appears to be in favor of endorsing the Democratic candidate, if a capable and well qualified man is nominated by them," said Chairman Morris. "This does not mean that Tammany Leader Murphy can pick any sort of man and say to us: 'Take him.' He must measure up to our standard or we will name a man of our own. We have plenty of men who are anxious to be nominated and who are well fitted and acceptable to the present Judges of the Court."

Mr. Morris said that the Democrats he had heard mentioned included Justice Irving Lehman of the Supreme Court in this district; Presiding Justice William J. Kelly of the Appellate Division, Second Department; Supreme Court Justice Robert F. Wagner of the First Judicial District, and Assistant Corporation Counsel O'Brien, a son of the late Denis O'Brien of Jefferson County, who served two successive terms as an Associate Judge of the Court of Appeals and was an eminent jurist in his day.

For the Court of Appeals.

Among Republicans who might be considered, in the event that their party should determine to nominate a candidate of their own are Supreme Court Justice Henry T. Kellogg of Clinton County and John Lord O'Brian of Erie. Mr. O'Brian during the war was an Assistant United States Attorney General in charge of the Allen Bureau.

Mr. Morris was asked what the Republicans were doing to collect a campaign fund in view of reports that the Democrats were preparing to spend more money in the coming Assembly elections than they did in the Gubernatorial election last year.

"Well they raised more than $1,100,000 last year, and if they raise $1,000,000 now it will be proof that the special interests are behind them now as they were last year," said the Republican State Chairman. "It's a cinch that they cannot raise that amount of money from enrolled Democrats and that they have got to fall back on the fellows they always favor with."

Mr. Morris said that his survey of the State convinced him that the next Assembly would have a bigger Republican majority than the present, in which the Republicans control 83 seats out of 150. Republican leaders estimate the prospective gains at from 8 to 12, allowing for some possible losses in Manhattan, where the Republicans elected four Assemblymen in the Democratic landslide last Fall.

They regard it as not improbable that George N. Isaac in the Twenty-third Assembly District may be succeeded by a Democrat and that the Democrats may also carry the Sixth, now represented by Sol Ullman, a Republican, who won by only half a dozen votes. But to offset this they expect to win back some Republican districts in Manhattan which went Democratic last year. In Brooklyn, which at present has two Republicans in the Assembly, the Republicans look for the election of five this year. Among up-State districts they are hopeful of winning back one in Rensselaer, one in Albany, one in Westchester, together with Columbia, Chemung, Schuyler and Rockland Counties.

Fell on Prohibition Issue.

Herbert C. Pell, Chairman of the Democratic State Committee, said yesterday that while in his opinion prohibition would not be an issue in the next national campaign, except possibly to the extent that enforcement exemplified interference by Government in the every day affairs of the people, the Democratic organization in this State had taken a definite stand on prohibition and would stay put.

"We took the stand that each State should be permitted to regulate its own affairs," Mr. Pell said. "It would be just as unfair to compel a State that is dry to become wet as it is for the drys to insist upon a wet State being dry. The Democratic party in this State is not committed to a wet policy. Our State platform merely demanded the right for the individual States to say what constituted an intoxicating beverage within the limits of reason."

Mr. Pell, who has been in Europe for some time, said he did not care to comment on the Ford boom until he knew more about the situation.

"I don't know enough about Ford to say whether he is Presidential calibre," he said. "I want to know his views on the great and serious questions of the day. Luck alone could not have been responsible for his success in business. I think my view is shared by many people. A candidate for the Presidential nomination should make clear his views on national and international questions with which in the event of his election he would have to deal."

FOR NAVAL TREATY WITH RESERVATIONS

French Senate Commission Would Retain Liberty of Action on Submarines.

VOTES FOR 10-YEAR PERIOD

Recommendation Prescribes That the Treaty Shall Be Provisional, Denouncable in 1934.

PARIS, July 10 (Associated Press).—Reservations were attached to its approval of the ratification of the Washington naval limitation treaty by the Senate Naval Commission today in adopting the report of Senator Lemery. These reservations are regarded as important by the commission and are similar to objections previously voiced by other commissions.

The commission recorded itself as determined to retain for France full liberty of action regarding the submarine provisions of the treaty. The recommendations for ratification of the armament limitation accord was voted with the understanding that the limitation should not be regarded as definitely establishing the relative importance of the maritime powers; that it be distinctly understood there would be no relation between capital ships and the proportion of lighter craft and submarines, and that the treaty be strictly provisional, denouncable in 1934.

The commission at the same time took note of the protest voiced by Senator de Lavrignais, who said he could not vote for the treaty, basing his opposition on the objections enumerated by Senator Lemery.

Special to The New York Times.

WASHINGTON, July 10.—State Department officials today refused to comment for publication on the action of the Naval Commission of the French Senate in proposing a reservation to the Washington Naval Limitation Treaty. It was explained that no copy of the reported reservation had yet been received at the department, and that until it had been received nothing could be said as to the effect of such a reservation on the validity of the treaty amended.

It was stated in other quarters, however, that any material amendment of the treaty by the French Senate, to be binding on the United States, would have to receive the ratification of the United States Senate and would therefore necessitate sending the treaty back for ratification. Such action would, of course, delay the date of putting the treaty into effect, as, under its own terms, ratifications by all parties must be exchanged before the treaty is valid.

It also was pointed out that the French Senate itself had yet to act, inasmuch as the reported approval with reservations was merely a recommendation by a committee. Officials, however, are hopeful of eventual ratification, as they have been all along, and it was believed in some quarters that the French Senate as a whole might reject the reservation.

GYPSY ROMEO IN JAIL.

Duxbury Police Will Prosecute Him and Another for Abduction.

DUXBURY, Mass., July 10.—Although Dr. Henry Tolman Jr. had indicated earlier in the day that he did not care to prosecute gypsies alleged to have been concerned in the disappearance of his daughter Leslie from this town Friday, two of their number were arrested today. Valentine Stanley, who said last night that he and Miss Tolman had intended to get married, surrendered to the police at Fitchburg, and Thomas Young was taken into custody at Cohasset, both at the instance of Chief of Police Pierce of Duxbury. They will have a hearing in the District Court at Plymouth tomorrow on charges of abduction.

Dr. Tolman said that his daughter had gone to stay with relatives at some distance from his home in Salem for a rest. He said he believed that she was in no way ill-treated while with the gypsy party in their journeys from Duxbury to East Bridge, N. H., and that she went of her own accord.

BUDDHIST GOING TO ROME.

Japanese Abbot Will Be Sent There to Study Roman Catholicism.

TOKIO, June 21 (Correspondence of The Associated Press).—Buddhists who opposed the exchange of diplomatic representatives between Japan and the Vatican, thereby recently causing the Diet to vote down a proposal to send a Japanese Minister to the Papal Court, have decided to send one of their abbots to Rome to study the whole subject of Roman Catholicism. The abbot will sail in July, probably going first to America.

White Rock

CHEER LEVIATHAN AT SOUTHAMPTON

Warm Welcome Given to Big Liner, Arriving for First Time Under Our Flag.

NONE OF CREW ARRESTED

Lasker Denies British Deserters Are Aboard—Average Speed Was 23.65 Knots.

Copyright, 1923, by The New York Times Company.

Special to The New York Times.

SOUTHAMPTON, July 10.—Cheers resounded from ship and shore as the Leviathan docked here at 10 o'clock tonight at the end of her first voyage as a passenger liner under the Stars and Stripes. Fog had delayed the vessel a few hours and, due to the lateness of docking, most of the passengers are staying aboard till tomorrow.

The big steamship had a splendid trip, with fine warm weather throughout, and behaved so well that not a passenger suffered from seasickness.

The Mayor of Southampton and his wife went down Southampton Water in a tender to meet the Leviathan and welcome her to port. There was no other formal greeting, but expert eyes along the waterfront kept watch for the great vessel and appraised her critically as she slowly loomed through the evening mist.

As she drew near and it was seen how her funnels towered above the trees ashore and how puny the passengers and crew on the upper deck looked from the dock, the reality of her claim to be the largest vessel afloat was admitted.

The Leviathan averaged 23.65 knots and made the sea passage in 5 days, 17 hours, and 7 minutes. Her daily runs were: 487 knots on July 5; 557 on July 6; 554 on July 7; 553 on July 8; 565 on July 9, and 527 on July 10.

Albert D. Lasker, former Chairman of the United States Shipping Board, explained that each day she either consumed less oil for the same run or made more speed with the same amount of fuel, and W. F. Gibbs, the naval architect who reconditioned the Leviathan, pointed out that she required no repairs after her trip, and from an engineer's standpoint her sole object in calling at Southampton was to take on more oil and supplies.

The voyage had few incidents, but as was natural on a ship which carries 20 per cent. of American boys who went to the war, the exercises on July Fourth took the form of the commemoration of the ship's restoration to service. Moving pictures of the different stages of her reconditioning were shown after the service on Sunday and were explained by Gibbs.

The ship was practically dry throughout the trip. There were some gay little parties in private suites and if a passenger produced a bottle at a public meal no official notice was taken of it. Representative Madden, who was aboard, declared there had never been so orderly a crowd since ocean travel started.

The passengers thoroughly enjoyed themselves, however, and there is no doubt that all 1,700 of them will return home as 1,700 missionaries for the American mercantile marine.

Senator Smoot, talking about this, said:

"We are going to have a mercantile marine whether it pays or not, but, of course, we hope it will pay."

See War Power of Combined Fleets.

Mr. Madden, who was standing by, put in in answer to the question, that of course in the unhappy event of another war the United States would use her merchant fleet for military purposes, as Great Britain did, and Mr. Smoot added:

"It seems to me that if the two English-speaking nations each have a merchant fleet they will be pretty well able to dictate to the whole world."

Mr. Lasker held the same views, and pointed out that nothing was so dear to President Harding's heart as the creation of an American mercantile marine.

"There are not twenty-five votes in both Houses in favor of abolishing the Shipping Board," he said. "Of course, I do not like Government ownership. It is poison ivy to me. Only the Government can afford Government ownership, but if that is the only way we can get our mercantile marine, then I agree to it."

Some one suggested that British shipping men might construe such an attitude as a challenge, and Mr. Lasker replied:

"Why a challenge? Competition is not a challenge. It is not thought so in private life. Some of my best friends are my competitors in business."

Representative Madden in his talk emphasized that point of view in declaring that the United States had no desire to drive any nation off the sea, but simply to take her share.

"The mercantile marine," he said, "is one of the greatest agencies for creating a feeling of amity, and we have reached the stage where we think we ought to take our part in the activities which are not only civilizing in peace but useful in war."

The announcement of the remarkable speed developed by the Leviathan on her trial trip has created great interest here, and the explanation has been offered that she was helped by the Gulf Stream. Mr. Gibbs was cross-examined on this point and replied:

"We were using Gulf Stream water in our circulators. It had a heat of 85 degrees, and that meant we were submitting our new machinery to the most trying of tests. Well, we made 787 knots in 25 hours, and if anyone wants to beat it the Atlantic is open to them. I have never yet heard of any ship going out for a record except under favorable conditions."

Another matter which was debated here has been the increase in tonnage of the Leviathan, and the recent remark of Harold Sanderson of the White Star Line about ships that could blow themselves out with a bicycle pump was quoted to Mr. Lasker. He replied:

"Oh, he must have said it facetiously. If he said it with a smile, it is all right."

Mr. Gibbs merely pointed out that the new measurement was according to the survey of United States officials, and there was nothing more to be said about it.

As for the alleged crowd of British deserters among the Leviathan's crew, who are to be hailed before police courts for breaking their agreements with British liners, Gibbs remarked:

"All I can say is that the crew was signed on regularly at the downtown office, and no one was accepted unless he was an American citizen or had his first papers."

Pilgrims of 1923 Return Greeting.

SOUTHAMPTON, July 10 (Associated Press).—The American Liner Leviathan completed her first transatlantic voyage as a passenger ship under the American flag when she arrived here at 10 o'clock tonight.

The big liner brought 2,000 passengers and crew safe, sound and happy into the quiet waters of Southampton Harbor and dropped anchor a few hundred yards from where the Pilgrim Fathers set sail for America three centuries ago.

Up until midnight, two hours after her arrival, no British law officer had boarded the big ship to serve summonses upon supposed deserters from British ships who were reported to be among the crew. Mr. Lasker said that if there were any English deserters aboard he knew nothing of it.

As a fleet of tugs nosed the mammoth liner into the largest slip in Southampton docks, some of the passengers who showed that they knew history, besides being enthusiastic about the American mercantile marine, shouted from the upper deck:

"Pilgrim fathers, we are here."

The dock upon which the passengers disembarked was crowded with "pilgrims," emigrants of 1923 vintage, who will sail for New York on the Olympic Wednesday. They picked up the shout and sent it back to the ship in cheer upon cheer for the American mistress of the seas.

Regarding the controversy over the size of the Leviathan as compared with the Majestic, Mr. Lasker ended the argument by remarking: "Here she is; measure her for yourselves."

Made Cherbourg in 5 Days, 18 Hours.

CHERBOURG, France, July 10 (Associated Press).—The Leviathan arrived here at noon today. She landed 800 passengers here an dcontinued on to Southampton.

She made the trip from New York in five days, eighteen hours. Albert D. Lasker predicted she would show her real speed on her next trip.

The shipping in the harbor was beflagged to greet the big liner, and the port officials extended so enthusiastic a welcoming reception to the Leviathan that she overstayed her schedule by two hours.

The Leviathan was escorted into port by the launch of Rear Admiral Philip Andrews, U. S. N., and five tugs, all decorated for the occasion.

SEIZE PASSENGERS' LIQUOR.

British Officials Said to Have Found It in Leviathan's Baggage.

Copyright, 1923, by The New York Times Company.

Special Cable to THE NEW YORK TIMES.

LONDON, July 10.—A Southampton correspondent says some delay was occasioned as the Leviathan's passengers were passing through the Customs House owing to the discovery of undeclared liquor in their baggage.

One passenger had to pay excess duty to the extent of over £10 and another had to pay £9 and in both cases the liquor was confiscated.

SCOUTS CARGO CLAIMS.

White Star Line Head Hopes Dock Charges Cover Leviathan's 'Hot Air'

LONDON, July 10 (Associated Press).—The arrival of the Leviathan at Southampton late today attracted interest far beyond shipping circles. The great liner's pre-war antecedents, her disputed claim to the world's record tonnage and her cargo of reputed millionaires on the present voyage have all been widely discussed in the newspapers and the reported impending arrest of a large proportion of her crew for desertion augmented public curiosity.

Evidently referring to the Leviathan's tonnage, Harold Sanderson, Chairman of the White Star Line, in a public speech yesterday said there was a certain ship which claimed to be able to blow herself out as with a bicycle pump and then laid claim to being the largest vessel afloat. He added that the dock authorities would not object to the tonnage but would make the owners pay for the hot air.

At Southampton it is announced that the big ship will be open to the public on Saturday. The owners of motor coaches are advertising trips in the surrounding districts for the occasion and are doing a big business. It is said that more than 1,000 tickets have already been sold for parties of school children alone.

Alluding to possible action by the British authorities against alleged deserting British seamen on the Leviathan, The Daily Mail points out that the Leviathan is technically American territory and warrants for arrest could not be served aboard, and the police therefore must wait until the men they want come ashore.

Some of these men, however, intend to remain aboard, but others have decided to land and risk what may happen.

The Mail ascribes the following to a member of the crew who admitted that he was one of those whom the police want.

"I do not care very much if they arrest me. This ship has been a great disappointment to us. Our pay is only £1 a month about the British rates, while the British liners in which I have served had crew space which was like first-class cabins as compared with what we get on this ship.

"About 90 per cent. of the crew are British, and I think pretty well all of them will leave the ship when she arrives again at New York."

APPEAL TO CHURCHES ON LAW ENFORCEMENT

Leaders Declare That Alien and Unamerican Influences Seek to Nullify Prohibition.

CHICAGO, July 10.—A statement and an appeal of church officials to all members and adherents of Protestant churches, saying that prohibition is being systematically impugned and defied by selfish interests was made public today by Dr. Doris Pickett, research secretary of the Board of Temperance, Prohibition and Public Morals of the Methodist Episcopal Church, through the Committee on Conservation and Advance.

The statement was signed by Dr. Charles Scanlon, general secretary of the Board of Temperance and Moral Welfare of the Presbyterian Church of the United States; Dr. Clarence True Wilson, general secretary of the Board of Temperance, Prohibition and Public Morals of the Methodist Episcopal Church; the Rev. Dr. Samuel Zane Batten, social education secretary of the American Baptist Society, Northern Baptist Convention; Dr. James Empringham, general secretary of the Church Temperance Society of the Protestant Episcopal Church, and Dr. Rufus W. Miller, general secretary of the Publication and Sunday School Board of the Reformed Church.

"Prohibition, established by orderly process at the ballot box, is being systematically impugned and defied by selfish interests, the statement said. "Alien influences, not simply un-American, but in many cases anti-American, propose to establish a condition of nullification of the prohibition law.

"These men are not now making a direct attack upon the Eighteenth Amendment, as they know that such an attempt would be fruitless. What they desire is to weaken enforcement of the law, to encourage its violation, to incite hostility to it by subtle jests, false rumors and distorted facts. It is particularly their object at the forthcoming and succeeding Congressional sessions to weaken enforcement of prohibition by unjust criticism and hampering of the administration of the law.

"The Christian people of this country demand that all political parties shall declare for full enforcement of prohibition and against any weakening of the national prohibition act. The churches of this country expect no party to put forward candidates for President or Vice President who are opposed to the United States Constitution they must swear to enforce, or who are politically indebted to corrupt influences, or who have encouraged the nullification of American laws."

DELAY MAILS TO SEND THEM ON U. S. SHIPS

American Vessels Get Preference for Consignments to Europe on Washington Orders.

OFTEN RETARDED 24 HOURS

Customary Procedure, Say Postal Officials Here, Denying Leviathan Was Unduly Favored.

Preference in transportation of mails to Europe is being given to ships flying the American flag. Local post office authorities admitted yesterday that, in accordance with instructions from Washington, mails are to be delayed as much as twenty-four hours whenever by so doing it is possible to ship them on American vessels.

"Sea-post" ships, or those carrying American postal clerks, are entitled to an additional twenty-four hours' preference, making forty-eight hours in all. The time is reckoned according to arrival at the destination.

When the Leviathan sailed last Wednesday she carried 7,479 sacks of mail consigned to foreign countries. The Cunarder Aquitania, sailing the day before the Leviathan, carried only 107 sacks, all specifically routed via that vessel. Much of the mail sent on the Leviathan had been held over from the previous Sunday. The last shipment of mail prior to July 4, when the Leviathan sailed, was sent on the America of the United States Lines, which left on June 30. She carried 5,094 sacks.

"What we are doing," John J. Kiely, Assistant Postmaster here, said yesterday, "is no more than any other Government does for its ships. We have to give the flag some consideration."

At the Vanderbilt Street post office, which serves as the clearing house for foreign mails leaving New York, Superintendent Thomas C. Walter said:

"Last week was no different from any other, so far as preference is concerned. It was not a case of favoring the Leviathan. Hitherto, there has been little or no conflict between the Cunard Line ships and vessels of the United States Lines. The American ships have been leaving on Saturday, while the Cunard liners have been sailing in mid-week. It so happened that the first sailing of the Leviathan followed the Aquitania by a day. Our orders in such cases are to hold over mail for the American vessel.

"With the sea-post ships, it really does not mean a delay. The mails reach the other side all sorted and ready. This eliminates sorting in foreign post offices and in the end saves time.

"Mails addressed by specific ships are never held over. All mail addressed via the Aquitania went on the Aquitania. The fact that there were 107 sacks proves a good deal of mail is routed that way.

"The Leviathan was only a day behind the Aquitania. According to the ruling, had she left even another day later we should have held over the mail for her. The Leviathan is a regular sea-post ship and carries two postal clerks. More may be added, if needed, when she returns from this trip."

Mr. Walter said some question had been raised against this ruling of the Post Office Department and he understood that the matter was now under consideration by the Postmaster General.

ANSWER BRITISH COMPLAINTS.

Postal Chief Makes Counter-Charge of Mail Discrimination.

Special to The New York Times.

WASHINGTON, July 10.—Complaints from British sources that foreign mails were withheld from the Cunard liner Aquitania so they could be sent next day on the Leviathan were answered tonight by postal officials, who said that not only was preference always given to American-owned ships, but that presence of clerks to work the mail on board Shipping Board vessels was counted on to make up much of any delay that might occur.

When the ships sailed from New York, the Aquitania was due at Southampton, July 9, at 8 P. M., and the Leviathan at the same port next day. Edwin C. Sands, chief of the foreign mail division of the Post Office Department, said three clerks were on board the American liner, whereas none was aboard the Cunarder.

"The rule of the department is to give one day's preference to American ships over foreign vessels when the American ships have no mail clerks and to give two days' preference when there is a 'sea post' or an American boat with clerks to work the mail," he said. "The theory is that the work of these clerks during the voyage advances delivery of the mail.

"In addition, in the instance of the Aquitania and the Leviathan, the department held that the presence of the clerks on the American ship would be to cut to a minimum the difference in delivery because the Aquitania turns over unhandled mail to a British Post Office, while the Leviathan's mail is sorted."

The preference rule, it was understood, was inaugurated under the régime of former Postmaster General Work, now Secretary of the Interior. At the Post Office Department it was said the ruling followed the practice of other nations which invariably gave their own ships the advantage.

One official said practically no mail was obtained from the British Post Office by American boats.

"They do not refuse flatly to do this," he said. "They merely say that they dispatch the mail on the fastest boats, and as they usually have the fastest boats, that is the answer. However, when one of their fast boats is withdrawn, it does not seem to work out that an American ship gets their mail destined for this country."

Before the war the United States and Great Britain had a joint postal sea service. British and American clerks worked side by side arranging the mail on some of the transatlantic liners, including the White Star boats, but not the Cunarders. The United States had a similar arrangement with France and with Germany.

With the outbreak of war, these agreements were discontinued by the foreign Government, and the British, it was said today, have not resumed the practice. The question of co-operation with the French in this direction is again before the United States Post Office Department and Germany has signified a willingness to re-enter such an arrangement when she has ships to operate.

"In assigning mails for dispatch to foreign countries, vessels of American registry have been employed in preference to foreign vessels," reads an excerpt from the report of former Postmaster General Work for the fiscal year ended June 30, 1922. The report for the fiscal year just ended has not been issued.

"This preference," continues the 1922 report, "is limited to twenty-four hours for American vessels over a competing foreign vessel in the expected time of arrival at destination. When, however, there is a United States sea-post service on the American vessel, the preference is extended to forty-eight hours with regard to a foreign competing vessel without sea-post service thereon because the assorting of mail on vessels filled with sea-post offices expedites delivery of mail so assorted and tends to equalize delivery of mails dispatched on either vessel.

"On the Atlantic, service has been carried on to a large extent by steamships of American registry and there are steamships of American registry sailing from New York for Europe on an average of three times a week, maintaining opportunities for dispatch fairly commensurate with the needs for mail conveyance."

THREATEN OCEAN POSTAL WAR

French and British Lines Hint at Reprisals if Letters Are Delayed.

Copyright, 1923, by The Chicago Tribune Co.

PARIS, July 10.—An ocean postal war involving considerable delay in foreign mails is expected to result if the United States authorities insist on holding up letters a day in New York for the Leviathan, instead of sending them on the Aquitania, which arrived yesterday.

Business concerns, especially British firms in Paris, were aroused today at not receiving American mail from the Aquitania. Investigation showed the Cunarder carried no letters to Cherbourg and that mail ship tonight will be distributed tomorrow from the Leviathan.

The French Line intimated it will hold up mail for French boats from Havre, boycotting American boats if the practice continues. Local offices of British lines assert the British authorities will take similar action.

BRYAN BACKS DRY LAW IN GEORGIA HOUSE

He Also Asks the Legislators to Bar Teaching of Darwinism as a Fact.

ATLANTA, Ga., July 10.—William Jennings Bryan today addressed the Georgia House of Representatives, making a plea for the retention of the State Prohibition law and for prohibiting the teaching of Darwinism as a fact.

The House has before it a bill to repeal the State Prohibition act, and the Temperance Committee is to consider the bill tomorrow.

"I believe in State rights," said Mr. Bryan, "and they must be preserved, but they cannot be preserved by making them a sham or a pretense for covering the liquor traffic. Your State has the right to assist in the enforcement of the Prohibition law, and if it does not do so it invites the national authorities to come in and do it."

CAN'T BAR DRINKING ON OUR SHIPS AT SEA

Continued from Page 1, Column 6.

directors for disposition under the Volstead act, but the Treasury decided use of the smuggling provisions in the tariff law would be more effective.

To Curb Religious Wine Abuse.

Prohibition enforcement problems, especially those relating to "padlock" injunctions and sacramental wine, were discussed at a conference today of division chiefs with Commissioner Haynes and his new special assistant, E. L. Porterfield, who will have charge of court proceedings to "padlock" places in which illegal liquor traffic is discovered.

Officials declared they had found that the limitations on sacramental wine were being evaded by a shifting of brands of wine. With the Willis-Campbell anti-beer law prohibiting imports of sacramental wines, unless a shortage developed, it was said a scarcity had been created by changing the labels on sacramental wine, some dealers removing the labels and giving it the brands of beverage wine. Officials said that steps would be taken to meet this evasion and prevent the importation of more sacramental wine which might be diverted into improper channels.

Pepper Says 12-Mile Limit Is Dropped.

Special to The New York Times.

WASHINGTON, July 10.—Senator Pepper of Pennsylvania conferred with Secretary Hughes today on a number of pending international matters and presented Bishop Brent, who reported in person the results of the opium conference at Geneva, which he had attended as an American representative.

It is understood that in this conference most of the subjects now before the country, such the United States' entrance into the World Court, as well as the several angles on the prohibition question which have developed an international aspect, were touched on by Secretary Hughes and Senator Pepper. The latter declined to make known the results of the talk.

But Senator Pepper, following the conference, indicated that the proposed 12-mile treaty would be abandoned. In reply to a question as to whether he thought the international dispute about foreign ships carrying liquor might be solved by legislation, Senator Pepper said:

"I am inclined to believe that it might, provided the legislation offered was presented in the interest of prohibition enforcement in this country."

Since the recent Treasury Department ruling on the seizure of liquor on ships coming here from foreign countries under seal, $100,000 worth of drinkable has been seized, customs officials said yesterday, commenting upon the decision at Washington to forfeit seized ship liquor.

Prohibition officials were inclined to replace the estimate of existing sealed liquor at a lower price, stating that the difference was accounted for in malt liquors destroyed by agreement with the shipping companies.

ROUND TRIP COST $400,000.

Leviathan Using $120,000 Worth of Fuel—Self-Served Liquor Now.

Copyright, 1923, by The New York Times Company.

By Wireless to THE NEW YORK TIMES.

ON BOARD THE S. S. LEVIATHAN, Off Cherbourg, July 10.—On the last day of her voyage to this port the Leviathan made a high record for the voyage by covering 561 miles. The average speed for the day was twenty-four to twenty-eight knots hourly.

A new rule announced today permits the use of liquor in the cabins and restaurant on the return voyage, but service by the ship's crew is prohibited. A limited number of passengers took advantage of the rule, drinking liquor at the tables and serving themselves without interference by the management.

The cost of this first European round trip of the Leviathan as a passenger vessel was $400,000, of which $120,000 was for fuel.

A large donation was raised for the Seamen's Fund at Captain Hartley's concert tonight. The program, directed by Fortune Gallo of the San Carlo Opera and John Royal, Keith's Cleveland manager, included Mme. Frances Peralta; Helen Stover, soprano; Jack Donahue, comedian; Ed (Strangler) Lewis, the wrestler, as Romeo; Laura Lovett, daughter of Judge Robert Lovett; Howard Chandler Christy, Anna Fitziu and Margaret Northup. Louis Wiley presided.

BROKE 3 RADIO RECORDS.

Leviathan Sent 15,000 Words Daily —Reached Shores 1,300 Miles Away

CHICAGO, July 10.—Three records in radio communication have been broken by the Leviathan, according to an announcement made by the Western Electric Company here.

"The ship not only broke all previous wartime communication marks by transmitting 15,000 words a day to and from the shore, but managed to keep in constant touch with land radio stations 1,000 to 1,300 miles away," says the announcement. "By means of new apparatus especially designed for it, the Leviathan operated simultaneously and for long periods two different sending and receiving sets. The steamer carries four antennae—two for sending and two for receiving.

"The newly developed transmitter installed on the Leviathan is designed to send messages on four different wave lengths. A rotary wave-changing switch operated by means of an automobile speedometer permits almost instantaneous change to any one of four wave lengths—1,800, 2,100, 2,400 or 2,500 meters—on the Leviathan's antennae.

"Three of these wave lengths were used on the trial trip—1,800, 2,100 and 2,500 meters. The highest and the lowest were used for transmitting messages and the intermediate one for calling stations."

DRUGGIST FILES SUIT TO TEST LIQUOR LAW

Government's Right to Enforce Volstead Regulations in This State Questioned.

BIG SEIZURES OF BEER

Dry Agents Get 24,000 Bottles in One Haul and 75 Half Barrels in Another.

A test to determine whether the Federal Government has the right to enforce its rules and regulations under the Volstead act pertaining to the use and sale of non-beverage liquors and alcohol on druggists in this State was filed yesterday in the New York County Supreme Court by Alexander Savitch, a druggist of 10 Hester Street, against Palmer Canfield, Federal Prohibition Enforcement Director.

The suit, admittedly inspired by Governor Smith's repeal of the Mullan-Gage act and his affirmation of the rights of a State, is in the nature of an application for an injunction to restrain the Federal authorities from interfering in any manner in this State with the pharmaceutical use and sale of liquors and alcohol not intended for beverage purposes.

Through Samuel Thomas Walkup, his counsel of 200 Fifth Avenue, Mr. Savitch asserts that the Eighteenth Amendment does not deprive this State of its sovereign rights to establish its own public health laws and regulate the profession of pharmacology. He holds that Federal interference violates Amendment X. of the Constitution, which states that powers not delegated to the Federal Government by the Constitution are reserved to the States.

Mr. Savitch points out that his right to practice his profession as a pharmacist and to carry on his business is derived solely from the laws of the State, and "there are no laws, rules or regulations of the United States which govern his professional or business with the exception of a Federal retail liquor dealer's tax of $25 and a narcotics tax of $24." He recites that Mr. Canfield has prevented him from conducting his business under the laws of the State by cancelling his liquor permit.

In an interview Mr. Savitch said the permit was revoked on the ground that he had filled bogus physicians' prescriptions. Druggists are powerless to control this situation, since they have no means of identifying cleverly forged prescriptions, according to Mr. Walkup. The lawyer added that the prohibition authorities had been delinquent in cooperating with the pharmacists in detecting fraudulent blanks.

The Formal Complaint.

Mr. Savitch, in his complaint, recites his grievances as follows:

"That upon information and belief, defendant has no power or authority under any law of the United States to stop complainant of his right to purchase and use alcohol for manufacturing U. S. P., N. F. and A. I. H. preparations; to compound physician's medicinal prescriptions in which alcohol is used as a solvent, for extraction and preservation and as a therapeutic agent. Complainant further avers that the Eighteenth Amendment of the Constitution grants to the Government only the power to prohibit the manufacture, use and sale of intoxicating liquors for beverage purposes, and that the State of New York, or the people thereof, have reserved all powers for the use and sale of alcohol and liquor for non-beverage purposes by licensed pharmacists and registered pharmacies in the State of New York; and further complainant avers that all laws, rules and regulations which prohibit the use and sale of alcohol or liquors for non-beverage purposes by the complainant herein are unconstitutional, null and void, repugnant to the Constitution of the State of New York and in violation of the laws of the State of New York.

"Furthermore, complainant avers that upon information and belief all retail sales at his drug store relating to the dispensing of drugs, chemicals, medicines, prescriptions or poisons and the proof required in any action, proceedings, civil or criminal, against complainant, are controlled by the laws of New York, and that the proof necessary when any such goods taken for analysis in any case of prosecution must conform to public health laws of New York, Laws of 1909, Chapter 49, Article II., Pharmacy, Sec. 240a."

Seeks Return of Permit.

Mr. Savitch asks that a mandatory order be issued compelling the Federal authorities to restore his permit, in order that he may continue profitably his business, which he says represents an investment of $12,000. The action is of a civil nature, arising under the State Constitution and the Public Health law.

Discussing the suit, Mr. Walkup said that between 500 and 600 of the 2,700 pharmacists of New York City are without permits, as a result of what he termed the arbitrary regulations enforced by the Federal authorities.

These reputable druggists, registered under the State and subject to its laws, are handicapped in their business by their inability to get liquors and alcohol in the legally prescribed way," he said. "They could get plenty of alcohol, if they desired, from bootleggers at prices much lower than from registered dealers. The prohibition authorities here are claiming the power to control the purchase, use and sale of liquors and alcohol for non-beverage purposes, and this power we contest."

Mr. Walkup charged that the Federal authorities, in enforcing its regulations in some instances, had ignored one section of the law and acted on another which had no bearing. As an example he cited Section 5 of the regulations which prescribes that where a druggist manufactured an article containing alcohol or liquor, which did not correspond to the descriptions and limitations of certain articles not subject to the provision of the law, the authorities could stop the offender from continuing its manufacture. Section 9, according to Mr. Walkup, provided that where a druggist holding a permit did not comply with the National Dry act or any of its Prohibition law, the Federal Enforcement Agents could seek its revocation.

"There have been instances where the authorities have acted under Section 9 and revoked a permit when because of the facts they should have proceeded under Section 5 and stopped the sale of a prescribed article only," he said.

24,000 Bottles of Beer Seized.

Federal agents yesterday seized 24,000 bottles of beer, alleged to contain more than the legal alcoholic content, which was being transferred from a freight car at Eleventh Avenue and Thirty-eighth Street to an automobile truck manned by Fred Richman of 1,719 Washington Avenue, the Bronx. Richman and John Davis of 68 West 107th Street, to whom the beer was alleged to have been consigned, were arrested. Although the bill of lading stated that the beer contained only one-half of 1 per cent. of alcohol, the agents said they had information that the beverage was stronger.

The agents further showed their lack of sympathy toward those who would welcome a glass of brew in yesterday's heat by confiscating seventy-five half-barrels of real beer which they seized on a truck at Cortlandt and Greenwich Streets. Timothy Mahoney of 213 Hall Street, Brooklyn, was arrested. Three freight cars in the West New York yards attracted the attention of the beer seekers, in one they said they found 140 barrels and in another 1,200 twelve-bottle cartons of beer. The third car contained empty beer kegs.

The Villa Richards, occupying a conspicuous location on the edge of the Palisades at Cortlandville, N. J., a popular rendezvous of autoists, was raided by the Federal agents late Monday night. After seizing a case of assorted liquors, they arrested Jean Richards, proprietor; John O'Neill, cashier; John Valli, bartender, and John Carroe, waiter.

Push buttons, accidentally discovered during a search of the saloon of Tony Reda at 2,140 Fifth Avenue yesterday afternoon, proved the key to a cache of liquor in secret rooms. The agents went to the place on information that they could find fifteen bottles of liquor in a safe. They did. Then one of the agents saw a push button, which he operated. According to his story, two drawers behind the bar moved out, revealing fifteen bottles of assorted liquor.

Trap Door in Ceiling.

Spurred by curiosity, if not duty, the agents explored and found another button, which opened a trap door in the ceiling. This door led to another which opened up a hiding place where 148 pints of gin, 68 quarts of whisky and ten gallons of miscellaneous liquor were stored. Reda was arrested.

The agents confiscated five quarts of gin, two quarts of sherry and two of whiskey in a raid on the saloon of Jacob Seiden at 2,190 Fifth Avenue. Seiden joined Reda, his neighbor, as a prisoner.

The Nassau County Grand Jury yesterday continued its investigation into rumors that police officials of the county had been protecting bootleggers. Several witnesses were heard, among them Herman Brandt, who pleaded guilty last Spring to a charge of attempted extortion. Another witness was Guy Mathot, who was brought from the Westchester County Penitentiary, where he is serving a term for extortion. No indictments were handed up, the jury adjourning to continue its investigation next week.

TO VOTE ON BEER AT MEALS.

Manitoba Will Hold Second Plebiscite Today.

WINNIPEG, Manitoba, July 10.—For the second time in three weeks the electorate of Manitoba will go to the polls tomorrow to vote for or against the legalized sale of intoxicating liquor. The issue will be the proposed bill of the Beer and Light Wine League, sponsored by the Manitoba Hotel Men's Association, providing for the sale of these beverages with meals at hotels licensed by the Government.

The Moderation League's bill, providing for Government sale of liquor, was endorsed by more than 40,000 majority on June 22.

DROWNED ON HONEYMOON.

Bodies of Jersey Couple Found in River Near Indian Lake, N. Y.

Special to The New York Times.

SUMMIT, N. J., June 10.—News was received here yesterday of the drowning in Jessup River, near Indian Lake, N. Y., of Mr. and Mrs. Richard A. Sexton of Summit, who were spending their honeymoon in camp on the lake fifteen miles from the nearest settlement. They were married on June 30.

It is not known when they were drowned. The bodies were recovered by a boarding house proprietor who was making a trip down the river. According to information received here, Mr. and Mrs. Sexton had been swimming. Their bodies were found far from their camp and within a short distance of each other. Both were known as good swimmers.

Mr. Sexton was 27 years old. He was connected with the Newark Sunday Call. He had been a secretary of boys' work in the Y. M. C. A. but gave it up because of his health. His wife was Grace P. Wells of Summit.

SAYS TAXES HURT CHICAGO.

Manufacturer Pictures a Deserted City if Levies Continue to Grow.

Special to The New York Times.

CHICAGO, July 10.—Suggestion that the City of Chicago turn its attention to a reduction of municipal expenditures, instead of attempting to increase its income from taxes, was made today by John M. Glenn, Secretary of the Illinois Manufacturers' Association, in a letter to Rose A. Woodhull, Chairman of the Council Finance Committee.

The great need of the present time, Mr. Glenn declared, is for a decrease in taxes.

"Chicago has made wonderful progress," wrote, "but it cannot meet the competition of other industrial centres if taxes continue to rise. Our city is already feeling the high cost of manufacturing. Should taxes increase as rapidly in the next five years as they have in the last five years, the pigeons will roost in its high buildings before the end of the decade."

THREE LITTLE GIRLS DROWN

One Is Believed to Have Pulled the Others Under in Struggle.

Special to The New York Times.

EASTON, Pa., July 10.—Three little girls, Catherine and Elizabeth Christbaum, aged 11 and 9 years, sisters, and Margaret Kovach, aged 9, were drowned while bathing in the Bushkill Creek, which runs through this city, late this afternoon.

With a party of children they went to their bathing place, about three blocks from their homes. The first knowledge of the drowning was when one child ran breathlessly to a store two blocks away and said that a girl had drowned. Police were notified and neighbors rushed to the place and then learned of the triple drowning. One of the girls, in going down, is believed to have pulled the other two with her.

WOMAN JUROR KNITS.

First of Sex to Be Chose Foreman in Murder Trial.

CAMDEN, N. J., July 10.—Mrs. Eleanor Webb of Glendora is foreman of the jury in the trial of Manfredo Grasso and Anthony Bagdonowits, Brooklyn youths, charged with the murder of William H. Bishop, taxicab driver, on the night of April 13. The case was opened for the State today by Prosecutor Wescott before Justice Katzenbach.

Mrs. Webb is the first woman to preside over a jury in a murder trial in Southern New Jersey. Throughout the tedious process of drawing the jury, Mrs. Webb sat plying her knitting needles.

Prosecutor Wescott said he would show that the defendants deliberately murdered Bishop in his taxicab while they were being taken in it from Market Street, Camden, to Riverside.

NAMES MORGAN EXECUTOR.

Court Grants Petition to Handle Estate of His Aunt.

A petition of J. P. Morgan to be appointed administrator of the estate of his aunt, Mary Kirkland Pell, who died April 17, 1882, was granted yesterday by Surrogate O'Brien. Mr. Morgan stated that he is executor under the will of her husband, Alfred Pell, who in turn was executor under the will of his wife. As such executor, Mr. Pell took a mortgage from Dr. Virgil P. Gibney and Mrs. Julia T. Gibney on the property at 46 East Thirty-fifth Street. They want to pay off this mortgage, but because of Mr. Pell's death there is no person to whom the money can be paid.

Frances Pell Archer-Shee, only child of the decedents, lives at Ashburton Lodge, Berkshire, England. Because she is an alien she could not be named and requested Mr. Morgan to act.

LIQUOR ENRICHES ATLANTIC ISLANDS

Chicago Writer Tells of Poverty-Stricken Bahamas Made Wealthy by Bootlegging.

RUM RUNNERS UNHINDERED

He Says Payment of Graft Opens Florida and All the Coast to Their Traffic.

CHICAGO, July 10.—(Associated Press)—Rum running along the South Atlantic seaboard has assumed such great proportions that the inhabitants of poverty stricken little islands have become rich almost over night, and the section has become known as "bootleggers' paradise." The Chicago Daily News said today in a copyrighted article describing conditions along the Florida coast.

In the Bahamas, from the city of Nassau alone, the article said, official clearings of liquor bound for the United States increased from 37,821 gallons in 1917 to 1,340,443 gallons in 1922. The writer, accompanied by a bootlegger named "Terry" as guide, told of visiting the liquor fleets, talking with the rum runners, helping transport the liquor, and of distributing it in the United States.

Miami, first stop of the investigator, was described as "a city where, if you feel the need of a drink and don't happen to have your own flask with you, all you need to do is walk in the shade of a palm tree until a resident comes along, ask him where you can find a bootlegger, and, if he isn't one himself, he will tell you where to go. You can buy all the whisky you want in Miami at $5 a quart."

Havana and Nassau were described as only two of the ports that were flooding the United States with liquor, some of it from American distilleries.

Graft Payment Clears the Way.

"Upon the payment of the proper amount of graft," the writer said, "you can clear out of a port with the thousands of cases of whisky billed to a legitimate point, unload it on the American coast, sail into the aforesaid legitimate port with an empty ship and receive a landing certificate showing that you arrived there with the very whisky you smuggled into the United States.

"In the course of our participation in this business on the Atlantic Coast," the writer continued, "Terry and I bought booze in Havana, brought it through the customs at Key West and sent it to friends in Chicago through the United States mails. We bought other booze in Nassau and landed it in Miami at the municipal pier.

"And when we were ready to return to Chicago," the article declared, "we left the Florida coast in a bootlegger's motor boat, met and boarded a rum schooner loaded with 2,000 cases of Scotch whisky, rode this ship to the New Jersey coast, bought the cases from the captain, landed it along with 200 other cases on the Jersey coast, trucked it to Newark, packed it into trunks, and shipped it to Chicago and sold it to Terry's customers. Nobody interfered with us or questioned us; it was all in the day's work."

The Bahamas, poverty stricken before prohibition and with revenues from all sources of less than $500,000, realized $2,798,000 in 1922 in duties from liquor shipped into the United States, the article said, quoting a Nassau official, who added that, estimating that the 1,340,443 gallons of liquor cleared from the Bahamas for the United States was diluted 50 per cent., more than 2,600,000 gallons of liquor were placed on the market in this country from the Bahamas alone.

Sore at Bigger Shippers.

The rum runners who do this business, the writer said, "are sore because London and Glasgow are sending booze to America. 30,000 to 40,000 cases at a time, in bigger rum ships than the Bahamas ever dreamed of before; and they have made some strange dreams come true in the Bahamas."

While prohibition officials are seizing sealed liquor brought into their hands by legitimate oceangoing vessels, the article said, there are only two small cutters on guard the 1,300 miles of Florida coast, "all made to order for rum running."

One of the two revenue cutters works out of Key West, the other out of Miami, the article stated. A bootlegger at Key West quoted to the writer said the cutter at that point had made no real captures for three years. Once the revenue cutter and a rum runner were tied up nose to nose at Miami, said the article, the runner laden with 40,000 cases from Nassau for Miami.

Keen competition existed between the ports of St. Pierre, a French possession, and Nassau, the article stated, charging a working agreement between the points whereby rum runners clear from one port to the other. St. Pierre charged an export duty of $1.80 a case compared to Nassau's $5.65, though an effort is being made by Nassau to reduce its charge to $3.

STARTS NEW INQUIRY IN BELLE BAKER CASE

Malone Legion Post Gets Secret Service Agent to Investigate Shooting of Young Woman.

Special to The New York Times.

SYRACUSE, N. Y., July 10.—Direct from headquarters in Washington, unheralded and unknown except to a few members of Malone Post, 129, American Legion, who requested his presence in that city, a Federal Secret Service investigator arrived today and began a new investigation of the shooting of Belle Baker of Fulton by Federal officers.

FOG COVERS JUNEAU AS HARDING ARRIVES

But Fails to Dampen the Hearty Welcome to Him at the Alaskan Capital.

'I'M PROUD OF YOU,' HE SAYS

Declares His Purpose to Know Alaskans Better and Have Them Know the Government Better.

Special Cable to THE NEW YORK TIMES.

JUNEAU, Alaska, July 10.—In a heavy rainfall President Harding arrived at Juneau this morning for a twenty-four hours' stay, crowded with functions.

The President realizes more than ever the difficulties of bringing a reasonable degree of prosperity to Alaska and inducing its settlement. The salmon fisheries, which is the backbone of the territorial industry, are in danger of extinction.

Secretary Hoover advocates extension of the Government fishing reserves to all Alaska, so as to enable curtailment of the present wasteful methods which, it is estimated, will exterminate the salmon inside of twenty years.

One plan considered by the President and his advisors on the Henderson is the formation of a resident council of additional Assistant Secretaries of Government departments concerned so as to permit the administration of Alaskan affairs without the delay of references to Washington.

It has become evident to members of the President's party that the development of agriculture in Alaska on a large scale is unfeasible on account of its remoteness from outside markets.

Efforts are being made to induce Mrs. Harding, on account of her recent illness, to forego taking the proposed strenuous trip in automobiles over the Richardson Trail into the interior from the end of the Alaska Government Railway, but she insists upon going.

President Harding has had a good rest during the voyage since leaving Tacoma, Thursday. He spends part of the day in conferences with Secretaries Work, Wallace and Hoover, Governor Bone and Delegate Sutherland of Alaska, who are accompanying him on the Henderson. In th evening he usually attends a movie show on shipboard and sets an example to the other male members of the party by smoking a pipe while the pictures are shown.

This morning Mr. Harding arose very early to see Henderson fire big guns at the Taku Glacier, but, owing to the rain and fog, the bombardment was canceled.

After the President had made a brief speech at the Governor's mansion, the day's program consisted of a visit to the Mendenhall Glacier and the presentation of a gold card to the President at the Governor's mansion. The evening program embraced a dinner to the official party by Governor and Mrs. Bone, followed by a reception and a dance.

JUNEAU, Alaska, July 10 (Associated Press).—Greeted by the Presidential salute of twenty-one guns from Chilkoot Barracks, President Harding, Mrs. Harding and members of their party landed here this morning to spend the day as guests of Governor Scott C. Bone and Territorial and city officials.

The ideal weather which had attended the Alaskan trip gave way to rain and fog here, but the townspeople, paying no attention to the weather, thronged the wharf in the business section to give the party a hearty welcome.

The party was driven through the town to the Governor's mansion, escorted by troops from Chilkoot Barracks, a company of marines from the Henderson, and members of the Veterans of the World War. A large crowd gathered about the mansion, and, despite the rain, cheered loudly when the President and Governor Bone appeared.

Governor Bone introduced the President, who began his address by declaring "there must be a lot of Bapists in Juneau. At any rate, people who turn out so generously like this on a rainy day ought to have some measure of return.

"We were greatly impressed by the scenery of Alaska during this first part of our trip. Sturdy, majestic, stalwart and immovable are truly the only words which describe this wonderland of pure.

"I am proud of you citizens of the United States. It is good to know of Alaska, and it is our purpose to know you better and have you know our Government better."

The President then referred to the children, who played a prominent part in the greeting extended him, and said:

"Although children cannot choose where they are born, yet if they could choose, I think they would select the West."

He was greeted with great applause when he declared that he knew the Government would help those who are now children more than it has helped their parents."

ABOARD U. S. S. HENDERSON, WITH PRESIDENT HARDING, July 10 (Associated Press).—When the transport Henderson, carrying President Harding and his party, steamed into Taku Bay on the way to Juneau, the capital of Alaska, prepared to afford the party the rare sight of navy guns firing into the ice of a huge glacier, a heavy fog settled down and the bombardment was abandoned at the last minute.

Five-inch shells fired from a gun on the Henderson were to have shattered the ice walls pushed out into the bay, thirty-five miles south of Juneau, by the Taku glacier, sending glistening and crashing masses tumbling into the water.

WASHINGTON, July 10.—The last leg of President Harding's long Alaskan tour—from San Diego, Cal., to New York—may be made aboard the transport Henderson instead of a Shipping Board vessel, as originally planned.

The Navy Department has been informed that the President is considering such a proposal, and Secretary Denby has decided that the Henderson will be available for the trip if her use is finally decided upon.

ASK HARDING TO AID CHINA.

Wireless Message Sent to President by Americans in Shanghai.

SHANGHAI, July 10 (Associated Press).—Greetings to President Harding on the occasion of his first voyage in Pacific Waters and an urgent appeal to him to take the lead in saving democracy in China were sent by wireless to the Chief Executive today by the American Chamber of Commerce of Shanghai. The message read:

"Conditions in China are most critical. They demand your closest attention and American leadership. Otherwise China's millions will be forced to abandon their dreams of democracy and possibly accept the leadership of interests not in sympathy with our ideals and with world peace.

"American commercial interests in the Far East, potentially the greatest in the world, demand urgent attention to preserve them for the present and future generations."

SPLINTER PIERCES HEART.

Employe at West Brookfield Shop Killed at Woodworking Machine.

WEST BROOKFIELD, Mass., July 10.—Fred W. Rice, 40 years old, was killed this afternoon at the Hillcrest Manufacturing Company's woodturning shop when a long splinter from a board on which he was working, loosened by a circular saw, pierced his heart and lungs. There was no eyewitness to the accident.

Rice was alone in the shop at the time. The proprietor, Howard W. Foster, returning, found the man lying on the floor beside the saw with the bloodstained splinter near by.

GREEK PATRIARCH QUITS CONSTANTINOPLE

Retires to a Monastery, Yielding to Turkish Hostility and Urging of Venizelos.

Copyright, 1923, by The New York Times Company.
By Wireless to THE NEW YORK TIMES.

CONSTANTINOPLE, July 10.—Patriarch Meletios left Constantinople this afternoon in the British steamship Famaka. His departure was without incident. Although the Turks had declared that any Greeks taking part in demonstrations would be treated as traitors, considerable crowds attended the last service in the Greek Cathedral and accompanied the Patriarch to the landing-stage at the Golden Horn, where he embarked in a British launch.

By courtesy of the military authorities I received permission to accompany the Patriarch. He was wonderfully calm and collected, and in the course of conversation said with a sad smile:

"Well, that little drama is over," and subsequently made it clear both to me and others that he had no idea of returning to Constantinople.

Great precautions were taken by the Turks to prevent unauthorized persons from approaching the Famaka, and even a Russian Bishop failed to obtain permission to take leave of the Patriarch. From Mytilene Meletios will go to Mount Athos in a Greek war ship.

By Wireless to THE NEW YORK TIMES.

LONDON, July 10.—The Greek Patriarch Meletios, who quitted Constantinople todsy, has long been regarded by the Turks with hostility, and the Angora Government has encouraged the movement against him among the Orthodox of Anatolia. His departure from Constantinople has been brought about by ex-Premier Venizelos who, with the object of establishing better relations between Greece and Turkey, advised him to resign. The Patriarch, however, instead of resigning, took the course of retiring to a monastery on Mount Athos, for which purpose he applied for and received temporary leave of absence from the Holy Synod.

It has been asserted that the Turks will declare non-existent the Holy Synod and the Mixed Council, which form essential factors in the electoral assembly of the Patriarchate, and will treat the Patriarchate itself as extinct or constitute it in such a fashion as to render it identical with the so-called Turkish Orthodox Church of Asia Minor.

VETERANS BALKED AT ALICE

Did Not Want Ex-Congressman Robertson at Their Hospital Picnic.

MUSKOGEE, Okla., July 10.—A picnic for the sixty wounded war veterans at the Soldiers' Memorial Hospital here, sponsored by United States Commissioner E. W. Mountcastle of Fort Gibson, nearly came a cropper yesterday when the inmates of the hospital refused to go if Miss Alice Robertson, former member of Congress and welfare worker, went along.

"She voted against our bonus while in Congress," the spokesman of the veterans explained to Col. Hugh Scott, commander of the hospital.

"But listen, boys," said the Colonel. "Mr. Mountcastle has fixed us some nice watermelons, some ice cream and has reserved a bathing beach for us. And besides, the nurses want to go. You can't call off the picnic."

"Well, we'll go this time," the soldiers agreed after a conference. "We don't want to spoil the nurses' good time, but Miss Alice ought to be court martialed."

"It's just those heavy pajamas which the boys have to wear in the hospital that makes 'em that way," Miss Robertson explained. "Uncle Sam ought to have more sense than to issue them for Summer wear. I'm going to call every sewing circle in Muskogee out to help me next week and we'll make them some light pajamas and then there'll be no more kicking."

TO CHECK AUTO ACCIDENTS.

Atlantic City Police Will Arrest All Occupants of Cars Concerned.

ATLANTIC CITY, N. J., July 10.—The increasing number of automobile accidents on the White Horse Pike and other roads leading to this place, most of them believed to be due to drunken drivers, caused Prosecutor Louis J. Repetto to instruct the police today to arrest all occupants of cars in such accidents and to hold them under heavy bail for investigation by him.

The total of week-end accidents this year is greater than in any preceding year. Two persons were killed and a score more hurt, some of them seriously, in accidents between last Saturday and Monday morning. The Prosecutor said he would endeavor to put a stop to intoxicated persons operating cars by inconveniencing the persons in the cars with them.

CONFECTIONER A SUICIDE.

Bradley Beach (N. J.) Man Shoots Himself in Apartment.

BRADLEY BEACH, N. J., July 10.—Joseph Ammon, 38 years old, a confectioner, shot himself through the head in his apartment here tonight. His body was found by an expressman, who told the police that he went to Ammon's home when he failed to find him at the store. He had been dead but a short time when the police arrived.

Ammon was said to have been doing a good business and his friends are at a loss to account for his act. The room was filled with gas and the police believe Ammon planned to end his life by illuminating gas, but finding that too slow resorted to the gun.

PUBLIC SERVICE REPORT.

Jersey Trolley Companies Carried 35,317,067 Passengers in June.

TRENTON, N. J., July 10.—M. R. Baytan, general auditor of the Public Service Railway Company, today filed in the United States District Court the monthly report of the company on business for June.

The total number of passengers carried was 35,317,067; the number of passengers carried for the base fare of 8 cents was 19,515,809; the number of tickets or tokens sold at four for 30 cents was 16,767,920; the number of passengers who paid fare by token was 15,761,152; the number of transfers issued for 1 cent was 6,159,701.

TO BAR YOUNG DRIVERS.

New Jersey Official Plans Bill to End License Fraude.

TRENTON, N. J., July 10.—Following an accident in Long Branch last Thursday in which a boy was killed by a driver of an automobile who was a minor, State Commissioner of Motor Vehicles Dill today said he would recommend to the Legislature a bill requiring drivers whose ages are in doubt to produce certificates of birth to eliminate the chances of youthful applicants obtaining licenses through fraud.

It was learned the driver of the car which killed the boy in Long Branch had obtained his license just a few hours before the accident by misrepresentation.

Wood Brown Fall Shoes for Women

BOSTON, July 10.—A wood brown shade for women's shoes will be the fashion in October, November and December to harmonize with the prevailing blue and green shades of women's apparel forecast for those months, a committee of 100 shoe manufacturers, merchants and tanners, which met in connection with the National Shoe and Leather Exposition here, decided today. Three hours of deliberations and discussions preceded the announcement of the committee's finding.

AUTOS CAUSE DEATH OF THREE CHILDREN

Mother's Car Sends Boulder Down Palisades, Killing Her Daughter.

TRUCK RUNS OVER A GIRL

Man Is Killed When Machine Goes Over Embankment—Many Hurt in Accidents.

The failure of Mrs. George J. Kelly to put on the brake of her car when she reached the edge of a bluff overlooking the Hudson River near her home in Hackensack on Monday afternoon resulted in the car sending a large boulder down the cliff, which killed her 4-year-old daughter Alice.

Half an hour before the accident Mrs. Kelly, accompanied by Alice, her three small sons and the three children of Henry Beakes, a neighbor, started from her home, at 271 Hamilton Place, for the beach at the foot of the Palisades near the Hendrik Hudson Drive. The seven children and Mrs. Kelly got out of the car and were starting down a path toward the beach when Mrs. Kelly noticed the car slowly backing toward the decline.

She ran back and applied the brake just as the rear of the car struck the boulder. Alice and her brother, John, 6, were within ten feet of the boulder as it plunged over the bluff. Francis Beakes, 6, pulled John out of danger as the stone struck Alice on the head and killed her.

Ida Bell, 8 years old, of 101 West 137th Street, was killed by an automobile yesterday afternoon at Lenox Avenue and 137th Street. Santo Mechale, driver of the automobile, of 303 East Seventy-third Street, was locked up in the West 135th Street Station on a technical charge of homicide.

Daniel Riordan, 76, who was the custodian of Public School No. 76, Sixth Avenue near Second Street, Brooklyn, and lived at 1,816 Decatur Street, was killed last evening when the automobile in which he was riding with his wife, son and daughter, plunged over an embankment at Milford, N. J. The car turned over and Mrs. Riordan, her daughter Martha and her son received slight injuries and were attended by Dr. Barclay of Milford, N. J.

Four Hurt in a Crash.

The conductor and three passengers on an open northbound Sixth Avenue surface car, were injured last evening in front of the Jefferson Market Court House, at Ninth Street, when a motor truck was jammed against an Elevated pillar. The impact hurled the car across the southbound track, and traffic was blocked for more than an hour.

Mrs. Carmella Denezo of 14 Bedford Street, who was seated in the front part of the car, received a fracture of the right leg and internal injuries; Genaro Limtro of 7 Cornelia Street was cut about the body; John Brennan of 823 Columbus Avenue had his right leg fractured and suffered internal injuries, and Harry Bechman of 140 West Ninetenth Street, the conductor, suffered a fracture of the right leg. All were attended by Drs. Toomey and Hayes and removed to St. Vincent's Hospital.

Rafaels Malic, 8, of 406 Madison Street, Hoboken, was killed last night when run over by an automobile truck owned by the Keystone Dairy Company of Hoboken. The accident happened in front of the little girl's home, where she was at play. Her left arm was amputated. The wheel is said to have passed over her head and neck. Albert Zych, driver of the truck, was arrested on a charge of manslaughter, and his helper, John Kron, was held as a material witness.

Joseph Stephens of 36 Bleecker Street was seriously injured last night when he was knocked down by a car operated by Emil Gerstenberger of 173 Rolland Avenue, the Bronx, at Lafayette and Kenmore Streets. He was taken to St. Vincent's Hospital.

Barron Collier, Special Deputy Police Commissioner in charge of the Bureau of Public Safety, issued a statement yesterday in which he said that forty children were killed in the streets of the city last month, and that fifty-three killed in the same month in the preceding year. The report also showed that of this number twenty-three children were killed by vehicles, but only three were killed at street crossings.

Each of the other twenty children was killed while crossing the streets between intersections, the form of carelessness described in the police campaign against street accidents as "jay-walking." The report also showed that ten children were killed while playing in the street, three ran from the sidewalk in front of vehicles, and one was killed while stealing a ride on a motor truck.

Statistics compiled by Mr. Collier on the number of street accidents in which children were injured last month showed that seventy-four were due to children carelessly riding bicycles, twenty-five resulted from children jumping on and off cars, twenty-one fell into excavations and sixteen fell from trees, poles and fences.

A total of eighty-five persons were killed in accidents of all kinds in the streets. Forty-five were killed by vehicles, but only fifteen met death at street intersections. Reckless driving, speeding and turning corners rapidly were responsible for five persons being killed and eighty-three injured.

Speeders Go to Workhouse.

Four automobile drivers received prison terms for recklessly operating their cars. Herman Bischoff of 215 West Twenty-first Street had his license revoked and was sent to the workhouse for five days when he was found guilty by Magistrate Frederick B. House in the Traffic Court. His car struck a woman at Broadway and Fifty-ninth Street.

Daniel Burns of 703 Pelham Road, New Rochelle, who was accused of recklessly driving his car at Sixth Avenue and Fifty-second Street, and Harry Simon of 188 East 101st Street, who was arrested by a highway inspector while speeding at Lexington Avenue and 103d Street, received sentences of fifteen days each in the workhouse.

Cornelius Desmond of 264 Tenth Avenue, Astoria, was sent to the workhouse for ten days when he was convicted by Magistrate Marcy Miller in the Flushing Court of speeding. The Magistrate said he would ask that Desmond's license be revoked, as he had previously been convicted six times for violating traffic regulations.

WOMAN'S ACCOSTER JAILED.

Salutation "Hello, Kid!" Puts Man Ten Days in Workhouse.

Because he greeted a young woman whom he didn't know with the salutation, "Hello, kid!" Joseph Clements, 34 years old, who said he lived at 22 Mulberry Street, was sentenced to ten days in the workhouse yesterday. Miss Lillian Doran, 23 years old, of 236 East Fifty-fifth Street, appeared as complainant when Clements was arraigned before Magistrate Moses R. Rytternberg in the Tombs Court.

Miss Doran said that on Monday evening when she was passing through Mulberry Bend Park Clements smiled at her and then made the remark. Policeman Caffey of the Oak Street Station, to whom the young woman complained, arrested Clements.

"The women of this city must be protected from park loafers of your kind," said the Magistrate in passing sentence.

RUHR STEEL OUTPUT DROPS 75 PER CENT.

French Soldier Wounded, German Killed, in Attack on Patrol.

Copyright, 1923, by The Chicago Tribune Co.

DUESSELDORF, July 10.—Steel production in the Ruhr has fallen 75 per cent. during the French occupation, which finishes its sixth month tonight.

On June 1 there were thirty-two blast furnaces in the Ruhr and the district immediately depending on it, producing 4,700 tons. This amounts to just 25 per cent. of the steel production on Jan. 10, and it is still declining rapidly.

The French report, that they are operating 3,500 train miles daily in the occupied territory. Civilian passengers are averaging 54,000 a day, and 10 per cent. of these are said to be Germans. Railway receipts for ten days ending July 1 were 38,000,000,000 marks, of which 8,000,000,000 marks were from freight.

In the railway yards near Kaiserslautern a French soldier was severally wounded, and one German killed today in an attack upon a patrol.

In Recklinghausen the French arrested twenty-six observers who are members of an organization formed to check the operations of French trains.

Eighteen members of a secret society of Nationalists were taken in a raid on their headquarters in Hamborn, where revolvers, ammunition, bicycles and anti-French propaganda were also seized.

NOVA SCOTIA STRIKE GROWS

2,400 More Miners Quit in Pictou Area—Troops at Glace Bay.

SYDNEY, N. S., July 10.—The joint strike of steel workers and coal miners in the Cape Breton area suffered its first setback tonight when the miners of Springhill, Cumberland County, voted to remain at work in compliance with the instructions of John L. Lewis, International President of the United Mine Workers of America. The vote was 167 to 27.

During the day about 2,400 miners in Pictou County joined the strike.

Another development was the dispatch of 500 soldiers and provincial police from Sydney to No. 2 mine at Glace Bay, which they occupied without disorder.

Colonel MacDonald, Commissioner of Provincial Police, reported soon after the troops had taken possession that coal cars had been taken into the power plant without interference.

NORTH SYDNEY, N. S., July 10.—Employes of the Bras d'Or Coal Company's Toronto mine today voted 61 to 30 to strike in protest against the arrest of Dan Livingstone and J. B. MacLachlan.

HALIFAX, N. S., July 10.—Applications for bail were made at habeas corpus proceedings in Supreme Court today by Dan Livingstone, President, and James B. MacLachlan, Secretary, of District 26, United Mine Workers of America, who are charged with having circulated false and malicious reports in a call for a general strike of coal miners.

Two applications were made, both of which were opposed by the Attorney General, W. J. O'Hearn. The hearings were continued.

SAYS 2 BOYS ROBBED HIM.

Man's Cry Brings Policeman, Who Gets One Lad After a Chase.

A cry for help which came from a construction gangway in front of the Citizens' Savings Bank, 58 Bowery, late last night brought Patrolman Fitzpatrick from Canal Street and the Bowery on the run. As he pounded up the street two boys emerged from the cover of the temporary shed and fled. The patrolman took out after one and in a five-block sprint caught Alexander Seniano, who said he lived at 182 Hester Street. His companion escaped.

The outcry which brought the patrolman was made by Frank Lowe of 17 Rivington Street. He declared that as he passed the bank the two boys attacked him. One pinned his arms behind, he said, while the other took the only money he had, a $5 note. Young Seniano, who is 13 years old, was sent to the Children's Society for juvenile delinquency.

GREENHOUSE AS MORAL AID.

$4,000 Building Intended to Uplift Penitentiary's Inmates.

"I believe in morals, too, but I do not favor spending $4,000 for moral effect," said Freeholder William Hines at a meeting of the Essex County Board of Freeholders in Newark, N. J., yesterday.

This remark was in reply to the proposal of Mrs. Elizabeth A. Harris that the board construct a greenhouse at the county penitentiary at North Caldwell, at a cost of $4,000. Mrs. Harris said the greenhouse would provide more work for the prisoners and have a moral effect on them.

The board approved and the greenhouse will be erected.

LINER VAUBAN FLOATED.

Steamer Apparently Not Damaged When She Struck Coral Reef.

The passenger liner Vauban, which struck on the coral reef off the entrance to the harbor of Hamilton, Bermuda, on Monday, was floated yesterday at 6 A. M., apparently undamaged, according to a cable dispatch received here by the agents of the Lamport and Holt Line.

She proceeded to Hamilton to land some of her passengers from South American ports and her bay supplies and is expected to arrive in New York on Friday.

SCHOONER CAPSIZES.

Two Nova Scotians Are Drowned, Others Found in a Small Boat.

HALIFAX, N. S., July 10.—The auxiliary schooner Arequiba of Shelburne capsized near here today and two men, Sinclair Thorburn of Shelburne and Harold Hemeon of Liverpool, were drowned.

The Arequiba, a small fisherman, carried a crew of five. The survivors were found in a lifeboat by the steamer Rosalind fifteen miles southwest of Liverpool Buoy in a strong west-southwest gale and heavy sea. They were taken to Hope.

Philadelphia's Tower Clock Stopped

Special to The New York Times.

PHILADELPHIA, July 10.—For the second time since its installation in 1876, the clock in the Independence Hall tower has been stopped. The hands have been dismantled, and the bell won't ring for about two weeks. The clock and bell were presented to the city in 1876 by Henry Seibert, who was told at a spiritualist seance in New York that his dead mother urged him to give a clock and a new bell for the tower of Independence Hall.

Barge Employe Drowned.

The body recovered from the Hudson River off Fifty-first Street Sunday was identified yesterday as that of John Stanley Ditmar, 28 years old, of 86 Franklin Street, Buffalo, employed as mate on a barge. He was a World War veteran. He had been missing since July 4. It is believed he fell overboard.

FREE ADVICE LANDS CARPENTER IN COURT

Wrote Letters to Vanderbilt, Harding and Poincare, Detectives Charge.

HELD FOR OBSERVATION

Complained to Financier That His Daughter Refused to Meet Him.

Walter F. Kasser was arrested last night in his furnished room at 135 East Sixtieth Street because he tried to combine letter writing and free advice with the humdrum of carpentering. W. K. Vanderbilt, Premier Poincaré and President Harding were some of the notables to whom he offered his advice.

Several days ago Kasser wrote to Mr. Vanderbilt complaining that Miss Muriel Vanderbilt was not paying attention to his serious intentions. Only last week he had written to her, making an appointment for Rockville Centre, and when he got there he found he was alone. This sort of thing, in the opinion of Mr. Kasser, should not be done, but he declared that he would overlook it this time. A dowry of about $1,000,000, he added, would be the right thing for Mr. Vanderbilt to bring to the marriage.

In order to keep his message from going astray the carpenter put his address on the envelope. Detectives James Smith and Harry Lavan called on the "suitor" last night, and they said that they found a number of clippings and letters in his room. For instance, Kasser wrote to the President suggesting that he (Kasser) was the logical candidate for Secretary of the Interior. He also criticised the woman voter, and Miss Mary Garret Hay in particular.

"France had better pull those French soldiers out of Germany," cautioned Kasser to Poincaré, "or I'll be forced to join the Russian army and drive them out."

Kasser was taken to Night Court, where Magistrate Earl A. Smith found him guilty of disorderly conduct and sent him to Bellevue Hospital for observation.

CONSIDER TUG WAGE OFFER.

Engineers Weigh Compromise Proposal of Owners Three Hours.

Marine Engineers' Beneficial Association, No. 33, held a three-hour session last night, at which the offer made by the Towboat Owners' Exchange in an effort to avert a harbor strike was considered. No announcement of what the engineers did was made, but it is expected an answer will be given to the owners today.

A committee representing the owners met with officers of the engineers last Friday and offered a compromise settlement of the demands made by the engineers for 20 per cent. increase in wages, a straight nine-hour day and time and a half for overtime.

WHEAT AT A DOLLAR QUOTED IN CHICAGO

Continued from Page 1, Column 1.

June 15 the index figure of prices for meat ammals was about 16.3 per cent. lower than a year ago 4.1 per cent. lower than two years ago and 28.2 per cent. lower than the average of the past ten years on June 15."

More Estimates Announced.

In a further announcement the board today made the following estimates from the reports of its correspondent and agents of the conditions of crops on July 1 in comparison with normal conditions (100 per cent.) on that date, average, 1918-1922, July 1, 1922, July 1, 1923.

Crop.	1918-1922.	July 1, 1922.	July 1, 1923.
Alfalfa hay	88.8	86.9	89.1
Apples	80.8	66.8	67.0
Barley	90.0	92.6	96.1
Beans	96.4	87.1	89.4
Blackberries, &c.	94.7	88.1	85.2
Broom Corn	91.8	74.5	83.0
Cabbage	86.9	88.3	83.4
Clover hay	84.4	77.0	87.7
Corn	85.2	85.1	84.9
Cotton, 15th ut.	76.0	71.2	69.9
Flax	84.8	87.6	85.0
Grain sorghums	85.2	87.6	83.2
Grapes	85.8	90.7	85.9
Hay	85.5	88.7	91.1
Hops	90.2	94.7	87.6
Melons	90.9	81.7	79.6
Millet	89.4	93.1	88.7
Oats	84.0	74.4	82.5
Onions	87.8	85.8	88.4
Pasture	88.1	79.0	85.5
Peaches	86.3	74.2	65.3
Peanuts	84.4	79.8	85.2
Pears	80.6	89.8	82.2
Potatoes	87.4	87.2	86.4
Rice	90.0	88.6	86.4
Rye	86.7	89.9	94.0
Sorghum for syrup	84.9	82.5	81.0
Spring wheat	85.1	83.7	82.6
Sugar beets	88.3	94.7	88.3
Sugar cane, La.	83.0	84.0	80.0
Sweet potatoes	86.2	88.2	88.8
Timothy hay	83.7	88.3	75.1
Tobacco	84.1	82.7	82.3
Tomatoes	85.9	87.0	82.0
Winter wheat	81.4	77.0	76.8
Calif. and Fla.:			
Almonds	79.2	79.0	77.0
Apricots	88.5	89.0	102.0
Cherries	78.0	70.0	81.0
Figs	86.2	91.0	82.0
Grape fruit	78.8	90.0	90.0
Lemons	79.9	84.0	88.0
Limes	79.2	81.0	81.0
Olives	77.0	80.0	75.0
Oranges	79.2	87.8	92.3
Pineapples	79.6	95.0	90.0
Plums	74.0	79.0	97.0
Prunes	77.1	78.0	81.0
Walnuts	84.1	86.0	90.0

World Cereal Acreage Larger.

The estimate of an acreage of 56,-235,000 acres of wheat under cultivation in the United States on July 1, 1923, has enabled the Government statisticians to estimate the world cereal acreage on the basis of all countries reporting. The acreage showing is:

	1923. Acres.	1922-1932. Acres.
United States	61,235,000	68,356,000
Canada	22,425,000	22,186,000
Europe	33,281,000	33,096,000
India	36,234,000	30,402,000
Japan	1,230,000	1,196,000
Africa	1,850,000	6,811,000
Total	175,400,000	176,815,000

An analysis of official reports and forecasts on the acreage of wheat shows that there has been a slight decrease in the acreage in the United States and Canada, but increases in Europe, India and North Africa have more than made up for these. The Winter wheat crops of the Northern Hemisphere have been practically made. The wheat crop of Northern Africa is good this year, whereas last year it was a failure, and North Africa will have wheat to export while last year that region imported wheat.

The India wheat crop has been harvested and it is estimated that the crop is more than 90,000,000 bushels greater than last year. European countries reported to date show an increase of 767,000 acres over the acreage in the same countries last year and crop conditions are generally better, being above the average, while last year they were below.

The showing for Europe does not include Russia and Germany. The Winter wheat seeded in Russia is reported to be considerably greater than last year and a larger Spring wheat acreage is expected. No official estimate of the wheat acreage in Germany has been received, but a slight increase is expected. The present condition of the German crop is above the average and better than last year.

Summarizing the changes the United States and Canada have slightly reduced areas of cereal crops, except barley in the United States, while Europe has increased areas in all cereal crops.

YORK SAFES
The New Bowery Savings Bank
is conceded the last word in architectural beauty and modern protection.

Gigantic YORK Vaults night and day guard the funds intrusted to the Bowery Savings Bank.

PERSHING INSPECTS 3,000 BOY SCOUTS

Accompanied by Gov. Smith, He Visits the Camps at Bear Mountain.

HE TALKS ON MILITARISM

Opposed to Military Training in the Organization, but Would Teach Citizenship.

General John J. Pershing, accompanied by Governor Smith of New York and Governor Silzer of New Jersey and a party of about five hundred officials, yesterday inspected the encampment of 3,000 Boy Scouts and the Girl Scout and Welfare camps in the Palisades Interstate Park. The Governors and the many legislators included in the party killed two birds with one stone by making this occasion an official inspection of the park.

Men from all parts of the country interested in the Scout movement to the number of two hundred or more spent Monday night in tents in order to experience Scout life at first hand.

After luncheon at Bear Mountain Inn there were speeches by the distinguished visitors. General Pershing in his address referred to the criticism that the Boy Scout movement was tending to militarize the youth of the country. "I would not introduce military discipline or training into the Boy Scout program if I could," said General Pershing. "I believe that the work you are doing is perhaps more broadening than that which would be given under a military régime. In any event you are teaching boys the right thing—citizenship. Any man who is a good citizen will make a good soldier in time of peril. We have three million boys in this country that you might consider available, boys who are just passing the age when they feel the responsibilities of citizenship, when they should be surrounded by conditions conducive to clear thought and clean bodies."

Governor Smith, in a brief speech, declared himself "a Scout enthusiast." Governor Silzer referred to the nine thousand homeless boys in his State and appealed to the Boy Scouts for aid in helping them.

General Pershing and the Governors shook hands with their young hosts for more than an hour in the early afternoon, and then motored on to West Point, where they reviewed the cadets.

"When two Governors meet there is something that might be said," said Governor Smith. Governor Silzer interpreted the remark to mean what the Governor of North Carolina said to the Governor of South Carolina, according to tradition, "It's a long time between drinks." General Pershing remarked that he had seen the two Governors "in a room together."

The officers elected yesterday were: President Warren G. Harding, Honorary President; Woodrow Wilson, Chief Justice William Howard Taft, Daniel Carter Beard and William G. McAdoo, Honorary Vice Presidents. The active officers elected were: Colin H. Livingstone of Washington, President; Mortimer Schiff of New York, Milton A. McRae of Detroit, Benjamin L. Dulaney of Bristol, Tenn., Walter W. Head of Omaha, Charles C. Moore of San Francisco, Vice Presidents; Daniel C. Beard of New York, National Scout Commissioner; Mortimer L. Schiff, International Commissioner, and George D. Pratt of New York, Treasurer. The following were elected members of the Executive Board: Myron T. Herrick, Ambassador to France; Clarence H. Howard, St. Louis; Charles T. Neill, Washington; John M. Phillips, Pittsburgh; Theodore Roosevelt, Assistant Secretary of the Navy; James J. Storrow, Boston; Barron Collier of New York, and Newcomb Carlton, Mr. Dulaney and Mr. Livingstone.

MUCH TAKES THE STAND.

Morse Defendant Tells of Finances of Shipbuilding Corporation.

WASHINGTON, July 10.—Rupert M. Much, one of the seven men on trial here with Charles W. Morse on charges of defrauding the Government in connection with wartime shipping contracts, took the witness stand today—the first defendant to testify before the jury.

He offered testimony concerning the capital stock of the Virginia Shipbuilding Corporation, a Morse concern, of which he formerly was assistant treasurer; the $2,000,000 bond issue which, he said, was pledged as collateral security on the company's debts, and the housing situation early in 1918 in Alexandria, Va., where the shipbuilding plant is located.

Much took the stand after former Representative Charles C. Carlin of Virginia had testified for the defense that Charles M. Schwab, Director General of the Emergency Fleet Corporation in 1918, was of the opinion that the Morse plant at Alexandria was "the best shipyard in the country."

Mr. Much testified that the $1,000,000 capital stock of the Virginia corporation was paid in cash. At the direction of the Board of Directors, he said, he invested $830,000 in securities and notes, which were deposited in a vault in an Alexandria bank. The investments, the witness declared, realized about $775,000 in cash, which was used to meet payrolls and other bills of the Virginia company.

Testimony also was offered by Mr. Much that the housing facilities at Alexandria were severely taxed, the Morse Company finding it impossible to find living quarters for its workmen.

HEAT WAVE KILLS ONE.

Another Is Prostrated When Mercury Reaches 88.

The return of the heat wave yesterday resulted in one death and one case of prostration. Alex Peterson, 40 years old, a seaman, stopping at 77 Summit Street, died in the evening in the Hamilton Avenue Station in Brooklyn. He was overcome on the sidewalk a few doors away. Robert Sanders, 34 years old, of 686 Lenox Avenue collapsed from the heat in front of 141 Fifth Avenue. He was attended by an ambulance surgeon and went home.

Riding on a Lexington Avenue surface car last night Miss Nettie Harriman, 28 years old, of 119 Edgecombe Avenue, fainted as the car passed Twenty-fourth Street. The conductor called Dr. Trimble from City Hospital, who said Miss Harriman had been overcome by heat. She was revived and taken to her home.

The Weather Bureau reported that the highest temperature during the day was at 4 o'clock in the afternoon, when the thermometer reached 88 degrees. The average for the twenty-four hours was 78 degrees.

P. R. R. Ignores Rail Board Hearing

CHICAGO, July 10.—Officials of the Pennsylvania Railroad who were scheduled to appear this morning at a public hearing of the Railroad Labor Board involving the question of recognition by the carrier of the Conference Committee of the Order of Railway Telegraphers failed to appear. The Order of Telegraphers introduced testimony before the board which tended to show that the Pennsylvania system had ignored the working agreement of the telegraphers by alleged withdrawal of certain sections of the agreement without conference with the employes.

WOMEN DISAGREE ON MINIMUM WAGE

Stress Sex Equality in Industry at Business and Professional Convention.

PORTLAND, Ore., July 10 (Associated Press).—Spirited debate on the question of a minimum wage for women workers was the feature of the session this afternoon of the National Convention here of the Business and Professional Women's Clubs.

Speakers representing Washington and Oregon, where minimum wage laws are in effect, spoke in favor of the laws, while delegates from Indiana, Iowa and Illinois opposed the minimum wage idea in principle. The Western delegates told of the benefits derived from the law and the Middle Western women voiced opposition on the ground that equal opportunities should be given in industry to both sexes.

The legislative committee is to report resolutions tomorrow. Mary Stewart of Washington, D. C., indicated that the resolutions would deal with the question on the general ground of special legislation.

W. L. Brewster of Portland, Chairman of the Oregon Industrial Welfare Commission, in an address said the State minimum law had been so successful that employers, after the United States Supreme Court held the minimum wage law of the District of Columbia unconstitutional, had passed resolutions informing the Welfare Commission that they desired the laws enforced in spite of the high court's action.

Marion E. Hoagland of Indianapolis took a stand against the minimum wage asking: "Why should women permit themselves to be placed on a lower plane than men? I do not see any reason why women should accept a minimum wage any more than men should."

TO ARM PACIFIC SHIPS AGAINST OPIUM BANDS

Treasury Grants Authority as a Check Against Honolulu Drug Smugglers.

HONOLULU, July 10 (Associated Press).—The Treasury and Navy Departments have authorized transpacific liners to mount machine guns on their decks for use against smugglers of opium into Honolulu, according to a statement made today by Harry Murray, Collector of Customs, who has just returned from Washington.

Opium now is cheaper in Honolulu than it has been for years, say officials, who declare that it is being smuggled in at the rate of 500 tins monthly.

MAY BARGAIN ON PULPWOOD.

Canadian Proposal to Bar Export May Be for This Purpose.

Special to The New York Times.

OTTAWA, Ont., July 10.—Reports from the United States of growing concern in the pulp and paper industry over the passage of the bill empowering the Canadian Government to prohibit by Order-in-Council the exports of pulpwood cut on privately owned land, coming as they have on the eve of the appointment of the commission that is to enquire into the whole subject, have attracted attention here.

The statement that as soon as the Governor General gives assent to the bill the State Department will probably make strong representations to the Canadian Government by way of protest are not taken seriously. The royal assent has already been given, but it is difficult to see how on this ground the American authorities can take action. All the legislation does is to empower the Governor-in-Council to do something, which being a purely domestic matter, is of no concern to a foreign Government. Not until the Government gives notice of its intention to prohibit export can the American Government very well take action, it is said here.

There is no doubt that considerable pressure is being exerted to secure the prohibition of export of pulpwood, but the Government is committed to an inquiry by a commission before taking any action.

It is believed the Government has two objects in view in taking the extraordinary power of embargo on export, one being for the purpose of bargaining to secure traffic or other concessions from the United States, possibly an assured supply of anthracite, and the other to force American companies to inaugurate a better system of fire protection in their timber limits in Canada and help in reforestation.

INDIAN LANDS RECLAIMED.

600,000 Acres Irrigated and 365,000 Under Cultivation.

Reclamation of arid and semi-arid lands on Indian reservations has reached such large proportions that almost 600,000 acres can now be irrigated and 365,000 acres are under actual cultivation, according to a bulletin recently issued by the Indian Office of the Department of the Interior.

"The cost of these projects totals $20,500,000, with the cost of operation and maintenance running $5,000,000," says the bulletin. "There are eleven storage reservoirs now located on Indian reservations furnishing water to irrigate lands for the Indians and sixty-five dams, twenty-one of which are storage and forty-four of which are diversion dams. The capacity of the storage reservoir alone is 381,106 acre-feet of water."

Canals, big and small, constructed to carry the water to the fields, cover a total distance of 4,795 miles, not including waste ditches, which approximate 188 miles. The number of tunnels built reaches eleven and combined are 7,210 feet in length.

Many of the reclamation projects upon Indian reservations have not been completed and it is estimated that it will take $32,000,000 additional money to construct them. When finished they will irrigate an area equal to 1,892,197 acres.

The five largest projects on Indian reservations are located on the Fort Peck and Flathead Reservations in Montana, Klamath Reservation in Oregon, Yakima Reservation in Washington, and the Colorado River Reservation, Arizona.

Gold Star Mother a Suicide.

PATERSON, N. J., July 10.—The body of Mrs. Mary Stratton, 52 years old, who had been missing from her home since last Thursday, was found today in bushes in a wooded part of Firs Mountain, near Haledon. She had taken lysol. Mrs. Stratton had brooded over the death of a son in the World War.

FIGHT WITH KNIVES ON ELEVATED TRAIN

Onlooker Slashed as Twenty Men Engage in Battle Following an Argument.

OTHER PASSENGERS FLEE

Policeman Chases Brawlers From Third Avenue Station and Captures One—Cause of Row Unknown.

A score of Italians fought for five minutes with knives on a north-bound train of the Third Avenue elevated line early last night, while passengers scurried to safety in the adjoining cars. As the train entered the Ninth Street station, Patrolman John O'Hare, attached to the Detectives' Training School, reached the scene of disorder after forcing his way through three rear cars jammed with passengers.

O'Hare saw several men rush from the second car to the front platform, brush the guard aside, hurdle the gates and disappear down the stairway. He followed and captured the last one.

Marching his prisoner back to the station platform, O'Hara saw passengers gathered about Joseph McCann, a salesman, of 453 East 183d Street, the Bronx. McCann's face was badly marked with knife cuts and his clothing was slashed in several places.

"That is one of them," he shouted, indicating O'Hare's prisoner.

McCann was treated by an ambulance surgeon from Bellevue. McCann said he had been seated in the centre of the second car. Before the train reached Houston Street, he said, several Italians near by had been arguing, but he paid no attention to them.

Suddenly, he said, the men began to fight, swinging their knives at random. Passengers near the doors made a hurried exit, but McCann, caught in the melee, was cut several times before the train stopped and the combatants disappeared.

The prisoner said he was Tony Benigno, 35, a shoemaker, of 32 Baxter Street. He refused to tell who his companions were or what had caused the fight. Benigno was locked up in the Fifth Street police station, charged with felonious assault.

LOVE FOR FLAG TAUGHT.

Gold Star Mothers Open Bible School on the East Side.

It was because a Gold Star Mother heard that in a section of the lower east side there was a group of boys who had refused to salute the American flag that she started the Gold Star Vacation Bible School, which is now in the People's Home Church and Settlement, 543 East Eleventh Street.

This Gold Star Mother lost her three children in the war, and she received some insurance from one of them. She wondered how with this money she could best further the cause for which her sons had given their lives. So the Gold Star mother set out to interest other mothers who had also lost their sons, and they joined her in raising enough money to open a daily vacation bible school, so that the boys and girls could be taught why the American soldiers, the sons of the mothers behind the school, had been willing to give their lives for what the American flag represents. All these Gold Star mothers wish to remain anonymous.

Such a school was started last Summer in the Emmanuel Presbyterian Church, 727 Sixth Street. It was continued through the Winter as the Gold Star Club. At the beginning of vacation the school was changed to the People's Home Church and Settlement and placed under the direction of the Daily Vacation Bible School Association, 383 Madison Avenue. Its sessions are held each week-day morning except Saturday from 9 to 12 o'clock. A Gold Star Camp is maintained in connection with the school. The camp is at Bernardsville, N. J. The Chairman of the association is the Rev. Dr. Millard L. Robinson, who also is general Secretary of the New York City Methodist Mission Society.

THEFT ATTEMPT CHARGED.

Woman Causes Arrest of Man in Pennsylvania Station.

A man who said he was Joseph Welsh, 56 years old, of 122 West Seventy-fourth Street was arrested yesterday afternoon in the Pennsylvania Station on complaint of Mrs. A. Bryant of 205 Second Avenue, Belmar, N. J., and taken to Police Headquarters charged with attempted grand larceny.

Detective Joseph Woods of the Pennsylvania Railroad police was in the station when he was approached by Mrs. Bryant, who pointed out a man near by and told of an attempted robbery. She asked that the man be arrested.

The detective walked over to the man designated and told him that he had better accompany him to the West Thirtieth Street Police Station. Mrs. Bryant was asked to go along as complainant.

At the station Mrs. Bryant said she had just got off a train and was walking through the concourse when a man made a suspicious move toward her purse. She said she was carrying about $300 in cash.

Throughout the entire affair Welsh maintained a quiet and dignified bearing, insisting that there must be some mistake. He said that he was not in need of money.

At Police Headquarters the blotter shows no occupation for Welsh. When the Seventy-fourth Street address was called, a woman who said she was Mrs. Welsh answered. She said her husband was an advertising man and that he had been at the Pennsylvania Station on business. She said that the purse-snatching charge was preposterous and added that some one must be mistaken.

Allows Appeal of House of David.

GRAND RAPIDS, July 10.—Judge John E. Sater has filed an order in the Federal District Court here granting the request of Benjamin and Mary Purnell and the Israelite House of David for permission to appeal from his decision in the case of John Hansel. Sansel received a verdict against the colony for the value of his work as well as that of his wife and his children while members of the House of David colony at Benton Harbor.

TO MOVE A MOUNTAIN FOR A GREAT PARK

Continued from Page 1, Column 2.

Rockland Lake, as it has to Bear Mountain. Two steamers of the Interstate Commission ply between that resort and New York every day, the Onteora and the Clermont.

"More damage has been done to the scenery along the Hudson above Nyack by the excavations than any one could think of," said the engineer. "We have to remove the rest of the rock, virtually moving the mountain, and letting the rock pay for the work. We should have no difficulty getting permission for this work, for we are asking no appropriations.

"We need another playground like the one at Bear Mountain, and we need the road to permit automobilists to come up. So far this year we have had over 2,000,000 people come to Bear Mountain. On an average Sunday about 4,000 cars come up, and of these approximately 60 per cent. are from New Jersey. New Yorkers find it almost impossible to come up because of the congestion of the road. The cars virtually creep along."

The plans of the commission were unfolded to the two Governors aboard the steamboat Onteora. As it approached the mountain Major Welch had engineers' plans with him and also a plaster model of his proposal.

"The way to get those fellows to work for nothing is to tell 'em King Tut is buried there," remarked Governor Smith; "that will make 'em dig."

Governor Smith assured the engineer he would do everything he could to make the commission plans real. "We certainly need it," he told Major Welch. "I don't see how there can be any opposition. Go to it, and do it quickly."

The Governor said he would advocate the passage of a bill in the Legislature which would permit the commission to proceed with the work. The engineer said it would take about seven years to complete it.

With the Governors on the Onteora were about 250 State Senators, Assemblymen and other invited guests. When the boat arrived at Bear Mountain the guests went to the inn for lunch, after which they went on a 70-mile inspection trip in motor buses. They visited the Boy Scout camp at Lake Kahnawankee, where 2,500 boys stood at attention when the Governors passed them. From there the party proceeded to Lake Stahahe and thence to Storm King Mountain.

Governors Smith and Silzer then went to West Point, where they reviewed the cadets.

The Commissioners on the inspection tour were J. D. Pratt White, William D. Porter, Edward T. Partridge, George W. Perkins Jr., Richard T. Lindabury, Franklin W. Hopkins and Frederick C. Butzo.

TELLS DEATH SCENE AT CREIGHTON TRIAL

Nurse Describes Change in Condition of Patient During Absence From Room.

DEFENDANT WAS IN CHARGE

Newark Woman, Accused of Poisoning Mother-in-Law, Appears Undisturbed.

Two of the most important witnesses for the State testified against Mrs. Mary Fanny Creighton yesterday in the Essex County Court, Newark, indicating their belief that her mother-in-law, Mrs. Walter John Creighton, died of arsenical poisoning. Mrs. Mary Creighton is on trial for first degree murder in connection with the death. With her husband, John, she was acquitted three weeks ago of a similar charge in connection with the death of her brother, Charles Raymond Avery.

After an indictment of the murder of Avery was returned, an order was issued for the exhumation of the body of Mrs. Walter Creighton who died on Dec. 1, 1920. An autopsy was said to reveal arsenic in the vital organs and the indictment for the second death followed.

Probably the star witness for the State was placed on the stand in the afternoon by Victor D'Alois, Assistant Prosecutor. She was Mrs. Florence Morris, the nurse who was engaged to care for Mrs. Walter Creighton on the advice of Dr. Thomas Boyle, the family physician, who attended young Avery.

Mrs. Morris said she came to the Creighton home and took charge of the case about 11 o'clock on the night before death occurred. She described in detail the medicines she administered throughout the night and declared that Mrs. Creighton's condition seemed satisfactory.

On the following morning, Dec. 1, Mrs. Morris said she went down to the kitchen to prepare breakfast for her patient, meeting Helen Avery, Mrs. Mary Creighton's sister, who volunteered to look after the sick room in the meantime. Mrs. Mary Creighton, according to Mrs. Morris, told Miss Avery to help the nurse and said she would stay with her mother-in-law. At that time, Mrs. Morris said, her patient had shown improvement.

Found Patient Terrified.

Mrs. Morris declared she remained in the kitchen about twenty minutes. Then she returned to the patient's room with the breakfast tray. As she entered, the nurse testified, the patient appeared terrified. Mrs. Mary Creighton, she said, was seated beside the bed.

"What has happened?" the nurse said she demanded.

Mrs. Morris said her patient could not reply and only made a gurgling noise. She was nauseated, Mrs. Morris continued, and became paralyzed in both legs and in her left arm before death. Dr. Boyle was called. The two worked over the patient for more than an hour, the nurse said, but failed. Mrs. Creighton died shortly before 11:30 that morning. Cross examination by Col. George T. Vickers, of counsel for the defense, revealed little additional information from the witness.

Dr. Boyle, who admitted under cross-examination that he had ascribed Mrs. Creighton's death to cerebral hemorrhage, with ptomaine poisoning as a contributing cause, related the incidents that occurred on the morning of Mrs. Creighton's death much the same as Mrs. Morris had done. He declared that throughout the morning the patient suffered from nausea and was unable to speak or swallow.

Mr. D'Alois, examining the witness, asked him, in view of previous testimony with regard to the autopsy on Mrs. Creighton's body and the analysis of the organs, what, in his opinion, caused death.

"Arsenical poisoning," the physician replied.

Tells of Poison Analysis.

The first witness called yesterday was Dr. Albert Edel, State chemist. His testimony was largely technical and lasted throughout most of the morning. He said he had made the analysis of the vital organs of Mrs. Walter Creighton's body and had found arsenic poison present. There was more than enough to cause death, he said, and added that there was no arsenic in either of the two embalming fluids used. Under cross-examination he said he had found a quantity of bismuth subnitrate, a compound often prescribed and one of whose impurities is arsenic.

Mr. D'Alois indicated a belief that the prosecution would conclude its case this afternoon with the testimony of a number of the Creighton neighbors. Throughout yesterday's session Mrs. Mary Creighton sat in front of the courtroom railing, although her husband was not allowed to sit beside her as he had on the day before. Yesterday a matron sat between the two.

Before court opened John Creighton again expressed faith in his wife's innocence.

"I know that Fanny is guiltless of killing my mother," he said. "If my mother died of unnatural causes I know in my innermost heart that my wife is innocent of responsibility for her death."

RECEPTION FOR PREZZOLINI.

Columbia Welcomes Italian Author, Lecturer at Summer Session.

Guiseppe Prezzolini, Italian author and editor, was welcomed to Columbia University yesterday as the apostle of new relations between Italy and America. Dr. Arthur Livingston, editor of the Foreign Press Service, and a former member of the Columbia faculty, characterized Prezzolini, who will lecture in the Columbia Summer Session, as the interpreter of American ideals to the Italian people.

The Italian author was guest of honor at a reception in Earl Hall, where Director John J. Cross presided and eulogized Prezzolini as personifying the modern journalistic mind of Italy by molding the Italian press after the better grade of New York journalism. Dr. Livingston said that Prezzolini had strengthened the ties between Italy and America by making known to his country the American authors and the ideals of American publishers.

Speaking in Italian, Prezzolini said that a real community of thought and ideals existed between the two nations. Italy, he said, is gratified to know that its cultural efforts found a sympathetic response in the United States.

Following the meeting it was announced that the Summer session registration, while still incomplete, had passed the 12,000 mark.

GERMANY IS SECOND IN BUILDING SHIPS

Construction by All Other Nations Drops to New Low Levels in Last 3 Months.

FOUR AHEAD OF AMERICA

Lloyd's Reports 2,250,000 Tons as World's Total Work in Hand—Biggest Drop in Britain.

With the exception of Germany, the world's shipbuilding during the last three months has declined to new low levels, according to a report issued yesterday by Lloyd's Register of Shipping for the quarter ended June 30.

Shipyards of all nations on June 30 had an aggregate of 2,250,000 gross tons of work, approximately 300,000 tons less than March 30 and 400,000 tons less than six months ago.

The United States, which at the end of March was building 34,000 more tons of merchant ships than at the first of the year, is shown as building 8,000 tons less on the date of the report.

Of the 816,000 tons decrease for all countries combined in the quarter a total of 154,000 tons was in the shipyards of Great Britain and Ireland, so that the British decrease was almost as great as that of all the other nations together.

The report states that Germany now holds second place among shipbuilding countries. She is constructing more than twice as much new tonnage as her nearest competitor, France, and two and a half times as much as the United States. Great Britain and Ireland lead with 1,338,000 tons. Other countries in their order are: Germany, 352,400; France, 170,000; Italy, 141,500; United States, 133,700; Holland, 100,000; Japan, 72,800; British Dominions, 45,000.

Compared with a year ago, says Lloyd's, the British shipyards are building 581,000 tons less; yards of the United States, 17,000 tons less, and those of all other countries, 98,000 less. Compared with ship construction immediately prior to the war, United States yards are building about 15,000 tons less and British yards about 400,000 tons less.

HOLD FOURTH CAMDEN BOY.

Is Accused of Participation in Suburban Robberies.

Special to The New York Times.

PHILADELPHIA, July 10.—A fourth youth was arrested today on a charge of participating in a dozen suburban robberies to which three other youths, one a licensed preacher, were said by the police to have confessed following their arrest yesterday.

The three youths arrested yesterday were graduated from the Camden High School last month, and the boy held today was graduated some time ago.

The youth arrested today is Alpheus Harker, nineteen years old. After questioning by Detectives Smith and Dorn, he is said to have confessed to implication in two of the twelve robberies listed by the police, but denied he had anything to do with the other ten.

"So far," said Detective Smith, "we have recovered only a part of the loot, and it is up to the boys' fathers to make them come through with information that will result in finding the rest of it."

NEW SOVIET NOTE TO PARIS.

Tchitcherin Says Holding of the Wrangel Ships for Debt is Not Justifiable.

Copyright, 1923, by The New York Times Company.
By Wireless to THE NEW YORK TIMES.

RIGA, July 10.—The Soviet Government announces that Premier Poincaré, in his reply to the Russian protest against the sale of General Baron Wrangel's ships, declares that France recognizes that the ships are the property of Russia, but is willing to deliver them only to a legal Russian government, and that France, being a creditor, has the right to detain Russian property.

George Tchitcherin, the Soviet Foreign Minister, has answered M. Poincaré, renewing his protest and saying that the Russian people regard the detention of the ships as an offensive and unfriendly act. The claims of France as creditor, he says, cannot bear examination, because France would not admit the right of Great Britain and America as creditors to detain French ships. The reference in the French note to the Soviet's unwillingness to recognize Russia's international obligations, M. Tchitcherin says, is contradicted by the Soviet's declaration at Genoa of its readiness to recognize Czarist debts providing Russia's counter-claims were also recognized.

WARD JURY MEETS AGAIN.

Fails to Hear Any Witnesses, but Considers Cablegrams, Says Report.

Special to The New York Times.

WHITE PLAINS, N. Y., July 10.—The Extraordinary Grand Jury investigating the circumstances of the killing of Clarence E. Peters a year ago by Walter S. Ward, met again today and failed to hear any witnesses. The Grand Jury is scheduled to hold another session tomorrow.

Attorney General Carl Sherman replaced his deputy, Wilbur W. Chambers, in the Grand Jury room, and it was reported the session was devoted to further perusal of the "Tip Top-Hap" cablegrams exchanged between Walter S. Ward and Ralph D. Ward and their father, George S. Ward, while the elder Ward was in Germany. Every precaution is being taken by Attorney General Sherman to keep the Grand Jury inquiry secret.

NEW THINGS FOR NEW YORK'S GUESTS

Writing as You Travel

When you are in a rush and simply must send a line home, these compact little Hasty Lines are wonderfully handy. They have combination envelope and paper, blotters and stamp pockets, all enclosed in a small case of genuine English Morocco. Royal red, green, blue or black. $1

For the leisurely letter there is rich, clouded, deckle edge paper. Fifty sheets mounted on a pad with square envelopes, tissue lined. White, buff, blue or orchid. Box, $2

Crowds of Bracelets

Bracelets may be simple or elaborate but to be really smart there must be many of them to jostle each other on slim wrists. These are of green, amber, scarlet, black or white composition carved with elephants for luck or lotus flowers for beauty. $1

Moire Bags

Prim little plaits make this one of the season's smartest bags. In fact, you will see them swinging along with the cleverest morning frocks and tailleurs. Moire lining, inside compartment and mirror, silk covered frame and nickel clasp. Grey, green, brown, beige, navy, white or black. $2.65

Gauntlets Become Decorative

"Since gauntlets must have cuffs, let them be flaring and decorated with contrasting cutout patterns; or heavily stitched in crossbars." Thus argued the Paris designer when he planned these soft, fine fabric gloves. They have recently arrived from France.

Found in beige, grey, brown and cream. Pair, $1.75

GROUND FLOOR

Lord & Taylor

SAY NULL GAVE LIFE FOR ROTH IN FLIGHT

Port Stanley Fishermen Deciphering Log, Believe Aid Jumped From Falling Balloon.

NAVAL BURIAL FOR ROTH

Body Will Be Accompanied by Officers to His Father's Home In Cedar Rapids.

PORT STANLEY, Ont., July 10.—The fishermen of Port Stanley, more than a score of them, were out on Lake Erie again early today gathering their outfits and scanning the rippling surface for Lieutenant T. B. Null, missing lieutenant, or his body.

Organized search for Lieutenant Null, companion in the naval balloon A-6606 of Lieutenant L. J. Roth, whose body was found in the balloon basket yesterday, has virtually been abandoned, but it was a fisherman who found the body of Lieutenant Roth, hanging from the basket in the water, and the smaller craft are slowly patrolling the fishing grounds, hopeful of writing the final chapter to the story that began at Indianapolis July 4, when the A-6606, with other balloons, started in the national elimination race.

Some of those who studied fragments of the water-soaked log of the A-6606, found in the rigging of the gas bag when it was picked up Saturday, pretend to see in the few decipherable entries a heroic epic of lake and air.

Wresting out the log as best they can, these lake men believe they can reconstruct, with fair accuracy, the flight, the storm, the wrecking of the balloon and the death of the two naval officers.

Lieutenant Null leaped overboard into the storm-tossed lake, giving himself as human ballast in an effort to save the life of Lieutenant Roth, the pilot, according to the story they see in the log.

Tracing the flight, they believe a storm on Thursday night or Friday morning drove the big bag perilously close to the waters of the lake. The two Lieutenants tossed overboard all ballast. The bag arose, but, caught in the fury of the storm, was again forced toward the water.

Clothing, everything remaining that could be thrown overboard, were removed, but the danger did not lessen. Then, they say, Lieutenant Null leaped from the basket and sank from sight, believing that the balloon, relieved of his weight, would rise and give Roth a fighting chance for his life.

Later, Lieutenant Roth began hacking, cutting and chopping at the ropes that held the basket to the bag. His only hope of safety lay in getting the basket clear from the bag which, buffeted by a wind of gale proportions, was dragging it through the water.

He succeeded, but was probably so weak from his exertions that he was unable to take advantage of the small measure of safety provided by keeping inside the basket, and was tossed about until he drowned.

An indelible pencil was used in writing the log, and the words in most cases are but a purple blur. The story of the tragedy, as pieced together here, is based on the condition in which bag and basket were found, the weather, the direction of the wind, and the few decipherable scrawls in the log.

To Take Roth's Body Home.

CLEVELAND, July 10.—The navy balloon A-6606 piloted in the national elimination balloon race out of Indianapolis, July 4, by Lieutenant Louis J. Roth, with Lieutenant T. B. Null as his aid, evidently dropped into Lake Erie late Thursday night or early Friday.

Lieutenant James H. Strong, U. S. N., who went to Port Stanley, Ont., today and shipped the wrecked balloon and its basket, which with the body of Lieutenant Roth were recovered from the lake, to the naval air station at Lakehurst, N. J., said on his return tonight that he had come into possession of a journal giving the account of the flight. The last entry was made at 11 o'clock Thursday night. It showed that the balloon was flying at an altitude of 12,000 feet.

Examination of the bag showed that a rip panel had been pulled, Lieutenant Strong said. This would indicate, he said, that the airmen either were making a forced landing or were trying to reach a lower altitude. An inventory also found showed that no parachute was carried.

The balloon passed over some islands at 10 o'clock, according to an entry in the journal, and flew over Point Pelee, Ont., a little after that hour. It also showed that several shots were fired at the bag as it flew over Indiana.

The body of Lieutenant Roth will be taken to Cedar Rapids, Iowa, tomorrow for burial. It will be accompanied by Lieutenant Strong, who will act as the Government's official representative at the funeral.

CEDAR RAPIDS, Iowa, July 10—The body of Lieutenant Louis J. Roth will be brought to Cedar Rapids for burial, his father, former Mayor Louis Roth, said today.

Mr. Roth received a telegram from the Navy Department this morning asking if he wished burial at the National Cemetery at Arlington or at Cedar Rapids. The message said the body was being held at Cleveland subject to his orders. Mr. Roth immediately replied that he wished the body sent home.

The flag on the City Hall was at half-mast today. Funeral arrangements will be in charge of Hanford Post, American Legion. It is understood that a naval escort will accompany Lieutenant Roth's body here from Cleveland.

MAY FORFEIT $17,500 BAIL.

Wire-Tapping Suspect Fails to Appear for Trial.

FREEHOLD, N. J., July 10.—Bail bonds aggregating $17,500 issued by the National Surety Company for James Collins, alias C. J. Thomas, under indictment in connection with the alleged fake stock deals of a group of wire-tappers operating from a "club" at 41 Hollywood Avenue, Long Branch, will probably be forfeited, Prosecutor Sexton of Monmouth County declared today. His statement followed the failure of Collins to appear in Quarter Sessions Court here yesterday for trial.

Collins is alleged to have swindled J. M. Grtbben of Jersey City and Cleveland out of $52,000 and of illegally securing $38,000 from George C. Armitage and Harry J. Krick of New Kensington, Pa., in September, 1921.

Pick Three Jurors in Murder Trial.

The work of obtaining a jury to try Edward Dougherty for the murder of John Burns, a grocer, who was killed during a robbery of his store at Jay and Johnson Streets, progressed slowly yesterday in the County Court in Brooklyn. More than forty talesmen have been examined, but only three were selected. Mrs. Dougherty, who has been in court since the trial began, said yesterday that after [illegible] her husband was the victim [illegible]

This charming console model is an authentic example of the furniture designed for Dutch Courtiers of the Seventeenth Century. It possesses the famous Graduola and all Vocalion improvements.

The AEOLIAN-VOCALION

An Attractive New Period Model at a Surprisingly Low Price

WHEN The Aeolian Company, a Company of musical instrument experts, began the manufacture of phonographs, the musical world expected a *better phonograph*. A better phonograph the Aeolian-Vocalion has proved itself by every test. Its construction is scientifically more correct, with the result that its reproductions are clearer, more realistic and more musical.

It is also the only phonograph capable of being played by hand.

$175

Through its exclusive and wonderful Graduola one may play the records himself, diminishing the music to a delicate softness, or swelling the Vocalion's luscious tone to its full volume.

The Vocalion was the first phonograph to be installed in Period Cabinets. An example of the Console Period cabinet now so popular is shown herewith at a price which will have a strong appeal. This is but one of a great variety of Period Vocalions, both upright and console models.

America's Leading Merchants *Invite You to Cooperate in* The National Merchandise Fair

To All Representative Manufacturers, Wholesalers and Importers---

FOR several months you have been asked to consider the advisability of taking selling space in the National Merchandise Fair and the question has been asked "Are the merchants really interested in the Fair?"

The answer is "Yes!"

We are interested in the National Merchandise Fair because we regard it as an aid to intelligent buying.

Every retail merchant in America desires to have his buyers just as well informed concerning you and your lines as it is possible to be, but our buyers have only a limited time to spend in the market. You know that the problem of how to have our buyers see all your lines is one of the greatest that you and we face together.

The National Merchandise Fair, by assembling at periodic times a concentrated market of worthwhile lines, will help our buyers to know you and your wares as they cannot know you all in any other way. And you cannot know us all in any other way.

The National Merchandise Fair will give our stores new buying contacts. It will give you new selling contacts. We both need these new contacts for the building of our several business enterprises. That is why we want you in the Fair.

Another question which also is asked is "Will the buyers buy at the Fair?" In the last analysis no one can answer that question except the buyers, but this much is certain--we are not sending buyers to market for a joy-ride. They come to the Fair for a serious purpose and if you have confidence in your lines and your ability to compete for our business you will feel that it is worth while to take space at the Fair.

In recognition of what we believe the National Merchandise Fair can mean to our buyers and our stores, as well as to you, we ask you to coöperate in this great enterprise.

We invite you to communicate at once with Mr. Lew Hahn, Managing Director of the National Retail Dry Goods Association, 200 Fifth Avenue, New York.

Sincerely yours,

THE BOARD OF DIRECTORS OF THE NATIONAL RETAIL DRY GOODS ASSOCIATION

BRINGS IN $650,000 RENT

Has 200,000 Sq. Ft. of Floor Space —Purchaser Also Gets 8-Story Adjoining Premises at No. 3.

The twenty-nine-story Park Row Building, at Broadway and Park Row, was sold yesterday by August Belmont, head of the banking firm of August Belmont & Co., to Frederick Brown, a real estate operator, in a deal which also involves the eight-story structure at 3 Park Row to the west, both properties being owned by Mr. Belmont as President of the Park Row Realty Company. Mr. Brown put the purchase price at $5,000,000. The deal is the leading realty transaction of the year involving an office building and brings to Mr. Brown probably the most valuable office structure on Manhattan Island owned by one individual.

Because of its proximity to City Hall, the United States, State and City Court houses, the Municipal Building and the Woolworth tower, the Park Row Building has a commanding position and could not be reproduced today for less than $7,000,000, according to the Charles F. Noyes Company, the brokers in the sale.

An approximate yearly rental of $650,000 is obtained from the building, which contains 200,000 square feet of rentable space and occupies a plot fronting 104 feet on Park Row and running back to Theatre Alley to a depth of 153 feet. There was no exchange involved in the transaction, Mr. Brown acquiring an additional 25-foot frontage on Park Row in the purchase of the eight-story building at No. 3, thereby assuring permanent light for offices in the Park Row Building.

Mr. Brown, whose most recent large purchase was the Hotel Savoy at Fifth Avenue and Fifty-ninth Street, said yesterday:

"The ground upon which the Park Row Building is erected cost approximately $1,800,000 about twenty years ago. The two buildings just purchased contain about 5,000,000 cubic feet, and with the ground could not be reproduced today for less than $7,000,000. I have wanted to own one of the finest office buildings in New York City and I consider the Park Row Building of this type.

"With the erection of the Federal Reserve Bank Building, a few blocks to the south, and with the Woolworth Building, City Hall and Municipal and other buildings a few blocks to the north, and, particularly on account of its wonderful transportation facilities, I believe this property offers the highest type of investment in New York realty, which is the premier investment commodity of the world. With the removal of the General Post Office opposite, the Park Row Building will be one of the most conspicuous in the city. Its light and office arrangements are almost perfect. The building is being taken by me subject to a twenty-year bond issue which was immediately oversubscribed when offered to the public."

Joshua Bernstein represented Mr. Brown as attorney and George W. Phillips Jr., acted for Mr. Belmont.

The Park Row Building figured prominently in financial circles in 1908, when it was deeded by August Belmont and Walter Luttgen, his partner in August Belmont & Co., with other New York City real estate valued at $7,000,000, to Baron Rothschild, head of the international banking firm of N. M. Rothschild & Co. As Mr. Belmont was the American representative of the Rothschilds, the transfer of the property caused much gossip in banking circles.

The transfer was, however, in the nature of a mortgage given by Belmont & Co., to the Rothschilds in the latter part of October, 1907, when the financial situation reached its most acute stage.

KIEL CANAL PLEADINGS END IN WORLD COURT

French and German Agents Argue —Judge Loder Promises an Early Decision.

Copyright, 1923, by The New York Times Company.
Special Cable to THE NEW YORK TIMES.

THE HAGUE, July 10.—The arguments on the Kiel Canal case, now before the World Court, were heard today at a public session. Although the German agent, ex-Minister of Justice Schiffer, yesterday asked the Court for only one hour more today to finish the German pleading, the session did not adjourn until late in the evening, as he insisted on taking up the argument again after the French agent, Professor Basdevant, had spoken the final word in the name of the allied powers and Poland.

Herr Schiffer insisted that provisions of the preliminary peace treaty between Poland and Russia did not preclude a renewal of hostilities at short notice, and that therefore German neutrality was necessary. The sums demanded by France as damages were protested by Germany.

Speaking of freedom of communication, Herr Schiffer said that while big international economic interests were important, it was for the Court to decide whether national interests did not sometimes come first. The question of the freedom of peoples and the right of self-determination were also brought to the fore. The German agent ended the debate in these words:

"Justice should reign in making and also in interpreting treaties."

Presiding Judge Loder said that the final decision would be announced at a public session in a few days. The decision of the Eastern Karelia case is expected Saturday.

GEORGE V. LOSES LAW CASE.

Judgment Returned Here Against the King for $2,191 Costs.

A judgment for $2,191 was filed in the Supreme Court yesterday against "his Majesty the King of the United Kingdom of Great Britain and Ireland and Emperor of India." The judgment was for costs in the unsuccessful suit brought by the British Government against Manning, Maxwell & Moore on an assigned claim of the Remington Arms Company.

The suit was based on allegations that Manning, Maxwell & Moore erected a plant for the manufacture by the Remington company of 2,000,000 Enfield magazine rifles for the British Government, and that Manning, Maxwell & Moore agreed to erect the plant on a 5 per cent. commission basis. The court dismissed the suit on the ground there was no commission arrangement and that the defendant was entitled to a reasonable profit. The court accordingly affirmed a previous Accounting made by Manning, Maxwell & Moore.

NEW EXPRESS STOP OPPOSED BY I. R. T.

Railway Declares 33d Street Plan Would Not Relieve Congestion.

PUTS COST AT $750,000

McAneny Suggests Running Locals Direct From Fourteent.. to Fifty-First Street.

The proposal to make the Thirty-third Street station on the Lexington Avenue subway and express stop so as to relieve the congestion at Grand Central Station was opposed by the Interborough yesterday at a hearing before Chairman George McAneny of the Transit Commission. The Transit Commission has approved the proposed change because of a report made by Commissioner John F. O'Ryan.

George Keegan, assistant to Frank Hedley, President of the Interborough, said that the road did not consider the change practicable because express trains are so crowded with passengers for Grand Central Station when they leave Fourteenth Street that no more could be wedged in at Thirty-third Street. There would be no reason for any of the passengers to leave there to make room for others, he said, because most of them were bound for Grand Central commuters' trains, the Queens lines, and the shuttle. The cost to the company would be $750,000, and Mr. Keegan said the company was opposed to any expenditure which would not improve conditions.

In the course of the hearing Chairman McAneny, on the theory that something radical would have to be done to relieve the congestion at Grand Central, which slows up the entire line during the rush hour, suggested that a solution might be found in running local trains without stop from Fourteenth Street to Fifty-first Street. Most of the local passengers bound for point just above Fifty-first Street do not leave the locals for expresses at Fourteenth Street, he said, and those who enter the subway between Fourteenth Street and Grand Central could walk the few extra blocks to an express station. The Twenty-third Street passengers could be taken care of some way, Mr. McAneny thought. By eliminating these local passengers from the Grand Central platforms, he felt that much of the congestion might be relieved. The plan deserved consideration, he said.

Representatives of the Thirty-fourth Street Board of Trade, the Fifth Avenue Association and the Broadway Association were present to give their approval to the plan for a Thirty-third Street subway station.

ITALIAN TENOR NOW BLIND.

Operation Fails to Restore Sight of Borgatti, Singer of Wagner Roles.

MILAN, July 10.—Giuseppe Borgatti, the tenor, regarded as one of the best in Italy in Wagnerian roles, has become totally blind despite an operation which it had been hoped would avert such a misfortune. The singer has accepted the inevitable bravely, even cheerfully, remarking:

"Fortunately I can still hear music and teach it."

MISSING GIRL FOUND ON ROOF BY MOTHER

Asleep With Family Milk Bottle, Absence of Which Led to Her Discovery.

The disappearance of a bottle of milk resulted yesterday in the finding of Ethelyn Gordon, 14 years old, of 65 West 106th Street, for whom police and agents of the Children's Society have been searching since Sunday.

Early in the morning the girl's mother went to the door of their apartment to get the usual quart of milk. It was not there.

Thinking that the bottle might have been left by mistake on the floor above, she starts on a tour of inspection, which led her to the roof.

She was seated on an old soap box thinking of her missing daughter, when her glance rested on something white half hidden behind a near-by chimney. Curiosity prompted investigation. It proved to be Ethelyn. She was asleep. Her graduation dress was grimed with dirt, and her right hand clutched the full-tale milk bottle.

"You're not going to punish me are you?" were the first words the girl uttered when her mother awakened her. The mother assured her that everything was all right, and together they went downstairs, where Ethelyn finished her nap in her own little white bed.

The girl said that she had attended a party at the home of George Bayer, 111 West 105th Street, after having been forbidden by her mother to go. She said she was afraid to go home and had slept on the roof.

Ethelyn was graduated from the public school about a month ago, and has since been attending a business college. Bayer and Emory Frb ecefo Bayer and Emory Forbes of 803 Amsterdam Avenue, who said they saw her home, were discharged by Magistrate Earl Smith when arraigned in the West Side Court charged with impairing the morals of a minor.

TO FIGHT SWEATSHOP EVIL.

Essex County Will Co-operate With Jersey Labor Department.

The New Jersey Department of Labor was notified yesterday by the Essex County prosecutor's office that it would co-operate in enforcing the law against violators of the "sweat shop" and child labor measures.

Deputy State Commissioner Charles H. Weeks said that he would submit for prosecution to Attorney General Thomas McCran a case against a doll company at Newark, which, he said, distributes home work on forbidden articles. Miss Mary A. Thumith, social worker on Mr. Weeks's staff, will give the prosecutor details of an investigation in Essex County.

HELD ON BIGAMY CHARGE.

Jersey Inventor, Arrested in Broadway Office, Denies Accusation.

Charles L. Lovercheck of Jersey City was arrested yesterday at his office, 280 Broadway, by Detectives Gegan and Herman and locked up at headquarters charged with being a fugitive from justice.

Lovercheck, who is said to be the inventor of the Lovercheck envelope wrapping machine, was arrested on a warrant charging bigamy, issued by Judge Albert A. Stein of Elizabeth, N. J. According to the detectives, Lovercheck admits having been married twice, but says that he was divorced from his first wife.

DECLARES SCHOOL INQUIRY IS UNFAIR

District Superintendent Grady Protests at Testimony He Calls Irrelevant.

HE RESENTS ADJOURNMENT

Says Action of Board of Education Prevents Him From Making His Defense.

The investigation of the Board of Examiners by the Board of Education ended for the Summer yesterday with charges by District Superintendent William E. Grady that Assistant Corporation Counsel William E. C. Mayer, representing the Board of Education, had unfairly admitted irrelevant testimony into the record of the investigation.

Mr. Grady also called "absolutely false" the accusation made at a previous hearing by former Chairman of the Board of Examiners Joseph M. Sheehan, that Mr. Grady, with Examiner James C. Byrnes, had tried to "blackjack" Sheehan into signing a document.

Despite Mr. Grady's protests, the investigation was adjourned for the Summer without an opportunity being given him to defend himself against Mr. Sheehan's charges. President of the Board of Education George J. Ryan, who is conducting the investigation for the board, refused to consider Mr. Grady's reiterated protests, saying that further testimony would not be taken until the Fall, when the examiners had returned from their vacations and were present. At that time, Mr. Ryan said, ample opportunity would be given Mr. Grady to defend himself.

Mr. Ryan determined to postpone further hearing in the investigation after a letter advising such action had been read from Chairman of the Board of Examiners Joseph K. Van Denburg, who pointed out that the examiners would be out of the city during the Summer.

Adjournment of the hearing before an opportunity had been given him to defend himself Mr. Grady said he thought unfair. Since he is not a member of the Board of Examiners, he pointed out that statements made about him in the investigation of the examiners were irrelevant and should therefore not have been entered on the record. Since he and Mr. Sheehan were both present at the hearing yesterday and since the charge made against him did not concern the absent examiners, he protested that the privilege of answering should be granted him.

DR. GATEWOOD NOT IN CLINIC

Did Not Attend Healing Service at St. Mark's-in-the-Bouwerie.

Dr. William Lawrence Gatewood of 330 Park Avenue stated yesterday to THE NEW YORK TIMES that he was not present on Monday at the religious-medical clinic being conducted at the Episcopal Church of St. Marks-in-the-Bouwerie, Second Avenue, near Tenth Street; that he is not identified with the clinic in any way; that he did not authorize his name to be given to the press in connection with the clinic and that he is not connected with the staff of Dr. Edward S. Cowles, who is the physician in charge of the clinic. Dr. Gatewood further stated that he regretted the use of his name in this relation.

WAGE FIGHT MAY PUT 500,000 OUT OF WORK

Employers Refuse Demand of Cloth Examiners and Finishers, Who Threaten Strike.

The possibility of a tie-up of the garment industry through a strike of the 1,000 spongers, shrinkers and examiners of woolen cloth and other materials assumed a threatening aspect yesterday when the employers notified the Cloth Examiners and Finishers' Union of their refusal to grant the wage increase demanded and submitted a counter-proposal. The union will reply today. Joseph F. Mezzacapo, President of the union, said that if the situation is not adjusted by noon Saturday the members of the union, who handle 90 per cent. of the material used in the trade, will go on strike Monday.

A committee of the Textile Finishers' Association, headed by Edward Fillmore, President of the employers' body, yesterday met a union delegation headed by President Mezzacapo at the headquarters of the association, 1,123 Broadway. The two years' contract between the association and the union expired on July 1. Under its terms, Mr. Fillmore said, the workers averaged about $50 a week. The demands submitted by the union call for a wage increase of from 25 to 30 per cent. The importance to the trade of the present dispute is in that the spongers and shrinkers handle material from mills all over the country and their union is a "key" union and if it calls a strike it would tie up the garment industry and bring idleness to 500,000 workers on mens' and women's garments.

PASSES POLICE SEEKING HIM

Man Flees Jersey Asylum and Walks to Mt. Vernon Before Capture

Escaping from the Essex County Asylum at Overbrook, N. J., some time yesterday, John McBride, 62 years old, walked all the way to Mount Vernon despite the fact that an alarm had been sent out and the police were looking for him.

"I don't know how many policemen I passed," he said when he was found in Mount Vernon by policeman Lester, "but you are the first that recognized me. I'm hungry and tired. Take me with you."

McBride formerly lived in Mount Vernon. He was taken back to the asylum by an attendant.

GOMPERS ATTACKS COAL BOARD REPORT

Says It Could Hardly Have Been Better Calculated to Win the Operators.

ASSERTS RIGHT TO STRIKE

And Denounces "One-Sided" Penalties Against Miners—Daugherty Denies Editing Report.

Special to The New York Times.

WASHINGTON, July 10.—Samuel Gompers, President of the American Federation of Labor, commenting on the Coal Commission's report today, declared that the commission's proposal for dealing with a suspension of mining "leads one to believe that it could hardly have been better calculated to win the Administration the support of the operators."

Mr. Gompers criticised the report, but also praised it in part.

"Real penalties for the miners, phantom penalties for the operators," said Mr. Gompers, "seem to be the outstanding feature in the program favored by the Federal Coal Commission for dealing with a suspension of production in the anthracite coal industry.

"The commission, by its recommendation, would invoke the penalty of compulsory labor upon the miners. But for the monopolistic owners of the coal mines the commission would provide a slap on the wrist—a severe dose of publicity. That would be only the ghost, the merest shadow, of a penalty.

"It is plain to see that of all of the 'bright minds' on the committee not one was a representative of the coal miners. If there had been a single representative of the men who actually produce anthracite coal the commission would scarcely have recommended that the President be given full power to fix the wages to be paid the workers in the event of a suspension of mining operations.

"Any attempt to outlaw the right to stop work as a means of improving the condition of the working people of the United States is doomed to fail. Such attempts have failed in the past and will be equally unsuccessful in the future. Labor will never give up the right to strike as a last resort in the fight against wrong and oppression.

"The very fact that the commission found that anthracite operators are receiving nearly three times as large a profit as before the war is a strong argument against any attempt to force the miners to remain at work, year in and year out, regardless of the attitude of the mine owners. The operators have been reaping enormous profits, yet we are told that the miners must be content with their present wages and must not under any conditions think of ceasing their grinding toil. A public that will permit the operators to fatten at the expense of the miners deserves little sympathy in the event of a cessation of coal mining, because if it will insist on fair play for the miners there is no danger of their striking.

"Charges that the commission's report had been 'edited' by Attorney General Daugherty for political purposes may or may not be true. But a reading of the commission's proposals for dealing with a suspension of mining leads one to believe that it could hardly have been better calculated to win the Administration the support of the operators.

"On the whole the report cannot be considered as constructive, although the commission's recognition that coal is a public utility is a step in advance. So also are the recommendations that anthracite dealers be compelled by Congress to make current reports to the Federal Government regarding costs, prices and profits in order to protect the public and that operators should combine to guarantee a standard quality of anthracite for the consumer."

Attorney General Daugherty today took cognizance of the allegation that he had caused changes to be made in the report of the Coal Commission. From Columbus, Ohio, Mr. Daugherty sent a telegram to the Department of Justice in denial of published reports that the commission's report had been revised at his suggestion.

"I have never discussed a report of the Coal Commission with anybody," said Mr. Daugherty's telegram. "I have never seen a report of the Coal Commission."

Members of the Coal Commission in Washington, among them former Vice President Marshall and Dr. Charles E. Neill, several days ago vigorously denied that the report had been revised at the suggestion of the Attorney General or of anybody else.

COAL HEARING ADJOURNED.

Jersey Concerns Expected to Abandon Proposed Merger.

A hearing on an application for an injunction to prevent the contemplated merger of the Burns Brothers Coal Company and the recently organized National Coal Company of Jersey City was adjourned until July 17 by Vice Chancellor Backes in Newark yesterday.

A temporary order restraining consummation of the consolidation was obtained last month by Carman R. Runyon of Los Angeles, a stockholder in the Burns Company.

It was reported that abandonment of the consolidation plan would be announced shortly by Thomas S. Haight of counsel for the coal concerns.

CUT PHILIPS LUMBER CLAIM.

Defendants Scale the Government's $1,500,000 Down to $21,886.15.

Special to The New York Times.

WASHINGTON, July 10.—The $1,500,000 claim made by the Federal Government in an equity suit against the defendants in the "Philips lumber case" was scaled down to $21,886.15 today in answers by John L. Philips, Republican Committeeman from Georgia, and his associate, John Stephens, and the Fidelity and Deposit Company of Maryland, a bonding company, filed in the District Supreme Court.

According to the bonding company, even this small amount is in dispute as it is alleged it represents a counterclaim filed by Philips and Stephens under their contract with the Government for the purchase of 138,902,787 feet of lumber on Feb. 25, 1919. It is declared by Stephens and Philips that the Government delivered only 138,007,530 feet to them.

Philips, who with Stephens and several others, was indicted on a charge of conspiracy, declares that the suggestions made by him at a meeting on Jan. 20, 1919, which was called for the purpose of discussing ways and means of getting rid of surplus lumber without flooding the market, were not in the nature of a legal contract, but merely ideas and suggestions, which cannot be called a part of a preconceived plan to defraud the Government. Stephens in a separate answer makes the same statements.

The bonding company, which posted a $900,000 bond for Philips and Stephens, denies that either Philips or Stephens sold 138,902,787 feet "for the Government," and declares that both these defendants have kept their agreements to the latter and penny, neither of them deducting a penny in commissions for themselves.

U. S. Dreadnoughts in the Clyde.

GREENOCK, Scotland, July 10.—The United States dreadnoughts Arkansas, North Dakota, Delaware and Florida arrived here today from Scandinavian waters for a ten days' visit. British cruisers welcomed the visitors with salutes. Special arrangements have been made for entertainment of the officers, 2,700 cadets and the crews of the American vessels during their stay on the Clyde.

PRICE REDUCTION VACUUM CUP TIRES

RANGING TO 15%

TWENTY-FOUR hours a day year-round production maintained by workmen trained in our own modern plant enables us, without curtailment of quality, to effect savings which constantly are passed on to Vacuum Cup Tire and "Ton Tested" Tube users.

HELP HERBERT HOOVER

RUBBER importations to the United States for the fiscal year ending June 30, 1923, show an approximate total of 775,000,000 pounds, an amount equaling fully three-fourths of the world's production.

Competent authorities assert that the American automobile utilizes not less than one-half of the world's annual rubber supply.

Responsibility for advancement in the art of the building rests solely with the tire manufacturer, but safeguarding our future needs of raw rubber—fully 70% of which is imported from countries laboring under burdensome and uneconomic tax laws and recently enacted restrictions—makes it the duty of every motorist in the United States to advocate the placing of rubber production under the American flag and in tax-free districts.

It is the patriotic obligation of every American car owner, when opportunity affords, to express approval of the efforts of Mr. Herbert Hoover, our far-visioned Secretary of Commerce, who has, through Congress, secured appropriation for an already active campaign of world-wide investigation of the possibilities for an independent or, at least, a tax-free source of rubber supply.

SENECA G. LEWIS, Vice-President-General Manager.

You won't turn him down!

Pretty confident grin on the little Eskimo kid! He *knows* his live, happy drink will get a glad "hello" from the crowd. It's popular with just about everybody—*they all like it. Of course* you like it too.

You like it best when your throat is very dry and Clicquot is very cold. Why shouldn't you? Its tang and sparkle and fragrance make a happy combination for killing a thirst.

It's just about a perfect drink—everything in it is the best to be had. The water rises clear and cold from unchanging springs; the Jamaica ginger is better than any other grown; and the fruit flavors and cane sugar are excellent too.

All in the happy blend that has made Clicquot Club Ginger Ale a favorite for thirty-eight years.

Try Clicquot Club Sarsaparilla too—or the Root Beer or Birch Beer. Get them all from your grocer or druggist. Buy them by the case and keep on hand for your family and your guests.

A BOOTLEG BRIBE OF $300,000 A WEEK

That is what rum runners offered to pay one Government agent if he would merely "look the other way" while they opened the liquor flood-gates. It is a single episode in the startling inside story of the struggle to enforce prohibition, written by the chief of the Government's agents,

ROY A. HAYNES

United States Prohibition Commissioner

There are other disclosures just as astounding, made public for the first time—international liquor plots; the hunt for big bootleg game; the bootleggers' murder lists; violators in high places—in short, the first authentic narrative of two years of prohibition in the United States,

With an Introduction by President Harding

The complete story will be told in forty-three instalments, to appear every Sunday and every weekday until completed in

The New York Times.

EVICTION EXPOSES SUIT FOR $30,000

Miss Lodewick Has Action Against Y. M. C. A. Leaders Pending in Court.

CHARGES LOSS OF RENT

Dodge, Morgan, Mott, Mrs. Straight and Others Are Named In Case.

The eviction of Miss Sarah E. Lodewick on Monday from her temporary residence at 222 Madison Avenue has directed attention to her suit for $30,000 now pending in the Supreme Court against the War Council of the Y. M. C. A. Since the War Council was not incorporated, the suit is directed against individuals socially prominent, including Juliana Cutting, Elizabeth Dodson, John Sloane, Frances Sloane and William Griswold, as executors of the William Sloane estate, and William Fellowes Morgan, Cleveland H. Dodge, John R. Mott, Mrs. F. Louis Slade, Mrs. Winthrop Ames, Irving Squire and Mrs. Willard Straight. Miss Lodewick is the sole surviving descendant of Charles Lodwyck, elected Mayor of New York in 1694.

Professional ethics deterred the attorneys representing the War Council from commenting on a case in the hands of a Judge to decide. To protect their clients from interviewers, however, they were willing to make the statement that Miss Lodewick has no right, either legal or moral, to hold the defendants accountable for the defalcation of her legal partner. This is her third suit against the War Council; the two previous ones were dismissed.

Allen Caruthers, 41 East Forty-second Street, Miss Lodewick's attorney, gave out the following statement: "Miss Lodewick at the request of the War Council of the Y. M. C. A. leased the building at 137 East Thirty-ninth Street, in November, 1918, to be used as a home for women war workers. On account of ill health in her arm and through too trusting a nature, she permitted the lease to be made out in the name of Mrs. Esther J. Schultz, whom she had taken as an assistant and partner. Miss Lodewick warned the Y. M. C. A. personally, by letter, and through her attorney that it should not deal with Mrs. Schultz.

"Despite this, the Y. M. C. A. people took up the lease themselves, paying to Mrs. Schultz over $6,000 due the partnership for three months' rent. When none of this money was turned over to her, Miss Lodewick brought suit for accounting against Mrs. Schultz, in which Miss Lodewick got judgment for about $4,000. But Mrs. Schultz disappeared before she was forced to pay. Miss Lodewick is now bringing suit against the members of the War Council for $30,000 as compensation for her accrued losses."

The defendants testify that they rented the building for three months, according to contract; paid their rent in full to Mrs. Schultz, who did all the business of managing the house and in whose name the lease was taken; received their legal receipt, and left the premises.

SLAYER OF GOVERNESS MAY NEVER BE FOUND

Letters of Murdered Girl Fail to Give Clue—No Trace of Suspected Negro.

The murder of Miss Dorothy Kauffman, the young Mennonite governess who was stabbed to death a week ago in the home of her employer at Greenburgh, N. Y., may never be solved. The Westchester County investigation, centred in the office of Sheriff George J. Werner at White Plains, gave evidence yesterday of slowing down to a standstill.

The Sheriff was absent from his office the greater part of the day and was reported to be in this city. In his absence his subordinates were disinclined to discuss what progress, if any, had been made toward clearing up the mystery. It was learned, however, that hope of a solution arising out of a batch of letters found in the girl's room had been banished after the letters had been read by the Sheriff and a deputy, Ray Hill. It was said they failed to give any hint of a possible motive.

Among the letters was a note saying that in the event of death Miss Kauffman wished her employer, Maxruder Craighead, or her father, I. S. Kauffman, of Maryland, notified. Some persons were inclined to regard this note as significant when considered with the fact that Miss Kauffman had asked a girl friend, Madeline Harmer, to stay with her while the Craighead family was in Connecticut.

The authorities said yesterday they are still looking for a negro suspect who was seen near the Craighead home before and after the murder.

BIG DRUG HAUL ON BORDER.

18,000 Ounces of Cocaine Seized at Rouse's Point—Came From Europe.

MONTREAL, July 10.—Fifteen thousand ounces of cocaine, valued at about $60,000, said to have been shipped to Canada from Europe, have been seized at Rouse's Point, N. Y., by American customs officials, after it had been carried across the border by motor and packed in two trunks to be forwarded by express to New York.

The trunks were represented as containing only alcohol lamps, but each lamp was found to be filled with cocaine.

The New York police, asked to search for the person to whom the drugs were addressed, reported that a false name had been given.

SAYS DOGS AND CATS MAY TRANSMIT CANCER

Dr. Bazin in Paris Reports Experiments Show That Fleas Are Possibly Carriers.

Copyright, 1923, by The New York Times Company.
Special Cable to THE NEW YORK TIMES.

PARIS, July 10.— The danger of contracting cancer from pet dogs and cats was the subject of a paper read yesterday before the French Academy of Sciences by Dr. M. Bazin, who has made a considerable research into the parasitic nature of cancer. Dr. Bazin's opinion, formed from experiments, is that it is at least possible that fleas from dogs and cats can transmit the cancer germ to their masters and mistresses.

In one of his experiments Dr. Bazin took several fleas from a dog which had died of cancer and placed them on two other old dogs. One of these, within a very short time, contracted the disease. The scientist's researches have been made principally in a small Normandy village, where eight deaths out of a total of eleven in the last eighteen years has been found to be due to cancer.

In all parts of Normandy cancer is one of the most common of fatal diseases, and, if the parasitic nature of the disease is admitted, Dr. Bazin believes that his conclusion is justified that the germ may be transmitted by fleas like other parasites.

BROADCAST DEBATE ON WORLD COURT

Hamilton Holt Defends the Proposal in Discussion at Aeolian Hall.

COHALAN OPPOSES IT

Supreme Court Justice Says Adoption Would Create Super-State.

Hamilton Holt and Supreme Court Justice Daniel F. Cohalan debated the World Court question over the radio last night from the station WJZ of the Radio Corporation of America in Aeolian Hall. Mr. Holt supported the proposal that the United States enter the Court and Justice Cohalan opposed it.

"The political or dangerous questions of the world would not come before the Court, Mr. Holt said, because it was created to decide only legal or justiciable matters. The objection to the Court that it had no compulsory jurisdiction or power was not true, he declared, because there was a compulsory arbitration clause in the treaty creating it, of which nations might take advantage if they wished. Large nations have not done so as yet, he said, and he felt it would be an excellent thing if the United States should be the first to take the lead.

President Harding's suggestion in his St. Louis speech that the Court be divorced from the League of Nations was criticised by Mr. Holt, who said he did not think that other nations would give their consent, because it would be almost impossible to set up another scheme to elect judges who would please both the large and small nations. The proposal by the President that the judges elect their successors he said was "one of the most reactionary statements ever made by a President of the United States," and would result in the creation of a super-state.

"The Court is the first step toward political organization of the world. From organization comes law, from law comes justice and from justice comes peace," he concluded.

Justice Cohalan said that the Court must have force behind it if it were to enforce its decrees, must have force enough to enforce a decision against the United States if this country were a member and failed in a case before the Court. This would result, he said, in a super-state that would be repugnant to all Americans. Isolation, he said, is after all only another name for independence.

SILZER SEEKS LIGHT ON PAROLE CHARGES

Boy Said to Have Been 'Farmed Out' From Reformatory—Worked 2 Years for $2.75.

Special to The New York Times.

TRENTON, N. J., July 10.—Declaring that the State must take care properly of its wards, Governor Silzer today promised to investigate the circumstances surrounding the "farming out" of William McGahey, 16 years, who performed hard work on a farm in Delaware, N. J., for two years, and asserts that he received only $2.75 in wages.

McGahey was paroled to a farmer in May, 1921, from the Jamesburg State Home for Boys, and was found by Parole Officer Charles Traine, April 21, working for nearly nothing and shabbily dressed.

The Governor discussed the McGahey case with Commissioner Burdette G. Lewis, who has supervision over the Parole Bureau of his department. The Governor has requested all the facts in the case.

Another patrole case which has been brought to the Governor's attention is that of Andrew Barton of Passaic, recently returned to his home after having been farmed out for two years and detained for extended service because of the harvest season.

Pay enough to get good tailoring

SOME Palm Beach Suits are made with all the little details of fine tailoring that are found in the very finest of ready-to-wear clothing. Other Palm Beach Suits have the less important details of trimming and finishing omitted. There are different grades of tailoring. You will look better in a better-made Palm Beach Suit.

The grade of cloth is the same in all suits. It is the grade of tailoring that makes the difference in the cost of various makes of Palm Beach Suits.

Palm Beach Cloth is a patented fabric, made by The Palm Beach Mills of Goodall Worsted Company at Sanford, Maine. The cloth is sold to clothing manufacturers all over the country who specialize in fine summer clothing. These clothing manufacturers make Palm Beach Suits of the genuine Palm Beach Cloth.

The fine details of tailoring

The finished suits are sold to many different retail stores. Retail clothiers who sell exclusive and high-grade clothing sell Palm Beach Suits made by manufacturers who put all the fine details of tailoring into these suits. Retail clothiers who sell popular-priced garments sell those Palm

Beach Suits from which the more expensive details of tailoring are omitted.

Make sure you get the genuine

Palm Beach suits vary in price according to the amount and quality of tailoring put into them. To make sure that you are getting the genuine Palm Beach Cloth, look for the registered Palm Beach label. It is sewed into every suit or garment of the genuine Palm Beach Cloth for your protection. Look for it.

Golf knickers and sport clothes made of Palm Beach Cloth are cool and good-looking—practical and durable.

This is the label that identifies the genuine cloth

Grand total—6,591 yards. Par 72.

Special to The New York Times.

INWOOD, L. I., July 10.—Having been informed through sources which he evidently considered reliable that Gene Sarazen had equaled par for the Inwood course on the opening qualifying round, Joe Kirkwood, holder of the patent rights to golf trick shots, today went out and made the open champion's performance look like a second-rate production. The ex-Australian, who can make a golf ball do everything except say uncle, set a new course record for Inwood and was the star performer in the second qualifying round of the twenty-seventh annual national open golf championship.

It is not the fact that Kirkwood, with a 144, led the second day field of ninety by ten shots that is important, for that was taken for granted by the time he had finished his morning round. Those who had the good fortune to follow the man from the Antipodes saw something which may not be duplicated in the 1923 championship. In fact, they saw something actually accomplished which no one dreamed possible, and they saw as complete a mastery over a kit of clubs as if a magician were performing, substituting golf balls for jack-rabbits.

Previous to the start of the present tourney there were any number of close followers of the royal and ancient pastime who were predicting that there would be no 70s on the Inwood course when the players were stationed on the back tees, stretching the layout to its full 6,622 yards. But Kirkwood proved to the satisfaction of all that they were poor prophets, for he shot the course in his morning round in a 70, and he might have been even better than that but for two episodes, one at the ribbon-like ninth hole and one at the finishing hole.

Ball Hits a Tree.

At the ninth, having just previously lost a stroke to par by a poor second shot at the previous hole—his only mistake up to that point—Kirkwood tried to hug the out-of-bounds fence too closely, and his ball was restrained from its desire to hit the concrete road and go scurrying Jamaicaward only by a large tree. It bounced off and dropped back into a trap at the right hand side of the fairway. He elected to try for the green, more than a hundred yards away, but failed to clear the face of the bunker, and his ball, deflecting off to the right, rolled into the strip of long grass bordering the fence. It came to rest under the lowest strand of barbed wire stretched at the bottom of the cyclone barricade built around the course. One-third of the ball was out of bounds, the other two-thirds inside the course. It was so close to out-of-bounds that Thomas Paine, one of the association officials, was obliged to render a decision in the matter.

After studying the shot, Joe decided that it would be necessary for him to climb the fence and play the ball from the outside. He walked back, "skinned" up a tree, dropped over the ten-foot fence and, after again giving several minutes' thought to the situation, decided to chip out safe. Every one thought that he would bring off a Kirkwood shot, but he didn't. He merely played safe.

Goes Back in Auto.

Then came more serious reflection on how to get back to the course. An automobile was pressed into service and Kirkwood was whisked back to the ninth tee, the gates were opened wide and he was readmitted. His fourth shot was a beautiful pitch to within fifteen feet and he holed the putt for a 6, losing only a stroke to par because of his adventure. That made him 37 to the turn, exact par.

Having rid himself of that, Kirkwood breezed home in 33 strokes. After a par 4 at the tenth, he had the next six holes in two over 3s, a new way of gold reckoning. He started off his rampage with a birdie 3 at the eleventh, followed with a par 3 at the twelfth and his third successive 3 came at the thirteenth, where he had another birdie. Then, after a par 5 at the fourteenth, he stuck in two more 3s for good measure, par at the 175-yard fifteenth and a birdie at the next. Coming to the home hole, Kirkwood had a par 4 for a total of 66, but he was trapped on his drive and had to play short of the water on his second. His approach was a trifle short and he barely missed his putt for a 4.

A 75 in Afternoon.

While not quite so brilliant in the afternoon, Kirkwood registered a 74, which gave him a total of 144, four strokes fewer than Sarazen's margin in yesterday's test. That left him in a class by himself, entirely surrounded by blank spaces on the scoreboard. Two full strokes separated him from the remainder of the field.

The nearest rival he had for the honor was a former New Jersey caddy, who is now assistant to Jimmy Robbins at Shackamaxon Country Club. Williams, a youngster who has been working toward stardom in the last few years. His was second in the field with a 75 in the morning, which placed him in a tie for second place when the round was done, and a 79 in the afternoon, a total of 154.

A stroke above this came Dave Spittal, one of the Canadian representatives, hailing from Toronto; Tom Stevens, from Minikahda; Francis Ouimet of Woodland, former open and amateur champion, who put in a brilliant 70 in his afternoon sortie after an 80 in the morning, and W. E. Ward, a young pro from the Woodbury (N. J.) club in the Philadelphia district.

McLeod Eliminated.

It was Ward who kept a former national champion, "Wee Freddie" McLeod of the Columbia Country Club, Washington, D. C., out of the tournament, for his 75 in the afternoon shut the gates to the players whose totals mounted up to 160. McLeod, winner of the national title at Myopia Hunt in 1920, happened to be one of the unfortunates who were in the all-fated group. So was Pat Doyle, former Deal pro, who is now located at Lake Champlain.

McLeod, after a 79 in the morning round, kept on the ragged edge throughout the afternoon, largely through lack of control over his putter. Although making a game struggle to overcome a ragged 7 on the third hole, where he was trapped on his second and failed to get out, he failed by a single shot to qualify for the Richard Vault battle for the championship on Friday and Saturday. The best that Doyle could do was a pair of 80's.

Following the quartet at 155 came Jess W. Sweetser of Ardsley, national amateur champion, and Arthur Beebe of Long Branch, N. J. Three metropolitan district players shared the 157 bracket, Joe Sylvester of St. Albans, Arthur E. Reid of Ardsley and S. A. Gagan of Port Chester, N. Y., for whom Sarazen used to caddie, since when the latter was assistant to Bill Potts at Apawamis.

In the next to last group came Emmet French, Youngstown, Ohio, pro, who led the American professional forces to England in 1921; Harry A. Hampton of Brooklands, Detroit; H. A. Sampson of Lincoln Park, San Francisco, and A. A. Armour of the Westchester-Biltmore club, former Scottish amateur star and runner-up to Sweetser in the recent Victory Cup event.

Last but Not Least.

The last of the qualifiers were Jack Forrester of Hollywood, who finished well up in the list in the morning round with a 76; Dave Mackay of Pittsburgh, Al Ciucci, another of Sarazen's buddies, and John L. Black of Wichita, Kan. Ciucci looked to be completely out of it when he finished his first round with an 86, but in his second excursion he made the best score of the afternoon, a 73. In addition to Kirkwood's feat of establishing a new record for the Inwood course, there were other notable features in the second day's play, not the least of which was the narrow escape that Old John Black, pro at the Country Club of Scarsdale, had in getting into the elect today. With his 76 in the first round there seemed to be no danger whatsoever of Black's not qualifying, but a few bad slips on the first nine holes of his afternoon round brought his total up to 41 at the turn. Even then he looked to be seated prettily among the high and mighty. He started back at a 5, 5, 3 clip, even par.

Then something happened. Playing to the seventh hole, Black encountered all the trouble of a life time and ended up with a 9 which just about finished him. He hooked his drive behind a peach orchard into a trap on the adjoining fairway, flubbed his next into a trap in front of the green, exploded from there out into another trap back of the green, dubbed his sixth and ended up by missing a short putt after getting back to safety on his seventh. He added to his misery by finishing up 4, added to his 41 and had three par-4 holes. One stroke more on any one of them would have seen one of the most picturesque figures of the whole tourney out in the cold, cold world.

Sweetser Putts Poorly.

Sweetser experienced some discomfiture on the first half of his journey in the morning round, for he was putting poorly and was five strokes over par at the turn. But he settled down for the last nine and rolled in a string of nine consecutive 4s for a 36 and a total of 78 for the round. Jess had a 40 to start with in the afternoon, but went well enough over the last nine to get another 78, which left him well up in the running. He had five 3s in his afternoon round. His feature was getting a birdie at the thirteenth, where his putt of several feet hung on the lip of the cup for several seconds and finally decided to drop into the hole.

Taken as a whole, there was no fault to be found with Jess's work. He was hitting his shots well enough, but putting far below his usual standard.

Ouimet, while not playing what might be termed bad golf in the morning, was not anywhere near his usual form, and was baffled by a string for whatever ways ward choke he made by getting down any putts of more than a yard. He did better in the afternoon, when he registered his 79.

Scores of those who qualified today follow:

Joe Kirkwood, Australia	70	74	144
Alex Williams, Shackamaxon	75	79	154
David Spittal, Toronto	78	77	155
Francis Ouimet, Woodland	75	79	154

Peters, Gulph Mills; D. Thomson, Roslyn; C. E. Van Vleck Jr., Garden City; J. S. Worthington, Siwanoy; Gardiner White, Meadow; Alex Cunningham, Toledo; H. Dunn, unattached; Jimmy Ferguson, Spring Lake; James Fyfe, unattached; J. Fleming, unattached; D. D. Harding, Lawrence Mass.; F. Jones, Fall River; Jack Kennedy, Pittsburgh; A. Longworth, St. Louis; J. McKenna, Belle Claire; A. E. MacDonald, Fenimore; E. Murphy, St. Joseph; J. F. Marty, St. Albans; Herbert Martin, N. Y. City; S. M. Newton, Gt. C. Virginia; Gil Nicholas, unattached; O. Strand, Fairview; R. M. Thomson, Glen Ridge.

QUALIFIED MONDAY.

Gene Sarazen, Briarcliff Lodge	75	73	148
Abe Espinosa, California	74	77	151
Emil Loeffler, Oakmont	75	77	152
Francis Gallett, Fort Washington	76	77	153
Jock Hutchison, Glen View	74	78	152
William Mehlhorn, North Hills	76	79	154
William Creavy, Kansas City	77	77	154
Leo Diegel, Washington D. C.	78	78	156
Fred Mansel, Montclair Heights	77	79	156
Jack Burke, St. Paul	78	78	156
E. Williams, Peoria	76	80	156
Charles Evans Jr., Edgewater	82	76	158
Bob MacDonald, Chicago	80	78	158
Ben Parola, Sunnyfield	81	77	158
Fred Canaves, West Point	81	79	160
C. L. Booth, Putnam	79	81	160
Joe Turner, Elmford	80	80	160
James West, Rockaway Hunt	80	80	160

Pairings and starting times of the leading players who qualify tomorrow are as follows:

Mike Brady, Oakland Hills, and Stewart Maiden, Atlanta, 8:00 and 12:00; Walter Hagen, New York, and Macdonald Smith, Los Angeles, 8:45 and 12:45; Willie Ogg, Worcester, and Al Watrous, 9:30 and 1:00; Laurie Ayton, Evanston and Tommy Kerrigan, Ilwa, noon, 9:30 and 2:30; George S. McLeod, Grassy Sprain, and Frank Dyer, Upper Montclair, 11:00 and 3:00.

HOW KIRKWOOD MADE A NEW COURSE RECORD

Hole-by-Hole Description Shows That Sensational Putting Turned Trick.

Special to The New York Times.

INWOOD, L. I., July 10.—In making his sensational round of 70 in the second day's qualifying round of the open championship here today Joe Kirkwood of Australia, who is now a resident of New York, was aided by sensational putting. On no fewer than five greens he took only one putt. Outside of the eighth, ninth and home holes, his work was perfect.

A brief description of his play follows:

Kirkwood started out with pars on the first two holes, although he was putting for birdies on both greens. A fine wooden second put, within three feet of the hole at the 522-yard third left him with a chance for an eagle 3, but he had to content himself with a birdie 4. At the 530-yard fourth he played his first and second straight for the pin and his approach was a hole high about ten feet away. He was down in two putts for a par at 5.

After a good drive at the next hole the wind carried his ball off to the right into a trap. A fine out left him about three yards short of the hole, but he got the putt down for a birdie 3.

His iron to the short sixth split the pin, but failed to bite the green and rolled over, sticking in the short grass on the bank, from where he chipped back and only a two-foot putt to hole for his par 3. He was on the seventh green from the tee and down in two putts for another par. After a long drive at the eighth, he missed his second shot and was trapped short of the green. Once more he brought his wizardry into play, recovered nicely and almost got his par 4, his ball just missing the hole. After that came the ninth, already described, and a 5, giving him a 37 to the turn.

Then began one of the finest incoming rounds ever witnessed in any championship—one that might have been a 32 but for trouble at the home hole. He took a 4 at the 10th when his chip failed to take hold of the green and ran just off the far edge. His direction was perfect on his chip back, but his ball stopped almost on the lip of the cup. Requiring another tap to get it into the hole, Kirkwood's putt earned him a birdie 3 at the eleventh, and a par 3 followed at the water hole. Playing the thirteenth, his second shot was almost dead to the pin and he holed a six-footer for his third 3 in succession. This one a birdie.

He could do no better than a par 5 at the 497-yard fourteenth, where his second shot rolled into a depression just ahead of the bunker guarding the left of the green. He was on in 3 and down in two putts. Two more 3s followed—a par at the short fifteenth and a birdie at the sixteenth, where his second ended its journey ten feet from the hole. He played an iron a bit too strong at the seventeenth, but had a fine stance. His ball stopped on the edge of the far slope, from here he chipped back for an easy 4.

On the home hole he was trapped and elected to play safe. His second was short of the water and his approach was so perfect that he almost got his 4, falling by the mere matter of a few inches.

GLOVES HERE FOR BIG BOUT.

Special Set, Extra Large, Arrive and Go into Rickard Vault.

A special set of boxing gloves was received at Madison Square Garden yesterday for the Willard-Firpo fight. The gloves were made by Sol Levinson of San Francisco. Levinson has made the gloves for most of the big championship bouts that have been held in this country for more than twenty years. When he sent them to Rickard he declared they will be the largest set he ever has been called upon to make. The gloves were locked in the safe immediately and will not be removed until tomorrow evening in time to be taken to Jersey City.

SEEKS BOUT WITH McTIGUE.

Norfolk Puts $5,000 to Go as Forfeit if Match is Made.

Kid Norfolk, the colored light heavyweight champion, yesterday posted $5,000 with Jess McMahon of the Commonwealth Sporting Club to go as a forfeit if McMahon can arrange a match with Mike McTigue, the world's light heavyweight champion. Norfolk is going to defend his title and the Rickard diamond belt at the Commonwealth on Saturday night in a bout with Jamaica Kid.

If successful in that bout Norfolk will demand a match with McTigue. He argues that since McTigue won the title from a colored man he cannot draw the color line.

WILLARD AND FIRPO EASE UP IN WORK

Heavyweights Are Ready for Bout at Boyle's Thirty Acres Tomorrow.

BOTH IN EXCELLENT FORM

Managers Say Boxers Have Worked Hard and Are Fit—Advance Sale Estimated at $350,000.

Jess Willard and Luis Angel Firpo yesterday completed hard training for their twelve-round bout at Boyle's Thirty Acres in Jersey City tomorrow night. After they had concluded their work they announced that they were in the best possible condition. Their handlers agreed that the rivals have done everything possible to get into shape for the big test. And it is a big test. Ahead of one of them awaits the chance to meet Jack Dempsey in a bout for the heavyweight championship of the world. It is a prize both covet, but they know that both cannot grasp the opportunity. There is room for only one of them. For this reason they have worked as they seldom have worked before to prepare for the elimination process.

They are scheduled to enter the ring at 10 P. M. When they climb through the ropes there will be close to 100,000 pairs of eyes focused on them to pass judgment on their respective abilities. There will be close to 100,000 pairs of eyes in the arena, but, figuratively, the eyes of thousands more will be turned toward Jersey City from all points of the compass, watching to see which of the two mammoths of the ring will emerge with the laurels. For one it means glory and fortune. For the other it means a setback that will take a long time to recover from.

In the case of Willard defeat means that he probably will retire permanently. There would be little use for him to continue longer in the game. After four years he is trying to come back. He wants to try to regain the championship that once was his. If will be the second step in his attempt to come back. He hurdled the first obstacle when he stopped Floyd Johnson at the Yankee Stadium the last May. He realizes, however, that in Firpo he is going to face one of the most rugged and one of the strongest men in the ring today. He knows that the task just head of him is far from being an easy one. For this reason Willard has worked as he has not worked since he was preparing to fight Jack Johnson for the world's championship at Havana in 1915.

Willard Weighs 232 Pounds.

Willard weighs less than he has at any time since that memorable battle of twenty-six rounds. Jack Skelly, who has been supervising his training at the Columbus Sporting Club in Yonkers, said yesterday that Willard weighed 238 pounds and that he would enter the ring a bout that figure. That is about twenty pounds less than he weighed when he fought Floyd Johnson.

"He has not taken off the weight too quickly," explained Skelly. "Jess has been very careful in his preparation. I have watched him closely to see that he did not overdo it. He has worked a few boxers have worked. I have seen many men train for an important bout but I cannot recall ever having seen a man as conscientious or as serious as Willard. One of my chief tasks has been to keep him from working too hard. I have had to declare several rest periods since the big fellow came East to finish training for the fight.

"He was coming along too fast and I was afraid at one time that he might be overstale. But that danger is past. He is ready to put up the best fight that is in him. I am quite sure that that will be good enough to win. I wish that he could have had a few more big sparring partners to work with, but then he could have cut loose on them. He has had to take things easy while sparring, but Joe White and Jim Hubbard have been very faithful and have given him some excellent workouts.

"Willard will surprise his fans when they see him in action. He is faster than ever. He is faster on his feet and with his hands. His punches are snappy and carry a wealth of power. I am convinced that he is punching harder than ever. Both White and Hubbard have floored Firpo. They know his style and they have used that style in their sparring bouts with Jess. The big fellow knows just what to expect from Firpo. If Firpo rushes Willard he will be ready to feint a real surprise."

Willard put in the equivalent of seven rounds yesterday, but he did no boxing. He shadow boxed, pulled the weights, tossed the medicine ball and went through the usual floor exercises and calisthenics. In the morning he took a four-mile walk and concluded the jaunt with several 100-yard sprints to perfect his wind. He appeared to be in excellent condition. He will engage in only the lightest of exercise today, just enough to keep his muscles supple. He will do a little shadow boxing and work for a round or two with the weights.

Will Rest To-Morrow.

He plans to take a short walk early this morning. Tomorrow he will rest until it is time for him to go to Jersey City to weigh in at 7:30 P. M. Ordinarily the boxers are compelled to weigh in at 2 o'clock in the afternoon, but because all of the men in the various bouts are heavyweights and not likely to make any pronounced weight, the New Jersey Boxing Commission agreed to permit the men to weigh in early in the evening.

Firpo's work yesterday was similar to that engaged in by Willard. The South American's trainer, Jimmy De Forest, made him take things easy. He boxed a little, while De Forest coached him in the use of his left jab. He has been perfecting this punch satisfactorily since he started work for his bout and now uses it to good purpose. He, too, seemed in excellent condition and declared that he never felt better. He will do very little work today, and, like Willard, will rest tomorrow. He will come up from Long Branch just in time to weigh in.

The last hitch in connection with the bout was straightened out yesterday when the Jersey City Building Department issued a permit for the fight. The few minor repairs that had to be made in the arena were rushed to completion yesterday. Late in the afternoon Rickard declared that everything was in readiness for the bout. The ring will not be erected until tomorrow so to prevent its being damaged by the weather in the event of rain tonight.

All day yesterday the box office at Madison Square Garden was besieged by fans buying reserved seats. After a late hour Frank Coultry, general manager of the Garden, declared that he had not known exactly what the advance sale was, but he said that he believed it was close to $350,000. He said stress on the fact, however, that there still are plenty of seats. "We have seats for 100,000 and the big bowl is said Coultry, "and there are plenty of choice ones left, even though the advance sale has been one of the heaviest in my experience."

Fans Stand in Line.

When the box office opened at 9 o'clock yesterday morning there were several hundred fans in line. The line stretched from the main entrance around the Twenty-sixth Street side of the building. The line kept growing steadily during the morning. It required an extra corps of special policemen to keep the people in line. Rickard had an extra force of ticket sellers handling the sale.

"I have seen big sales before," said Rickard, "but today's was a record breaker. The clerks have been on the jump all day. I guess the sale today must have been in the neighborhood of $75,000, perhaps more."

The unreserved seats at $1 and $2 will be placed on sale tomorrow at the Garden box office and will be sold from wagons in Jersey City beginning at 2 P. M. At the same time the gates of the arena will be opened.

Floyd Johnson and Jack McAuliffe 2d, who will meet in the semi-final of twelve rounds, virtually concluded their training yesterday. McAuliffe has been working with Floyd ever since Johnson left Saratoga at White Sulphur Springs, Saratoga.

Farrell Sets New Record Of 65 for Woodmere Links

Special to The New York Times.

WOODMERE, L. I., July 10.—Johnny Farrell, young Quaker Ridge pro, playing at the Woodmere Country Club today with Walter Hagen, A. Leopold, a member, and L. J. Robertson, the club President, broke the course record by bringing home a 65. Farrell had an incoming round of 28, eight strokes under par. In his return journey he had four birdies and two eagles. Incidentally, he had three 2s. Hagen had a 71. The best previous mark was made by Abe Mitchell of England, who had a 66 in 1921, when the course was two strokes easier. Farrell's card with par:

Out, par	5	5	3	4	5	4	4	4	3	—37
Out, Farrell	4	4	4	4	5	5	4	4	3	—37
In, par	4	4	4	4	3	5	5	3	4	—36—73
In, Farrell	3	2	2	4	3	4	4	2	4	—28—65

JOHNSTON ARRANGES PRELIMINARY CARD

Zivic to Box in Semi-Final to Leonard-Tendler Title Bout July 23.

Jimmy Johnston, matchmaker of the Cromwell Athletic Club, under whose auspices Benny Leonard and Lew Tendler will fight for the lightweight championship of the world at the Yankee Stadium on the night of July 23, yesterday arranged three of the four preliminaries that will precede the title battle. Jack Zivic will be one of the principals in the ten-round semi-final, but Johnston has not yet selected his opponent. He expects to do so today.

Babe Herman of California and Joey Fox of England were matched for an eight-round scrap. Jimmy Sullivan of New Jersey and Tony Lyons of Yonkers will battle for six rounds and Mike Casero of Staten Island will engage Jimmy Stewart of Manhattan in another six-round session.

Johnston announced at the club's offices, 25 West Forty-third Street, that the demand for choice seats for the bout were being bought up rapidly. He says that there has been a big demand from other cities and that he was convinced the fight would be a sell-out.

"We will be able to seat 75,000 persons for the fight," said Johnston, "and the indications are that a capacity crowd will be present to see Leonard and his leading rival box for the title. Evidently the memory of that battle they put up in Jersey City last Summer is still fresh in the minds of the fans."

Leonard will resume training for the bout today. He came out of his fight with Alex Hart in Philadelphia on Monday night none the worse, a matter of fact, his manager, Billy Gibson, said that the champion needed the fight to put him on edge for the meeting with Tendler.

Tendler established training quarters at Delanco, N. J., yesterday. He trained there the last time he fought Tendler and was so pleased with conditions that he decided to work out there for this fight. He took a five-mile jaunt on the road in the morning and tomorrow will start sparring. He has contracted to have Joe Libby, a negro welterweight, work out with him. In addition, he will have Ray Mitchell and Johnny Donnelly, two fast right-handers of Philadelphia.

Tendler has rented a cottage at Delanco and has had a ring pitched in the open air near by. Jack Reinfeld will supervise Law's training. Tendler weighed 136 pounds yesterday and sent word to New York that he will not have any difficulty making the lightweight limit of 135 pounds.

EARLY WAGER FAVORS DUNDEE OVER CRIQUI

Odds Are 7 to 5, but Critics Think Boxers Will Enter the Ring Even Choices.

With Eugene Criqui and Johnny Dundee down to hard work for their championship battle for the featherweight title at the Polo Grounds on the night of July 26, speculation as to the outcome of the match is stirring. The first bet recorded has made Dundee the favorite. The wager was recorded at odds of 7 to 5, though the surprise of those who saw the Frenchman in his sensational victory over Johnny Kilbane, Dundee, it is explained, is made the favorite because for the first time in several years he will meet an opponent at his natural weight. For years Dundee has been conceding weight. He has met and held his own with some of the best lightweights, including Champion Leonard. When Dundee met Danny Frush a year ago he weighed 124½ pounds.

Dundee's Italian-American friends are getting together a pool to back their favorite and declare that they will accept all bets offered on the Frenchman. It is believed, however, that before the men enter the ring Criqui will be at least an even choice by betting commissioners.

John O'Rourke, matchmaker of the Polo Grounds Athletic Club, today announced the full card of preliminaries to the Criqui-Dundee match. The semi-final will be eight rounds between Johnny Curtin of Jersey City and Danny Edwards of California. Leon Foutel, a protégé of Criqui, will meet Pat Mills of Ireland in a second eight-round bout. Tony Vaccarelli of New York will clash with Jackie McCoy in a six-round contest, and the opening bout of four rounds will be between Charles Hogan of Chicago and Davy Jones of New York.

FLYNN MAY GET POSITION.

Reported That He Will Succeed Flournoy as Garden Matchmaker.

Following the announcement that Frank Flournoy had resigned as matchmaker of the New York Velodrome on Monday it was rumored around Madison Square Garden yesterday that Lee P. Flynn, the well-known local manager of boxers, who has one of the largest stables of fighters of any manager anywhere, will be the matchmaker at Madison Square Garden when the indoor season opens. Rickard declined to discuss the matter. It was said that Flynn already is working on several prospective matches. Joe Vogler is going to look after the Velodrome.

At the same time it was announced that Charley White will box at the Velodrome next Wednesday night. He will meet Richie Mitchell in the main bout of fifteen rounds. This bout was arranged by Flournoy. White and Mitchell met at Madison Square Garden last Winter and put up a real battle. Carl Duane and Charley Rosenberg have been matched to meet in the twelve-round semi-final. Cannonball Eddie Martin and Joe Ryder will clash in a six-round event and Jimmy Hutchinson and Jack Stark will meet in the four-round opener. The prices will be from $1 to $5.

TO HOLD GOLF MARATHON.

Chicago Club Will Start Tourney of 25 Miles on July 28.

CHICAGO, July 10.—Partly to tutor golfers to speed up their play and partly to celebrate the opening of its fourth eighteen-hole golf course, the Olympia Fields Country Club will hold a seventy-two hole golf marathon tournament on July 28. As the largest golf club in the world, Olympia is able to stage such an event without having the contestants play the same hole twice in the twenty-five-mile hour of the four links.

SOUTH AMERICANS TO BE AT RINGSIDE

Tex Rickard Says at Least 500 Have Come to See Firpo Box Willard.

MANY CUBANS WILL ATTEND

Hundreds of Mexicans Also Have Made Reservations—Out-of-Town Fans Arriving.

Twenty per cent. of the persons in attendance at the Willard and Firpo bout at Boyle's Thirty Acres in Jersey City tomorrow night will be of Italian and Spanish descent, according to Tex Rickard, promoter of the big bout, yesterday. He based his estimates upon the advance sale, the orders coming either by cable or wire and from those who called in person at Madison Square Garden and the other ticket offices for tickets for the show.

According to Rickard's unofficial figures, at least 500 will be present from South America, with Argentina sending 75 per cent. of that total. Cuba and Mexico also will be well represented and Promoter Rickard said it would not surprise him if more than 2,000 from Cuba, Mexico and South America were in attendance.

Rickard explained that the remainder of the 20 per cent. of the big crowd would come from New York and adjacent cities.

"A new fight following has developed," Rickard said yesterday, "and the Italians and Spaniards are turning out in large numbers. They are buying tickets in groups of tens and twenties. I never knew there were so many boxing enthusiasts among these two races in my life until Firpo began to display such prowess. Firpo is an idol among them and I feel certain that he is the man responsible for the education of the new fans. As I stand in the lobby of the Garden and watch the new faces and the many races they represent I wonder where they are all coming from. Only this afternoon a party of three came into the Garden, told the man in the box office that they had just landed from Cuba and wanted fifty tickets for their friends who had been delayed but were expected to be here in time for the battle.

"I also want to say that I never saw a better class of citizens so anxious to see a boxing match. The best persons in the city, the leaders in industrial, financial, social and judicial life will be represented. And they are going in parties of all the way from five to fifty. Even men famous in national politics will be present. The list of celebrities alone would be surprising. I am not at liberty to release the names but you can say that there will be men present famous from ocean to ocean. Even one man who a few years ago was a candidate for the Presidency will be at the ringside.

A Great Spectacle.

"There will be a number of bank Presidents, the President of a big railroad and many other well-known men. I am merely citing these men to show the high class of citizens that has been drawn to a boxing bout. The bout between Willard and Firpo will prove, I feel certain, as great a spectacle as the one between Dempsey and Carpentier. The fact that it will be held at night will add more burdens to the work of the promoter, but it will serve to add to the spectacle.

"The gate receipts will fall far short of what they were for Dempsey and Carpentier, but it must be remembered that the top price for this fight is fifteen dollars, plus the war tax, while for the Dempsey affair the top price was fifty dollars. I expect to have a gate of more than $600,000 and that will mean that there were more paid admissions in the arena than for the Dempsey-Carpentier battle."

Rickard says he expects that at least 25,000 will be here from out of the city. Philadelphia, based on the advance sale, should be represented by 2,000, while every city and town within a radius of 250 miles will be well represented, Rickard stated.

It was learned that a party of fifty Elks, on their way from the West to the National Convention in Atlantic City, made a detour and decided to remain here until after the Willard-Firpo battle. They made their headquarters at the Elk Club in Jersey City. Many emergency cots were brought into the Jersey City Elk Club to care for other visiting Elks, according to one New Jersey member.

In order to care for 100,000 persons, the promoters have taken every precaution for the safety of the fans. More than 800 members of the Jersey City police force will be on duty inside and outside the arena. This force will be concentrated in the immediate vicinity of the arena. There also will be 250 plain clothes men, 400 ushers and 200 boys in uniform who will sell refreshments and sandwiches.

Hotels Filling Up.

The hotels are beginning to report heavy reservations, and most of this is ascribed to the fight. Reservations for tonight and tomorrow night are said to be unusually heavy.

For the first time in a number of years a Roosevelt will not be in attendance. Theodore, Archie and Kermit all are out of the city.

"The Roosevelts are wonderful boxing fans," said Frank Coultry, an official of Madison Square Garden, yesterday. "For many of the big bouts at least some member of the family was represented, but this year all of them happen to be out of the city. A friend of the family told me a few days ago that one of the boys said he would like to be in the city, but regretted he was unable to get back in time for the bout."

It also was learned that a party of forty, including several United States Senators and Representatives has made reservations and will leave Washington tomorrow morning. The names have been withheld, but it was intimated that the majority of them are very well known. An official of the Washington American League Baseball Club made reservations and will accompany the party. Many of the members of the Giants and Pirates also are expected to attend.

Rickard said that the reservations from notables are continuing to flood Parker's office. "But you can say for me," Rickard added, "that we have a mighty big place at Boyle's Thirty Acres and we are going to do all we can to care for them. Of course, the reserved seats are gone now, but there will be room until we put the 40,000 one-dollar and two-dollar general admission seats on sale."

LYNCH SIGNS FOR BOUT.

Will Meet O'Donnell on Card With McTigue-Loughran Match.

The rest of the program for the boxing show to be held at Harrison, N. J., on the night of July 18, which will feature Mike McTigue, the world's light-heavyweight champion, in a return bout with Tommy Loughran of Philadelphia, was completed yesterday. There will be two other twelve-round events. In one of the twelves Joe Lynch, the bantamweight champion, and Al D. Joe O'Donnell of Philadelphia will mingle, and in the other Bob Fitzsimmons will engage Ray Newman. This is being advertised as a fight for the heavyweight championship of New Jersey.

McTigue is training at Grupp's Gymnasium and worked before a big crowd yesterday. The conqueror of Battling Siki is determined to erase the blot placed on his record by Loughran when they fought at Philadelphia recently. McTigue realizes that his showing was not that of a champion and he is anxious to regain his lost prestige.

Wager of $4,000 to $2,000 Is Made That Firpo Wins

There was considerable activity in betting on the outcome of the Jess Willard-Luis Firpo bout along Broadway yesterday. While the prevailing quotation was 6 to 5 with Firpo the favorite, one bet of $4,000 to $2,000 was placed with John Doyle with Firpo the choice. Willard money is beginning to show, however, and Doyle declared that he expected the odds to shorten to 7 to 5 today and that he would not be surprised if they dropped to 6 to 5 by the time the men enter the ring. The odds in Wall Street were 6 to 5 and that was the quotation in other centres.

JAPANESE PLAYERS DEFEAT COLLEGIANS

Shimizu and Fukuda Win Feature Match Against Oxford-Cambridge Tennis Team.

RY

GIANTS' 5 HOMERS BEAT PIRATES, 9-8

Win in Tenth After Frisch's Circuit Clout Ties Score in Ninth With Two Out.

SNYDER'S HIT IS TIMELY

Sends Kelly Home With Deciding Run—Blume Gets Credit for the Victory.

Home runs or no count was the Giants' motto at the Polo Grounds yesterday. So the McGrawmen stepped out, plastered five of the circuit hits into the neighboring stands, beat the Pirates in ten innings by 9 to 8 and gained a full game in the National League's hand-to-hand grapple.

A full day's work it was. When the shouting and tumult had died away the fans were limp and hoarse, the Giants tired but triumphant and the Pirates tired and bitter. "Trick home runs!" the Pittsburghers said scornfully of those noble and praiseworthy efforts of the local athletes. "Making a burlesque of the national game," they added in accents bitter. "Why don't you play on a regular field?"

All of which had more than a grain of truth in it. Some of the New York homers were of the slightly woozy variety. On a large field, with lots of the great open spaces about it, the Pirates probably would have won hands down. But the sad fact is that they didn't win—hands down or any other way. They lost the same way the Giants lost last Sunday, when the Reds insisted on spouting home runs into the adjacent seats.

The Giants rallied in the eighth, tied in the ninth and won out in the tenth—as neat a bit of eleventh-hour work as you ever saw on a ball field. Two runs behind reeling into the eighth, Long George Kelly, the first batter, smashed the ball into the upper beltry in left—a prodigious blow but not so long that it mightn't have been caught at Forbes Field or Redland Field.

Frisch Hits Real Homer.

That put the Giants only one notch behind and set the stage for the ninth. But Young popped to Bigbee and Groh popped to Bigbee, and the Giants were going down fast, clutching at the last straw and not getting much of a clutch at that. If Frisch had also popped to Bigbee or to any other of the noble and palpitating athletes of Bill McKechnie, it would have been all over.

But, as you may have deduced, Frisch did no popping at all. He stepped savagely into the first ball that Sergeant Jim Bagby pitched, whaled it on a line toward right field and landed it on the green in one. That was a full-fledged home run. Tris Speaker, riding a bicycle, couldn't have got back fast enough to stop it, for it rose on a line and would have gone on and on if it hadn't brought up against the ornamental grill work between the first and second tier.

The Giants finished the job in the tenth and needed no home runs for the final touch. After Cunningham had grounded out, Traynor to Grimm, who made a wonderful recovery of a badly thrown ball, Kelly singled to left, and Jackson put Sarge Bagby on the ropes with a line hit to centre. Kelly tarried at second, and a second later he hurried home when Frank Snyder batted a robust single over second base.

Speaking of good games for the fans to watch, this was one, and more's the pity that only a handful of 12,000 or so came out for the start of the crucialest of crucial series. It was one of those up-and-at-'em, knock-down-and-drag-out battles. Strong men fainted, and big husky pitchers were led away in platoons.

Cooper and Bentley Out.

Wilbur Cooper and Jack Bentley, who started, were not to be seen on the premises at the end. Wilbur was jostled off the mound in the midst of a sixth-inning massacre, and in the previous half of the inning the Pirates had knocked Bentley off and brought Claude Jonnard to the rescue.

Sarge Bagby succeeded Cooper and finished up, but Jonnard gave way to a pinch hitter and Bill Ryan, and Bill gave way to a pinch hitter and Clinton Blume, who did magnificently in the ninth and tenth and got credit for the victory.

The Pirates developed the habit in the first inning of scoring with two out and nobody on bases, and they couldn't break themselves, making seven of their eight runs in this fashion. In the first with two gone Bigbee singled, Bentley made a balk by dropping the ball as he started to pitch and Barnhart doubled to left, scoring Bigbee. Schmidt singled in the second, stole, and scored on Cooper's hit to left. On Maranville's single Wilbur got to second and Carey's double to left scored him, making the count 2 to 0.

The Giants got their home run complex working in the same inning and scored twice on Meusel's drive to the upper right field section and Cunningham's ditty to the downstairs part. But the Pirates scored again in the third when, with two out, Grimm, Rawlings and Schmidt singled.

Snyder Makes a Homer.

Young's single, an out and Frisch's hit off Rawlings's shoe gave the Giants one in the same half, and they took the lead in the fifth when Snyder opened with a homer to left field, upper Tier. Young and Frisch were hit by pitched balls and Meusel singled to centre.

Bentley was shelled out in the sixth on Maranville's triple and singles by Carey, Bigbee and Barnhart—all with two out, and the net result three runs and a 7-5 score. In the same inning singles by Kelly and Jackson drove Cooper to cover. Maranville threw wild on Snyder, filling the bases, but Bagby confined the disaster to one run by making Pinch Hitter Casey Stengel lift a sacrifice fly to Bigbee, Kelly coming in.

Grimm's double and Rawlings's single off Ryan gave the Bucs another run in the seventh, and that was all until the Giants' game-saving rallies in the eighth, ninth and the big tenth. The scores:

RING POUNDED HARD IN TENTH; REDS WIN

Phillies Lose Extra-Inning Game by 7-2 — Roush's Homer Decides the Contest.

PHILADELPHIA, July 10.—Ring and Donohue staged a fine pitchers' battle for nine innings today and then in the tenth the Cincinnati Reds pounded Ring all over the lot, winning the game from the Phillies, 7 to 2.

Roush hit a home run in the tenth with Bohne on base and this blow not only won the game, but disheartened Ring so much that he went all to pieces.

Donohue struck out nine batsmen, being especially effective with men on bases.

The score:

Caught at the Plate.

Kid Gleason's famous stunt of pulling a pitcher out because the batter hits fouls was duplicated yesterday, when McKechnie yanked Cooper after Snyder had hit a single foul into the screen.

Still, Wilbur couldn't complain. He had nothing but his glove and his good looks, and the Giants slashed away at him from the word go.

If Clyde Barnhart hadn't made a wonderful running catch of Cunningham's drive in the fifth, with two on bases, a tenth inning would not have been necessary. The right fielder was going at top speed when he pushed his glove in the path of the ball.

Probably it was all caused not by the heat but by the humidity. Bentley seemed to be suffering from the torridity, and so did Cooper. In any event, there was more bad pitching than you will see in two normal afternoons.

The Pirates did some terrific hitting, getting nineteen safe ones. Not a Pirate except Sergeant Bagby but did not help his batting average.

Johnny Rawlings was heartily cheered when he first came to the plate, and retaliated nobly by cracking out two timely singles.

Jimmy O'Connell left for Ryan in the eighth, and took his three swings.

Braves Protest Home Run Made by Fournier July 4

President Charles Ebbets of the Brooklyn Baseball Club was notified yesterday by John A. Heydler, President of the National League, that the Boston Braves have protested the second game of the double-header with the Robins at Ebbets Field on July 4. The Braves contend that Umpire Hart erred in allowing Fournier, the Brooklyn first baseman, a home run when his drive hit a flagpole on the right-field wall and bounced back into the field, Fournier actually being held to two bases. The Brooklyn club, which eventually won the game by a 9 to 5 score, takes the stand that the flagpole is four inches beyond the limits of the playing field and that the umpire therefore was correct in his judgment.

YANKEES DEFEAT WHITE SOX, 3 TO 2

Smith, After Fanning 3 Times, Wins Game With Double in the Seventh.

HUGMEN TIE SCORE TWICE

Overcome Lead in 4th and 8th—Jones Outpitches Cvengros—Team Delayed by Wreck.

Special to The New York Times.

CHICAGO, July 10.—The crippled Yankees brought their winning streak to Chicago today and defeated the White Sox 3 to 2, in the opening game of a series of four and twice did the champions come from behind to cancel a one-run lead before they finally pushed the winning run across in the seventh inning.

Sam Jones was chosen to pitch the opener and shaded Mike Cvengros, the White Sox southpaw, in an old-fashioned pitching duel. Only six hits were made off Jones's delivery and after the fourth inning Chicago sent only three men to first—two on singles and one on an error by jumping Joe Dugan.

Cvengros also delivered a well pitched game, but was not quite good enough to defeat the crippled leaders. He yielded only seven hits all told and fanned seven batsmen—Ruth and Haines twice and Elmer Smith three times out of four. It was this same Smith, however, who drove in the winning run with a double to left in the seventh inning.

Early this morning the train bearing the Yankees from St. Louis was wrecked about thirty miles south of Chicago. A hot box in the front truck of the tender resulted in a broken axle, and the tender, a mail car, two baggage cars and a day coach just ahead of the sleepers occupied by the players left the track. No one was hurt and few of the players knew they were in a wreck until they began to investigate the cause of a long delay in the middle of an Illinois corn field. The party was less than three hours late arriving at Chicago.

Meusel and Witt Still Out.

With Bobbie Meusel and Whitey Witt still unfit for service, Manager Miller Huggins started Hinkey Haines in left this afternoon, with Babe Ruth in centre and Elmer Smith in right. Haines was assigned to the lead-off position in the batting order, while Smith batted sixth, Ward moving up to fifth place.

Mostil's double to right, Sheely's sacrifice bunt and Falk's sacrifice fly to Haines gave the Sox the first run of the game in the second inning. The champions had a chance to tie it up in the third, but failed to score after getting runners to first and third with none out. Hofmann led off with a base on balls and sprinted around to third when Cvengros made a wild throw past second after grabbing Jones's bunt. Haines popped to McClellan, however; Dugan fouled to Kamm and Ruth struck out for the second time.

In the fourth, however, the champs broke through with the tying run. After Pipp had been retired on a liner to Hovey McClellan, Ward sent a long highly fly over Johnny Mostil's head and made it good for a triple. Smith struck out for the second time, but Scott dropped a single near the right field foul line and Ward trotted home. Scott tried to stretch his hit and was caught at second for the third out.

The Sox quickly regained the lead. With two out in the second half, Sheely and Falk waded into Jones for consecutive singles and Kamm drew a pass, filling the bases. Jones then forced in a run by passing Schalk also, but recovered control with Cvengros at bat and fanned the White Sox pitcher.

The champions tied it again in the sixth. Ruth led off with a single to right, advanced to second on Hooper's poor return and went to third on Pipp's sacrifice, only to be caught at the plate when Ward dumped a bunt in front of the plate on an attempted squeeze play.

Storm Interrupts Game.

Smith then doubled to left, scoring Ward with the tying run. As Everett Scott stepped to the plate a threatened storm broke and play was delayed for half an hour.

When hostilities were resumed Scott shoved a grounder through the box and was thrown out by McClellan, who made a sensational stop back of second.

The Yankees showed in front for the first time in the seventh. Hofmann led off with a base on balls and went to second on Jones's sacrifice. He did not advance on Haines's infield out, but scored a moment later on Dugan's double to left centre. Ruth drew a pass, but Pipp splashed a high bounder in front of the plate and was thrown out by Schalk. The eighth and ninth were uneventful and soon over.

INDIANS TRIUMPH OVER ATHLETICS

Sewell Scores Three Runs as Cleveland Captures Opener by 4 to 3.

CLEVELAND, July 10.—The Cleveland Indians took the first game of the series from the Philadelphia Athletics, 4 to 3, Uhle out-pitching Heimach. Shortstop Sewell was the big factor in the victory, driving in three of Cleveland's four runs and starring in the field, twice saving Uhle by starting double plays.

Umpire Tommy Connolly was called to his home in Natick, Mass., in the eighth inning, receiving a wire that his sister had died.

The score:

DEVINE DEPOSED AS BEARS LOSE TWICE

Anderson Made Temporary Manager of Newark—Syracuse Wins, 10-8 and 11-6.

SYRACUSE, N. Y., July 10.—The Syracuse Stars won two games from the Newark Bears here today, taking the first one 10 to 8 and the second 11 to 6. It was announced today that Mickey Devine, Newark manager, had been deposed as manager and that Andy Anderson had been appointed temporarily.

The home club won the first game by hitting three Newark pitchers hard. Brainard got two home runs in the encounter, the second one coming in the ninth inning with two runners on the bases.

Pierotti got away to a poor start in the second game but settled down. The Stars hit McGary hard throughout the game and won easily.

Baseball Today, Ebbets Field, Brooklyn vs. Chicago, 3:30 P. M.—Advt.

ROBINS TRIM CUBS IN OPENER BY 9-0

Henry Allows Only Four Hits and Teammates Pound Three Pitchers.

SCORE IN THE FIRST INNING

Single by T. Griffith and High's Double Bring In Initial Run—Chicago Rally Futile.

The Brooklyn Robins, engaging in a hand-to-hand grapple with Chicago to determine which of the two is to occupy for the time being the fourth and last remaining position in the National League's first division, drew first blood in the opener of the four-game series at Ebbets Field yesterday by trouncing the Cubs by a score of 9 to 0. The Cubs entered the game only two percentage points behind the Robins. They emerged a badly beaten baseball club, heavy hitting, together with brilliant pitching on the part of Dutch Henry, combining to make the defeat decisive enough to satisfy the craving of the most rabid Brooklyn rooter.

Henry twirled a masterful game. He yielded but four hits, and two of these did not arrive until the eighth inning, when the young left-hander eased up perceptibly. It was not until the eighth, too, that the Cubs even threatened to score. In that inning their two hits, both made to the infield, and an error filled the bases, but Henry refused to release them from a shut-out.

Pound Three Pitchers.

The Robins pounded three Cub pitchers for a total of thirteen hits, Olson and Tom Griffith leading the attack with three hits apiece. Vic Keen started, and was hit steadily until the fifth, when he was driven to cover. Fussell relieved him in the middle of the frame, but was no immediate improvement, walking three in a row and forcing in two runs. He blanked the Robins in the sixth and seventh, but retired for a pinch hitter in the eighth. Cheeves worked the last frame and got bumped for two hits and one run.

Manager Robinson was again forced to make a slight change in his line-up when Bernie Neis retired in the first because of a bad knee, Bailey finishing the game for him. Tommy Griffith played right field, and Bert Griffith was still in left in place of Wheat. High and Berg shared the game at short.

The Robins started picking on Keen right from the beginning, and never stopped until they sent him to the cooling showers in the fifth. An infield hit by Tommy Griffith and a double by high, which Vogel booted for an additional base, scored a run. Two more Hits by Bailey, Bert Griffith and Tom Griffith and a wild heave to first by Keen on Taylor's grounder to the box netted two runs in the third. Henry's double and Olson's single scored one more in the fourth, and the issue appeared virtually settled for the day.

Score Four in Fifth.

Just to satisfy the crowd, however, the Robins piled in four more in the fifth. Fournier singled, Tom Griffith walked, and after Taylor forced Fournier at third McCarren singled, scoring Griffith. That finished Keen, and Russell entered on the task of saving something that couldn't be saved. He walked three in a row, forcing in two runs, and Olson drove in the fourth tally of the inning with a single.

With Cheeves pitching, Olson got his third hit in the eighth, advanced to second when Bert Griffith walked, and scored on Tom Griffith's third hit for the afternoon.

Hollocher singled for the Cubs in the first, with one down, and took second when Wilson fumbled the ball he received, but remained there while Henry fanned the next two. Friberg arrived safely on first in the second when Olson mu

A trader who can get fun out of his mistakes is a good sport. That's us.

Early this Spring the boys in our stores reported calls for men's double-breasted suits of fancy woolens. Of course we made some, for it's our business to supply the trade demands.

Those D. B.'s are fine and dandy to look at; but, much as we admire them, they were not intended for keepsakes.

We shall always carry enough D. B. suits for men who like 'em, but these few hundred fancy mixtures must find other owners.

Along with them go two or three thousand fancy single-breasted suits, the clearance of a successful season selling.

All sizes from 32 to 46 chest.

$28 now instead of $45 to $60.

Part of your saving on a suit may be invested in a reduced price straw hat if your old one is a bit off color.

Or shirts.

RUNANTELL FIRST IN THE FLEETWING

Cyclops Is Second and Rocket Third in Featured Race at Empire City.

NEW TRACK RECORD IS SET

Lord Baltimore II. Runs Five Furlongs in 0:59 3-5—Only Favorite to Reward Backers.

J. E. W. Widener's Runantell, which had won the Friar Rock Highweight Handicap at Aqueduct on his last outing, yesterday afternoon captured the $3,000 Fleetwing Handicap at Empire City, beating R. L. Gerry's Cyclops by three-quarters of a length in a fine finish, with H. P. Whitney's Rocket two lengths back, taking the show money by two lengths from J. S. Cosden's Bluemont. The race was run in 1:08 4-5, a second slower than the record for the route of about six furlongs. Ten went to the past, the track was in fine shape and a big crowd was on hand. The race was worth $4,910 to the owner of the winner.

The race might have had a different ending had not two of the contenders got into trouble. The Rancocas Stable's Sunfervence, the odds-on favorite, stumbled at the start and was never a factor, while Bluemont was interfered with, almost going down. Following the race, A. H. Morris, one of the stewards of the meeting, interviewed Laverne Fator, who had the mount on Sunfervence, as to what happened at the start. The jockey stated that he was bothered by the boy on the outside of him, but only a trifle, Sunfervence stumbled, he said, and in endeavoring to get his feet under him threw up his head. Fator was struck a heavy blow in the face and stunned, being groggy during the running of the race and bleeding from the nose. He was dazed for some little time after the race, but was not inclined to blame any one for the mishap.

Runantell was off well and went into an early lead, with Rocket the contender until the stretch was reached, where Cyclops came up and challenged the leader. Runantell held on gamely under Turner's good ride and lasted to take the long end of the money. The winner was a 9 to 1 shot, while Cyclops and Rocket closed at 20 to 1. Sunfervence was backed down under a heavy play at post time from even money to 7 to 10.

Bad Day for Favorites.

The Westmont Stable's Tryster, winner of this race last year and which captured the Empire City Handicap last Saturday, did not start, Dry Moon and Miss Star also being scratched. Tryster's time last year was 1:09 3-5, with 128 pounds in the saddle. It was the thirteenth running of the Fleetwing. The best time for the race over the short course was made in 1918, when the Beverwyck Stable's Old Koenig ran it in 1:07 4-5, with 128 pounds up. This also is the track record for the distance. Runantell shouldered 111 pounds, Cyclops carrying 109 and Rocket top weight of 118 pounds.

It was a poor day for the followers of form and the layers of odds reaped a harvest when five favorites failed to come through.

There was a wide field for choice in the Dobbs Ferry Purse, a journey of a mile and seventy yards, and Dartmoor, Canyon, Romany and Wynnewood opened equal choices at 4 to 1. There was a late and heavy play on Canyon, which forced his price down to 9 to 5, while Dartmoor went as high as 7 and closed at 5 to 1. Eight paraded and they were away to a good start, with Wynnewood showing the early speed. The old gelding had enough after half a mile, and when he dropped out of the reckoning Canyon took up the pace-making. Dartmoor, which was slow in getting under way, made up a lot of ground and came like a whirlwind in the last sixteenth, getting up to beat Canyon by a neck in the last few strides. Canyon finished half a length ahead of Prince Regent, the latter saving the show money by two and a half lengths from Romany.

There were not a few who recouped some part of their losses by placing their bets on J. S. Cosden's Lord Baltimore II, a chestnut son of Trap Rock and Federal Girl, which won the last event on the card. This was the Cherry Purse, a five-furlong dash for two-year-olds. Lord Baltimore II. opened an 8 to 5 favorite, but was backed down to 4 to 5 and at post time barrels of money were going down on the colt.

The Cosden colt never gave his backers the least cause for worry. The cherry silks displayed in front of the starter rose and the nearest contender was never dangerous. Lord Baltimore won easily, being three and a half lengths in front of the Riviera Stable's Peter King, which just nosed out Reply for second money. Reply was three lengths in front of James Butler's Watch Charm. Lord Baltimore 2d ran the five furlongs in 0:59 3-5, which is a new track record. The old mark was 0:59 4-5 and was made by the Brighton Stable's Reno Toto, carrying 115 pounds, on July 26, 1918. Lord Baltimore carried 111 pounds, Peter King having top weight of 122 pounds.

—Woodlake Wins Easily.

All but two of the fifteen starters in the opening scramble of six furlongs were three-year-olds. The winner was C. A. Stoneham's Woodlake, a gelded son of Ogden, which displayed good speed to take the lead and hold it throughout. He won easily by four lengths from the Riviera Stable's Glentilt, which was a couple of lengths in front of Rejection. The Belmont colt, High Hand, was the public choice, closing at 11 to 5. The son of Fair Play had no early speed and suffered from interference and finished sixth.

Nine went in the Riverside Purse at a mile and a sixteenth. There was considerable crowding on the first turn and after the race Jockey Rose, who had the mount on Cecil Reed, was called to the stand. As a result of the ruling up Jockey E. Bell, who rode the Fullerton Stable's Prima Donna, was suspended for two days for crowding.

Prima Donna was the favorite opening at 5 to 2 and closing at 10 to 9, but she was never a factor, finishing seventh. She was claimed out of the race for $2,000 by J. F. Richardson. The winner proved to be W. Casey's Chestnut colt Cecil Reed, and Unsentimental, which showed remarkable improvement over his lone start in this part of the country. He took the lead from Coral Reef on the stretch turn and lasted to beat Insidious Prince a head. The latter took second money by three lengths from Haldee. The winner opened at 8 to 1, closing at 3 to 2.

Followers of Sande and most of the habitants of Westchester County must have had sympathies go James Butler's Delphia, judging from the cheers that greeted her victory in the five furlong dash for maiden two-year-olds, designated as the Prospect Purse. It was the most popular victory of the afternoon, and aroused the spirit of the life-saving effort of Lord Baltimore 2d. The latter played the "Wearing of the Green" and the crowd came to its feet when Sande rode the filly back to the stand.

Delphia a Long Shot.

Sande was at his best in the race. A field of sixteen started, with the daughter of Spur-Elysia on the extreme outside. Getting away rather slowly, Sande took the filly around the field, caught the pacemaker, Kilbowrie on the turn and lasted to win by a head from First Lady Harding. The latter was a length in front of Soubrette, which beat Kilbowrie by a length and a half for the short end of the money. Delysia was a long shot, opening at 10 to 1 and closing at 12 to 1. J. S. Cosden's Gray Gleam was the favorite, backed down from 8 to 5 to 2 to 1, but she was never a contender.

The riding talent at Empire City will be increased today by the addition of Lyke and Ponce, who are under contract to Ed Bradley, but will take mounts as free lances at Empire City, the Bradley horses having been sent directly to Saratoga from Kentucky, to rest up after an arduous campaign. Both are riders of more than ordinary ability.

It was announced yesterday that Sam Louis has sold Sceneball to Edward Welsh for export to Porto Rico.

The summaries:

FIRST RACE.

For three-year-olds and upward; maidens; the Aspirant Purse; $1,075; about six furlongs.

Horse.	Wt.	Jockey.	Odds.	Fin.
Woodlake	112	Rice	9-2	1st
Glentilt	112	Turner	4-1	2d
Rejection	112	Burns	20-1	3d½

*Lady Baltimore	103	Lang	15-1	9th½
Comitas	100	Callahan	15-1	10th

*J. S. Cosden entry.

Place and show—Runantell, 2-1, 4-5; Cyclops, 8-1, 3-1; Rocket, 8-1, 8-1.

Time—1:08 4-5.

Start good; won ridden out; place driving. Runantell, b. c., 4, by Broomstick—Zoola; owned by J. E. Widener and trained by T. Welsh.

FIFTH RACE.

For three-year-olds and upward; claiming; the Dobbs Ferry Purse; $1,075; one mile and seventy yards.

Horse.	Wt.	Jockey.	Odds.	Fin.
Dartmoor	107	L. Fator	5-1	1st
Canyon	109	Rose	9-5	2d½
Prince Regent	99	Taylor	12-1	3d½
Romany	105	Merimee	4-1	4th
Roseate II.	104	McAtee	7-1	5th
Maryland Belle	101	Sande	6-1	6th
Wynnewood	108	Lang	7-1	7th
Tufter	116	Thurber	10-1	8th

Place and show—Dartmoor, 2-1, even; Canyon, 4-5, 1-3; Prince Regent, 5-1, 5-2.

Time—1:44 2-5.

Start good; won ridden out; place driving. Dartmoor, ch. h., 5, by Whisk Broom II.—Pankhurst; owned by F. C. Bain and trained by A. B. Gordon.

SIXTH RACE.

For two-year-olds; the Cherry Purse; $1,075; five furlongs.

Horse.	Wt.	Jockey.	Odds.	Fin.
Ld. Baltimore II.	111	Lang	4-5	1st
Peter King	122	Turner	8-5	2d
Reply	111	Thurber	3-1	3d
Watch Charm	106	Fator	20-1	4th
Gold Bug	106	McAtee	7-1	5th
MacLean	113½	Sande	6-1	6th½
Simeon	106	Marinelli	30-1	7th
Bear Grass	106	E. Fator	40-1	8th
Off Spring	106	Stutz	30-1	9th

Place and show—Lord Baltimore II., 1-2, out; Peter King, 7-5, 3-5; Reply, 1-4, 1-5.

Time—0:59 3-5.

Start good; won easily; place driving. Lord Baltimore II., ch. c., 2, by Trap Rock—Federal Girl; owned by J. S. Cosden and trained by Wonda Garth.

Weather clear, track fast.

GOVERNMENT APPEALS CASE ON BOUT TAXES

Asks Supreme Court to Decide Who Is Responsible When Law Is Disobeyed.

WASHINGTON, July 10.—The Federal Government has asked the Supreme Court to decide whether directors and managers of boxing contests in New York City can escape without paying taxes upon admissions to such contests.

In appealing a case brought against James J. Johnston, a matchmaker and manager of the Central Manhattan Boxing Club, the Government asserted that should the decision of the Circuit Court of Appeals at New York City be permitted to stand it would open the door to fraudulent transactions.

The Government's embarrassment arose over the construction placed by that Court upon the laws of New York. Johnston had a contract with the club to conduct boxing exhibitions, under which he received the entire proceeds and paid the club, the Government alleged, a stipulated sum of money for the privilege after each contest. Johnston, upon failure to pay the Government $447 taxes imposed upon admissions to such contests, was indicted and convicted in the Federal District Court at New York City. He took the case to the Circuit Court of Appeals which held that under the laws of New York the Central Manhattan Boxing Club and not Johnston had been licensed by the State to conduct the contests, and that therefore the Government must look to the club for the tax.

The Government, in its appeal to the Supreme Court, contended that it was the plain purpose of Congress to require persons who sold admission tickets to entertainments to collect from the purchaser the tax imposed by the Federal and State Governments, and to account for them to those authorities.

Berg of Sweden Shatters Two World's Swim Marks

GOTHENBURG, Sweden, July 10.—Arne Borg, the Swedish swimming star, set two new world's records at the international athletic games here, covering 1,000 meters in 14 minutes 14 and 4-10 seconds, beating his previous time of 14:17 8-10, and swimming 3,500 meters in 51:26 3-10, as against the previous record of 52 flat, held by George Hogdson of Canada. Borg, who recently won sensational victories in other swimming meets on the Continent, is expected to meet Johnny Weissmuller in the near future, provided the latter's physical condition permits, and is said to be the only European who has a chance against the American champion.

WRACK IS WINNER IN STRAIGHT HEATS

Takes 2:09 Pace Before Rain Halts Grand Circuit Racing Program at Toledo.

BUSY HALL ALSO VICTOR

Captures First Division of the 2:18 Class for Trotters in Slow Time.

TOLEDO, Ohio, July 10 (Associated Press).—Rain, which fell in torrents after the second race of today's Grand Circuit program here, forced the postponement of the Fort Miami $5,000 stake for 2:08 trotters and the Sherwood Trot, value $2,000, for three-year-old trotters.

Two events were concluded before the rain, the second division of the 2:18 trot, won by Busy Hall, in slow time, and the 2:09 pace, which Wrack took in straight heats, Dick McMahon thus winning his first race of the year.

Trotting to beat 2:20¼, Princess Helena, II, bay filly by Chestnut Peter, driven by Tallman and accompanied by a runner, went a mile in 2:12¼. Coco Volo, bay mare by Peter Volo, driven by Marvin, trotting to beat 2:20¼, made the mile unpaced in 2:14.

The summaries:

FIRST RACE—2:16 TROT.
Second Division. Purse $1,000.

Busy Hall, br. g., by Walnut Hall (Morrison)	1	6	1
Captain Eugene, b. g., by The Captain (Egan)	10	1	2
Margaret C., br. m. (Thomas)	4	2	3
Cherry Abbe, blk. m. (Candler)	3	5	4
Count Bigie, Miss Liberty Direct, Peter S., Gracie Harvester, Adeline M. and Mazey Arion also started.			

Time—2:10¼, 2:14¼, 2:11¼.

SECOND RACE—2:09 PACE.
Purse $1,000.

Wrack, b. s., by Peter the Great (McMahon)	1	1	1
Cassie Abbott, s. m. (Morrison)	2	2	2
Walter McGregor, ch. g. (Erskine)	3	4	3
Silver Maid, ch. m. (Willis)	7	3	5

Lefco Grattan, Lambette, La Paloma, Bonnie Girl, Quinlan and Arrowhead also started.

Time—2:07¼, 2:04¼, 2:06.

VOSHELL IS VICTOR IN PROVIDENCE PLAY

Niles and Rice Also Advance in Rhode Island Title Tennis Tourney.

Special to The New York Times.

PROVIDENCE, R. I., July 10.—S. Howard Voshell of New York and Nat Niles and Larry Rice of Boston were among the nationally known stars who came successfully through the second round of the men's singles in the State tennis championship at the Agawam Hunt Club here today. Niles also was victor in the only match played in the third round, defeating Phil Neer of Stanford University in an uphill struggle, 4—6, 6—3, 6—2.

Miss Edith Sigourney of Boston and Mrs. Ream Leachman of Vallejo, Cal., were winners in the second round of the women's singles, and paired they triumphed in the first round of the women's doubles over Miss Alice Jencks and Miss Frances Jennings, 6—4, 6—3. In the singles Miss Sigourney defeated Miss Ruth Dewey Harvey of Providence, 6—2, 6—3, and Mrs. Leachman won from Miss Elisabeth Bright of this city, 6—0, 6—1.

Rice's victories coming after a hurried trip from Illinois, where he had played in a tournament, put him in the running in the singles. He defeated Duncan Langdon of Providence, 6—2, 6—4, and shortly after eliminated Karl Pfaffman, Harvard star, 6—3, 6—3, in impressive manner. Voshell put Major Wheeler of Yale out of the running in the men's singles by scores of 6—1, 6—1.

Two Yale stars, Captain Arnold W. Jones of this city and Lucian E. Williams, also are among today's winners. The former won in easy time with George C. Guild of Harvard, 6—1, 6—1. Williams crushed the hopes of Clyde J. Curley, Pawtucket star and former State champion, 6—4, 6—2. Russell N. Dana, another ranking player of this State, defeated Wallis E. Howe Jr. of Dartmouth, 7—5, 6—4. Charley Shaw, also among the stellar local performers, smashed his way to a clean-cut victory over J. D. E. Jones Jr., Brown University star and former captain.

S. Kashio of the Japanese Davis Cup teams today was defaulted through his failure to appear. His team mates, Fukuda and Shimizu, were kept in the tournament when their opponents in the draw agreed to default to them. Both are expected here tomorrow and both have drawn stiff assignments for their opening matches.

Shimizu is pitted against Arnold Jones. Fukuda will have even a more difficult proposition, when he faces Carl Fischer of Harvard. Fischer today eliminated John T. Lewis of this city, 6—0, 6—2.

The summaries:

Men's Singles, Second Round—H. M. Parsons defeated Duncan, 6—4, 6—2; M. Fukada won from Claude R. Branch by default; N. W. Niles defeated Richard Chase, 6—1, 6—1; Carl Fischer defeated John T. Lewis, 6—0, 6—2; Phil Neer won from George A. Lyon by default; Louis H. Thalheimer defeated John A. Devereaux, 6—1, 6—4; Charles K. Shaw defeated J. D. E. Jones Jr., 6—0, 6—3; Seiwo Shimizu won from Allan Tydor Gross by default; Arnold W. Jones defeated George C. Guild, 6—1, 6—1; Wallace J. Bates defeated Arthur Ingraham Jr., 6—3, 6—4; S. Howard Voshell defeated C. Marvin Mayo, 6—1, 6—1; James Davies defeated W. W. Ingraham, 6—3, 6—4; L. E. Williams defeated Clyde Curley, 6—1, 6—2; Russell N. Dana defeated Wallis E. Howe Jr., 7—5, 6—4; Louis White defeated Alden Briggs, 6—0, 6—3; Larry Rice defeated Karl Pfaffman, 6—3, 6—3.

Third Round—N. W. Niles defeated Phil Neer, 6—4, 6—4.

Men's Doubles, First Round—W. W. Ingraham and Bates defeated Fator and Lt. Merrill, 6—3, 6—2; Louis H. Thalheimer and Louis White defeated Richard Chase and Arthur Ingraham Jr., 6—2, 6—4; Allan Paine and John H. Howard defeated D. E. Williams and Purtiman, 6—3, 6—3; C. C. Gould and Gerald Stafford defeated Alden Briggs and Russell Dana, 6—4, 6—4; Josiah Wheelwright and Bundy defeated Doran and Voss, 6—4, 6—4; A. S. Dalmer and King defeated Bruce Cook and George Crum, 6—4, 6—4.

Women's Singles, Second Round—Miss Edith Sigourney defeated Mrs. L. Lewis Brewer, 6—2, 6—3; Miss Agnes Sherwood defeated Mrs. J. D. Corbier, 6—2, 6—3; Miss Rosamond Newton defeated Miss Persephalin Greene, 6—4, 6—4; Mrs. Edith Sigourney defeated Mrs. N. Darrell Harvey, 6—4, 6—1; Mrs. William Endicott defeated Miss Edith Blanchard, 6—4, 6—2; Mrs. Reginald Leachman defeated Miss Elizabeth Bright, 6—1, 6—1; Mrs. Randolph Brown defeated Miss Cornelia Burgess, 6—2, 6—4.

Women's Doubles, First Round—Miss Edith Sigourney and Mrs. Ream Leachman defeated Miss Alice Jencks and Miss Frances Jennings, 6—4, 6—4; Mrs. W. W. Niles and Mrs. Clyde Lockwood defeated Miss Ruth Williams and Miss Edith Blanchard, 6—4, 6—2; Mrs. H. Darrell Harvey and Mrs. Harvey Dewey defeated Mrs. G. F. Dorrance and Mrs. W. W. Shoemaker, 6—2, 6—2; Miss Blanche L. Derbon and Miss Pauline Allen defeated Miss Agnes Sherwood and Mrs. Randolph Brown, 6—4, 6—4; Mrs. Edith Sigourney and Mrs. William Endicott defeated Miss Rosamond Newton and Mrs. Persephalin Greene, 6—2, 6—4; Mrs. Merton L. Hazeltine and Miss Cornelia Burgess defeated Mrs. Clyde Makepeace and Miss Bertha C. Greenough, 6—1, 6—4.

WALES ON WINNING TEAM.

Helps Old Oxonians to Defeat Old Cantabs at Hurlingham.

The Prince of Wales took part in the recent polo match between Old Oxonians and Old Cantabs at Hurlingham. He hit one of the goals, which helped to give the Oxonians the victory by the score of 5 to 3. The Prince played No. 1, the other members of the winning side being Lieut. Col. C. Smith, Sir Ernest Horlick and Lieut. Co. the Hon. F. V. Willey. The Old Cantabs were: H. D. Rose, Major R. Hardy, Major A. L. Tate and Lord Woborne.

Spain Eliminates Holland In Davis Cup Semi-Finals

EASTBOURNE, England, July 10 (Associated Press).—The Spanish lawn tennis team in the Davis Cup competition today eliminated Holland from the European semi-finals by winning the doubles. The Spaniards took both singles yesterday. Eduardo Flaquer and Count de Gomar won today's match from Timmer and Bryan of Holland, 8—1, 6—3, 6—2. Spain, in the European final, will meet the winner of the France-Switzerland tie. Suzanne Lenglen's ability to hold her own against first-class male players was demonstrated here when, after the Davis Cup match, she figured in a winning mixed partnership against first strings of Spain and Holland. She and Flaquer defeated de Gomar and Van Lennep, 6—2, 7—5.

RED WORTHY WINS JUNIOR LEAGUE CUP

Nassau Driving Club Entry Takes Trophy From Boston at Meet of Amateur Reinsmen.

Special to The New York Times.

MINEOLA, L. I., July 10.—Nine races of twenty-one heats were contested at the Fair Grounds here today during the first day of the annual trotting meeting of the Junior League of Amateur Drivers of the United States. At the end of the opening day the point score stood as follows: Boston, 28; Nassau, 20; Newark, 16; Goshen, 2; Hartford, 0.

The feature of the card was the 2:15 Class trot, for the Junior League Cup. It was won in straight heats by the Nassau Driving Club entry, Red Worthy, owned by Gus Muns of Brooklyn. Eight started against the chestnut gelding, which brought only $185 at the Spring horse sale in Chicago. He took the lead after the first turn and came home five lengths in front in 2:11¾ in both miles, defeating J. J. A., the Newark entry, and Roland Harriman, Goshen Driving Club, with Miss Mary.

The Boston Metropolitan have captured the Junior League Cup for the last five years. They brought imported two horses to meet the trophy in their clubhouse, but failed. The Boston drivers, however, made a great killing in the sweepstake races, winning both the two and three year-old events.

The summaries:

THREE-YEAR-OLDS, TROTTING.
Purse $600.

Ruby M., b. f., by Henry Setzer; W. McDonald, Boston	1	1	
Guy James, ch. c.; H. J. Sherman, Nassau	2	2	
Pepperidge, blk. c.; J. Bedard, Nassau	4	3	
Bill Talbott, br. g.; J. J. Looney, Nassau	3	4	
The Precept, b. g.; F. Leopold, Nassau	7	5	
Silver Price, b. f.; R. Herring, Goshen	5	6	
Ruby Sunshine, b. f.; C. H. Trainer, Boston	6	dr	

Time—2:11¾, 2:13¾.

2:30 CLASS, TROTTING.
Second Division.

Dewey the Great, b. g., by Lord Dewey; W. E. Neubert, Boston	1	1	
McKinner Guard, b. g.; S. Dunn, Nassau	3	2	
Stephen Calls, br. g.; M. Aronson, Newark	2	3	
Marion Brooks, b. m.; G. Wiggins, Nassau	4	4	
Oakland Maid, blk. m.; F. H. Thrall, Nassau	5	5	
Bright Sunshine, ch. h.; C. H. Trainer, Boston	7	9	
Elsie Mazey, b. m.; W. Gartrell, Nassau	6	7	

Time—2:11¾, 2:17¼.

2:20 CLASS, TROTTING.
First Division.

Luke Bell, blk. g., by Atlantic Express; J. C. Young, Boston	1	2	1
King Worthy, b. g.; G. Muns, Nassau	4	1	2
Orphan Boy, blk. g.; P. Devine, Newark	2	3	3
Kate Guy, b. m.; A. S. Tompkins, Goshen	3	4	4
Chester Dillon, ch. g.; J. Maxfield, Newark	5	6	5
Ben Royal, b. h.; W. M. Delbert, Hartford	6	5	6
Airman, b. h.; R. Shoemaker, Nassau	7	7	dr

Time—2:21, 2:16¾, 2:16¾.

TWO-YEAR-OLDS, TROTTING.
Purse $585.

Vivian Sunshine, b. f., by The Harvester; J. C. Young, Boston	5	2	1
Rose W., ch. f.; W. Strang, Nassau	2	1	2
Brista Brooks, b. c.; H. Hoffner, Goshen	1	3	3
Daniel Harvester, b. c.; E. C. Burdack, Newark	3	4	Dr.
Prince Lu, b. c.; G. Muns, Nassau	4	5	Dr.

Time—2:26¾, 2:24½, 2:23¾.

2:15 TROTTING; JUNIOR LEAGUE CUP.

Red Worthy, ch. g., by Orotan Axworthy; G. Muns, Nassau	1	1	1
J. J. A., b. g.; J. Wade, Newark	2	3	2
Mamie W., b. m.; R. Harriman, Goshen	6	2	3
Monta Volo, b. g.; W. McDonald, Boston	3	6	4
Talmena, b. m.; W. E. Neubert, Boston	7	4	5
The Great Marie, b. m.; H. G. Sherman, Nassau	4	7	6
Miraflon, b. m.; J. A. Pilgard, Hartford	5	5	7
Trampwell, b. g.; E. Bodenweiser, Newark	8	Dr.	

Time—2:11¾, 2:13¾.

2:16 CLASS, PACING.

Confidence, b. g., by Peter Volo; W. J. McDonald, Boston	1	1	1
The Moonlight, blk. m.; C. McCardell, Nassau	2	2	2
Brook Maid, b. m.; G. Muns, Nassau	4	4	3
Sidney Patchen, blk. s.; W. Love, Nassau	5	3	4

Time—2:18¾, 2:18½.

2:10 CLASS, PACING.

Zetta Patchen, b. m., by Dan Patchen; J. Wade, Newark	1	1	
Oregon Hall, br. s.; W. J. McDonald, Boston	2	2	
Peter Pitcher, b. s.; E. A. Meckel, Newark	3	3	

Time—2:11¾, 2:13¾.

2:19 CLASS, TROTTING.
First Division.

Lord Lyndon, b. g., by Hilko; W. J. McDonald, Boston	1	1	
Dorothy Kalfa, b. m.; M. I. Ackerson, Newark	2	2	
Ben Bogen, b. s.; S. Sweetnam, Nassau	3	3	
Anne Brook, b. m.; G. Wiggins, Nassau	4	4	

Time—2:16¾, 2:18¾.

2:19 CLASS, TROTTING.
Second Division.

Lady Psyche, b. m., by San Francisco; J. Leonard, Newark	1	1	
Honest Bill, blk. g.; G. Wiggins, Nassau	3	4	
Wesley Brooks, b. g.; W. Mutchinson, Nassau	4	3	
Julia G., b. m.; W. Gartrell, Nassau	6	2	
Natty Guy, b. s.; W. J. McDonald, Boston	5	5	

Time—2:15¾, 2:17¾.

EMPIRE CITY ENTRIES.

FIRST RACE—For two-year-olds; fillies; selling; five furlongs. Bedeiling 104 pounds. Hilarity 109, Ducky 112, *Variation 112, Apology 109, Florence D. Walker 109, High Jinks 112, Poor Lo 109, Lady Audrey 110, Celavebloom 92, *Postillion 102.

*James Butler entry.

SECOND RACE—Three-year-olds and upwards; selling; seventy yards. Frigate 126 pounds, Pendleton 90, Thimble 97, Epsom 100, Flannel Shirt 110, Merviega 108, Moon Baker 90, Shamrock 95.

THIRD RACE—Three-year-olds and upwards; handicap; about six furlongs. Mayflower 98 pounds, Aunt Patricia 110, Miss Star 102, Amazement 112, Dolores 117, Arrow of Gold 109, Mormaw 113, Marionette 105, Riper 104.

FOURTH RACE—Three-year-olds; Arrow selling; Station of Kildare, Silk Stockings 104, Jack 104 pounds, *Ben Wood 107, Mark Twain 103, Bonnet 95, Armor Bearer 110, William Tell 108, Motley 108, Homestretch 107.

FIFTH RACE—For three-year-old and upwards; the Woodland Purse; claiming; mile and seventy yards. Trite 110 pounds, Purl 118, Paula Gray 108, Flying Devil 106, Prime Donna 92, Brave Crow 107, Silent King 110, Red Lora 110, Little Annie 106, Scrap 100, Carmencita 105, †Black Night 110, †Maine 100, *Anniversary 105, †Wallike 108.

SIXTH RACE—Two-year-olds; claiming; five and a half furlongs. Soubrette 104 pounds, Seminole 102, Little Thistle 102, Our Star 102, Gray Girl 102, Sapphire 97 102, †Tickler 105, †Attention 108, Pistol 107, Sam Smith 100, Dorothy Ryan 102.

*Jaime Butler entry.

†Apprentice allowance claimed.

Weather clear, track fast.

GOULLET AND PIANI WIN TWO-HOUR RACE

Score Total of 69 Points—Eaton and Keller Second at the Velodrome.

16,000 FANS ARE PRESENT

Season's Largest Crowd Sees Goullet Ride His Team to Victory by Winning Four Sprints.

Alfred Goullet, the brilliant all-around bicycle star, paired with Orlando Piani, premier Italian sprinter, won the two-hour team bicycle race from a field of twenty teams and before the largest crowd of the season at the New York Velodrome last night. More than 16,000 fans saw the race.

The race was run on a point basis with a sprint every two mi

NEW YORK, WEDNESDAY, JULY 11, 1923.

ENGLISH PHLEGM.

Mr. LLOYD GEORGE exhorted his countrymen not to get "excited" about the seizure of liquor on British ships in New York Harbor. This was resented by the English press commenting upon the matter. The editors asserted that they were not in the least excited, that they would in any case maintain their native composure and dignity, but that they could not be restrained from speaking their minds. Accordingly the daily newspapers ran the whole gamut of a "fine derangement of epitaphs" applied to the action of the American Government. The London Morning Post led all the rest in calculated sarcasm. As for The Saturday Review, it insisted that it was keeping its temper admirably, but felt constrained to address a few "plain words" to Americans regarding the discourteous and "intolerable" treatment which they were extending to British shipping. It is lucky for us that these organs of English opinion did not get excited. If they had done so, we might have heard things to make our ears tingle.

Some Englishman, even if by great effort they keep cool in speech, are obviously getting their imaginations heated as regards what has happened or may happen in the United States. Take the case of the annual meeting of the Bartholomay Brewing Company on June 14. The Chairman undertook to instruct the shareholders about the prospect of soon being able to sell beer again in America. He informed them that the Volstead act will shortly be amended, so as to make this legal. In support of this view he pointed to the result of the last Congressional elections, "coupled with the defeat of Mr. VOLSTEAD, the prominent prohibition leader." He neglected to note that Mr. VOLSTEAD was defeated by a rival even drier than himself. But where the Chairman of the brewing company surpassed himself was in the following:

> The latest information to hand regarding prohibition is the recent court decision wiping out the limit of liquors a doctor may prescribe. Further, that the State of New York have repealed the Mullan-Gage act, which, in other words, is the States Enforcement act. This means that the State and local police will cease to enforce the Federal prohibition laws in the State, the entire burden of the work, which includes the guarding of the very long stretch of the Canadian frontier and supervising New York City with its 7,000,000 inhabitants, will consequently be thrown on a handful of Federal officials. The "wets" in Illinois, Wisconsin and other States are planning to introduce similar action. Governor SMITH, in signing the repeal of the act, stated that the action of Congress in defining an intoxicating beverage as one containing not more than half of 1 per cent. of alcohol was the action of fanatical "drys," it was not honest or common sense.

This cannot be called excitement, but it surely is gross misapprehension and blundering. There is the less excuse for it inasmuch as the best-informed correspondents of the English press in this country have steadily reported the determination of the Government and the people of this country to see the great prohibition experiment through.

A CRUSADE OF MERCY.

The announcement that the American Relief Administration is definitely planning to withdraw from Russia in September marks the end of one of the greatest ventures of mercy in all history. The famine in Russia has been weathered, millions of children and adults have been snatched from death by starvation, other millions have been saved from devastating epidemics, and still others have been inspired to new efforts in the task of helping to drag the Russian people out of the Slough of Despond into which they had sunk following the horrors of wars, revolutions, famine and pestilence. In this work the American Relief Administration has taken first place, ably seconded by a number of American charitable organizations, which in co-operation made possible effective distribution of relief throughout the entire territory of Russia.

The reports of the vanguard of the American Relief Administration—the men who first went into the famine districts—are full of unspeakable horrors. Children by the hundreds abandoned by their parents to die of starvation by the roadside; corpses filling the railway stations and lying about in the streets; whole communities fleeing in horror from the pest following famine; hospitals full of filth, with no sheets, no blankets, no heat, no soap, often no water, no instruments and generally nothing but a ration of adulterated black bread—these and a thousand other indications of the utter demoralization of the people were found. How to bring order into chaos, how to win the help of a suspicious Government, how to make use of a broken-down transportation system, how to create and administer distribution centres, how to determine who should and who should not receive help, was the work which these men undertook. An enormous administrative task had to be planned and executed almost entirely by Americans. More than $60,000,000 worth of supplies were finally distributed. At the height of the relief work more than 11,000,000 persons were being helped.

The mere distribution of food was not enough. In Russia, as the famine spread, more than 3,000,000 cases of typhus were reported and 2,000,000 of relapsing fever. Typhoid ran over a half million and cholera and smallpox each over 150,000. The exodus of refugees from the stricken districts helped to spread these diseases, and as there was no soap, no sanitation, and no conception of cleanliness, the resistance of the people, already weakened by famine, rapidly gave way. Hospitals were without equipment and medicines, and many of the doctors had become disheartened fighting against such odds. It fell to the A. R. A., therefore, to establish a sanitary service, and to organize the distribution of millions of dollars' worth of medicines and medical supplies furnished by the American Red Cross and by the surplus army stores which Congress had authorized the A. R. A. to use. Hospitals were supplied and often reorganized. Soap was shipped in by the ton—2,400,000 pounds were distributed—and bathing establishments were installed so as to make disinfecting and delousing possible. New clothing was furnished when available; unsanitary streets and places were cleaned up; and finally about 7,000,000 persons were vaccinated or inoculated. As the food distributers broke the back of the famine, so the medical service broke the epidemics.

Of this great crusade of mercy the American public has heard but little. The devotion and self-sacrifice of the hundreds who took part in it deserve the highest praise. It is a new proof that American idealism can be made practical, and that the "selfishness" with which Europeans are so fond of charging us is capable, when need arises, of saving the people of a great nation from wholesale destruction.

THE NATION'S ROAD-BUILDING.

The number of motor cars and trucks registered in the United States on July 1 was 13,048,128, a gain of 2,440,000 in a year. It is estimated that by the end of 1923 a million more will be added to the total. For every 8.5 persons in the country there is now one car or truck. California leads, one motor vehicle for every 4.09 persons. Sales made on the instalment plan show a rapid increase. Paying $200 down, any wage earner may have a car. The traffic problem is less difficult than the garage problem. Thousands of automobiles have passed the night in fields, lanes and house lots. Speculators have grown rich by putting up cheap garages for no other purpose than housing cars. All the world is riding in the automobile.

More automobiles, more good roads. Bonds issued for new construction are still a charge when the original surface is worn thin or full of pot-holes. Money is wasted on poor work. One kind of surfacing is discarded after another, and only concrete, which is the most expensive, finds favor. Macadamized roads are of the past. An asphalt surface needs constant patching. Money is not necessarily wasted on bonded roads because the surface breaks up in a few years. THOMAS H. MACDONALD, Chief of the Federal Bureau of Good Roads, says that the use of the improved highway for pleasure and business must go into the reckoning, and further: "The grades remain intact, and much even of the surfacing material remains to form the basis of the renewed surface." A pressing question is how to distribute the cost of new roads and repairs. This is at once a Federal, a State and a local question. On main thoroughfares the freight truck does incalculably more damage than the pleasure car. Some means must be found to make the truck pay its way. The tax on gasoline consumed is not the solution.

Federal aid in road-building is given because so much of the motor vehicle traffic is interstate. Money is appropriated to assist the States in construction that ultimately will provide highways linking all parts of the country, so that a citizen of Maine may start on a journey to Texas knowing that he will have a good road all the way. The Lincoln Highway between the Atlantic and Pacific Coasts is a pioneer. It has not been completed, but in fair weather an automobile may be driven comfortably from New York to San Francisco. A bulletin has just been issued at Washington by the Bureau of Public Roads stating that Federal aid is to be given for the construction of 187,406 miles of road in the forty-eight States. Nearly every city of more than 5,000 will have the use of one of these highways when the plan has been carried out. State co-operation is everywhere essential. If a State refuses or fails to make the appropriation needed, it will forfeit a demonstrated economic advantage. Good roads pay for themselves in about eleven years, it is calculated, when the transportation of commodities over them is heavy. The increased value of property along the good road must not be left out of the account.

Mr. MACDONALD'S estimate that fifteen to twenty years of road-building to help the States lie before the Federal Government will doubtless have to be revised. The day is likely to come when heavy traffic will have its own highways and more Federal aid will be needed. And then there is maintenance, an unending task. In a twenty-year period the Federal contribution would be not less than $3,000,000,000, based on an average cost of $17,000 a mile. One-third of the system proposed has been finished or is building. Southern States, which formerly did not possess a single first-class road, are now accessible to merchants, expressmen and tourists. A greater problem than road-making is the raising of money to pay the cost. What form shall the taxation take? Is it better to issue bonds or to levy directly? The Federal Government co-operates with the State, the State with the county. The principle of pay as you build may be preferable in some cases. Solvency must always be the first consideration. Pyramiding of taxes to construct more highways than are needed may invite disaster.

THE IDEAS OF MAGNUS.

Sniffing the combat from Battle Creek, where the restless Mr. LA FOLLETTE is resting in preparation for a vocal progress across the continent, he cried by mail to 400,000 Minnesota voters: "We need MAGNUS JOHNSON—his vigorous personality, his integrity, his courage, his voice, his vote." He can't think half as much of the Farmer-Labor candidate for Senator as the candidate thinks of him. Mr. JOHNSON wants to go to the Senate to be a rubber stamp of the great little Badger agitator. He wants to curb the Supreme Court, either by limiting its powers to the mere interpretation of acts of Congress, or by requiring a unanimous decision to declare a statute unconstitutional.

On foreign policies he is going to be "guided largely" by the progressive Senators who have gone to Europe or are in Europe. He now says specifically that his views on foreign affairs will be held in suspense until he knows what Senator BROOKHART reports. Like all canny politicians and platform-makers, he "doesn't believe in being too definite on issues." From his "colleague" in Wisconsin he is willing to receive information, but, in spite of his proclaimed devotion to that universal oracle, he will always take his own position, stand on his own feet:

> I don't want to get tangled up before I know something. LA FOLLETTE knows a lot about these things. I'll listen to him. But there's not anybody, man, woman or child, who is going to tell MAGNUS JOHNSON where he is at.

We are indebted to our neighbor, The Herald, for some attractive specimens of Mr. JOHNSON'S salient and hearty style and Pordesque philosophy:

> These big men they talk about, they don't fool me for a minute. I don't believe in digging too deep into things. These lawyers in Washington, they say they know so much; but half of it is just to fool the other fellow. I am for the common people and I want to be common. I don't give a damn for books. I want things that are alive, not things that have been dead for thousands of years. I have read more histories than any man, but only about LINCOLN. I stand where he stood. He was a great man. I quote him in my speeches.
>
> When I get down to Washington and I start to fight, they will know me. I never quit. When they start to make long speeches and start to mix things up with their parliamentary procedure, I'll straighten them out. I did it in the Legislature, and I'll do it there.

Perhaps there has been no more original and affecting praise of Mr. LINCOLN than this. MAGNUS or Great JOHNSON acknowledges his greatness and quotes him. Mr. LINCOLN'S saying about the common people is famous. Mr. JOHNSON attaches himself to the common people. He wants to be common. He succeeds. It is a little curious for a La Follettian to threaten interference with long speeches; but Mr. JOHNSON'S game is patent. If he can be common enough, violent enough, vague enough; tickle the popular sense of humor and the picturesque; appeal to the miscellany of discontents and grouches; excite envy of the intelligent and the prosperous and flatter an imaginary, silly King Demos; promise everything and drape himself in an impossible but becoming simplicity and ignorance, why shouldn't he thrive at the polls? Aside from the fly-gobblers, there must be in Minnesota, as there were in Massachusetts forty years ago, inquisitive or cynical persons who say: "Let's elect him, just to see what the 'old man' will do."

EASY MONEY.

The place of honor in the first column, front page, of The Kansas City Star is bright with an account of the meeting of "about 120 heirs to the estate of CHARLES CHRISTOPHER SPRINGER." An heir and director of the Springer Heirs Corporation was present to discuss with the Missouri heirs "the purchase of membership in the corporation." The Springer estate "is said to include 2,654 acres "in and about Wilmington, Del., and "in New Jersey and New York, and "is valued at about $500,000,000," according to the visiting heir and director. SPRINGER, it seems, is as romantic as a Minnesinger:

> The name "Springer" originated in 1042 when a German Baron was knighted. Having threatened the stability of the kingdom, the Baron was arrested and imprisoned two years on no specific charge. He was then tried in court, but was not acquitted, and so was returned to prison. A river ran by the high tower in which he was confined. In an attempt to make his escape he leaped from this tower into the river, but was recaptured. For this daring exploit he was knighted by the King and was given the name "Springer."
>
> The river must have been the Rhine. The jumping Baron must have caught a glimpse of the Rheingold. Some 600 years later CHARLES CHRISTOPHER SPRINGER got a considerable slice of it. He came here from Stockholm in 1658:
>
> After having made his fortune in America, he deposited his wealth in Swedish banks, where it has lain idle since. With the accumulation of more than two centuries' interest the wealth now totals eighty million to ninety million dollars. After the corporation has recovered its heritage in America it will sue for the money in Sweden.

No doubt the descendants of the German high jumper are as sure of being enriched by the personal property in Sweden as by the real estate in Delaware, New Jersey and New York. Amid all humidities and aridities, how cooling is this peep beneath the waters of the Rhine! Man never is but always to be blessed. Reverently let the heirs of ANNEKE JANS salute the heirs of CHARLES CHRISTOPHER SPRINGER, while from the deepest dungeon beneath the castle moat our old friend, the Spanish Prisoner, smiles benevolently at a trusting world.

ICE AGE AND RADIO.

Somewhere off the coast of Newfoundland or Labrador DONALD B. MACMILLAN and his little company are sailing toward the Arctic. By August, perhaps, they will be at Etah, the rendezvous of whalers on the West Greenland coast; then they will bid adieu to civilization and sail and steam and drift to wherever the ice of their "farthest north" shall grip them and hold them fast. In the Arctic man proposes, but the ice disposes.

It is not MACMILLAN'S first Arctic venture. He has gone that way several times already, and the geography of the polar suburbs is as familiar to him as is a coast to a pilot. He is the idol of the northern fishermen, and there is not a cod fisher or a whaler on "the Labrador" or in Greenland waters who does not know him and admire him. They took his measure years ago when he was studying the Eskimos and surveying mountains about Nain and beyond, pushing his little power boat in and out among the picturesque fjords which have no parallel except in Norway, but which few tourists ever see. There is nothing that the men who peril their lives in those dangerous waters would not do for him if there were need.

This time, however, MACMILLAN is not trying for the Pole. What he hopes to find out is whether the great Arctic glacier is really moving southward. If it is, and if it keeps on moving, the ice age will some time come again. Announcement that the glacier is on its march would not materially deflect the course of life of any man or woman now living. It would be, for the mass of intelligent persons, only another interesting scientific fact, and for the rest nothing at all. But MACMILLAN is a scientist, and it is for science that he trusts himself again for long months to the Arctic ice.

The world may know of his discoveries long before he himself returns, for he has taken a radio outfit along, and there are alluring suggestions of a weekly letter by wireless from the point where he will be frozen in. Here is a theme for the imagination. An Arctic glacier connected with civilization by wireless, its progress measured and recorded, the approximate dates of its arrival at this or that point carefully calculated, a helpless world waiting to be engulfed, and the whole thing recorded in the news! What would we not give for a similar record, wireless to the primitive peoples of the Euphrates or Nile valleys, when the ice which once covered Northern Europe stopped its flow and began slowly to disappear?

It is to be hoped that MACMILLAN will succeed. We want to know everything that can be known about the world, whether the knowledge is "practically" useful or not. There is no danger that we shall have too much of science for its own sake. "My business," Professor REMSEN, the great chemist, is reported to have said, "is to study the laws of matter, not to invent new baking "powders." This is the spirit that has again sent MACMILLAN and his party to the Arctic.

FIGURES FOR FARMERS.

Beautiful are the crop-reporting tables of the Department of Agriculture. Its estimate of the agricultural output of this country for 1923, and of the prices which farmers will receive, has all the eloquence of figures in round billions. But both consumers and farmers are less apt to be staggered in a simple-minded way by such an array of statistics than they were in former years. The practice of cost-accounting has spread to the farm, and even the wayfaring housewife knows that if the total production of the farms is 3 per cent. less than in 1922, while its value is greater by $1,000,000,000, somebody will have to pinch and scrape to pay the food bills.

It cannot be said that the showing made by the Department of Agriculture is well fitted to allay the discontent of farmers. That is most prevalent in the wheat-growing sections of the West. Yet farmers there will find their own complaints confirmed by the official figures, and will point out that while the price for wheat was terribly low last year it is still lower today, while the total receipts from wheat will be $100,000,000 less than in 1922. Corn is up slightly in volume and a good deal in value, but corn is no longer a Republican crop. Democrats in the South and Southwest have taken to growing it. And what defense can the Department of Agriculture make for demonstrating that about one-half of the total gain in the value of farm products this year is due to cotton? Its total increase is figured in money at $494,000,000. The forecast for tobacco also is for a gain of about 100,000,000 pounds. Is this Administration, which is, of course, responsible for the size of the crops in every part of the country, willing to have it appear that it is running agriculture chiefly for the benefit of the Solid South?

TOPICS OF THE TIMES.

Again He Must Be Named.

If, as reported, HENRY FORD has bought the old house in South Sudbury, Mass., where LONGFELLOW'S "Tales of a Wayside Inn" are supposed to have been told, it only proves that he has exercised the right to be inconsistent—a right which is his as much as anybody's.

What if he did say that "all history is bunk"? In the first place, the statement would have been true enough had it been made with enough qualifications. In the next place, the poems to which the Wayside Inn owes most of its modern fame are not history—a characteristic which they share with the same poet's more famous productions, "Evangeline" and "Hiawatha." Whether or not the "Tales" even are poetry is a question the answer to which depends largely on the critic's age. They are not, if much that passes for poetry nowadays deserves that appellation, for they have sense and form—are understandable by anybody and can be read without mental experiences similar to the physical ones produced while riding rapidly over a series of "thank-you-marms" in an ill-made road.

Perhaps what attracted Mr. FORD'S attention and money to the ancient inn was the honest solidity of its construction, which has kept it standing firmly erect and ready for comfortable occupancy by public entertainers ever since 1638, if local legends can be trusted. And, in spite of his harsh characterization of history, this is not the first time he has shown an inclination to possess himself of things with "associations," for it is known that not many years ago he tried to buy the Lincoln relics preserved on Tenth Street in Washington in the house of the martyred President's death. To what must have been his surprise, that attempt failed, whether because he did not offer enough or because he did not have enough remains as yet undisclosed.

Hereafter to Be a Museum.

Assurance is given in the report of Mr. FORD'S new real estate investment that he does not purpose the removal of the Wayside Inn to Detroit or Dearborn. If he did that, somebody would be likely to say something unkind, and that would be an experience novel indeed for him. Instead, his intention is to end the building's long career as a place of entertainment and turn it into a museum filled with reminders and illustrations of old New England life, hoping thus to make wider diffusion of joy and edification than an inn can give.

One cannot help feeling that the change is somewhere between a wrong and a mistake, for hereafter the traveler will not get the same satisfaction he did when he found carried on in the handsome and sturdy structure the same business that has been done there ever since its remote erection. However, there is a certain piety about the museum idea, and many other innovations could be imagined that would be vastly more shocking to respecters of the past. Still, motor folk will miss what has been till now a place where good food and pleasing memories with a literary flavor could be found in conjunction, which is a rarity, even in New England.

He Shows Something Like Fear.

How changed is the world when a member of the United States Senate is compelled to announce—seemingly with some emotion—that not his wife, but himself, is to be a candidate for that venerated body.

It is Senator HENRY W. KEYES of New Hampshire who thus proclaims what he says is the truth, as distinguished from the rumor that it is Mrs. FRANCES PARKMAN KEYES, his wife, who is to seek the honor which he already has had and wants to have again.

What would happen if Mrs. KEYES, whose pen is fluent and vigorous, should inform all and sundry that, while the Senator intended to be accurate, he was mistaken, as other husbands before this have been when they undertook to tell the infelicitous of their wives?

The situation that then would be produced is easily imaginable, and it would be one not altogether painful, except, perhaps, for the Senator. Since women obtained the suffrage, and the incidental and consequent right to hold office, in several instances wives have "run" against husbands, but never for a position as high as that of United States Senator. There is nothing to stop them from doing it, however, and we even might have a husband and wife both seeking the Presidency.

Would marital amenities survive such a rivalry? When two men seek the same office, each must toil with fervor and minuteness just why his opponent is a wholly undeserving person, whose election would be a public calamity, verging toward general ruin and destruction. As between wife and husband, that would be—well, trying to affection.

Summer Goes Near to the Pole.

Whatever else may or may not result from President HARDING'S visit to Alaska, it will at least do something to change the popular impression that Russia's sometime American possession is a land of bitter cold, covered with snow and ice. People now will read that the hyperborean population did not meet the President clad in furs, but dressed after Summer fashions everywhere—that they strewed his path, or at any rate his wife's, with flowers of many kinds, and that to both were offered native strawberries twice as large as any they ever had seen before.

That the weather is sometimes cold in Alaska—in parts of Alaska terribly cold—is true, but there also are parts of it where the climate all the year round is milder far than in our New England States, and, though the Alaskan Summer is short, counted by days, the Summer days—the sunshine hours, that is—are so long that for vegetation each day counts double. The result is that crops of many kinds can be and are grown there, and the maintenance of life on local resources is by no means so difficult as might be expected in a latitude so high.

It is one thing to have the Japanese Current impinge on a coast, and quite another to have one from the Arctic Ocean flow down past it, as Labrador does. The seals and numberless birds, big and little, know, and always have known, that Alaska has a fine, warm Summer, and, as northern lands go, is by no means desolate. It the Alaskan strawberries are as good as those of Prince Edward Island, which also is far to the north, they are as much better as they are bigger than any the Presidential party ever saw before.

PENNELL SEES NO ART HERE

Declares All Americans Want Is Their Lurid Billboards.

To the Editor of The New York Times:

I am glad to see your editorial, "Design and Manufacture," and the reference to the Royal College of Art, London, but your statements about that institution are scarce borne out by facts.

The Royal College of Art may have been started to encourage arts and manufactures, but, as a matter of fact, until the last few years—and during all the years I lived in England—it was devoted, with a few exceptional classes in the hands of a few distinguished masters, simply to turning out art masters—teachers in Government art schools, who had to have its degree, A. R. C. A., before they could teach. Of course, as is inevitable, some artists who have made a name for themselves were trained there, but they had to escape to do so.

You say, why do we not do the same thing here? The reason why we do nothing is because the Government of this country takes no interest in art. We have no Minister, Secretary, department or bureau of art, no Government art schools, no national support of art. In fact, we have no art of our own to speak of and don't really know how properly to steal that of other countries. That is the reason why foreign artists are so made up to and make so much of us.

How long will we remain the only civilized (but are we?) country in the world which has no interest, as a nation, in anything but sport, so called; the movies, the comics and the radio? Billboards are our only art, and we have 'em and want nothing else.

I hear a bill is to be introduced into Congress, however, next session to establish a Department or Secretary of Art. But what will it be like? Anyway, Government support of arts would pay this country better than boxing matches and ball games. It would be cheaper than prohibition and the army. But the people—or the same sort of people who want those abominations continued—want to keep art out of the country. There is more to be made of foreign art and old art—and artlessness—than out of modern American art. So, as we are only after the cash, why not keep on as we are?

JOSEPH PENNELL.
Brooklyn, N. Y., July 5, 1923.

Fund for a Needy Family.

To the Editor of The New York Times:

Mrs. Wells is the widow of a minister who left her penniless with three young children to care for. Notwithstanding she had no training for work outside the home, she left the children with her mother and took a position in a laundry. Her mother is 80 years of age and physically unable to properly care for the children, and the worry together with the strain of working all day in the heat and helping in the home at night, besides sewing for herself and the children, is wearing this little woman out, and as the children have the measles at present she has been obliged to give up work.

Can you not see this broken-down widow with her three little sick children and aged mother appealing to you for the necessities of life? Will you not assist in making up a fund of $500 from which a weekly allowance of $10 can be given them? Any amount, small or large, will be gratefully acknowledged.

THE BROOKLYN ASSOCIATION FOR IMPROVING THE CONDITION OF THE POOR.
104 Livingston St., Brooklyn, July 5, 1923.

THE WARRIOR.

And if I fall, or what the world calls fail,
Still I have fought and in the battle been
And done my part—amid the clash and din
Of men and arms have struggled. Did I quail
And hide a coward's heart 'neath coat of mail?
I fought the fight! What matter if I feared?
I kept my feet, though hordes round me reared.
Hark! Now I hear the shouting! Do they hail
The victor? Oh, not I—I only fought!
Perhaps I failed, but still I kept my feet.
They never failed me, though so hard they wrought.
And after warfare will the rest be sweet—
The rest that I have longed for—could have sought
Save that I would not leave the battle's heat?

ELSIE VAN WYCK.

TEMPERATE WINE AND BEER

Correspondent Suggests Remedy for Volstead "Fanaticism."

To the Editor of The New York Times:

Your correspondent, Henry White, asks "how to prevent the return of the saloon or something even worse" and "how the alcoholic content is to be controlled."

The answer is simple. We favor the amendment of the Volstead act so as to permit the manufacture and sale of light wine and beer which are not intoxicating. We would restore the laws which were in force before the Volstead act regulating and taxing its manufacture and sale. The prohibition of the manufacture and sale of spirituous liquors has been embodied in the Constitution and would still continue. In the regulation and manufacture the alcoholic content would be controlled as it is now under the Volstead act. A liquid called beer containing less than one-half of 1 per cent. alcohol is made now. It would be even easier to limit the alcoholic content to 5 per cent. The same system of legal option that existed then would be restored. The Volstead act goes much further than the Constitution. We would amend it so as to confine its operation to the requirements of the Constitution.

It is easy for prohibitionists to call bad names, but there is no argument in this. The temperate use of light wine and beer is beneficial. All experience shows this. The literature of the world from Homer to Longfellow expresses the thought in various forms, as does the Bible. All condemn drunkenness, which is a sin and which the law will continue to punish even if the Volstead act be amended. But under that act the manufacture and regulation of wholesome beverages is prohibited. When they are made in secret they cannot be made well. The result is the illicit sale of poisonous beverages. That is the necessary result of the Volstead act.

Your full-page advertisement in yesterday's TIMES promising the "inside story of prohibition" makes the best argument for an amendment of the Volstead act. What has it produced? "Bribes of millions," "moonshine battles," "bootleg murders," "tales of rum-running," "international plots" and "bottled deaths."

Let me give you a concrete instance which came to my knowledge yesterday. At a recent graduation from a New England college the class had a supper. They had the natural desire of young men for joviality and good fellowship. They could not get good wine or beer or even good whisky. They were able to get bad whisky. It made them all drunk, and drunk in that ugly way which bad liquor makes. They went back to the dormitory and proceeded to break windows and to throw furniture downstairs. Many I graduated sixty years ago we had a class supper. We had good wine. We were merry, but we were not drunk, and we went back to our rooms peaceable and happy. This was permitted by the laws of our country then. This futile attempt of the Volstead act to make the enjoyment of stimulants impossible has produced the change. I don't suppose that the class of 1858 were any better men than the class of 1923.

Now that I am on the subject of colleges, let me add one reminiscence more. At this commencement season I was told by one collegian that his father was expelled from college in 1851 for going to an opera house to hear Jenny Lind sing; by another that his father was expelled from college for smoking. The same fanaticism which declared it a sin to go to the theatre or to smoke is now behind the prohibition movement. A century from now the portraits of Anderson and Haynes will be hung in museums and exhibited as we do now of those men who hanged the witches, whipped the Quakers and burned the heretics. Fanaticism is and always has been the greatest enemy of true religion.

RAISING SHIPS SUNK IN WAR.

Engineer Thinks It Possible to Salvage Cargoes and Hulls.

To the Editor of The New York Times:

The press in general has commented on an expedition which has been organized to attempt the salvage of some $5,000,000 in gold from the Lusitania, and these comments have been as a rule somewhat disparaging because of the depth of the water in which the Lusitania lies.

The possibility of success rests largely with the development of the equipment for such work, and, while nothing definite has been given the public regarding the methods to be used, it is possible that some salvage may be effected.

There is little doubt in the writer's mind that practically all the ships with valuable cargoes sunk during the war in water less than 100 fathoms deep will be salvaged sooner or later. Just prior to the entry of the United States into the World War the writer had developed an entirely new application of an old principle for raising sunken vessels intact. A working model of the apparatus was made to an exact scale, predicated on raising ships of all sizes up to a tonnage 25 per cent. greater than the Lusitania. This model apparatus was tested thoroughly on a scale model ship of the Lusitania, at a comparative depth of 500 feet. In all, 150 actual tests were made, the sunken model being placed in three different positions to make the test as difficult as possible, and of the 150 tests, the sunken model was brought to the surface intact 148 times. The tests were carried on in a muddy pool, so that the work was done blindly, the sunken model being located, marked and raised under methods which would have to be employed in case of a vessel resting in water too deep for ordinary diving apparatus. Two weeks from the time the apparatus reached the spot would be quite ample for bringing the Lusitania or any other vessel of its size to the surface without damage. With this apparatus, the extent of injury to the hull of the vessel and the position in which it may lay are immaterial.

Based on these tests, made under conditions fully as difficult in proportion as would be experienced in actual work, it is the opinion of the writer that sooner or later the Lusitania, (if not destroyed in the meantime in attempts to secure its cargo) and other vessels with valuable contents will be brought to the surface intact. While the hulls may not be worth anything except for scrap, yet the simplest way to bring the cargo to the surface will be to bring the entire vessel to the surface intact.

J. EDWARD CASSIDY,
M. Am. Soc. C. E.
Washington, D. C., July 9, 1923.

Roman and American Youths.

To the Editor of The New York Times:

Lieutenant Governor Bingham of Connecticut and Yale recently expressed his views—and they were not favorable views—of the youth of our day. It he will turn to a letter of Pliny the Younger, or Marcellinus, written in the first century A. D., he will find Pliny expressing the following sentiments about the Roman youth of his day:

> "For which of them pays submission as his superior in age or authority? These young gentlemen begin life as sages and know everything from the first; there is no one they revere or imitate; as they are their own models."

This might seem to indicate either that we, like Rome, were on the way to a decline and fall or else that there is nothing new under the sun—that even in the manners and habits of the young.

HENRY.

DEFENDS LOW PRICE FOR SEIZED PATENTS

Chemist Tells of Heavy Cost of Developing Formulae Bought by Chemical Foundation.

LONG RESEARCH REQUIRED

Government Counsel Seeks to Show That Potentialities Should Be Considered in Fixing Values.

Special to The New York Times.

WILMINGTON, Del., July 10.—Dr. Ernest H. Volwiler testified today that when America seized the German-owned chemical patents it found it could not take these patents into laboratories and develop them forthwith into the products promised by the patent formulas. On the contrary, extensive and expensive research was required with some of the most important patents before they could be rendered useful or salable.

Dr. Volwiler, who is chief chemist for the Abbott Laboratories, was one of the best witnesses presented by the defense in the Government's suit to set aside the sale of dye patents to the Chemical Foundation, Inc., to support its contention that the sales price of $250,000, alleged by the Government to have been "shockingly inadequate," was as generous as could be made under the circumstances.

The Abbott Laboratories are licensed to operate under certain of the most important seized patents, and have, according to the chief chemist, expended tens of thousands of dollars and years of time in deriving the desired products from the patent formulas. The experiments were necessitated by the lack of informative detail in the patents or by the lack of skilled technical knowledge in this country—a situation brought about by the fact of Germany's prewar monopoly.

Tells of Costly Research.

In several instances, Dr. Volwiler testified, literal adherence to the patent formulae resulted in impure products. Thus, he said, laboratories had to do considerable investigation before they could market salvarsan and neosalvarsan. Similar difficulty was experienced with patents for cinchophen and neocinchophen, compounds for gout and rheumatism. In the case of cinchophen, he said, $17,000 had been spent in research, and more than $10,000 in equipment, and the experiments occupied a year. The difficulties in the final achievement of neocinchophen, said the expert, were of a like nature, the research lasting six months and costing $10,128.

Dr. Volwiler gave similar testimony with regard to acriflavine and proflavine, antiseptic preparations, and said that on novocain his company spent $35,000 in research work to perfect the product.

Colonel Anderson, counsel for the Government, produced packages put out in the past several years by the Abbott Laboratories, which declared in their reading matter that the preparations were identical with certain German products in their essential properties. The Government aimed on these as evidence that the Abbott people were able to make these German patent products commercially, even when they were engaged in the experiments related by Dr. Volwiler.

"If you had never made a certain food and made it strictly in accordance with the cook book would you always get a good food?" asked Colonel Anderson.

"I do not suppose so," granted the witness.

"Is it not true in chemistry," pursued Colonel Anderson, "that in all of the making of chemical products a certain amount of experience and testing is necessary, even if you have the formula complete before you?"

"It is true," admitted Dr. Volwiler.

Claims "Potentialities" Valuable.

Colonel Anderson directed a large part of his cross-examination to an effort to show that the potentialities of a patent must be taken into consideration in appraising its value.

In support of this contention H. E. Knight, head of the patent division of the Department of Justice, said: "In these chemical cases the product has been produced in an imperfect condition, necessitating subsequent purification, but it has been produced, and has shown the way. So far, success has been attained."

Colonel Anderson asked this hypothetical question of Dr. Volwiler:

"Based upon your general knowledge of drugs and their manufacture, your knowledge of the salvarsan and neosalvarsan patents, your experience in the manufacture of these products; the lack of information as to how to manufacture under the patents; the fact that four manufacturers were then supplying the product to the consumers; the fact that there was a prewar exclusive license from the German owners of patents for the manufacture of the products in the United States during the life of the patent; the fact that a citizen of the United States, Colonel Metz, then claimed to have a prewar agreement with the German owners of the patent for the transfer thereof to American citizens, the fact that the owner would be obliged to take out United States Government licenses to manufacture and sell product or to have it manufactured for its own use, and would be obligated to issue non-exclusive licenses under said patents to any qualified American citizen, and who would be obligated to defend the patent and never have any more than 6 per cent. return on his investment; that these patents at that time were accruing royalties under the four Federal Commission licenses, which in 1918 aggregated $76,511,15, and that the purchaser of the patents under the conditions named would have the right to receive all subsequent royalties after the date of his purchase which might accrue under the Federal Trade Commission licenses during life of the patent—state then whether you think they would have a value?"

"I think they would have a very doubtful value, because the buyer would very likely soon be buying a lawsuit," Dr. Volwiler replied.

The Abbott Laboratories was one of the subscribers to stock of the Chemical Foundation.

Today's testimony was largely of a highly technical nature and ran to many syllable words, one chemical word achieving twenty-nine letters.

BRITAIN AGAINST TRUST LAW

Minister Reports It

BRINGS 'SOCIETY' INTO ART SCANDAL

Vigouroux Testifies in Paris That It Helped Him Sell to Metropolitan.

SAYS HE PAID COMMISSIONS

He Puts Spurious Art Purchases of the Museum Director at 3,000,000 Francs.

Copyright, 1923, by The New York Times Company.

Special Cable to THE NEW YORK TIMES.

PARIS, July 10.—The first day of the trial of Jean Vigouroux, accused of abuse of confidence by his former employer, Georges J. Demotte, whose interests he represented in New York, was transformed into a hearing of a mere of character witnesses against the plaintiff. Despite every effort of the Judge, the defense turned every point into an attack upon Demotte.

The Judge opened the way for the first attack in calling Vigouroux if in 1912 he had not been agent in New York for a German.

"Pardon me; he was a naturalized Frenchman," Vigouroux answered.

"And in any case he was an honest man. Demotte, who is prosecuting me today, is a faker. He has inundated America with false art and has not even hesitated to allow it to flow into our own national museums."

To this charge Demotte spoke up:

"I have only one thing to say: Vigouroux is a blackguard!"

"And Demotte is the world's greatest faker!" Vigouroux retorted.

Commission for Sales to Museum.

When the subject of the charge—which was to the effect that the defendant sold to the Metropolitan Museum and several individual Americans statues, a part of the receipts for which he kept—Vigouroux defended himself by declaring that he had given the difference to intermediates. He refused, however, to give the names of these intermediaries, declaring that he had promised never to divulge their identity. When the Judge pressed him for information he replied:

"I knew too much, and Demotte wanted to rid himself of me. The spurious statues which he has sold run into millions of francs. Didn't he promise me a 200,000-franc necklace for my daughter on the occasion of her marriage if I managed to rid his store of several fakes? But there was too much danger of this necklace being false, like everything else."

The Judge again steered the case back to the course and demanded of the defendant if he had not sold to the Metropolitan Museum an ancient "Virgin."

"That was false also!" Vigouroux cried. "Demotte catalogued it as coming from the collection of M. Hagser; but I've been in Hagser's house and he told me he had never had that 'Virgin' in his collection."

The defense then demanded permission to show Demotte a photograph of a St. Paul which is now in the Louvre and which, according to Vigouroux, bears a striking resemblance to Demotte. After a long legal struggle the photograph was shown to the plaintiff, who declared he had never owned the statue.

Among the witnesses who were then called by the defense was Mme. Boutron, who Saturday made a complaint of homicide against an unknow person in connection with the death of her husband, Demotte's former head sculptor, who died from a revolver shot in his studio while engaged on a statue for the plaintiff in today's case.

Sculptor's Widow Testifies Against Demotte.

"The day following my husband's death," she testified, "I went to M. Demotte to demand my husband's accounts. They were refused me. I managed to effect an entrance to my husband's studio and open the case where he kept his accounts, but they had disappeared. M. Demotte then said to me:

"'Don't insist. You don't owe you anything, and don't forget that you are poor and I am rich.'"

While the case was being heard in the Correctional Court Assistant Prosecutor Ameline was taking depositions of two of the witnesses called to Paris by Vigouroux for the trial. One of these was M. Sanfaute, on whose property at Contrisson the bas-relief group "Les Lanaquenets" remained from the days of the Revolution till he sold it several years ago to an antiquary who in turn disposed of it to Demotte, who is charged with having had new figures made for it before selling it to the Louvre. Another witness was M. Burtan, who lived across the street from M. Sanfaute and in view of the original "Lanaquenets," which were known to the people of Contrisson as "devils."

"Obviously the statues you are showing me are far from resembling those which were encased in the wall of my property and which I sold in 1906. The bodies of these statues were excessively worn, and one was unable to distinguish much more than the folds of the clothing in certain places. As to the heads, they were scarcely discernable. In fact, they could be identified as heads only from the fact of their silhouette above what appears to be the shoulders. One leg was half shattered and the foot was gone. The legs, nevertheless, were the best preserved parts of the figures. There was also visible a trident which I am unable to observe in this bas-relief.

"There were also a number of deep holes in the bas-relief, from where the children pelted them with stones, but I don't see them now. It is obvious that these pieces have been transformed, and the inhabitants of Contrisson would be very much surprised to see them in their present condition."

The testimony of the former owner of the "Lansquenets" was corroborated by his neighbor, M. Burton.

We round out the evidence M. Ameline will go to Contrisson and Bar-le-Duc to take further testimony.

Yield of Commissions to Americans.

PARIS, July 10 (Associated Press).—America is heavily loaded with false "antiques," and the Louvre in Paris and the Metropolitan Museum of Art in New York have been the principal places for years, according to the testimony of Jean Vigouroux, given today at the opening of his trial on charges of diverting funds and art treasures, filed by the Parisian antiquary, Georges Joseph Demotte, whose New York branch was formerly managed by Vigouroux.

The specific charges against Vigouroux are based on the alleged diversion of $7,000 of the branch's funds and the disappearance of Persian manuscripts valued at 1,000,000 francs, later recovered by M. Demotte. Vigouroux was arrested when he returned to France, as he declared, to obtain justice.

"For twenty years the Louvre Museum has been buying bogus antique," Vigouroux testified. He declared that the Director of the Metropolitan Museum in New York had bought 3,000,000 francs worth of spurious art objects.

Vigouroux cited a ceramic vase attributed to Luca della Robbia, which he sold to an official of the Metropolitan Museum for $2,000, but which he declared in court was "not worth a single sou."

The defendant said he had made sales through the influence of prominent members of American society, and he explained the money irregularities by saying the difference between the price received and the prices entered in the books was the amount given these persons for their help.

He used the della Robbia sale to illustrate this point. He said only $1,800 was entered on the books because other $1,800 was given to certain persons for their assistance in making the sale. The presiding Judge reminded Vigouroux of his statement that this piece was bogus, and pointed out that therefore Vigouroux himself had sold spurious objects. The defendant replied that he did not know the objects were bogus when he sold them.

The Judge demanded the names of the alleged intermediaries in the sales, but Vigouroux refused to give them, on the ground that they constituted a "professional secret." The Judge considered clearing the court so as to keep the names confidentially, but decided not to do so.

The trial was adjourned until next Monday.

SOCIAL NOTES

New York.

United States Senator David A. Reed and Mrs. Reed, who have been at the St. Regis, sailed yesterday for Europe on the Mauretania.

Mrs. Heratio N. Slater gave a small luncheon yesterday at the St. Regis.

Mrs. Henry M. Tilford entertained at luncheon at Pierre's yesterday for her daughter, Miss Annette Tilford, and her fiancé, Armory Lawrence Haskell whose engagement recently was announced. Mrs. David Wagstaff and Miss Susan Fish Dresser were among the guests.

Mr. and Mrs. Robert P. Bruce have returned from Europe, and are staying at the Vanderbilt.

Mrs. J. Borden Harriman entertained at dinner last evening at the Marguery.

Mrs. George W. Moore has come to the Lorraine from Miami, Fla., and will be there several days before going to her home in Detroit.

Mr. and Mrs. Maynard C. Tennant, who have been at the Pickwick Arms, Greenwich, Conn., for several weeks, entertained at dinner last evening on the Belleclaire Towers, atop the Belleclaire Hotel.

Howard H. Hanna Jr. and Howard M. Hanna Sd. who are passing the Summer on their yacht, Snark II., are at the Plaza.

Mr. and Mrs. James Cumsings Barr, who are at the Ritz-Carlton on their way to their country place at Ipswich, N. H., from Southampton, where they attended the wedding of Miss Betty H. Thompson and Roger Tuckerman, entertained Mr. and Mrs. Westworth Cruger Bacon at dinner on the roof garden of the hotel last evening.

Mr. and Mrs. Nicholas F. Brady and Mr. and Mrs. James McVickar were among others who gave dinners last evening on the roof garden at the Ritz.

Mrs. Theron F. Pierce of St. Louis, who has been visiting her mother, Mrs. William H. Falconer in New York, is at the Rumson Country Club, Rumson, N. J., for the Summer, where Mr. Pierce will join her in August.

Mrs. Oliver B. James, Mrs. Walter Phelps Bliss, Mrs. Hermann C. Schwab, Mr. and Mrs. George B. Post Jr. and Mrs. Lorillard Spencer were among those entertaining at luncheon yesterday at Sherry's.

Count and Countess Anton Sigray, who arrived on the Majestic, were at the Ambassador for several days before going to Newport to visit former Ambassador and Mrs. James W. Gerard.

Mr. and Mrs. John F. Archbold of this city are at the Broadmoor, Colorado Springs, Col.

Mrs. F. A. Franklin returned on the Majestic yesterday with her daughter, Miss Betty Franklin, from a visit to London, where they were presented at Court to King George and Queen Mary.

Mrs. Roy A. Rainey, who is at Huntington, L. I., entertained at luncheon yesterday in the Italian Garden at the Ambassador, where Mrs. George B. St. George of Tuxedo Park, who is staying at the hotel, also entertained at luncheon.

MISS GILBERT'S BRIDAL.

She Will Wed Hunt Tilford Dickinson on Sept. 8.

One of the first large weddings of the early Autumn will be that of Miss Betty Ward Gilbert, daughter of Mrs. Cyril Dugmore by a former marriage, to Hunt Tilford Dickinson, a son of the late Mr. and Mrs. Andrew G. Dickinson, which is to take place on Saturday, Sept. 8, at The Gables, the country home of the bride's mother at Locust Valley, L. I.

The engagement of Miss Gilbert to Mr. Dickinson was announced in June. Miss Gilbert made her debut during the last Winter, and recently returned with her mother from Europe. She is a granddaughter of the late William Brukaw, and a niece of Mrs. Preston Pope Satterwhite, Gould Brokaw, and Clifford V. Brokaw.

Mr. Dickinson is a nephew of Mrs. Henry M. Tilford and Mrs. Thomas T. Gaunt.

Dyllis—Payne.

The wedding of Miss Miriam Payne, daughter of Mrs. Frank Owen Payne of Brooklyn, and Lieutenant Colonel H. Edmond Bullis, Commanding Officer of the 823d Anti-Aircraft Artillery, and President of Coast Artillery Officers' Reserve Corps of the Second Corps Area, will take place on Saturday evening at 8:30 o'clock, at St. Mark's Church, Ocean Avenue and Beverly Road, Brooklyn. Colonel Bullis is a graduate of Cornell.

MISS PARDEE A BRIDE.

Pianist Is Married to Richard L. Marwede, a Painter.

Miss Paula Pardee, daughter of Mr. and Mrs. Sheldan J. Pardee of Fort Wadsworth, S. I., and Richard L. Marwede of this city were married yesterday at noon in the Church of the Transfiguration. The ceremony was performed by the Rev. Dr. J. H. Randolph Ray, rector of the church.

Miss Pardee is a pianist and has appeared in concert in Aeolian Hall and as a soloist in the Metropolitan Opera House.

Mr. Marwede is a painter, one of the Board of Directors of the Art Alliance of America and is interested in the Art Centre. His landscapes are known to visitors at the National Academy of Design, Chicago Art Institute and Pennsylvania Academy.

The bride's attendant was Miss Elizabeth Eskey, a classmate at Wellesley College, and the best man was Fred W. Prigre of Mount Vernon. After the ceremony a luncheon was served at the Hotel McAlpin.

Mr. and Mrs. Marwede will sail on the President Monroe for France today. They will spend the next three months in Europe.

ACTORS AID CHILDREN.

Join With Education Association to Put 10,000 in Schools.

A number of prominent theatrical people are co-operating with the Jewish Education Association in its endeavor to place 10,000 children in religious schools this Fall. Joseph Leblang is in charge of the organization of the theatres, and a committee of theatrical managers includes Sam H. Harris, Arch Selwyn, L. Lawrence Weber and A. H. Woods.

Al Jolson heads a committee of actors, and will be assisted by Louis Mann and others. Barney Klawans of the Cort Theatre is Chairman of a Theatrical Treasurers' Committee, and William Fox and Louis Bernstein are respectively the heads of the motion picture and music publishers' committees.

Rochester Entertains Editors.

ROCHESTER, N. Y. July 10.—Rochester gave greeting today to more than 200 members of the National Editorial Association and their families. The party was met by a delegation from the Chamber of Commerce and cars were waiting to whisk the members away to a trip around the city. The Chamber of Commerce, the Automobile Club, and Rochester Publishers were hosts of the members during their stay.

Lithgow-Hillas Betrothal.

The engagement has been announced of Miss Mary Hillas, a daughter of Mr. and Mrs. Robert J. Hillas of Morristown, N. J., to Walter David Lithgow, a son of Mrs. Ellen W. Lithgow of Yonkers.

William H. Quaid to Wed Actress.

William H. Quaid, manager of Proctor's Fifth Avenue Theatre, will be married on July 29, to Miss Mabel Burke, a vaudeville actress.

ANDERSON INVITED TO FACE GRAND JURY

Anti-Saloon League Superintendent Must Waive Immunity.

WITNESS HERE FROM TEXAS

William M. Potter Expected to Corroborate Charges of O. Bertsall Phillips.

Chief Assistant District Attorney Ferdinand Pecora yesterday, at the close of the second day of the Grand Jury's new inquiry into allegations that William H. Anderson, Superintendent of the Anti-Saloon League of this State, had obtained $24,700 on a fictitious bill for "confidential publicity" promotion for the league, announced that he had invited Mr. Anderson to testify before the body. He explained that the invitation was extended through J. Arthur Love of counsel for the Anti-Saloon League, and Orville S. Poland, the accused Superintendent's personal counsel, but stipulated that Mr. Anderson must waive immunity.

He indicated that he had not received any intimation from the lawyers whether Anderson would avail himself of the opportunity to give the Grand Jury his side of incidents in connection with the league work which led to the Grand Jury inquiry. When the new investigation was begun by the body last Monday it was announced that District Attorney Banton had instructed his assistant to seek indictments charging grand larceny, extortion and third degree forgery.

The first charge was based on the allegation growing out of the payment of the $24,700 to Mr. Anderson by the Directors of the league. The extortion charge was based on the statement of O. Bertsall Phillips, formerly financial representative of the league, that Anderson forced him to split commissions over $5,000 on contributions Phillips obtained for the league work. The third charge was founded on Mr. Phillips's allegation that to hide the payment of a share of these commissions to Anderson the Superintendent had altered the league's books so that the payments were charged to expenses incurred by the financial representative.

Anderson to Come Back to City.

Anderson on Monday sent word from the home of his parents in Cartinville, Ill., that he would return to this city before the end of the week. He did not state, however, that he intended to appear before the Grand Jury. When Mr. Pecora began a preliminary investigation of Phillips's allegation in January last, Anderson told him that he had spent the money long before the $24,700 was received by him from the league, but, except to say that he received the money from a friend, he refused to reveal the identity of this man. Pecora's insistence that the league Superintendent reveal more about this friend led to Anderson's refusal to make further statements to the assistant prosecutor in reply to Phillips's charges.

When the Grand Jury began the second session of the inquiry yesterday forenoon Phillips was called into the room. Dr. George Caleb Moor, pastor of the Madison Avenue Baptist Church, who is Secretary of the Board of Directors of the league, was seated in the Grand Jury ante-chamber with Miss Maud M. Odell and Miss Mary Hill, employed in the league's headquarters at 206 Broadway. Phillips was in the Grand Jury room for several hours, and when he came out Pecora announced that the session had been closed for the day and that the inquiry would be resumed this morning.

Dr. Moor and the two young women were told to return for today's session, but it was learned that William M. Potter, formerly Assistant Treasurer of the league and who came from McAllen, Texas, at District Attorney Banton's request, would be the first witness called. It is known that Pecora considers Potter's testimony the most important of any of the witnesses that had been examined by him in the three weeks preceding the opening of the present investigation. Potter was not a witness before the January Grand Jury, which first took up the charges against Anderson and whose inquiry was abruptly ended at the request of the prosecutor on the ground that Pecora, through pressure of other business, was unable to finish it at the time.

Expected to Corroborate Phillips.

Potter, it was said, was expected to corroborate Phillips in connection with the latter's allegation that the league Superintendent forced him to split commissions and altered the books to have it appear that the money went to expenses. Phillips had told Pecora that Anderson made these changes on the books after Phillips learned that he had been credited with having received more money than had been paid to him for his work.

Phillips further stated that he protested against this condition to Anderson when he came to make out his income tax, and it was then that the league Superintendent, he charged, altered the books.

In announcing that he had invited Anderson to appear before the Grand Jury, Pecora said: "A week ago I communicated with Mr. Love and told him that I would gladly recommend to the Grand Jury that Mr. Anderson be allowed to appear, provided he would first waive immunity. I also told Mr. Poland today, when he was in the anteroom of the Grand Jury chamber, that Mr. Anderson could have my consent to appear before the Grand Jury if he would waive immunity."

MILITARY FUNERAL FOR AN ARMY MULE

San Antonio Battery Will Pay Full Honors to Raggedy Ann Today.

SAN ANTONIO, Texas, July 10.—A full military funeral will be held at Fort Sam Houston tomorrow for Ra ggedy Ann, the mascot of Battery F, Twelfth Field Artillery. Members of the battery and the horses and ponies at the post corral will join the procession, and "taps" will be sounded at Pershing Field, the burial grounds.

A special volley will be fired. Staff Sergeant J. J. Burns will give the funeral eulogy and "Sonny" Thirkield, who has been Raggedy Ann's chief pilot, will place a wreath of alfalfa on the bier.

Raggedy Ann was killed Monday when she and Verdun, a mule brought from Farnce as mascot of the Fifteenth Field Artillery, were attacked by several pack train mules.

Following the funeral services members of Battery F will decorate Verdun for his distinguished services in attempting to protect Raggedy Ann during the battle with the mules.

Silzer Makes Appointments.

Special to The New York Times.

TRENTON, N. J., July 10.—Governor Silzer today reappointed Louis A. Rochot, of Montclair, to the State Board of Optometrists, and named J. Russell Beckman, of Freehold, to the Monmouth Battle Monument Commission, in the place of the late James T. Burtis. Henry W. Jeffers, of Plainsboro, and Fred Lippincott, of Moorestown, were appointed to the State Board of Agriculture.

WIN HEALTH SCHOLARSHIPS

Fifteen Teachers Selected to Attend Summer Courses.

Announcement of the award of fifteen scholarships which will send teachers from all sections of the country to Summer courses in child health education came yesterday from the American Child Health Association. Herbert Hoover is President of the national organization.

"The establishment of these scholarships," said Miss Lucy Oppen, Secretary, "is in line with the aim of the association to stimulate teachers everywhere to develop better methods of teaching health habits to the children. They represent the initial part of a plan under which from ten to fifteen further scholarships, each for a full year's course in a university or other teacher training centre, are to be awarded for the coming year."

The winners of the scholarships, for which there were more than 500 contestants in eleven States, were:

A. W. Hiackman, Nashville, Tenn.; Miss Mary B. Brooks, Milledgeville, Ga.; Miss Darlene Pearl Cadot, Mansfield, Ohio; Miss Mary S. Yee, Worcester, Mass.; Miss Alice V. Drouin, Detroit, Mich.; Miss Mary Dugan, Fishkill, N. Y.; Mrs. Winifred Hart, Bridgeport, Conn.; Miss Florence Imley, Cedar Falls, Iowa; Miss Virna Johnson, Fargo, N. D.; Dr. Henry E. Kock, Cincinnati, Ohio; Miss Effie Knowlton, Binghamton, N. Y.; Miss Rachel McIntyre, Cedar Rapids, Iowa; Miss Penelope Morgan, Danville, Va.; Miss Mary Moriarty, New York City, and Mrs. O. W. Wilcox, Houston, Texas.

INQUIRY ON TWO LAWYERS.

Referee to Act in Woman's Claim Against Fallon and McGee.

Supreme Court Justice Lydon yesterday appointed former Assistant Corporation Counsel Terence Farley as referee to determine whether William J. Fallon and Eugene F. McGee, former attorneys for Miss Mildred Adams, are able to deliver to her present attorney, I. Gainsburg, certain property alleged to belong to Miss Adams. Fallon and McGee submitted affidavits to Justice Lydon that they are unable to comply with a recent order directing them to deliver the property.

The lawyers complied with the order only to the extent of delivering several letters left with them by Miss Adams, but said they did not have a marriage certificate purporting to show the marriage of Miss Adams to Colonel Samuel M. James by Magistrate Barlow on May 10, 1917, two checkings, $1,000 of Liberty bonds and stock in an Alaska corporation having a face value of $150,000. They stated that the property was taken from a private drawer on May 27.

Colonel James made an affidavit stating that the property belonged to him and had been taken previously from his apartment at 200 West Fifty-fourth Street. He brought a replevin suit to get possession, but Miss Adams retained it by giving a bond to Sheriff Nagle. Fallon and McGee, Colonel James and others will be called as witnesses before the referee.

INVITES DEMOCRATS HERE.

Uptown Lions Club Wants Next National Convention.

"New York's business supremacy is being challenged," declared I. Lewis Dreeben, District Governor of the Lions in New York State, in introducing a resolution by which the Uptown Lions Club unanimously approved the proposal that the Democratic National Convention be held in New York City. The resolution was adopted at the regular meeting of the Lions Club at the Hotel Marie Antoinette, Sixty-seventh Street and Broadway, yesterday.

In his address to the Lions, Mr. Dreeben declared that more "boost New York" enthusiasm is needed in this city. New York is a poor convention city, he said, and called attention to the comparatively few conventions which are held in New York compared to the number held in other cities where the facilities for accommodating the convention crowds are not so good as New York's.

LIGHTNING KILLS TWO.

Boy and Girl Are Struck Dead During Michigan Storm.

DETROIT, July 10.—A boy and girl were killed and considerable damage was done to crops and farm buildings by electrical and wind storms that struck lower Michigan late today.

Dorothy Honan, daughter of a Toledo Fire Captain, was struck by lightning as she stood at a window in a cottage at Little Wolf Lake, near Jackson.

Wallace Vannote, 15, was killed while working in a field at his father's farm near Ashley.

Joseph Cantrill, 66, a laborer, was overcome by the heat in a Grand Rapids factory and died a few hours later. Many prostrations were reported in Grand Rapids.

3,123,040 PERSONS IN CUBA.

Census Shows a Gain of 284,036 in Population Since 1919.

HAVANA, July 10.—The report of the Director of the National Census, made public today, gives Cuba a population of 3,123,040 on Dec. 31, 1922, as compared with 2,839,004 on Sept. 15, 1919.

The population at the end of last year is given as 2,103,980 whites and 909,899 colored. Added to these two classes were 118,064 immigrants who were not classified and 1,134 inhabitants whom the census takers failed to register as to color. The last census gives population of the six provinces as follows: Pinar del Rio, 372,208; Havana, 783,014; Matanzas, 324,042; Santa Clara, 662,194; Camaguay, 235,896; Oriente, 513,197.

TO AID HEALTH IN JERSEY.

Governor Silzer Names Five Doctors for Medical Advisory Board.

Special to The New York Times.

TRENTON, N. J., July 10.—Five physicians were named by Governor Silzer today to constitute a State Medical Advisory Board. They are Drs. John J. Broderick of Jersey City, Francis M. Maussling of Newark, John C. McCoy of Paterson, Arthur L. Smith of New Brunswick and A. Haines Lippincott of Camden.

They will serve without pay and lend assistance in matters pertaining to the health of the State and its wards.

MARINE IN RECORD FLIGHT.

Captain Presley Goes 1,100 Miles in Standard Plane.

WASHINGTON, July 10.—Marine Corps officers here assert that Captain Russell A. Presley, a Marine Corps aviator set a world's record for long distance flying in one day in a standard military training plane Sunday, when he flew from Quantico, Va., to Minneapolis. Captain Presley covered the approximately 1,100 miles in 14 hours and 45 minutes, according to reports received here.

Accompanied by Sergeant William Drapeau, observer, he left Quantico at 5 o'clock in the morning and while in the air traveled at an average speed of a little more than 100 miles an hour. Stops were made at Mounsdsville, W. Va.; Dayton, Ohio and Chicago.

"Dusts" Cotton Field by Airplane.

CORPUS CHRISTI, Texas, July 10.—Fifteen cents an acre was the rate a commercial aviator charged for distributing poison over cotton fields yesterday, and his airplane required only three hours in which to dust the 640-acre field. The farmer who employed the aviator said it would have taken more than three days to dust the cotton in the ordinary way.

ELKS IN CONVENTION ELECT GRAND RULER

James C. McFarland of South Dakota Wins—Boston Gets 1924 Meeting.

ATLANTA, Ga., July 10.—Boston was chosen as the 1924 convention city of the Benevolent and Protective Order of Elks, in convention here today.

James G. McFarland of Watertown, S. D., was elected Grand Exalted Ruler. Mr. McFarland denounced Bolshevism and "I. W. W.ism," declaring the Elks were a law-abiding, law-enforcing body.

Other officers elected included: Grand Esteemed Loyal Knight, George Winslow, Utica, N. Y.; Grand Treasurer, John K. Burch, Grand Rapids, Mich.

The annual report of Grand Secretary Fred Robinson showed that the order now has a membership of 826,825, an increase of 14,168 since the last meeting. Fifteen new lodges were chartered during the year, making the last numbered lodge 1470.

Total income for the year ended May 31 last was given as $413,302.75, a net gain after expenses of $107,458, and the total assets of the Grand Lodge were placed at $1,069,912.25.

The Elks have four lodges in Alaska, with a membership of 1,734. Lodges also have been formed in the Canal Zone, at Agana, Guam; two in Hawaii Territory and one each in the Philippines and Porto Rico. The Brooklyn (N. Y.) lodge leads, with a membership of 11,638.

The visitors were entertained tonight with "a night in the Old South," a program of tableaux and dances, followed by the "peach" ball, the first of three grand balls arranged by the local convention committee.

HIS BEARD 17 FEET LONG.

Salesmen's Convention to Crown Langseth Grand Whiskerino.

Special to The New York Times.

CHICAGO, July 10.—Proud possessor of whiskers more than seventeen feet in length, Hans W. Langseth, 77 years old, of Barney, N. D., is to have conferred upon him the title of Supreme Grand Whiskerino of the Universe, during the annual convention of the International Association of Specialty Salesmen, in session here this week.

The aged Viking, born in Norway, arrived here today. Outside the Langseth vest are whiskers aplenty—but inside the sartorial garment revealed curled upon his breast, a bag. He loosened the strings. Then tumbled forth a hirsute Niagara.

"I haven't seen him myself for a year," remarked the patriarch. "They were seventeen feet when I looked at them last."

"This year we decided to find the man with the longest beard in the country, to appear at our convention," President Burns explained. "We found one in Elko, Nev., with whiskers eleven feet seven inches. But ah, half King Whiskerino! We will crown him Grand Whiskerino' at the convention this week.

WEST POINT CADET KILLED.

Struck by Splinter in Explosion Test During Instruction.

NEWBURGH, N. Y., July 10.—Cadet Gerhard George Rowe, member of the graduating class of West Point, was instantly killed near West Point yesterday afternoon when he was struck in the chest by a piece of metal projected by an explosive charge.

Rowe was one of a party of 100 students from the Academy engaged in military instruction. A section of railroad had been constructed and the cadets were being taught the method of destroying a railroad if compelled to retreat. When the explosives had been placed under the tracks the students were directed to take cover and to remain until after the explosion. Cadet Rowe, who was said to have become overanxious, stepped from behind the tree which was sheltering him the instant the charge went off. Death was instantaneous.

Rowe's home was in Menomonie, Wisconsin.

LEFT $17,328,070 ESTATE.

Inventory for G. W. Smith, Former Financier Here, Filed in Maine.

ROCKLAND, Me., July 10.—George Warren Smith of Rockport, prominent in New York financial circles a half century ago, who died last December, left an estate valued at $17,328,070, according to an inventory filed in the Probate Court, here yesterday. It consists entirely of capital stock in the George W. Smith Corporation, which was formed for the purpose of keeping the family's large financial interests intact.

The Probate Court granted the petition of Terence T. Kimball, Assistant Attorney General, to act as administrator of the estate of Mr. Smith's brother, Francis Smith, in order that the State's rights relative to the inheritance tax may be protected.

The combined Smith family fortune has been estimated at $50,000,000, acquired principally through the development of mining and railroad properties and real estate and stock yards in Omaha.

CARING FOR HOMELESS PETS

Anti-Cruelty Society Receives From 400 to 500 Calls Daily.

The American Society for the Prevention of Cruelty to Animals announced yesterday that it was receiving from 400 to 500 calls a day to remove petsoats and dogs—due to the Summer exodus of owners. More than 250,000 cats and dogs were cared for by the society last year, including the strays salvaged from starvation on the streets.

A fleet of twenty automobiles is maintained for the service of the society. In addition, public school pupils aid in the rescue work. According to an official of the society, children last year turned over 27,000 homeless cats and dogs to the society for shelter. More than 100 drinking places are maintained this Sumer for horses, and three tank wagons operate along the waterfront.

Obituary Notes.

ALFREDO COMANDINI, former Deputy in the Italian Parliament and a member of the Orlando Cabinet, died yesterday in Milan.

Mrs. CONRAD SCHLOSSER of Byram shore, died yesterday, aged 70. She was a daughter of Jerome Bech, a former head of the Krauch & Bech Piano Company.

MICHAEL MYERS of 1,717 Hoe Avenue, Bronx, for whom services were held yesterday, was a retired Detective Sergeant who had worked on many important murder cases in his twenty-five years' service. He arrested "Gyp the Blood," "Lefty Louie," and "Dago Frank" in the Rosenthal case. He was 51 years old.

D. SEYMOUR CHIPP, a resident of Oyster Bay for fifty years, died there on Sunday, aged 67 years.

Mrs. REGINA KING, widow of Jacob King, dealer in antiques, died on Monday at her home, 74 Middagh Street, Brooklyn, at the age of 87 years.

Mrs. RAY LEVIN, associated with her husband, Solomon Levin, in the millinery business in San Francisco, died in Atlantic City yesterday. She was 45 years old.

WILLARD PIARRES, architect, died on Monday at his home, 1,203 Fulton street, Brooklyn, in his sixty-eighth year.

Mrs. MARY EMMA FOWLER BARRETT, widow of Robert F. Barrett and formerly a teacher in Public School 15, died at her home, 141 Macon Street, Brooklyn, on Monday. She was seventy-one years old.

LEWIS VAN ALEN SMITH, letter carrier, died on Monday at his home, 126 Division Street, Brooklyn, aged 71 years.

EDWARD B. CHANDLER of San Antonio, Tex., head of the farm mortgage bankers of L. B. Chandler & Co., and President of the San Antonio Water Company, died on Monday at his Summer home in Gloucester, Mass.

TRIBUTE TO DEAD JURIST.

Chief Justice Taft Gives Out Eulogy of Ex-Justice Day.

WASHINGTON, July 10.—The personal qualities and professional ability of the late Justice William R. Day were extolled in a statement given out today at the Supreme Court at the direction of Chief Justice Taft.

From his Summer home in Quebec Province, Canada, the chief justice dictated that the statement, repeating a letter written to Justice Day on his retirement last December by his colleagues on the bench, be made public as an official expression of the highest court. This letter, addressed affectionately to "Dear Brother Day," reviewed briefly the long years of judicial work and continued:

"The thorough preparation you had had for effective work here manifested itself at once. Your service has covered two decades. Your opinions appear in sixty-seven volumes of our reports. But it is not only in the published opinions, their number, their clearness and their force, great as they are, that the value of your service is to be measured. We have had a seat with you in conference. know how much you have contributed to our counsels from your wealth of judicial experience, your accurate knowledge of the scope of our previous decisions, and your remarkable familiarity with the adjudged limits of our jurisdiction.

"We shall miss much your loyalty to the court and its traditions, your affectionate fellowship, your wit and humor, and your unfailing tranquility and good nature.

"Your separation from the court is a real personal sorrow to us."

CANTON, Ohio, July 10.—Funeral services for the late William R. Day, former associate justice of the United States Supreme Court will be held at the home here Thursday afternoon at two o'clock. The body arrived here this morning from Mackinac Island, Mich., where he died Monday.

Judge William L. Day of Cleveland accompanied the remains to Canton. Many dignitaries including members of the Federal Supreme Court and the State Supreme Court and various bar associations are expected for the funeral.

CONGRESSMAN MOTT DIES.

Represented Second District—Once Bankers' Association Head.

OSWEGO, N. Y., July 10.—Congressman Luther W. Mott died at his home here today. Intestinal trouble caused his death.

Mr. Mott, who was 49 years old, had represented the Thirty-second New York Congressional District since 1910 and was Chairman of the New York Republican delegation in the House. He was a banker, and had served as President of the New York State Bankers' Association.

He is survived by a widow, one son, Luther W. Mott Jr., at present on board the steamer American Legion, bound for South America, and two daughters, Alice and Dorothy.

Robert Loveman.

ATLANTA, Ga., July 10.—Robert Loveman, noted Georgia poet of Dalton, Ga., died today at Hot Springs, Ark., according to a telegram received here. He was born in Cleveland, Ohio, in 1864, but received his education in Dalton. He traveled and studied abroad and wrote much for magazines. His books include "Poems" (three volumes), "Songs from a Georgia Garden" and "Sonnets From the Strife."

Helen Ring Robinson.

DENVER, Col., July 10.—Helen Ring Robinson, Colorado's first woman State Senator, writer, lecturer and politician and widely known throughout the West as a leader of suffrage work, died here today after a protracted illness. She was about 45 years old. She was a member of the Ford peace pilgrimage to Europe in 1915.

BID FOR FERRY RIGHT GOES OVER TO FALL

New York Central Offers $30,000 Rent—Delaney Puts Value at $46,687.

PIER ACTION IS POSTPONED

Cunard and International Line Seek Two of New Piers City Is Building.

In applying yesterday for a renewal of the lease of the West Forty-second Street ferry, used by the West Shore Railroad, before the Committee of the Whole of the Board of Estimate, the New York Central Railroad Company submitted an offer for a five-year lease at $30,000 a year, with the privilege of renewal for the same period at an increase of 10 per cent., although it had paid the city $21,200 in 1921 and $26,712 in 1922. The railroad officials declared that the ferry was being operated at a loss.

John H. Delaney, Commissioner of Docks, recommended to the committee that the railroad company be granted a new lease on the basis of the city receiving 5 per cent. of the gross receipts of the ferry, the annual payment to be not less than $46,687. The committee at first voted to report out for approval the Dock Commissioner's recommendation, but later, when Commissioner of Accounts David Hirshfield asked for permission to submit additional facts, the committee reconsidered the entire matter and laid it over until the meeting in September.

The committee also deferred until Fall the awarding of leases for piers 84 and 86, North River, jointly to the United States Lines and the United American Lines, which would include docking accommodations for the steamer Leviathan. In the meantime the companies will continue using the piers under a permit. Dock Commissioner Delaney has recommended a ten-year lease at $360,000 a year for Pier 86 and $276,000 for Pier 84.

Mayor Hylan some time ago sought to bargain with the International Mercantile Marine Company and the Cunard Line, who occupy the Chelsea piers, after they had voiced opposition to the leasing of the new piers, until some assurance was received from the War Department that the Chelsea pier extensions are to become permanent. Gelliard F. Ravenal, who appeared for both companies yesterday, said there is an understanding with the city which provides for additional facilities when the new piers are completed.

"The Chelsea piers were rented at a ridiculous figure," said Commissioner Delaney. "We will give the International Mercantile Marine and the Cunard Line what they ask for if they will give up a Chelsea pier. As a matter of fact, the North German Lloyd is in desperate need for docking terminals and wants us to give up one of the new piers so that the Columbus, its new vessel, can be accommodated when it arrives in October."

Mr. Ravenal said his companies would not consider the trade, but were willing to consider whatever rental the Dock Commissioner fixed for any of the new 1,000-foot piers. The new piers referred to by Mr. Ravenal are able to accommodate the largest ocean-going steamships. Should the War Department decide to carry out its plan for the removal of the extensions of the Chelsea piers, Mr. Ravenal added, vessels like the Majestic, Olympic, Berengaria and Aquitania could not be afforded enough wharfage and could not be docked with safety. As the city is now constructing Piers 85 and 90, each 1,000 feet long, he thought his companies were entitled to two of the four new piers.

Upon Commissioner Delaney's recommendation, the Mayor suggested that the companies be given docking berths if they would surrender one of the Chelsea piers, but the suggestion was rejected. The Commissioner said that it cost the city $25,000,000 to build the four Chelsea piers, which pay annual rental of $77,000 each.

Body of Heroic Sailor Found.

The body of John F. Kelly, 24 years old, sailor on an oyster boat, who lost his life off New Dorp, Staten Island, last Friday, when he dived in an attempt to save a fellow-seaman who had fallen overboard, was recovered yesterday not far from where he was drowned.

Delicious Iced-Tea — *Without Boiling Water!*

Is a Marvelous Discovery Made Possible By TAO TEA BALLS

No Boiling or Heating Water. No Waste of Ice. No Waste of Tea. Simplest Method Ever Devised.

Drop one or two Tao Tea Balls into a teapot of cold water (not ice-water) after breakfast, and for luncheon you have the most fragrant and delicately-flavored tea you ever tasted. (Use one ball to four cups.)

Add a chip of ice to frost it, and a slice of lemon, and it's ready to serve. Sweeten with powdered sugar.

Think what this means. Making Tao Iced-Tea is as easy as drawing water from the faucet. No water to boil. No heat melting away your ice extravagantly and diluting the tea. No messy tea-leaves to clean up.

Only Tao Tea can be made in this way. The slow action of cold water extracts all the essential aroma and perfect flavor of this marvelous Flowery Orange Pekoe Blend. Nature put the exquisite flavor into the tiny bud-leaves slowly—it's best when you draw it out slowly.

The Tao Tea way requires three to four hours to bring out its full fragrance, but no matter how long you leave it, Tao Tea never grows bitter. You can leave it as long as you want and be sure at any time of having perfectly flavored, amber-colored tea, ready to serve.

The most delicious iced-tea known. None of the flat taste of boiled water—only the sparkling clearness and vitality of fresh water mingled with the delicate flavor of this supreme Tao Tea.

Try iced-tea the Tao way today.

Tao Tea is packed in sterilized surgical-gauze balls. One ball makes 4 or more cups of wonderful tea—more economical than any other tea. Tao Tea is the supreme blend of tiny bud-leaves on the tips of the best plants of India, Ceylon, and Java. No coarse, fibrous, metallic-tasting leaves from further down the plant are used. Tea experts call it Flowery Orange Pekoe.

For making hot tea, follow instructions inside each package.

BACKERS OF PREUS NOW ADMIT ALARM

Warn of a Radical Victory in Minnesota Unless Conservatives of All Shades Rally.

JOHNSON A NOVEL FIGURE

He Speaks in Dialect, Without Coat or Collar, to Crowds of Farmers.

FLAYS METHODS OF TRUSTS

La Follette "Squadron" of Congressmen Helps in the Fight on Administration Policies.

Special to The New York Times.

MINNEAPOLIS, July 10.—Unless the conservative voters of Minnesota turn out in greater numbers than now appear in prospect, Governor J. A. O. Preus, Republican candidate for United States Senator to succeed Knute Nelson, will be defeated Monday by Magnus Johnson, the standard bearer of the allied radical element in State electorate.

This is the warning that has gone out to the voters of Minnesota who are opposed to La Follette, Non-Partisan Leagueism, radical socialism, and all other "isms" which in this mid-Summer campaign are represented by Magnus Johnson, the "dirt farmer" radical from Meeker County.

The Minneapolis Tribune declares that Governor Preus is in the "gravest danger," and the warning is echoed by The St. Paul Pioneer Press and The Minneapolis Journal.

The Republicans are appealing to the voters regardless of their past party affiliations, arguing that every vote cast for State Senator Carley, the Democratic candidate, is in reality a vote for the radical candidate.

If the Governor is returned a victor on Monday it is admitted that it will be due in large part to the support of conservative Democrats.

Johnson a Child Slaves Candidate.

As for Johnson, a calm survey of the situation would seem to justify the conclusion that the Preus organization has underestimated the personal vote-getting powers of the radical candidate. Johnson's English is dialectic, his trousers are never pressed; so far as appearances go, he owns neither coat nor waistcoat; he prefers the old-time farm "gallus" type of suspenders to a belt and his headgear is an old black felt hat. When in action he always gets a glad hand from his farmer friends when he snatches off his collar and tie, and when the collar and the coat off Johnson is going into action. It is the signal.

"Don't be nervous, I will remove nothing else whatsoever!" he exclaims as he flings his collar and tie to the floor or the ground, as the case happens to be.

Johnson is now in the First District, the heart of the enemy camp so far as the Farmer-Labor movement in Minnesota is concerned. In this group or Southern counties Governor Preus hopes to roll up a majority so impressive that it will overcome the advantage which Johnson is expected to develop in the Red Valley Valley wheat country and in the Iron Range counties.

Johnson was sweeping in whirlwind fashion through Dodge County yesterday. There THE NEW YORK TIMES correspondent met him and heard him talk. In the course of the day Magnus—everybody, including himself, calls the candidate by his first name—made eight speeches.

Speaks in Stentorian Voice.

In the anti-Johnson political headquarters in St. Paul they will tell you that Johnson makes votes for Preus wherever he speaks. On every hand one hears jokes that are told at the expense of this big lunged Swedish-American. Johnson has the reputation of owning the most powerful pair of lungs in the Northwest and since he himself admits that it is true it is therefore not unkind to refer to the remarkable lung power of the man from Meeker County.

One can hear Johnson better a block away than when close to the speaking stand. This is no exaggeration. His enemies jokingly declare that when he talks in Duluth the echo can be heard in Minneapolis and St. Paul. He is the only man living, Minnesotans say, who can drown out the roar of a freight train.

Johnson good-naturedly explains:

"You see, I used to be a glass-blower before I was a farmer and blowing glass makes big lungs and that is what I have got."

In Dodge County Johnson's audiences were in all instances made up largely of farmers, men and women, who seemed for the most part to be, to himself, of Scandinavian origin. If applause and smiles mean anything they are men and women who are going to vote for him.

Farmers Flock to Meeting.

Typical of these Dodge County meetings was one held in the afternoon at Hayfield, a farm village ninety miles south of Minneapolis. Johnson was due at Hayfield at 2:30 P. M. An hour before that time the farmers began to come in. They came for the most part in their "Henrys," but there were some who arrived in horse-drawn vehicles. There were probably 700 persons in the little schoolhouse grove when Johnson arrived.

He is always accompanied by one or more spellbinders who precede him in speaking. Yesterday his chief assistant was former Lieut. Gov. Thomas Frankson, an old line Republican, who for reasons of his own has deserted the Press colors.

Frankson devoted his speech to a denunciation of the Harding Administration. The audience cheered when he said that President Harding while denouncing the League of Nations was at the same time trying to get in by a back door. The thrust at Secretary Hughes, author of the Mesh-Tummins law, kept hand of the Administration as failing to enact real farm aid legislation also met the approval of the audience.

While Frankson was speaking, Johnson slipped away from the grove and did a little campaigning in Main Street. He called on the clerks in four or five stores, paid his respects to the keeper of the hotel and patted the head of a little girl whose mother runs an ice cream stand. He got back to the grove just as Frankson concluded.

Radical Talk in Dialect.

The candidate was introduced as the principal feature of what the presiding officer described as "one afternoon entertainment." Johnson bowed, gave his elastic suspenders a good pull, mopped his perspiring face and confronted his audience. They were glad to see him.

"My voice is all in," he began, and yet he could be heard at both ends of Main Street, two city blocks away.

Johnson pronounces all words beginning with a "V" as if they began with a "W," while the letters "O" and "J" are "Y's" so far as he is concerned. The Governor is "Yake" to the radical candidate.

In opening, Johnson said that there were entirely too many lawyers. He called them "silver-tongued fellows" in public life.

"Yake," he added, "is a lawyer, and I am glad he is running against me. I tell you, friends, Mangus is a lucky cuss. Have you been reading vat Yake has been saying? Vy, he is so progressive that he is a bigger Socialist now than Magnus Johnson is.

"They say I can't speak English. What do you think about it? Whether I can speak it or not, I can understand it well enough to vote 'yes' or 'no,' and in the right way when the time comes. I can vote 'yes' with La Follette on keeping the Supreme Court from declaring acts of Congress unconstitutional, and if I had been in Washington last year I would have known enough English to vote 'no' when they moved to seat that man Newberry.

"I tell you, Magnus Johnson knows what is the matter. I got a pretty good farm and I got a good-sized mortgage on it and I got a wife and children and I got twenty-four cows, and my wife and children milk those cows, too."

Discards Collar in Speaking.

At this point Johnson, who was now proceeding full speed ahead, gave his collar a jerk and off it came.

He said that he had been studying the Federal Reserve system, and it seemed to him that the law as written was all right, but that the personnel of the Governing Board was all wrong. If he went to the Senate, he was going to do his part to compel the President to name members of the board who would do business for the common people, he explained, and not take orders from Wall Street and what he called the "Eastern bankers' trust."

The ex-soldiers would get a bonus and the profiteers would pay every cent of it if he was elected, he informed the Dodge County farmers. No person in America, he said, should be permitted to inherit a million dollars while the bonus remained unpaid. And as soon as he got the bonus problem solved he was going after the coal trust, the sugar trust, the beef trust, the cement trust, the tobacco trust and "all other trusts that are exacting a dishonest tribute by manipulating the United States Government."

As for the railroad law, it must go, Johnson declared. "Public ownership," he exclaimed, "is a more conservative proposition than yelling at the people of the Republican politicians are doing in their scramble to get votes."

He said that he would stand with La Follette when it came to reforming the Supreme Court. As he approached the end of his talk he lapsed into a discussion of radicalism. The radicals were behind him, he declared, and he was proud of it.

"And there are going to be more radicals," he shouted, in an ear-splitting voice, "if some of these fellows don't look out. If the oil and the banking trusts and these other trusts get control, there's no telling what will happen. Let that happen and it will be good-bye to the country that George Washington founded."

Fight for State Control.

This is the manner of speaking of the radical farmer who, according to all the signs, stands at least an even chance of being elected a United States Senator next Monday. If he wins, according to the view of many, it forecasts the complete triumph of the Farmer-Labor Party in Minnesota next year.

The fight is raging from end to end of the State. The La Follette flying squadron, as they call it, which is composed of half the Wisconsin delegation in Congress and which is led by Philip La Follette, a son of the Senator, is in action. The squadron will storm Minneapolis tomorrow night and St. Paul the following day.

In the meantime the American Federation of Labor, the Railway Brotherhoods, the Non-Partisan League, the Socialist Party and other radical organizations, including those of the most crimson hue, are at work for Johnson.

Charles Adams, Chairman of the Republican State Committee, keeps up his courage. He said today that in his opinion, based on reports from all parts of the State, Governor Preus was gaining strength and would be returned a winner next Monday. Mr. Adams, however, conceded that the race is close and that if Preus wins it will be because the anti-radical voters of the State, regardless of party, go to the polls.

"In my opinion," said Mr. Adams, "the voters are at last awake to the seriousness of this situation. It is a matter that concerns not only Minnesota but the entire nation. I do not believe that the people of Minnesota will send Magnus Johnson to the Senate."

On the other hand the Farmer-Laborites are claiming the State by anywhere from 10,000 to 100,000 majority.

GIRL BANDIT CONFESSES.

Detroit Police Hold Four Youths for Killing Man in Hold-Up.

DETROIT, Mich., July 10.—On the strength of a story told by a nineteen-year-old girl, police here are holding her and three youths in connection with the killing on Sunday of Lawrence Rickard, 22 years old. One of the youths is said to have confessed he shot Rickard through the abdomen as he shouted for help when two men held him up.

Paul Da Rouch is declared by the police to have confessed after Peggy O'Neil, said to be known also as Watson, told her story to the authorities. With the girl and Da Rouch the police have arrested Edward Jenkins and Emerson Kinsman. Da Rouch and Jenkins are booked on a slaying charge, while Kinsman and the girl are held as members of a hold-up gang.

According to the police, Miss O'Neil denied she had driven a bandit car and asserted that the gang had taken part in twenty-eight hold-ups during recent weeks. She was quoted by the police as saying she became a member of a gang of Ohio bandits three years ago, having been sentenced to the Ohio State Penitentiary for a three-year term. She was paroled, according to the police, after serving eighteen months.

BAY STATE DEATH RATE UP.

Marriages and Births Fell Off in 1922 From Previous Year.

BOSTON, July 10.—Vital statistics for Massachusetts for 1922, made public today, show a falling off from the previous year in births and marriages and an increase in deaths.

Last year there were 97,838 births, or 22.8 per thousand of population, as compared with 92,207, or 22.7 per thousand in 1921. Marriages numbered 52,683 in 1922 and 52,580 in 1921. Deaths were 51,410, or 12 per thousand, in 1922 and 51,190, or 12.5 per thousand, in 1921.

Will Gives Her $100,000; Can't Spend It Until She Is 50

The will of George F. Levitt, who died last May at his home, 245 West Forty-fifth Street, was filed for probate yesterday in the Surrogate's Court and leaves an estate estimated at about $100,000 to a friend, Florence C. Crane, of 324 West 139th Street.

The document states that the decedent inherited the estate from his father, George O. Levitt. The will leaves the estate in trust, the income to be paid to Miss Crane until she reaches the age of 50 and the principal after she attains that age.

John J. Dwyer of 165 Broadway filed the petition.

GETS HIS DIPLOMA BY INVOKING WRIT

Court Orders College Hospital to Graduate Student, Effective October, 1918.

BOARD REVERSED FACULTY

Justice Strong Rules Teachers' Vote to Pass Man Seeking Army Position Must Stand.

A peremptory writ of mandamus, said to be the first of its kind in the history of New York State, was issued on June 28 by Justice Selah B. Strong in the Supreme Court in Brooklyn ordering the Long Island College Hospital to issue a certificate of graduation to F. Louis Pollock of 245 West Forty-seventh Street, Manhattan, within five days. The diploma was issued, effective as of Oct. 18, 1918.

According to Percy S. Dudley, a member of the Board of Trustees of the Long Island College Hospital, Pollock entered the institution during the Fall of 1913. During two successive years, Mr. Dudley says, he failed to pass the final examinations, and after being repeatedly warned that his work was not satisfactory he was dropped from the rolls.

Pollock then went as an interne to a Manhattan Hospital, Mr. Dudley says, and in the Fall of 1918 procured a letter from the hospital to the Faculty of the Long Island College Hospital, in which they testified to the good work Pollock had done, and suggested that a diploma be given to qualify him for a commission in the Sanitary Corps of the United States Army.

The Faculty passed a resolution, Mr. Dudley says, recommending Pollock for graduation, and notified the War Department accordingly. But five days later, when the matter was placed before the full Medical Board, which alone had power to approve his graduation, objections were raised on the ground that Pollock had not satisfactorily completed the course. The board reversed the action of the Faculty and so advised the War Department.

Charges Discrimination.

Pollock, who conducts a theatrical booking office under the name of Lew Pollock, denies that he failed in the courses, but says that he was continually being discriminated against while at the Long Island College Hospital. He says that his case was not the only one of its kind, but that ten other students were coached under similar conditions. Many of these, he says, were obliged to go to Western or Southern schools to get diplomas.

According to Pollock, no reason was given for his failure to receive a diploma upon the completion of his fourth year, in 1917. He says that he was told he would have to return in the Fall. In April, 1918, after the completion of another short term, he says he was again put off with evasive answers, and was not allowed to graduate. He then entered Polyclinic Hospital as an interne.

In the Fall of the same year, he says, he endeavored to get a commission in the Sanitary Corps, and went to the Long Island College Hospital, where he was told he would be recommended for graduation. A week later he was advised that the board had decided against him. He then went to see several lawyers, but was told he had no redress. Finally, a lawyer friend, Harry H. Oshrin of 1,472 Broadway, agreed to handle his case.

Ruling of the Court.

Justice Strong bases his reasons for issuing the writ on the grounds that the "Faculty of the respondent certified to Captain F. C. Waite of the Sanitary Corps, United States Army, on Oct. 19, 1918, and that they had unanimously voted to graduate the relator on Oct. 18, 1918."

"The papers show," the writ says, "that later on, on Oct. 23, 1918, at a joint meeting of the council and the College Faculty another vote was taken, when it was voted not to recommend the relator for graduation. In the meantime the army board had been notified as above and the status of the relator had materially changed. * * * No authority is shown for the annulling of the first vote. * * * The Faculty having conceded and recommended the graduation of the relator, it was incumbent upon them to procure and sign the recommendation. * * *"

"The excuse offered by the respondent for the giving of the recommendation of Oct. 18, 1918, that it was moved 'no doubt by the imminence of the draft,' does not answer the admission that such a recommendation was given, nor that it was of binding force. * * *"

Pollock says he will leave in a few months for England, where he intends to serve as an interne. Later, he says, he expects to enter German hospitals, and eventually to return to New York to practice.

YOUNG BANDIT CONFESSES.

Queens Lad Pleads Guilty to Holding Up B. M. T. Agent.

Thomas J. Carroll, 19 years old, of 185 Bandman Avenue, Jamaica, went before Judge Burt J. Humphrey in the Queens County Court yesterday and pleaded guilty to an indictment for robbery in the first degree. Three other indictments had just been returned against him by the Queens Grand Jury. He will be sentenced July 16.

Carroll was arrested a month ago for holding up ticket agents of the Brooklyn Manhattan elevated lines in the Jamaica section. The indictment on which he was arraigned and to which he pleaded guilty charged that on June 16 last he attempted to hold up and rob Thomas McMahon a ticket agent at the Metropolitan and Jamaica Avenue station of the elevated.

After pleading guilty, Carroll confessed to a criminal career that never has been equalled by one so young in Queens County. He said he had been arrested five times previously. Four times he was charged with burglary, once with disorderly conduct. He was found guilty four times. He has served terms in the Elmira Reformatory, the Catholic Protectory and the New York Juvenile Asylum.

NOT GUILTY OF BRIBERY.

Immigration Inspector, Discharged After 15 Years' Service, Acquitted.

William Leonard, formerly an immigration inspector, who was discharged after fifteen years' service at Ellis Island, after an investigation into charges of grafting by Government employes, was acquitted yesterday in the United States District Court before Judge Louis Pitzhenry after a trial lasting several days. Leonard was charged with having accepted bribes aggregating $100 for permitting two aliens, Astrid Just and Florica Parvu, to land here in 1921 without examination.

It was established at the trial that Just and Parvu, when Leonard permitted them to land, presented documents indicating that they were citizens and entitled to be admitted.

Worker Killed by Elevated Train.

James Bender of 102 Manhattan Avenue, Jersey City, employed by the Interborough as a laborer, was killed by a train at the Rector Street station of the Ninth Avenue elevated yesterday morning. He was working on a plank underneath the tracks and struck his head between the rails. Before people on the station could warn him, a train struck him, killing him instantly. The accident happened at the height of the rush hour and traffic was held up twenty minutes while a wrecking crew extricated the body.

Henry Ford Buys Famous Old Wayside Inn; Will Keep It Intact as Historical Museum

Special to The New York Times.

BOSTON, Mass., July 10.—Henry Ford has bought the famous Wayside Inn at South Sudbury and will preserve it as an historical museum.

The furnishings and settings which have been familiar to travelers for 200 years will be kept as long as they can be made to hold together. Hallowed by the names of Washington, Longfellow, Webster and La Fayette, the peaceful old hostelry will slumber serenely for generations to come.

For some time the inn and its farm have been controlled by Mrs. Edward E. Lemon. The purchase by Ford includes also the 140-acre estate of William E. Bright, which adjoins it on the west.

In the midst of a sparsely settled tract in Sudbury, back from the road, stands The Wayside Inn, a lonely landmark of Colonial days. This tavern, more than 200 years old, with its romantic associations, was the inspiration of Longfellow's "Tales of a Wayside Inn," and as such it is better known than any other American hostelry.

It was here that Washington, Lafayette, and later, Longfellow, were lodged. It was here that the tired troops tarried during the brief respites from battle in the French and Indian Wars.

The Wayside Inn was erected in 1700 by David Howe, who received a grant of 180 acres after having lost his fortune. For forty-eight years the proprietor prospered. Upon his death Colonel Ezekiel Howe became landlord. The Colonel hung out his signboard with the red horse, and Howe's Tavern became the Red Horse Tavern.

In 1796, after Colonel Ezekiel had served up the wine tankards for fifty years, the inn fell to Adam Howe. He was succeeded forty years later by Lyman Howe, who died in 1860, when the old house ceased to be tavern after a record of 160 years under four landlords.

It was Lyman Howe who welcomed Longfellow to his inn and whom the poet described as:

Grave in his aspect and attire;
A man of ancient pedigree,
A Justice of the Peace was he,
Known in all Sudbury as "The Squire."

ENRIGHT CHARGES WILL GO TO SMITH

Secretary Van Namee Writes Cuvillier That Matter Will Be Placed Before Governor.

POLICE ATTACK RENEWED

Assemblyman Declares Officers Acted as Decoys and Were Partners of Bootleggers.

Assemblyman Louis A. Cuvillier made public yesterday a letter from George R. Van Namee, Governor Smith's secretary, to the effect that Mr. Cuvillier's general charges against Police Commissioner Enright growing out of police activities with respect to bootlegging and the Assemblyman's assertion that he was "ready and willing" to file specifications on which he would ask for Commissioner Enright's removal would be placed before the Governor on his return to Albany.

In the meantime, Mr. Cuvillier said he would take no action with regard to the charges, which, he has said, would be presented, independently of Governor Smith's action, on the resumption of the graft inquiry before Judge Thomas C. T. Crain in General Sessions. Replying to questions by reporters, Mr. Cuvillier said that he would not begin the preparation of specifications now nor would he make any attempt to lay before the Governor by a personal visit the matters covered in the letter sent to Albany.

The letter from Mr. Van Namee follows:

STATE OF NEW YORK,
Executive Chamber,
Albany,
July 9, 1923.

Hon. Louis A. Cuvillier,
172 East 122d Street,
New York City.
Dear Assemblyman:

Upon your letter of July the 3d, which was received in the Governor's absence. I can assure you that it will be placed before him upon his return.

Very truly yours,
GEORGE R. VAN NAMEE.

Mr. Cuvillier declared in a statement yesterday that in place of the police assisting the Federal police authorities, they acted as a decoy for the bootleggers and were in partnership with them." "This," he added, "will be thoroughly demonstrated and proved on the witness stand at the hearing before Judge Crain on Aug. 14.

"The Government is well aware at Washington," said the statement in part, "of the smuggling, screening and protecting by the Police Department of the City of New York of bootlegging—not only by bootleggers but by members of the Police Department themselves—and he [the Mayor] will find to his sorrow that the finest Police Department in the world, under Commissioner Enright," will be branded as the most corrupt, inefficient Police Department that the city has ever known.

"The public would like to know and I would like to know why Friel Deputy Police Commissioner Leach was called to Europe a couple of weeks ago when his testimony will be needed at the hearing before Judge Crain on Aug. 14. When will he return? And why did he go? He passed on the merits and facts of many police officials, and why the pressure, for violating the Mullan-Gage prohibition law."

GIRL GUILTY OF FORGERY.

Seventeen-Year-Old Prisoner Admits Raising Check.

Bernice Kerns, 17 years old, of 233 King Avenue, City Island, the Bronx, pleaded guilty to forgery in the second degree when she was arraigned yesterday before Judge McIntyre in General Sessions, and was committed to the Bedford Home for Women. The girl had been the cause of much trouble to her parents, and when she became so incorrigible that they could not control her, she was placed in the care of the Protestant Big Sisters.

That organization obtained employment for her at a salary of $10 a week with Dr. Sidonie H. Kirsch, a woman dentist, at 139 West Fifty-seventh Street. Her work proved very satisfactory until May 28 last when Dr. Kirsch discovered that Bernice had tried her hand as a forger.

The girl on that day drew a check to herself for $8.65 and had Dr. Kirsch sign it. Before she cashed it at the Mechanics & Metals National Bank, however, she raised it to $58.65.

Bank Officer's Shortage Trebled.

ST. LOUIS, July 10.—The shortage of Donald W. Ross, indicted liquidation officer of the defunct Night and Day bank, which last April was estimated at about $70,000, has been found to be approximately $175,000. It was announced today. He is at liberty under $25,000 bond.

AXE BURGLAR VICTIM TELLS OF ATTACK

Rev. Dr. John H. Kerr of Brooklyn Is Recovering From Wounds.

DESCRIBES HIS ASSAILANT

Many Places in Neighborhood of Church Have Been Robbed Recently.

The Rev. Dr. John H. Kerr of the Arlington Avenue Presbyterian Church, Brooklyn, was reported late yesterday to be recovering from the injuries received when he was attacked by a young burglar armed with an axe whom he surprised in the parsonage adjoining the church at Arlington Avenue and Elton Street. His mind has cleared and he was able to tell the police more of the circumstances surrounding the assault and to give them a better description of his assailant.

Detectives of the Ninth Inspection District, Brooklyn, and the Miller Avenue Station yesterday continued the search for the burglar, and now have the description given by the clergyman and the clue furnished by a well-defined fingerprint on the axe handle.

Incidentally, the crime has brought to light the fact that the Arlington section has been the scene of operation of a band of burglars. There have been nine burglaries in the neighborhood within a few months. In two of these the offices of physicians were visited, evidently by drug addicts, who gave most of their attention to stealing narcotic drugs and hypodermic needles and syringes.

Dr. Kerr was reported improving last evening by his son, Benjamin R. Kerr, a consulting engineer of Greensburg, Pa., who came to New York as soon as he was notified that his father had been assaulted. Dr. Kerr said that his assailant was a young man about 25 years old and wore a light suit. He thought he had a mustache. The police are of the opinion that the assailant was left-handed, judging from the direction of the blows inflicted.

When Dr. Kerr entered the house he discovered the burglar crouched at the head of the stairs. The intruder, when he saw he was discovered, shouted to the doctor: "You had better leave me alone." He spoke good English, the clergyman said. It is his opinion that the thief was after $9,000 recently raised for a new Sunday school. This money was not in the house. During the struggle, Dr. Kerr said, his assailant was striving to turn the axe and strike him with the sharpened edge, but clinging to the handle he prevented this. The property taken, he said, was not worth more than $1,500.

Furs, clothing and household goods valued at about $1,000 were stolen from Michael U. Schaeffer's home at 154 Arlington Avenue a few weeks ago. Dr. William K. Freeman, Mr. Kerr's physician, lost a quantity of drugs and a number of hypodermic syringes two weeks ago when two men broke into his office at 63 Arlington Avenue.

Loot worth approximately $500 was stolen from the residence of Adolph Richter, 236 Arlington Avenue, early in June, and daylight burglars stole $400 worth of valuables from Dr. Frank S. Senior's home at 246 Arlington Avenue a month ago. They also took a quantity of narcotic drugs.

WALTON STAYS EXECUTIONS

Oklahoma Governor Reprieves 3 —Opposes Capital Punishment.

OKLAHOMA CITY, Okla., July 10.—Carrying out his announced policy of permitting no capital punishments, Governor J. C. Walton today ordered a stay of execution for John Pope and Aaron Harvey, convicted in District Court at Idabel of the murder of five persons April 3.

Pope and Harvey were to have been electrocuted July 13. The date of the execution was advanced to Oct. 12, the Governor instructing the Warden at the State Penitentiary to carry out the court's decree on the latter date "unless instructed otherwise by me before then."

Pope and Harvey were convicted of having killed Pope's wife, Mrs. Lydia Pope; Mr. and Mrs. T. H. Hansell, her parents, and two children. The victims were shot to death as they slept at the small Hansell farmhouse, near Haworth, Okla.

The Governor also ordered a ninety-day stay of execution in the case of Fred Godfrey, convicted of murder in Tulsa and sentenced to die July 18.

Inside Story of Prohibition

By Roy A. Haynes

United States Prohibition Commissioner

Foreword by President Harding

The true story of our nation's most perplexing problem revealed in a series of sensational stories by the leader of the Government's prohibition forces.

Tales of Rum-running, International Plots, Bottled Death, Bribes of Millions, Moonshine Battles, Bootleg Murders.

Forty-three chapters, every Sunday and week-day.

$20,000 IN SMOKES TAKEN BY BANDITS

Truck Carrying 3,000,000 Cigarettes Held Up and Driver Kidnapped at Busy Corner.

LIQUOR RAID, CROWD THINKS

Return of Captured Chauffeur Two Hours Later First Inkling That It Was Robbery.

Bandits took a five-ton motor truck loaded with $20,000 worth of cigarettes from its driver and his helper at a busy street corner in broad daylight yesterday morning and escaped without hundreds of spectators knowing they were witnessing a hold-up.

Even the driver and his helper did not know that they were being held up until it was too late to make any resistance. Taken in by a ruse of the robbers, who pretended to be Federal prohibition agents looking for rum-runners, the truck crew stopped their machine, got down off the driver's seat, and let themselves be led around the corner into a touring car, which whisked them off before they realized what was going on. Automatic pistols then kept them quiet until the robbers finally dumped them out several miles away. Witnesses of the hold-up thought it was a liquor seizure until more than two hours afterward.

What became of the motor truck, with the name of the American Tobacco Company on both sides in large letters, remained a mystery last night. It had disappeared when the truck crew got back to the scene of the hold-up, but nobody recalled having seen it go. The police believe the robbers loaded the cigarettes on another truck and drove the stolen machine to some out of the way spot where they abandoned it.

Route of Truck Evidently Known.

John Nix was the driver and Henry Tenners his helper. They loaded the truck at the Park Avenue, Brooklyn, warehouse of the American Tobacco Company and started out with instructions to deliver the cigarettes at the warehouse of the Metropolitan Tobacco Company, 125th Street and Third Avenue. As they frequently take truck loads of cigarettes through the same territory they traversed yesterday, it is believed that the bandits got information of their route through an underworld espionage system and lay in wait for the truck.

Driving slowly up First Avenue, Nix was halted at 114th Street by three men who walked out from the sidewalk. One of them held a gold badge in his hand and ordered the driver to stop.

"Get down while we search the truck," the man with the badge said.

"Nothing on here but cigarettes," the driver expostulated.

"We'll find out what's on there. You get down!" the leader commanded. "Hurry up! You'll get in trouble if you don't."

Nix and his helper climbed down.

"Now you go over there," the robber went on, pointing around the corner, "and wait till I call you back."

Whisked Away in Another Car.

The bandit flashed his gold badge again, and Nix and his helper decided that they had better do as they were ordered. They walked around the corner with two of the robbers, while the leader stayed behind. That was the last they saw of him or the truck.

A touring car was drawn up at the curb on 114th Street, a short distance from the corner. The two men were pushed into the automobile before they had time to think. A driver was at the wheel. He started his motor running before the men were put into the car and was off down First Avenue in a jiffy.

When Nix and Tonners tried to get out of the car they were covered by two gunmen.

"Keep your trap shut," the robbers commanded.

Nix and Tonners kept quiet. They were driven about the upper part of Manhattan and the Bronx for two hours. The ride finally ended at Mott Avenue and 184th Street, the Bronx, where the prisoners were set down and ordered not to give the alarm until the automobile had disappeared from sight. It happened that very few persons were in the vicinity at the time, and no policeman was in sight, so that the car disappeared before Nix and Tonners could call for help.

The driver and his helper took the subway to First Avenue and 114th Street, where they found people still talking about "the prohibition agents who had seized a truck and arrested a couple of whisky smugglers."

Charles F. Nellen, Secretary of the American Tobacco Company, said this was the first time the company ever had been the victim of such a robbery. He said the truck contained close to 3,000,000 cigarettes, valued at from $18,000 to $20,000.

FLAGLER SUIT DROPPED.

Widow Wants Three Months to Decide Between Will and Dower.

Mrs. Beatrice F. Flagler, widow of John H. Flagler, withdrew yesterday her application to compel the Bankers' Trust Company to file an intermediate accounting in the estate of her husband, when the case was called before Surrogate O'Brien. It was stated that the transfer tax report would be filed shortly, and this will give Mrs. Flagler the information necessary to enable her to decide whether to accept the $10,000 cash and $200,000 in trust left her in the will, or to renounce the legacies and take her dower interest in the Flagler realty.

The Surrogate reserved decision on Mrs. Flagler's application for three months in which to make her decision after she gets the desired information. It was stated yesterday that a preliminary payment of $60,000 on the tax had already been made to the State.

LEHIGH STRIKERS TO VOTE.

Railroad Officials and Shopcrafts' Chiefs Silent on Terms Submitted.

SAYRE, Pa., July 10.—A referendum vote as to whether striking Lehigh Valley Railroad shopmen, who have been out since July 16, 1922, will accept terms to conclude the strike will be taken during the week at various times.

At Sayre the balloting will take place Saturday night. The vote taken at each point on the Lehigh system will be sealed and brought here to be tabulated.

Officials of both the Shopcraft Committee and the railroad company today refused to divulge the nature of the terms to be submitted to the men.

Fugitive From Justice Jumps Jail.

Charles P. Freas of 295 Washington Avenue, Brooklyn, who was arrested some time ago as a fugitive from justice, failed to report yesterday afternoon at the Federal Building in Brooklyn. He had been admitted to $500 bail on Monday. Detectives went to his home and found several sailing lists of German steamship lines, but Freas had disappeared.

Tramp Leaps From Train Roof After Riding 50 Miles an Hour

A tramp who tried to steal a ride on the top of a parlor car of the New Haven road's Merchants' Limited caused that train to roll into Grand Central Terminal ten minutes late Monday night. The tramp was heard as he dropped off one of the overhead bridges at New Haven on to the car roof after the train had started. It was passing a tower between Bridgeport and New Haven at fifty miles an hour when a towerman saw the tramp hanging to the car roof face downward. The next towerman flagged the train.

Conductor George Heil and the flagman told the man to jump from his perch, because if he stayed there much longer he was liable to be killed by overhead wires.

The tramp leaped off the car to the eastbound express track and missed being killed by a freight train by a few inches.

ADMITS HIS SHARE IN LOOTING A BANK

Former Cashier of Mariners' Harbor Institution Testifies as to $610,000 Shortage.

BLAMES ROBERT MAGRUDER

Says Shipyards Corporation President Persuaded Him to Certify Checks Illegally.

Called as the principal witness of the Government in the prosecution of Robert Magruder, president of the Johnson Shipyards Corporation, and his son, Donald D. Magruder, treasurer of the same concern, for aiding in the misapplication and abstraction of the funds of the National Bank of Mariners Harbor, Staten Island, Sylvanus Bedell, former cashier of the bank, yesterday freely admitted his share in the looting of the institution and asserted that Robert Magruder was the instigator of the system of thefts.

Bedell presented a rather pitiable picture as he gave his testimony. He is rather short of stature but heavily built. He wore a blue suit. His hair, which is rather thin on top, is almost pure white, as is his mustache. This, combined with the pallor caused by ten months in jail, gives him an air of feebleness belied by his sturdy step as he walked to and from the witness chair. He said that all his stealings had done for him was to leave him without a dollar and the prospect of a prison sentence. A brother and sister are paying his counsel fees.

In answer to questions by Assistant United States District Attorney Francis X. Giaccone, Bedell testified that he entered into a collusive agreement with Robert Magruder in May, 1917, for the purpose of making it appear that the Johnson Shipyards Corporation was on a sound financial basis.

"It was just after the United States entered the war," said Bedell. "Magruder was anxious to get contracts from the Government for the building of vessels. The Government had to be assured of the financial standing of the shipyards company. I certified checks to the amount of between $50,000 and $60,000. That was the first false step."

With the knowledge that Bedell had committed one wrong, Magruder, according to the witness, came to him with other checks to cash when he knew that there were insufficient funds to the shipyards corporation in the bank to meet them.

"When I protested against cashing the checks," testified Bedell, "Magruder pointed out that money was needed to run the shipyards pending the contracts that were expected from the Government and that when the money was received from the Government the amounts would be made good. I paid the money from funds of other depositors and concealed the misapplication of the funds."

Bedell testified that Magruder said to him: "I am sorry to have to keep putting this up to you (meaning the continued cashing of checks), but we have to keep the yard going until the Government puts us on contract No. 1."

The witness said that he became connected with the shipyards corporation in April, 1917, when he bought ten shares of stock in the concern. Shortly after he was made a director and later on was made treasurer at a salary of $20 a week. As treasurer he had to sign the checks. Bedell told how his salary was raised until in June, 1920, he was receiving $300 a week. Robert Magruder, who drove to and from the shipyards concern was engaged in the horticulture business in a small way, was at this time, according to Bedell, receiving $500 a week as President and general manager of the company. Bedell said in addition to what he made as director in the world and that his counsel fees were being paid by a brother and a sister.

Among the witnesses called by the Government yesterday were four of the directors of the National Bank of Mariners Harbor. They were Fred D. Verdon, Josiah W. Place, Charles Belmont and Theodore B. Comfort. They testified that the shortage of $102,000 in the funds of the bank was discovered by an auditor employed by the bank to go over its books. The directors testified that they went to Robert Magruder in an effort to get back some of the $102,000 which they believed at that time was all that the shortage amounted to. Magruder, according to the witnesses, admitted that his concern had received in the neighborhood of $50,000 but the directors could get no money from him. The shortages were later found to be $610,000.

The trial is being conducted in the United States District Court in Brooklyn before Judge William J. Sheppard of Pensacola, Fla., who is temporarily sitting in the Eastern District of New York. The proceedings will be continued today.

SMITH TO OPEN HOSPITAL.

Inaugurates $225,000 Institution at Bay Shore, L. I., Next Week.

The new Southside Hospital at Bay Shore, L. I., will be opened next Wednesday at 8 P. M. Governor Smith and Dr. George E. Stewart, President of the Academy of Medicine of New York, are expected to speak.

The occasion will mark the end of nearly three years' efforts to give the South Shore adequate hospital facilities. The work was begun with an intensive drive for funds, in which fifteen villages, from Amityville to the Moriches, participated in the five days of campaigning $225,000 was raised.

The hospital buildings (of Colonial design) is located in a five-acre plot fronting on Montauk Highway, and is 400 feet back from the road.

Next week's ceremonies will be in charge of James E. Richardson and Arthur Butler Graham, President of the hospital. Music will be furnished by the band of the Central Islip State Hospital.

Conductor Killed Coupling Cars.

Frank Gosien, 38 years old, a freight conductor on the Pennsylvania Railroad, who lived at 466 East Seventy-seventh Street, was instantly killed while attempting to couple two freight cars in the Pennsylvania Railroad freight yards at Twelfth Avenue and Thirty-eighth Street last evening.

MINERS INSIST LIMIT ON PARLEY REMAIN

Refuse to Sign Pact to Continue Work if No Agreement Is Reached by Aug. 31.

PUSH 'CHECK-OFF' DEMAND

Second Session With Anthracite Operators Marked by Conciliatory Spirit, However.

LONG CONFERENCE LIKELY

Head of Owners' Committee Declares Many Details Are to Be Worked Out.

Special to The New York Times.

ATLANTIC CITY, N. J., July 10.—Anthracite operators continued today when the Joint Scale Subcommittee convened at the Hotel Ambassador, to press mine workers to keep the mines working after Aug. 31, the expiration date of the present contract. The agreement would insure against interruption of coal supply during such time as negotiations now under way for a new contract might run over. The miners opposed the plan as placing a premium upon delay, and as postponing a possible stoppage until Fall or Winter when the public would feel it more. They dropped the hint, however, they might entertain the proposition August 1 if the outlook then seemed favorable for a settlement.

The "closed shop" and the "check off" system of having mine owners deduct union dues from miners' pay envelopes, one of the mine workers' major demands, came in for detailed discussion at today's conference.

Operators raised the long standing question of the legality of the "check off." The miners responded that it had been given a clean bill of health when the Seventh Circuit Court of Appeals in Chicago had lifted an injunction issued against the system in a lower court.

Mr. Warriner's Statement.

Samuel D. Warriner issued the following statement in support of the operators' offer to establish an anticipatory truce against possible emergency Sept. 1:

"The position of the anthracite operators with regard to the wage negotiations is this:

"Actually the miners have presented thirty-five demands for changes in wages and working conditions, and not eleven as would at first glance appear. Many of these demands involve the consideration of economic and technical details which will consume considerable time.

"Past experience has demonstrated that an anthracite wage contract cannot be negotiated in a hurry, while there is no disposition on the part of the operators to prolong unduly the negotiations, our decision in appointing two alternate members of the subcommittee in order that there may be uninterrupted discussions is an indication of our anxiety to complete the work at the earliest possible moment. We realize that there is a possibility that a new contract may not be completed before the present one exp

BARON DE CARTIER SAILS FOR BELGIUM

Ambassador and Baroness Are Among the Passengers Today on the Belgenland.

MANY NOTABLES IN CABINS

United States Liner President Monroe Carries Many New York Residents.

Baron de Cartier de Marchienne, Belgian Ambassador to the United States, and Baroness de Cartier are among the list of notables sailing today on the Red Star liner Belgenland for Plymouth, Cherbourg and Antwerp. Other prominent persons among the 299 first cabin passengers are: Dr. Patrick J. Murray, Chief Surgeon of the New York Police Department, and Mrs. Murray; Dr. J. C. Boyd, Medical Corps, U. S. N. (retired), and Mrs. Boyd of Washington; R. D. Argus, President of the Board of Education of Newark, and Mrs. Argus; Senator Gilbert M. Hitchcock of Nebraska, Mrs. Hitchcock and Miss Ruth Hitchcock; William S. Kies, Chairman of the Board of Directors of the First Federal Foreign Exchange Banking Association; Rev. J. F. Stillemans of the Belgian Bureau and Dr. Wladyslaw Wszelaki of the Polish Emigration Bureau.

The Belgenland's list includes a large number of Americans who are well known in society. Among those from New York are Mrs. William Van B. Kip, Miss Cornelia B. Kip, Mr. and Mrs. William Armour, Miss Katherine Boston, Mr. and Mrs. Charles Butler, Miss Angela Carrera, Miss Veronica Green, Rene Hoguet, Mr. and Mrs. J. H. Inman, Miss Addison Mitchell, Miss Isabel Mitchell, Miss Elizabeth Mitchell, William H. Peters, Miss Elizabeth Peters, Miss Leslie Peters, Mrs. R. Lester Fleming, Mr. and Mrs. H. Hobart Weekes, Miss Helen A. Weekes, Hobart G. Weekes, Dr. and Mrs. F. E. Jameson, Mr. and Mrs. Francis Murray and Dr. and Mrs. W. J. Sittenfield.

From other sections of the country are Mrs. Reginald Foster, Miss Ruth Foster, Lawrence Foster, Miss Lydia Ballard, Dr. and Mrs. Thomas Tolmie, of Boston; Mr. and Mrs. Tracy L. Jeffords, Miss Mary Jeffords, Mrs. Judah H. Sears, Dr. M. D'Arcy Magee, William D'Arcy Magee and Miss Jeanette Warren Magee, of Washington; Mrs. Walter Dyer, Mr. and Mrs. J. Y. Horder, Mrs. G. P. Engelhart, Miss Margaret Englehart and Miss Alice Farrell, of Chicago; Charles J. Gowser-Uwaite, Mrs. B. Gowin Hood, Miss Elizabeth Davis, Mr. and Mrs. Arthur W. Lee, Miss Mary Lee, Miss Barbara Rogers Ferguson, Miss Louise Lyle and Mr. and Mrs. George B. Wells, of Philadelphia; Mrs. William F. Alexander, Miss Julia and Miss Emily R. Alexander, R. A. Alexander, Dudley K. Alexander, Mrs. Norman M. Mercer, Miss Dorothy Roslar, Highland Burns, Miss Sarah Murdock, Francis G. Riggs and Henry G. Riggs, of Baltimore; Miss York Brennerman, Mr. and Mrs. T. J. Gillespie and Miss Gillespie, of Pittsburgh; Mr. and Mrs. Cole Scott, Jr., Mr. and Mrs. George Cole Scott, Jr., of Richmond; Alonza Church, Miss Church and Mr. and Mrs. Martin Shaughnessy, of St. Louis; Mr. and Mrs. Henry Burns, Miss Grace Reynolds, Mrs. James T. Anderson and Miss Helen Anderson, of Detroit; Miss Margaret Rechnitzer, of Buffalo; Willard Robison and Miss Ann Robison, of Toledo and Dr. and Mrs. A. H. Harbour, Miss C. M. Harbour and Miss Margaret Spence, of Englewood, N. J., and Mr. and Mrs. Harry C. Adler of Chattanooga, Tenn.

Some of the New Yorkers leaving today for London via Plymouth and Cherbourg are the Countess Monroe of the United States, Lines and Miss L. Altschiner, Mrs. H. C. Alexander, Miss Eleanore Brannan, Mrs. F. B. Campbell, Mrs. J. B. Conlon, Mrs. R. W. Cooke, Miss C. B. Cooper, Dr. G. Fuhrman, Miss J. S. Golden, Miss Charlotte A. Henderson, Mrs. Arthur Hughes, W. A. Hughes, Mrs. Gustave and Miss Faith S. La Lacheur, Miss A. Lubin, Howard McKinney, Mr. and Mrs. M. G. Pallister, M. G. Porter, Mr. and Mrs. Peter Quackenbush, Lieutenant and Mrs. W. H. Schaffer, Mr. and Mrs. D. Seligman, Mrs. R. M. Shannon, Mrs. M. L. Sidway, Miss Elaine Swanson and Mrs. John Williams with the Misses Florence, Edna and Emma Williams.

Those from out of town include: H. Van Hemlier, Mrs. H. Whalen, the Misses H. and Jane Henderson, Miss Mary C. Pierce, Miss M. B. Rust, Mrs. Carl Schmidt and Miss Lillian Schmidt, L. B. Simpson, Mrs. G. Tausig, Howard S. Walton and Alfred Woodward, of Boston; Miss Helen Betts of Hartford, Miss Caitlin of Highwood, N. J.; Rev. Edward Byrne of Rochester; Miss J. Calkins, Miss C. Doble, Mrs. H. Johnson, Mr. and Mrs. C. H. Prowse and Miss Mary Townsend of Seattle; Mrs. Mary H. Call with Miss Rose and Master Hughes Call, John W. Collins, R. L. Eskridge, Mrs. M. Gibbons, Mr. and Mrs. F. Hike, Robert Horton, Mr. and Mrs. D. F. Horton, A. Jessurum, August Belmont and Mrs. A. J. Thomson and the Misses Janet and Betty Thomson of Chicago; the Misses H. Harris and Lillian Pernell, Miss W. Litsinger and Mr. and Mrs. A. H. Smith of Philadelphia; Miss H. N. Savage, Mrs. Mary Shannon and Miss E. H. Suttin of Bryn Mawr, Pa.; Mrs. A. A. Hill, Mrs. J. J. Ravenel and Miss G. Nelson of Washington, D. C.; Miss M. R. Hall, L. B. Lesley and Miss Paula Smith of San Francisco; Miss T. Royer, Mrs. Parker Wilde, Miss V. and S. Spiker of Piqua, Ohio.

HELD FOR ACID SABOTAGE.

Coat Maker Is Accused of Ruining Garments of Employer.

Charged with throwing acid on coats he was making in the shop of Irving Sherfatter, at West Fourth Street, where he was employed, Samuel Weidenberg, 20 years old, of 249 Clinton Street, was arrested yesterday morning when he ran out of the place with the proprietor in pursuit. Patrolman McCarthy of the Mercer Street Station caught him at Broadway and Fourth Street.

A charge of malicious mischief was placed against Weidenberg when Sherfatter said that as he had fired two men who attempted to persuade employes to walk out of the shop.

Weidenberg was held in $1,000 bail by Magistrate Henry M. S. Goodman in the Essex Market Court for examination July 16.

ADDS TO 3 SING SING TERMS

Warden Sentences Doctor and Two Brokers for Fraud in Prison.

OSSINING, July 10.—Sentence of sixty days' imprisonment was imposed today in Sing Sing upon Dr. Arthur Stanger, former physician and forger, charged with swindling two fellow-prisoners, Henry Gast and John Grannan, former stock brokers, by promising them early pardons from prison.

Sentences of fifteen days each were passed upon Gast and Grannan for robbery. The sentences imposed by Warden Lewis E. Lawes mean that the terms will be added to the minimum terms of the prisoners.

Dr. Stanger was assigned to work on the prison's coal pile. He had been performing clerical work.

EARTHQUAKE IN FRANCE.

Shock Felt Throughout the Basque Country—Damage Slight.

BIARRITZ, France, July 10 (Associated Press).—An earthquake of some severity, lasting about fifteen seconds, was felt today throughout the Basque country, notably at Perpignan, Bayonne and Anglet. No loss of life is reported, and the material damage was not important.

At Anglet the shock, occurring at 9:30 A. M., lasted several seconds and rattled the furniture in the houses.

EX-HUSBAND NOW HER FATHER-IN-LAW

Divorcee Marries Her Stepson at the Same Time That His Father Weds Again.

A bride who was until recently her present husband's stepmother and her present father-in-law's wife was married yesterday by Deputy City Clerk James J. McCormick of the Marriage License Bureau. The name of the bride was Leonora Wilhelmina Breidenbach, who arrived from Holland a week ago. She was married to Wilhelm Van Beck Jr., a youngster of Carmine, N. Y.

As Mrs. Van Beck Jr. was until Sept. 15 last her husband's stepmother, the granting of a marriage license was delayed last week, while Corporation Counsel George P. Nicholson carefully went over the facts in the case in the case which were handed him by the elder Van Beck and the present bride of the junior Van Beck.

Her former husband, William Van Beck, a painter, and Leonora Wilhelmina Hovinga were married at the same time yesterday. They all came from Holland, and the two women, in obtaining the marriage license, gave their addresses as the Prescott Hotel, Second Avenue and Fourth Street. Mr. Van Beck and Mr. Van Beck Jr. gave their addresses as 371 and 373 Walnut Street, respectively, Corning, N. Y., it being explained that the drivers had procured these homes for the future use of themselves and their brides.

The elder Van Beck is 56 years old, and his bride is 25. The younger Mrs. Van Beck gave her age as 22 years, and Mr. Van Beck Jr. is 20 years old.

ONLY ONE IS NEW YORK IN 52,000 POST OFFICES

Washington's Name Serves for 28 Places, With 25 Clevelands and 2 Chicagos.

Special to The New York Times.

WASHINGTON, July 10.—New York is the only city of its name among all the 52,000 post offices in the United States, sharing this distinction among the large communities with San Francisco and New Orleans.

When you address a letter "New York" it goes to New York, N. Y. But you must not make this mistake with Washington, because the Post Office Department revealed today that there are twenty-seven others than the city in the District of Columbia. There are also eleven Cincinnatis, seventeen Jacksons, five Clevelands, twenty-two Buffaloes, fourteen Denvers, seven Detroits, six Philadelphias and two Chicagos.

Other duplications abound. Forty-three names, such as Clinton, Chester, Darlington, Oxford, Princeton and Jamestown are used to designate hamlets, towns and cities which are large enough to have post offices. Of course, Franklin is a favorite name, in honor of the founder of the postal service. Thirty-one communities are named for him.

George Washington's name was generally used, but other Presidents also have been favored, and already three are for Hardings, besides twenty-seven Addisons, twenty-five Clevelands, twenty-four Lincolns, twenty-four Monroes, twenty-three Wilsons, thirteen Roosevelts, fifteen Adamses and twelve Tafts. Names of capitals of other Nations have been another source of duplication. There are in the United States eighteen towns bearing the name of Paris, eighteen Genevas, seventeen Berlins, twelve Moscows, eleven Viennas, six Peking and two Brussels. There are twenty-two Londons, twenty-two Dublins, eighteen Arcadias, fifteen Homes and fourteen El Dorados.

FIND RELICS AT BIZERTA.

French Unearth Early Christian Baptistery and Tomb of 5th Century.

Special to The New York Times.

WASHINGTON, July 10.—The grave of a Christian priest dating from between 400 and 500 A. D. was recently unearthed by workmen who were digging outside the walls of the French naval arsenal at Sidi Abdallah, near Bizerta, in Tunisia, according to a report from the American Vice Consul, Mr. Walter, who was the first American to view the grave and the relics which were discovered.

Fragments of a mosaic floor and of a marble altar-table of Christian baptistery were also disclosed, it appears. Through the courtesy of the French naval authorities, Mr. Walter says, he was permitted to make a careful investigation of the ruins. A Latin inscription on the marble slab covering the grave, he says, indicates that the tomb is that of Quintus, a deacon of the second ecclesiastical region of Carthage. Portions of the mosaic flooring in the chapel and baptistery show a design in which maps picked out in blue against a red background.

Two terra-cotta plaques, one with a lion in low relief and the other bearing the monogram of Christ ("the Greek letters Chi Rho"), were also unearthed. Several Roman lamps and Greek coins of the Emperors Constantine, Antonius, Septimius Severus and Maximinus and a Greek ring of the third century were also found.

TO WAR ON DIRTY GLASSES.

Health Commissioner Details 25 Inspectors to Enforce Rules.

Dr. Frank J. Monaghan, Commissioner of Health, yesterday issued the following orders for an active campaign against the sale of beverages in unclean glasses:

"During the Summer months, numerable wagons and pushcarts sell various kinds of drinks and beverages on the streets. The facilities for the cleansing of glasses at these wagons are inadequate. On some wagons, devices are provided but the process of cleansing is not sufficient to make the glasses clean.

"Twenty-five special inspectors have been detailed to cover the city and arrest all offenders. The regulations of the Board of Health require that where beverages are dispensed on the street a paper cup or other single service container must be used.

"The Department has found that the candy sold on the streets from pushcarts which are exposed almost exclusively by children is handled in a very uncleanly manner. The sanitary carts which are patronized almost exclusively by children must be covered and the candy must be separately wrapped or contained in a cardboard box or other article of dry-proof container. The Board of Health has also been instructed to give special attention to this condition.

Daly Curtain for Lake Placid Club.

The curtain of Augustin Daly's Theatre, which was rescued from the wrecking crew when the building was destroyed, was shipped by John Golden yesterday to Lake Placid, where it will be hung in the New Adelphi Theatre of the Lake Placid Club. The curtain, which is a fine specimen of Italian needlework, was bought many years ago by the late manager for $10,000. The theatre in Lake Placid has been constructed under the supervision of Mr. Golden, for the practical development of the dramatic talents of the community.

THEATRICAL NOTES.

A revue entitled "Artists and Models," recently privately produced as "The Illustrators' Show," will be presented on the Century Roof by the Shubert late in August. The company will include Olive Vail, Marie Potter, Lea Morse, Grace Hamilton, Charlotte Granville and Harry Kelly.

The new Frederick Lonsdale comedy, by the Queen of Spain, will open the new Astor Theatre in Chicago in September.

The Gridiron Club of Cincinnati, which is a seven mile chair, will fling at the Palace Theatre at both performances on Wednesday of next week. On the following day the singers will ski for Wales, where they will take part in a dance contest.

MAJESTIC SURGEONS PERFORM OPERATION

Remove Girl's Appendix While Liner, Without Vibration, Maintains Its Speed.

1,383 PASSENGERS ABOARD

P. A. S. Franklin Sees Solution of Liquor Problem in Hughes's Proposal.

The White Star liner Majestic arrived yesterday from Cherbourg and Southampton with 1,383 passengers of whom 881 were citizens of the United States and the remainder representated thirty-two nationalities from all parts of the world.

Furset C. S. Lancaster had in his charge sixty-four boxes of specie consigned to Kuhn, Loeb & Co. and valued at $400,000. The liquor on the ship consisted of thirty-three gallons of spirits and thirteen gallons of wine, which were under seal as medical supplies for the eastward voyage.

The only incident on the voyage was an operation for appendicitis performed on Miss Aubrey Markland, 23 years old, an English woman who is coming out to be married. She was taken ill at 5 o'clock Saturday morning, and after an examination by Dr. J. C. H. Beaumont, the ship's surgeon, it was decided that an operation was necessary with as little delay as possible.

An hour later, with the aid of Assistant Surgeon O. B. H. Jones, he performed the operation successfully while the Majestic was making twenty-four knots an hour. There was not the slightest vibration, Dr. Beaumont said. Upon arrival the patient was taken to St. Vincent's Hospital.

Discusses Liquor Problem.

According to the view taken by P. A. S. Franklin, President of the International Mercantile Marine Company, who returned on the liner from a business trip to England, the proposal made by Secretary of State Hughes for a twelve months treaty limit to control the illicit liquor traffic would be the best way to solve the problem.

"The liquor question, conditions at Ellis Island and the quota system of immigration were discussed by officials that I met," said Mr. Franklin.

"We are in the same position as the Government itself. The traffic in liquor is going on in the United States in spite of the fact that we believe the Volstead act and the Government is getting no revenues from it. Eastbound passengers of dry boats are bringing their own, with the result that the steamships are carrying more liquor now as they would if they attempted to handle it over the bar, and yet are getting no revenue from that source whatever.

"When asked about political conditions in Europe Mr. Franklin declared that the situation there in England and France is very serious and that no one seemed capable of remedying matters. The crisis in the Ruhr, he felt, had become worse day by day and there were no signs that the conditions were going to improve.

Afterbury Returns.

Another passenger was General William W. Afterbury, Vice-President of the Pennsylvania Railroad, who has been making a tour of Central Europe with his daughter, Miss Miesseln Afterbury. He advocated the internationalization of the railroad of the Balkan States as one of the best means of restoring the trade and commerce of those countries and believed that it would pave the way for international coinage.

Cornelius Vanderbilt Whitney returned on the Majestic with his bride, formerly Miss Marie Norton, of New York, to whom he was married in Paris in May. The bride was dressed in a chic red and green foulard gown and wore a large picture hat. They may visit former Ambassador James Deering and his wife in New York.

The Count and Countess A. Bigray, the daughter of the late Marcus Daly and sister to Mrs. James Gerard, also arrived on the liner.

The family of Thomas Pouch, President of the American Docks and Pouch Terminal at Staten Island, who died in Paris on June 20 following an operation, returned bringing the body of Mr. Pouch. In the party were Mrs. Pouch, Miss Muriel Pouch, and two sons Alfred T. and Arnold C. Pouch.

The Rev. Cyril Emmet of Oxford University arrived on the Majestic to preach at St. Bartholomew's Church on the Fifth Avenue site of the old Waldorf-Astoria. Others on board were Mr. and Mrs. Joseph Pulitzer and their two children, Countess Mary Pappenham and Madame Van Swinderen, wife of the Netherlands Minister to Great Britain, and Commodore Charles H. Perry.

SOVIET OFFER TO JAPAN.

Willing to Apologize for Nikolaievsk Massacre, but Not to Pay.

TOKIO, July 10 (Associated Press).—A. A. Joffe, representative of Soviet Russia in the conversation with Toshihiko Hawakami, representing Japan, today attempted to pave a way for a Russo-Japanese agreement by offering to apologize for the Nikolaievsk massacre, without, however, providing for any indemnity.

Tomorrow the delegates will take up the question of the future of the island of Sakhalin, which will involve the concession for oil and gas exploitation rights granted to the Sinclair Exploring Company, an American concern, by the Russian Council of Commissaries. It is understood that if Northern Sakhalin escapes from Russia, Japan must settle with the Sinclair Company.

The questions of Russia's debts to Japan and recognition of the Soviet Government by Japan have not yet been discussed.

GEORGE M. COHAN BACK.

Arthur Hammerstein Here—Says He Has Booked Several New Plays.

Arthur Hammerstein, the theatrical manager, returned yesterday from a short visit to London and Paris. He says he has booked several new plays, including "The Nine o'Clock Revue," which was the biggest hit in London, and would be brought here in the Fall.

Another theatrical manager on the Majestic was George M. Cohan, who says the London production of "Little Nelly Kelly," which he believed would be as successful as "So This Is London" had been there. In his opinion, the English and the Americans have the same sense of humor and usually laugh at the same situations and the same jokes.

TO START BUS LINES.

Queens Citizens Hold Mass Meeting to Discuss Federal Injunction.

Residents of the Richmond Hill, Dunton and Howard Beach sections of Queens, at a meeting last night, decided to operate their own bus lines if at the hearing next Friday in the United States Court of Appeals the injunction obtained by the Transit Commission restraining the Department of Plant and Structures from operating bus lines in Queens is approved. The Transit Commission obtained the injunction in the Supreme Court three months ago, but appeal was taken.

The meeting was held in Ardia Hall, Richmond Hill. More than 500 persons attended. John McCullough, President of the Howard Beach Improvement Association, presided.

SMITH AND PERSHING VISIT STATE CAMP

Governor Sleeping in a Tent at Peekskill—General Inspects Two Regiments.

Special to The New York Times.

PEEKSKILL, N. Y., July 10.—Governor Smith is sleeping tonight in a tent at the national guard camp, after inspecting the troops. The Governor plans to review the entire tomorrow morning, after which he will motor to Albany.

Governor Smith was met at West Point by Colonel Alfred Hagan and a camp car and upon his arrival at camp was welcomed by Brigadier General Charles W. Berry, Commander-in-Chief of the New York National Guard. It was the yesterday camp commander's fifty-first year's duty, which positively precludes the Governor to remain overnight, in one of the camp tents rather than continue his journey to the town.

General John J. Pershing today visited the camp and following an inspection of the 105th and 106th Infantry, regiments presented Distinguished Service Medals to Colonel Edward McLaw Jr., who commanded the 106th Machine Gun Battalion on the World War, and Captain Harry S. Gershenstein, an artillery officer, who served overseas.

A crowd of about 1,000 persons on top of a hill were the first to greet General Pershing as his automobile swept up the hill toward the State camp. General Pershing, who has been visiting the Boy Scouts at Bear Mountain, was met at the latter place and escorted to the camp by General Berry and Colonel Regan.

Following an inspection of the two infantry regiments now in camp, the camp area and the rifle ranges, General Pershing addressed the officers present and expressed surprise that so many officers who served overseas had remained in the National Guard. He said the Guard was the nucleus of the force which the emergency army was constructed in time of war.

Archbishop Patrick J. Hayes of the Catholic Diocese of New York is expected to visit the camp tomorrow to dedicate the new military chapel here. Later Bishop William T. Manning of the Episcopal Church will dedicate the chapel, which is to be used jointly by different denominations.

IDLE COMPLIMENT PUTS YOUNG GIRL IN ASYLUM

Beautiful Rumanian Took Parisian's Remarks Seriously and Fell in Love.

Copyright, 1923, by The New York Times Company.

Special Cable to The New York Times.

PARIS, July 10.—Few flattering words spoken at a ministerial tea three years ago by a man of the world to a girl too young to give them their true value, today cost one of Rumania's most beautiful daughters her reason. The victim of these lightly spoken words was Catherine Stolea, daughter of a famous Rumanian General, who this morning was taken from a hotel to the special infirmary of the Prefecture.

Mlle. Stolea made her first visit to Paris with her parents in 1920, when she was but 20 years old, and was a girl of remarkable beauty and of lively disposition. While she attended with her mother, a prominent French musician paid her a compliment such as all beautiful women receive, but which they are supposed to know how to take. The young Rumanian girl came from a three years she silently nursed her love and last week, when it became too strong to bear longer, she left her family and came to Paris.

Disillusionment was rapid. She learned that the man who she had idolized for years had never thought of her since the momentary meeting at the musicale. When she returned to her hotel she acted so queerly that she was asked to leave. Last night, however, she returned again to the hotel. She did not seem able to understand when a room was refused her and asked permission to sleep in the cellar. The police were called and she was removed to the infirmary. Her parents have been notified.

The young woman has lost consciousness of her identity, and all day she begged to be killed.

CLINIC AT ST. MARK'S TODAY

Dr. Edward B. Cowles Continues in Charge—Not a "Healing Mission."

The second session of the religious-medical clinic at the Episcopal Church of St. Mark's-in-the-Bouwerie, Second Avenue, near Tenth Street, will be held this morning.

The clinic for the present will be held Monday, Wednesday and Friday mornings from 9 to 11 o'clock, and there will be a religious service each Sunday evening, when the Rev. Dr. Edward Cowley, assistant rector, will talk on the relation of body and mind. Dr. Edward B. Cowles will continue in charge of the clinic and a number of other physicians will assist. All give their services. There is no charge for treatment. It was explained that this is a "healing clinic" and not a "healing mission." Persons suffering from a bodily disorder are sent to specialists. If they have disturbed minds or broken hearts they are sent to one of the clergy.

REVISE SIZE OF COURT.

English Squash Racquets Officials Change Standard Measurements.

The Tennis and Racquet Association of England has just issued revised measurements for the standard squash racquets court. The size and some other details were fixed twelve years ago, but experience during that time has convinced the association that some changes were necessary. The new standard size is as follows: Length, 31 feet; breadth, 21 feet; height of front and side walls, 15 feet; height of play board from floor, 18 inches; height of service line from floor, 6 feet; cross line on floor, 15 feet from back wall; height of back wall, 7 feet; service box, 5 feet 6 inches square.

It is recommended that the front wall be of composition, the side and back walls either of wood or composition; the floor is covered courts of white wood and in open courts of cement. All walls should be colored white and all lines painted red.

KILL 20 CHINESE BANDITS.

Soldiers Fail to Capture Main Body, Holding 90 Prisoners.

HONGKONG, July 10 (Associated Press).—About twenty of the bandits who held up a train on the Canton-Mowloon railway near Canton last Saturday were killed today in a battle with Chinese troops. The main body of the bandits, however, escaped into the hills with the twenty-odd-to-do Chinese who were taken prisoner when the train was raided.

A Chinese military officer and the soldier were killed in the attack on the train, and loot valued at $50,000 was taken.

MUSIC NOTES.

Mayor Hylan, Chamberlain Berolzheimer and other officials are announced to attend tonight's concert of Goldman's Band in Central Park.

The Philharmonic gives a score from Strauss's Festival tonight at the Stadium, in tomorrow's list is that composer's "Till Eulenspiegel."

Edward Siegler of the Metropolitan is among those arriving in Europe today by the Leviathan. He will visit Gatti-Casazza and return in August.

FORD SWEEPS FIELD IN COLLIER'S BALLOT

Final Count in Magazine Straw Vote Gives Him 37,110 Majority Over Harding.

McADOO THIRD, WITH 19,401

Governor Smith Sixth on the List—Insurgents Make Poor Showing.

Henry Ford led President Harding by 37,110 ballots in the final returns of the Presidential straw vote conducted by Collier's in a canvass of 200,000 of its readers, made public yesterday. The vote was 68,865 for Mr. Ford and 31,755 for President Harding. William G. McAdoo, third in the list of aspirants, and considered a strong contender for the Democratic nomination, received 19,401 votes.

Governor Alfred E. Smith of New York was third in the list of strictly Democratic aspirants, running behind Mr. McAdoo and James M. Cox, the Democratic nominee for President in 1920. A feature of the poll was the relatively poor showing made by the so-called Republican insurgents. Senator Hiram W. Johnson of California received 15,583 votes, Senator William E. Borah of Idaho 2,904 and Senator Robert M. La Follette of Wisconsin 6,963.

In commenting upon the result of its canvass Collier's says:

"Henry Ford has become the issue in American politics whether he becomes a candidate for President or not. Collier's face-to-face straw vote has brought that out. Unless Mr. Ford eliminates himself from the situation, political thought from now on will revolve around him. Will he be nominated by one of the major parties? Will he accept the nomination if he is? Or will he run on a third ticket, or a fourth? Above all, what is the man likely to do in case he should be nominated or actually elected President?

"Whenever two or three politicians are assembled, for some time to come, they will govern themselves very largely by their answers to these questions. To be sure, they will have to guess the answers, but they will not have to guess any longer as to whether or not there is any great sentiment for Ford and in what part of the country he is strong.

"The distribution of the votes is even more significant politically than the vote itself. Mr. Ford has a clear plurality in all the states except New York, Connecticut, Rhode Island, North Carolina and Arizona. In Arizona he is tied with Mr. Harding. His vote is surprising but sectional.

"We believe that this vote represents a genuine cross-section of the American political opinion, with the one exception of the farmers, whom our agents were not able to canvass upon a basis born in the short time at their disposal. Many farmers wrote in to us, asking us to list them as voting for Ford, but we were compelled to refuse. We were trying to discover the sentiment of the country through an exact poll of a representative cross-section. This necessitated approximately 200,000 readers upon whom our agents could call face to face. In the interest of an accurate test, we could not count the vote of anyone else.

The total vote for the leading candidates in the poll follows:

Henry Ford	68,865
Warren G. Harding	31,755
William G. McAdoo	19,401
James M. Cox	15,583
Hiram W. Johnson	15,583
Alfred E. Smith	14,470
Charles E. Hughes	12,761
Herbert Hoover	7,977
Robert M. La Follette	6,963
Leonard Wood	6,110
William H. Borah	2,904
Oscar W. Underwood	1,729
John W. Davis	1,706
Frank O. Lowden	1,698
Woodrow Wilson	1,698
Samuel M. Ralston	1,013

Collier's explains that no record was kept of the sex ratio, but the magazine adds that there is reason to believe that women were as well represented numerically as they will be at the polls.

SEES DEMOCRATIC VICTORY.

Daniels Says His Party Has More Able Candidates Than Republicans.

BOULDER, Colo., July 10.—Addressing the Boulder Democratic Club here last night, Josephus Daniels, former Secretary of the Navy, declared that "among many other signs pointing to a sweeping Democratic presidential victory in 1924 is the fact that there are half a dozen able men contesting for the Democratic nomination."

"The apparent hopelessness of the Republicans," he continued, "is seen in the dwindling of the number of candidates for the Republican nomination. Before the 1922 election foreshadowed Republican defeat in 1924, their number was legion. They now seem to have all left the field to Mr. Harding, who hesitates to declare his candidacy unless Mr. La Follette throws his hat into the ring. If the Wisconsin Senator helps to elect Magnus Johnson, Farmer-Labor Senator in Minnesota, as he helped to overthrow the old guard in that state in 1922, he will have a great following.

"Who will receive the Democratic nomination? At present it looks as though the contest will be hard fought. It may be so long drawn out as at Baltimore, where finally the mandate of the people of the whole country made itself felt. I am sure the decision next year will be as fortunate as in 1912, and our Party will receive just reward, and excessive freight, scouts large enterprises and save the farmer from the distress of Harding's day and find a way to secure world stability and world peace, and right the wrongs inflicted on the veterans of the World War."

Maine Republicans Elect Sewall.

AUGUSTA, Me., July 10.—Harold M. Sewall of Bath was elected as member from Maine of the Republican National Committee) to fill the vacancy caused by the resignation of Guy P. Gannett, at a meeting of the Republican State Committee here today. He received eighteen votes to twelve votes for Robert J. Peacock of Lubec, the present Chairman of the State Committee.

Corns

Just Say Blue-jay

The simplest way to end a corn is Blue-jay. Relieves the pain and the corn soon disappears. Made in clear liquid and in thin plasters. The action is the same.

At your Druggist.

LONELY GIRL ENDS LIFE BY DRINKING POISON

Found Dead on Floor After Swallowing Whisky, Gin and Carbolic Acid.

By drinking a mixture of gin, whisky and carbolic acid, Mrs. Doris McDonald yesterday ended her life in her apartment at 2,126 Broadway, where she was found lying in the doorway facing the elevator.

A glance about the living room told the whole story. On the table were two freshly opened bottles of liquor. On the bookcase there was a cork from a bottle which gave forth the unmistakable odor of carbolic acid. Near a thin stemmed wine glass, which held the dregs of the liquid, were several letters signed "Jack." A further search by the Homicide Squad led to the discovery of a bottle partly filled with lysol on a roof below the living room window, and the letters revealed that the girl was lonely and weary of trying to live on the hope that her admirer would come back to her.

Frank Carlton, the son of the manager of the apartment building, saw the young woman lying on the floor as he was going up in the elevator. He returned to her and carried her into the bedroom. Her forehead was still warm, but the fumes from the carbolic acid permeated the room, and he summoned an ambulance from the Knickerbocker Hospital. Dr. Wilson, who arrived in a few minutes, pronounced the girl dead.

From letters found in the apartment the police believe that her right name was Mrs. John Kravits. One letter was signed Jack. Kravits and it requested the girl secretly, and the writer threatened to sue for a divorce. Miss Daisy Barrow, who lived in the building, was the last person to see the girl alive. Miss Barrow said she saw her at the telephone and heard her say: "Can't you come home tomorrow night?"

CONFER ON MOVING CROPS.

Rail Officials and Farmers Discuss Marketing Problems.

SYRACUSE, N. Y., July 10.—High officials of every important railroad in the East conferred in this city today with farm leaders of New York State on plans for moving farm products expeditiously, especially at harvest. The meeting was arranged by Enos Lee, President of the New York State Farm Bureau Federation, who presided.

The entire day was taken up in discussing problems both railroads and farmers must meet to overcome congestion and loss in shipping food to cities. While a definite program was not established, leaders of both sides expressed confidence that the gathering will mark the beginning of a joint movement of great value in overcoming food shipping problems.

Vice Presidents representing the New York Central Lines and the Lackawanna Railroads. Other high operating officials were present from the Lehigh, Pennsylvania, Long Island, Ontario & Western, Delaware & Hudson and other important trunk line carriers.

Although no definite plan was expressed before following the all-day session that thousands of dollars will be saved annually as a result of the co-operation between shippers and roads promised as a result of the conference.

QUICK WORK HALTS FIRE.

Lambs Clubhouse Manager Puts Out Blaze Threatening Rooming House.

A serious fire was probably averted last night through the alertness of F. H. Withey, Manager of the Lambs clubhouse. Withey was seated with some friends in the billiardroom of Damon Barris on the second floor of the Fifth Avenue shortly after eleven o'clock. Above the billiardroom is a rooming-house with nearly fifty occupants.

Hearing a crackle at the rear of the billiardroom, Withey investigated and discovered that an overhead electric fan had become overheated and set fire to the woodwork above. The wooden ceiling was just starting to burn. Seizing a tablecloth, Withey rushed to Barris to turn in the alarm, while he beat out the flames. By the time the firemen arrived the fire was out.

SCREEN NOTES.

"A Gentleman of Leisure," with Jack Holt, will be the feature at the Rivoli the coming week. The story is adapted from the novel by John Stapleton and P. G. Wodehouse.

"The Love Piker," with Anita Stewart, will be presented next week at the Capitol. It is a picturization of the story by Frank Dazey.

FINANCIAL MARKETS

Exchange Higher—More Optimism as to Negotiations Abroad—Markets Dull.

Financial interest yesterday did not centre in the stock market, where the activity was barely sufficient to keep the ticker wheels turning, or in the commodity markets, where some appreciation of the Government's crop estimate might have been expected, but was confined to the foreign exchange market. The strength in exchange was widely interpreted as meaning that the tension in international affairs had lessened in the last twenty-four hours, and that the forthcoming British statement of policy will be conciliatory in tone and not such as to cause disruption in Entente relations. This optimistic view was internationally held. All of the exchanges were firm, with moderate gains over the prices of the previous day. Sterling advanced 1¼ cents. In francs and lire the hardening was of modest extent. Even the German mark rallied fractionally.

If there was one outstanding feature in the domestic market situation yesterday it was the fact that bad news, or at least unsettling news, no longer has sufficient influence to scare the market into a fit of weakness. It is true that trading in stocks was not active and that the market was apathetic and irregular, the total turn-over being the smallest since last July. Nevertheless, it is to be recorded that but scant attention, marketwise, was paid to the sharp decrease of 595,000 tons in the unfilled orders of the United States Steel Corporation, and to the further reduction of 25 cents a barrel in the price of Pennsylvania crude oil, bringing it down exactly one dollar from the year's highest price.

Although the reduction in the Steel Corporation's orders of 595,000 tons represented a decline of almost 200,000 tons greater than the trade had estimated, the total tonnage now on the books, for future delivery, of 5,886,000 tons of steel, represents a gain of more than 750,000 tons over the same period last year. This is sufficient forward business to keep the mills of the corporation going at a brisk pace while prospective buyers make up their minds about the fourth-quarter tonnage which must be booked. Cumulative evidence that the pace of the basic industries is now more of a measured tread than the pell-mell scramble of the year's first quarter was furnished in the June report of steel ingot production by the American Iron and Steel Institute. On the basis of these estimates there were 3,748,800 tons of steel ingots turned out in June, compared with 4,195,800 tons in May, and 3,127,775 tons in June of 1922. However, such recessions from the peak ratios of operations, when trade conditions were more hectic, were entirely to be expected. As far back as steel records have been maintained there has not been a year when there has not been some sort of seasonal lull. The only difference this year is that it came earlier than had generally been expected.

The decline of 25 cents in the quoted price of Pennsylvania crude oil had not generally been anticipated, but it was accepted as another reflection of the fact that production in the industry has got rather out of hand due to the discovery of new and unexpectedly rich fields. But it would be stretching the imagination to very considerable lengths to say that this development, or the announced decline in the Steel Corporation's orders, presages dull business this Autumn.

Both wheat and corn prices declined sharply yesterday in the face of the rather dramatic computation that this year's harvest will be worth $1,000,000,000 more than that of 1922. July wheat was barely able to keep above the one-dollar mark here, while corn was weak and irregular. There was a disposition to view the Department of Agriculture's estimate as constructive, but, at the same time, not to overlook the fact that grain now is coming to harvest and that many growers are anxious to convert their product into cash. On the other side is the further fact that European buyers, who must be depended upon to take the surplus grain, are apathetic and apparently uninterested.

MONEY.

TUESDAY, JULY 10, 1923.

Stock Exchange call money was dull; return of huge sum withdrawn to care for payment on called notes imparted easier tone, opening and renewal rate being succeeded by charge of 5, and later one of 4½, which ruled until closing. Money dealers report lending of new funds in fixed period market extremely light, though rates continued without change at 5@5½ per cent. Commercial paper and acceptances markets moderately active at prevailing discounts.

Call Loans.

Renewals. High.	Low.	Last.	Monday's Last.
5½	5½	4½	6

Time Loans.

	Bid. Asked.
30 days	4½ 4
60 days	4½ 4¼
90 days	4½ 4¼
Four months	4½ 4¼
Six months	4½ 4¼
Nonmember and private bankers:	
60-90 days	4½ 4¼

London Market.

Money in London unchanged at 3½ per cent.; short bills unchanged at 3½@3¾ per cent.; three months' bills unchanged at 3½@3¾ per cent.

Gold bullion 2d lower at 90s 2d per fine ounce. Taking the British Mint standard price of 85s 0d per ounce as par, the market quotation of gold would represent a price of 106 at London. On the same basis the highest London price for gold for the year to date was 109¾, on July 2. The highest price since open trading in gold was resumed at London in September, 1919, was 140¾, on Feb. 6, 1920; the lowest, 102¾, on Feb. 21, 1923. Highest price last year, 126, on Jan. 2.

Clearing House Exchanges.

Exchanges at the clearing house at the New York Clearing House, $756,000,000; balances, $60,000,000; Federal Reserve credit balance, $40,000,000; exchanges this day a year ago, $946,700,000.

Increase Signalmen's Wages.

Announcement was made yesterday that the New York Central Lines had increased the wages of signal maintainers, signal mechanics and their assistants 3 cents an hour, effective on July 1. Helpers were increased 4 cents an hour. The change in wages involves 1,100 persons, and the amount involved is approximately $62,500. It was said yesterday.

TUTTLE-HARRIMAN DIRECTORS ELECTED

Rumor That Pittsburgh & West Virginia Is to Go to Big Trunk Line Are Revived.

By electing three more men to the Board of Directors of the Pittsburgh & West Virginia Railway yesterday the Tuttle-Harriman interests increased their representation to eight members out of thirteen. Frank E. Taplin of Cleveland was elected Chairman of the board, and Joseph R. Kraus, Vice President of the board.

The three new Directors, Charles F. Taplin, Frank E. Taplin and John Sherwin Jr., are all Cleveland men, which revived the rumor that the purchase of the control of the stock had been made for the Nickel Plate or New York Central Railroad. John Sherwin Jr. is the son of John Sherwin, Chairman of the board of the Union Trust Company and one of the Directors of the Nickel Plate. The Directors who retired were J. B. Dennis, Asa S. Wing and George P. Smith.

At the same time Charles F. Taplin, Frank E. Taplin and Joseph R. Kraus were elected to the Board of Directors of the West Side Belt Railroad, one of the subsidiary companies of the Pittsburgh & West Virginia.

Although they have clearly demonstrated that they have control of the company the Tuttle-Harriman interests still deny that they made the purchase of the road for any other reason than for a group of investors.

ADVANCE PRICE OF STEEL.

Carnegie Company Increases List on Some Products.

The Carnegie Steel Company, the chief subsidiary of the United States Steel Corporation, has issued a new price schedule, which shows some advances in bars and shapes. The adjustments, however, were not considered significant in the trade as the old prices, carrying differentials for different sizes, have been in force for many years.

The adjustments have been put in force, it is explained, to meet changes in the relative cost of production. The increased prices are expected to be reflected in the earnings of the company in view of the higher prices which will be received for a large portion of the bar and shape output of the company.

Porto Rican Tobacco Vote Delayed.

The meeting of the stockholders of the Porto Rican-American Tobacco Company, scheduled for yesterday to vote on the proposed plan of recapitalization, was again postponed because of the pending litigation in opposition to the plan.

ATLANTIC COAST LINE PLANS IMPROVEMENTS

Program Calls for $26,000,000 on New Equipment and Grading in 1923.

The Atlantic Coast Line Railroad Company will expend $26,000,000 on the improvement of its line and equipment during the year 1923, according to a notice mailed to the stockholders of the road along with their dividend checks yesterday. Shareholders at the same time are called upon by the railroad to present to the public these facts.

The largest expenditure, according to the statement, will be made for the purchase of box cars, while practically $6,000,000 will be expended by the company in doubling trackage and reducing grades. It is anticipated that all of the road will have been double-tracked by Dec. 31, 1927, except on three large waterways where single track is considered necessary.

In its letter to the stockholders the company says:

"Your company has pledged itself, with the other railroads of the country, to do its utmost to furnish adequate service to the public. To this end expenditures of approximately $26,000,000 have been authorized to be spent as follows:

"Five thousand three hundred and thirty-one freight cars, $9,000,000; 101 passenger train cars, $2,300,000; 66 locomotives, $4,600,000; doubling trackage and grade reduction, $5,000,000; shops and shop facilities, $1,200,000; yards and other facilities, $1,300,000; 30,000 tons of 100-pound rail, $1,300,000."

BUYS CHAIN STORE SYSTEMS

Jones Brothers Tea Company Acquires Two—Keeps Names Secret.

Negotiations have been completed and contracts signed for the purchase by the Jones Brothers Tea Company, Inc., of two additional chain store systems of this city, it became known yesterday. Officers of the company, when asked about the deals, declined to name the store systems involved.

Robert P. Marshall, Vice President of Jones Brothers, handled the transactions. He said they would not result in a merger of the companies concerned. Until inventories had been completed and audits made no formal announcement of the acquisitions would be forthcoming, he said.

Government Withdraws $10,700,000

The Government withdrew $10,700,000 from the local Federal Reserve District yesterday, and will take out $5,000,000 more tomorrow, according to announcement.

Beginning March 22 the Stock Exchange officially quotes Liberty bonds in units and fractions, the fractions being 32ds of a unit, and the quotations after the decimal point representing one or more 32ds. In the above table, therefore, the figures of highest and lowest prices during 1923 and since date of issue are reduced to the form now used in the Stock Exchange quotations.

NEW SECURITY LIST APPROACHES RECORD

Stocks and Bonds on Exchange for First Half of 1923 Total $1,884,144,000.

RAN $1,965,443,850 IN 1917

Balkan and South American States Make Initial Offerings, According to Report.

New securities listed on the New York Stock Exchange in the first six months of 1923 had an aggregate par value of $1,884,144,000, of which $1,009,802,000 were in the form of bonds and $874,342,000 in stocks. This total exceeds that of any similar period in the three previous years, but falls short on the record of $1,965,443,850 reported in the first half of 1917, when the listings of foreign securities, due to the war, were unusually large.

The listings on the Exchange for the first six months, as compiled by Dow, Jones & Co., compared with the two previous years, follow (last three figures omitted):

6 months.	1923.	1922.	1921.
Bonds	$1,009,802	$290,906	$175,604
Stock	874,343	586,733	466,422
Total	$1,884,144	$1,509,638	$1,271,826

"Foreign issues listed during the first six months of 1923 totaled $230,450,000, against $108,550,000 in corresponding period of 1922 and $294,000,000 in 1921," according to the bureau. "Several Balkan and South American States made initial offerings this year.

"Railroad bonds, which totaled $262,322,100, were due mainly to the reorganization plans of Missouri, Kansas & Texas, which required $166,800,100 to carry out, and International & Great Northern, which took care of $34,500,000. New York, Lackawanna & Western added $23,639,000 to the list. Total for 1922 period was $454,513,300 and for 1921 $118,314,000.

"Bond total also includes $160,000,000 New York City issues, $105,298,000 public utility listings, of which Bell Telephone of Pennsylvania B 5s, in amount of $35,000,000, are the chief item, and $311,731,000 industrial issues. Main items among industrial bonds are: Anaconda Copper Mining, $157,731,000; Sinclair Consolidated Oil, $45,000,000, and $15,000,000 each of Atlantic Refining and Hershey Chocolate.

"Stock listings exceeded the 1922 and 1921 periods, but fell below 1920. They include $140,740,000 railroad stock, enhanced by Missouri, Kansas & Texas reorganization, and $107,322,770 public utility shares. Miscellaneous and industrial stock listed $626,279,510, against $459,574,550 in 1922 period, $430,332,700 in 1921, and $1,107,825,515 in 1917 period, when all records were broken. Bethlehem Steel $97,681,400, Goodyear Tire and Rubber $80,532,000, and $65,000,000 Jones & Laughlin Steel, were the main features."

COPPER SURPLUS DROPS.

Sales in June Ranged Between 195,000,000 and 200,000,000 Pounds.

Copper sales in June ranged between 195,000,000 and 200,000,000 pounds, according to estimates made in the trade yesterday. This compares with sales of 190,000,000 in May and 195,000,000 in April. For the first six months of the year refinery shipments approximated 1,175,000,000 pounds, while output was estimated at 1,053,000,000 pounds, thus causing a reduction of 122,000,000 pounds in surplus stocks between Jan. 1 and June1, 1923. In June, it is estimated, there was a reducton of 5,000,000 pounds in surplus stocks, reducing such supplies to 210,000,000 pounds, or slightly more than one month's supply at the June rate of demand. During June foreign deliveries were larger than domestic deliveries, according to trade information.

GERMAN INSURANCE ASSETS

Holdings of Twelve Companies in This Country Are $11,530,000.

Information received by the Foreign Department of Moody's Investors Service shows assets of German insurance companies operating in the United States prior to the war aggregating at present approximately $11,530,000. Of the twelve companies the Munich Re-Insurance Company has assets of $3,750,000, the North German Fire Insurance Company, of Hamburg, $1,850,000, and the "Mercur" Insurance Company, of Mannheim, $1,350,000.

At the prevailing rates of exchange the aggregate assets of the twelve companies amounts to more than 2,000,000,000 marks.

MARKET AVERAGES.

Trading was discontinued yesterday in the American Locomotive old shares, making necessary a revision in the list of stocks from which THE NEW YORK TIMES Market Averages are computed. In addition to American Locomotive the following stocks were eliminated from the list: Bethlehem Steel, Otis Elevator and Western Union Telegraph. These were replaced by Burns Brothers Class A, Crucible Steel, du Pont de Nemours and Schulte Retail Stores, the revision having been made on the basis of Monday's closing prices.

New Issue

$1,000,000

Fremont Joint Stock Land Bank

(Operating in Iowa and Nebraska)

5% Farm Loan Bonds

Dated June 1, 1923 — Optional June 1, 1933 — Due June 1, 1953

Interest payable June 1 and December 1

Exempt from Federal, State, Municipal and Local Taxation

This Bank is restricted by its charter to loans on farms only in Iowa and Nebraska, the heart of the corn belt, famous for its crops of corn, wheat and oats. The officers of the Bank are all substantial business men with a wide experience in the Farm Loan business, covering a period of many years. The policy of the Bank in placing mortgages has been conservative as the loans average but 40% of the appraised value of the land.

Price 103 and interest

To yield about 4.62% to the redeemable date (1933) and 5% thereafter to redemption or maturity

A Book to Sell You Something

And to Tell You Something

WE HAVE prepared an interesting book for you about 5½% PRUDENCE-BONDS. Like many other such books, it discusses bonds backed by first mortgages; but in just one respect it is unique among books of its kind, for it contains an account of that extraordinary provision of safety known as THE PRUDENCE GUARANTEE, pledging our entire resources as additional security for payment of interest and principal. May we send you a copy?

Kindly Mail Coupon Now and We Will Do the Rest

NEW BONDS OFFERED TOTAL $4,636,000

Michigan Seeks $2,000,000 for Highways and Minnesota Wants $1,000,000.

DENVER ISSUE IS COMING

Report of Rio de Janeiro's Request for Moratorium on Interest Believed Incorrect.

Trading in bonds yesterday was again relatively quiet, although prices were steady to firm. Strength of the Liberty bond issues was a feature. No new offerings of great size were reported in prospect, although it was stated that R. M. Grant & Co. would offer within a week approximately $6,000,000 City of Denver bonds.

Offerings of new issues announced for today totaled $4,636,000. The largest of these is an issue of $2,000,000 State of Michigan 4½ per cent. highway bonds priced at 102.66, to yield 4.30 per cent. These bonds are due in 1943, and offering is being made by Keane, Higbie & Co., Inc., the Detroit Trust Company, First National Company of Detroit and Nichol, Ford & Co.

An issue of $1,200,000 first mortgage twenty-year sinking fund gold bonds will be offered shortly by Hoagland, Allum & Co. and A. B. Leach & Co. for the account of the 53 Park Place Corporation, New York. These will be secured by a first mortgage on the land and building owned in fee and known as the Dodge Building, in West Broadway, between Park Place and Murray Street.

A $1,000,000 issue of Minnesota 4½ per cent. bonds due in 1943 is being offered by the Guaranty Company of New York, Eldredge & Co., Ames, Emerich & Co., Hannahs, Ballin & Lee and Barr Bros. & Co. They are offered at 102.66, to yield 4.30 per cent., and are issued for rural credit purposes.

Brooks, Stokes & Co. of Philadelphia and Harris, Forbes & Co. are offering a new issue of $1,000,000 Frement Joint Stock Land Bank (Iowa and Nebraska) 5 per cent. farm loan bonds, due in 1953 and optional in 1933. They are priced at 102, to yield 4.62 per cent. to the optional date and 5 per cent. thereafter.

Offering of $300,000 City of Newburgh, N. Y., registered, 4 and 4½ per cent. water improvement bonds, due from 1924 to 1963, is being made at prices to yield from 4 to 4.10 per cent. by Barr Bros. & Co.

M. M. Freeman & Co. of Philadelphia are offering, through Ludwig & Baudike, $136,000 Atlantic County, New Jersey, road improvement bonds on a 4.30 per cent. basis.

A dispatch from Rio de Janeiro yesterday suggested that the city would ask for a moratorium in the matter of interest payments on City of Rio de Janeiro bonds sold here, but inquiry at the offices of the Brazilian Consul to New York and at the offices of Blair & Co., Inc., the firm that handled the issue, indicated that no such information had been forwarded officially to New York. At the offices of the Consul it was stated that the Federal Government of Brazil had guaranteed the bonds as to payment of interest and that the report was apparently incorrect. A similar statement was made at the offices of Blair & Co., Inc.

Another report yesterday, and on which it was reported speculators were selling stock of the American Telephone and Telegraph Company, was to the effect that the telephone company was about to issue additional stock. At the executive offices of the company it was stated there was absolutely no foundation for the report. The company has announced no less than four times in the last six months, it was said, that no stock issue was contemplated during any part of 1923 and that the company had no intention whatever of changing that program.

FOREIGN STOCK MARKETS.

London Stock Exchange Prices Steady—Irregularity at Paris.

LONDON, July 10.—Prices were steady on the Stock Exchange today. Did 2½ per cent. consols, ¼ higher, at 57; British 5 per cent. war loan, ¼ higher, at 99¾; 4½ per cent. war loan, ¼ lower, at 97.

Rand Mines unchanged at 2⅝; De Beers Mining, ⅛ higher, at 13½.

PARIS, July 10.—Prices moved irregularly on the Bourse today. Three per cent rentes, unchanged at 56 francs. 10 centimes; 5 per cent. war loan, 30 centimes higher, at 75 francs.

Exchange on London, 1 franc 40 centimes lower, at 77 francs 55 centimes per sovereign; American dollars were quoted at 17 francs 3 centimes, against 17 francs 38 centimes yesterday.

CUT IN CRUDE OIL PRICES.

Pennsylvania Product Down 25 Cents—Other Grades Reduced.

Pennsylvania crude oil was reduced another 25 cents a barrel yesterday, while other grades of Eastern crude oil were cut from 15 to 20 cents a barrel. The reductions were more or less expected in the financial district because of the record-breaking supply, due to the overproduction in the California fields.

In former years California crude oil did not compete with oil produced east of the Rocky Mountains, but since the Standard Oil companies have been shipping large quantities eastward, via the Panama Canal, California crude has affected the markets of other sections of the country. In view of the reduction in Pennsylvania, Wall Street expects another cut in the mid-continent fields.

Under the new schedule of prices Bradford district Pennsylvania crude is quoted at $3 a barrel, while crude produced outside the Bradford district is quoted at $2.75 a barrel. Cabell is quoted at $1.80, Somerset medium $1.40, Somerset light $1.55, Ragland 75 cents.

FOREIGN EXCHANGE.

General Improvement in Rates—Sentiment Cleared by Proposed Action of British Premier.

There was a better demand and firmer tone for the European exchanges yesterday, sentiment in foreign exchange circles having been cleared somewhat by the announcement that the British Premier would negotiate directly with Germany for a workable reparations program. Moderate gains were found in all rates in the initial trading, sterling starting ⅝ cent higher at $4.57, from which point it later moved up to $4.57⅝ at the close, an improvement of 1¼ cents over Monday's final.

French francs rose as high as 5.96 cents, from a previous 5.89, while lire touched 4.33 cents from 4.28. Spanish, Belgian, Swiss and German were in demand and finished higher, with Scandinavians firm all day. Guilders were weak and 10 points lower at 39.04c. Polish marks declined to a record low at 6¾ ten-thousandths, other mid-Europeans ruling irregular.

Far Easterns and South Americans generally were easier, while the Canadian recovered part of the loss sustained on Monday.

In the subjoined table the quotation on sterling represents dollars and decimals of a dollar; all others represent cents and decimals of a cent. Quotations preceded by the decimal mark indicate a price measured in fractions of a cent.

TUESDAY, JULY 10, 1923.

Strike Suspends London Wool Sale.

LONDON, July 10.—Owing to labor difficulties in the wool warehouses in consequence of the dock strike the London wool auction sales have been suspended. They will be resumed July 17, it was announced, if circumstances permit.

Morgan Partner on Vacation.

Thomas Cochran, a partner in the firm of J. P. Morgan & Co., yesterday closed his desk for a two-months' vacation. He said he would spend most of it on his ranch in Idaho.

ROADS TO ADVERTISE IN FIGHT ON BLOCS

Plan Appeal to Public Through Paid Notices in Struggle With Radicals in Congress.

"LET US ALONE" THEIR PLEA

Railroads, Now Studying Procedure, Are Believed to Favor Nation-Wide Campaign.

Advertising may be used by railroads throughout the United States to appeal to the public in the battle they anticipate with the so-called radical group of the next Congress, if either of two plans now under consideration is carried through, it was learned yesterday. The first contemplates use of advertising space to present the case of the railroads, each road caring for its particular territory. The other plan, which will probably be submitted to the railway managers shortly, calls for a consolidated campaign throughout the country.

In either case the argument of the railroads will be the same, it was said. They will call attention to the fact that they have kept faith with the public by spending more than $1,500,000,000 in new equipment and improvements, reflected in better service. This effort, the railroads will argue, can be kept up only if supported by the public to the extent of letting the railroads alone.

Railroad men in general believe the service is such as to warrant continuation of the Transportation act of 1920. In their opinion, the case of the railroads is so strong that they believe public sentiment will be in their favor provided their case is properly presented.

The radical group in the next Congress, they point out, will have 400 bills to consider, all more or less detrimental to the successful operation of the roads, according to railroad men. As this group depends largely on its ability to curry favor with the public, railroad men believe the strongest attack can be made by presenting the facts to the public.

Already some roads have adopted the plan of individual education of the public along their routes. The Louisville & Nashville Railroad, is advertising along its route, emphasizing facts concerning the successful operation of railroads. The text of one of the advertisements follows:

"All that the railroads ask of the Government is a 'square deal' under the laws of the land and to be let alone. All they ask of the public is that they be fairly compensated for the service they render, and that public opinion of the railroads be formed and acted upon only with full knowledge of the facts in the case."

The advertisements stress the fact that one in every fifteen families gets its principal support from the railroads.

The plans for the advertising campaign, whether conducted by the individual roads or as a group, railroad men pointed out, will be but part of a plan to educate the public on the needs of the roads. Other efforts are being made through stockholders and employes.

Big Gain in American Thread Profits

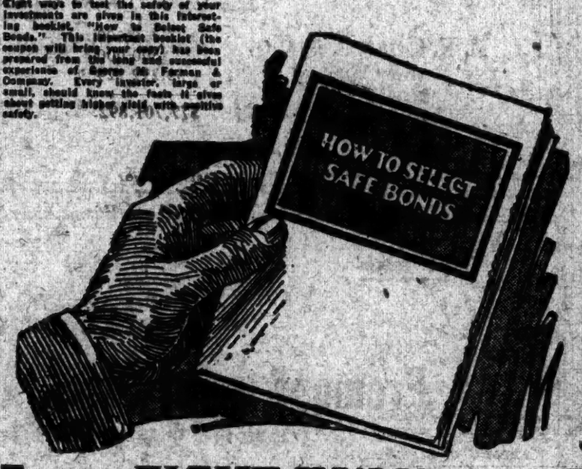
The American Thread Company for the year ended March 31, 1923, reports net profits of $2,113,302 after interest, depreciation, Federal taxes and inventory adjustment. This compares with profits of $11,520 in the previous fiscal year. After payment of common and preferred dividends, and the setting aside of $80,000 in the pension fund, there was reported a surplus of $402,776 against a deficit after the same deductions of $1,886,003 in 1922. After payment of preferred dividends, the balance available for the 1,300,000 shares of common stock of $10 a share par value was equal to $1.59 a share.

Lead Falls to 6 Cents a Pound.

The American Smelting and Refining Company yesterday again announced two reductions in the price of lead, one of fifteen points and one of ten points, bringing the new quotation down to 6 cents a pound. This compares with a high price for 1923 of 8¾ cents a pound, established in March.

Will Be Sent Without Cost

Eight ways to test the safety of your investments are given in this interesting booklet, "How to Select Safe Bonds." This important booklet (the coupon will bring your copy) has been prepared from the long and successful experience of George M. Forman & Company. Every investor, large or small, should know the facts it gives about getting higher yield with positive safety.



EIGHT WAYS
to Test the Safety of Every Investment

1 ***Is Your Investment Protected by Property of Permanent Value?***
"How to Select Safe Bonds" tells why investments should be protected by property having a permanent value well in excess of the amount of the entire loan.

2 ***Does Your Claim Command Payment Before Other Obligations?***
"How to Select Safe Bonds" tells what securities come before all others in obligations to pay promptly and fully.

3 ***Has the Property Sufficient Earning Power?***
"How to Select Safe Bonds" tells why a safe property must have an annual earning power of at least two and a half times the total annual interest on the loan.

4 ***Is the Property Adequately Protected by Insurance?***
An important consideration, as fire often wipes out overnight a valuable property.

5 ***Is It Properly Managed?***
"How to Select Safe Bonds" tells why proper management is essential to insure prompt payment of interest and principal upon maturity.

6 ***Is the Title Clear?***
"How to Select Safe Bonds" tells a sure way of insuring against loss through faulty title.

7 ***What Is the Moral Character of the Borrower?***
As important as proper management—explained in this interesting booklet.

8 ***Who Offers the Securities You Buy?***
"How to Select Safe Bonds" tells why even the experienced investor must depend for safety entirely upon the reputation and length of service of the Banking Houses offering the investment. It tells of the conservative policy of painstaking investigation and selection which has made it possible for George M. Forman & Company to sell bonds for 38 years without loss to a customer, large or small.

The "Shopping District" in 1798

THE Bank of New York stood at the heart of the city's dry goods district when its office was removed from Hanover Square to Wall and William Street in 1798. Being the only private bank in the State, leading merchants sought its aid, and the financing of mercantile transactions, domestic and overseas, quickly became the keystone of its business.

The experience of 139 years of successful commercial banking was united last September with 93 years of conservative trust business when the Bank of New York was consolidated with the New York Life Insurance & Trust Co. Through this balanced merger we offer exceptional facilities for all kinds of banking.

6-POINT STEEL BOND PROFIT IS POSSIBLE

Youngstown Company's Merger Troubles May Result in Quick Return to Investors.

HINGES ON COURT RULING

Ban on Distribution of Steel and Tube Assets Would Mean Recall of $40,000,000 Issue.

Buyers of the $40,000,000 of 6 per cent. bonds issued recently by the Youngstown Sheet and Tube Company may make a 6-point profit quickly, according to information obtained yesterday. This possibility hinges entirely upon the success of the Allied Chemical and Dye Company, which has brought legal action to stop the Steel and Tube Company of America from dividing its assets among stockholders. Should this appeal receive the court's approval the Youngstown company would find it advantageous, according to terms of the bond offering, to call the bonds recently sold at 99 to the public, and the price offered in this call would be 105, or 6 points above the public purchase price.

Owing to the suit of the Allied Chemical and Dye Company, an unusual situation has developed in respect to the bonds, which were floated through a syndicate last week. Under no condition, it was stated yesterday by persons who followed the legal developments which took place during the merger of the two steel companies and throughout the arrangement of the new bond issue, would any loss of money be entailed by bankers or by the public. The only loss which could result, it was stated, would be suffered by the Youngstown Sheet and Tube Company, and before entering its contract the Youngstown company consulted with counsel, so that officials of that company are satisfied there can be no hitch in the present plans.

When the Youngstown company recently completed plans for the purchase of the Steel and Tube Company of America, thus making the Youngstown company the third largest steel manufacturer in the United States, it agreed to pay $35,000,000 for the property. Majority stockholders approved, but the Allied Chemical and Dye Company, holding a minority interest of 18 per cent. of the Steel and Tube Company's stock, contended the price was too low and brought suit in Delaware to enjoin the sale.

This injunction was vacated, and the $33,000,000 was paid to the Steel and Tube Company, which in turn gave title to the Youngstown company. Thereafter the dye company brought suit aimed to prevent the Steel and Tube Company from distributing the cash received and other assets among stockholders. This suit is now pending. Should it be decided in favor of the dye company the Steel and Tube Company would return the $33,000,000 payment to the Youngstown company, which with that amount of money, plus $7,000,000 extra raised through the sale of additional bonds, would find it expedient to retire the issue rather than to let that amount of money lie idle and pay out 6 per cent. interest on it.

In connection with the $40,000,000 Youngstown issue, it was reported in the financial district yesterday that only a small part of the total amount had actually been sold to the public and that the Bankers Trust Company had failed to syndicate the bonds. This was emphatically denied at the offices of the Bankers Trust Company.

Delivery of the bonds subscribed for will be made on Monday, it was announced, and on the same day the bonds will be listed on the New York Stock Exchange. The bonds mature in 1943.

SUGAR PRICE CUT MET.

Quarter-Cent Reduction Here Answers Refining Company's Move.

Leading local sugar refiners yesterday reduced the price of their products ¼ cent a pound, thus meeting the cuts made by the Federal Sugar Refining Company on Monday, when it reduced its price ½ cent to 8½ cents a pound.

Other refiners who cut their prices ¼ cent to 9 cents on Monday made a further reduction yesterday. The American Sugar Refining Company, Federal Sugar, Arbuckle Brothers, National Sugar, E. Atkins & Co., Warner Sugar, and the Revere Sugar Refining Company of Boston are all quoting 8¾ cents a pound.

San Francisco refiners yesterday cut their prices 45 points to 9 cents.

U. S. STEEL BUSINESS DROPS 595,090 TONS

Reduction in Unfilled Orders on Books Is Much Greater Than Was Expected.

TOTAL IS 6,386,261 TONS

Increased Demand by Railroads Failed to Offset Slack in Other Products.

A reduction of 595,090 tons in the amount of forward business carried on its books as of the close of business June 30, 1923, was reported yesterday by the United States Steel Corporation. The reduction was much larger than had generally been expected in the financial district because of the favorable statements made early in June to the effect that increased buying on the part of the railroads would offset curtailed demand in other products. The increased rail orders, however, were not sufficient to offset the slack in other products.

The reduction reported yesterday makes the total orders carried on the books 6,386,261 tons. This is the smallest total reported since the close of August last year, when forward business aggregated 5,950,105 tons. It represents a drop of more than a million tons from the peak total of 7,288,509 tons for 1923, reported at the close of March, and compares with 6,961,351 tons at the close of May this year and with 5,635,531 tons at the close of June last year.

At the rate of production reported for June it is estimated that the mills of the corporation attained on an average of 46,000 to 48,000 tons of finished steel daily, or a total of between 1,500,000 and 1,250,000 tons for the entire month. Taking this figure and the amount of the reduction in forward orders given above, it is calculated that new business was on an average of between 25,000 and 27,000 tons daily, or between 600,000 and 650,000 tons for the month. Shipments aggregated 1,350,000 tons, and new bookings more than one million tons. It is believed that the corporation has sufficient business on its books to keep its plants operating at 90 per cent. of capacity for the balance of the year. A renewal of buying on the part of consumers is expected soon, according to opinion expressed in steel trade circles yesterday.

The following table shows the unfilled tonnage on the books of the corporation at the close of each month for the past three years:

	1923.	1922.	1921.
June	6,386,261	5,635,531	5,117,803
May	6,961,351	5,254,228	5,429,47[illegible]
April	7,288,509	5,066,017	5,845,224
March	7,408,332	4,984,148	6,254,755
February	7,282,989	4,141,069	6,038,267
January	6,910,778	4,543,678	7,075,764
	1922.	1920.	
December	5,746,703	4,241,414	8,148,122
November	6,340,243	4,360,643	9,021,471
October	6,909,267	4,326,622	5,836,852
September	6,921,807	4,580,070	10,276,604
August	5,950,105	4,580,070	10,807,028
July	6,176,181	4,830,324	11,113,468

The corporation's high record of unfilled tonnage was 12,183,683 at the end of April, 1917, just after the United States entered the World War.

Steel ingot production in the United States last month, based upon returns from thirty companies producing 95.35 per cent. of the entire output, was 3,674,567 tons, against 4,000,695 tons in the previous month. Based upon the above figures, the total for the country would approximate 3,745,800 tons, a drop of 10.8 per cent. from May, when the estimate was 4,195,800 tons. The daily average output for the twenty-six working days in June was 144,138 tons, against 155,400 tons for the twenty-seven working days in May.

NASH MOTORS DIVIDENDS.

Quarterly Payments of $8.50 on Common and $1.75 on Preferred.

Special to The New York Times.

KENOSHA, Wis., July 10.—A dividend of $3.50 per share on the comon stock of the Nash Motors Company was declared here this afternoon at the quarterly meeting. This dividend is payable Aug. 1 to stockholders of record July 20. The regular quarterly dividend of $1.75 per share on the preferred A stock was also allowed.

Vice President and Controller W. H. Ford reported a net income for the second quarter of the fiscal year after declaring expenses of manufacturing, depreciation, selling, administration, local and federal taxes of $2,568,405.57 as against $1,573,241.78 for the previous quarter.

Phone Earnings Show Gain.

Seventy telephone companies in the United States reporting to the Interstate Commerce Commission show gross earnings of $53,602,816 for April against $47,897,197 in the same month last year. Operating income was $12,173,142 against $10,465,691. For the four months ended with April gross operating revenue totaled $210,732,643 against $186,682,006 last year and net operating income $48,235,809 against $40,490,185 in the same period in 1922.

Road Asks Reconstruction Permit.

Application has been made by the Chicago, Indianapolis & St. Louis Railway, to the Interstate Commerce Commission for permission to reconstruct 2¼ miles of railroad between Riverdale and Bedford, Ind. The Baltimore & Ohio Southwestern Railroad recently abandoned the road. The cost of reconstruction is placed at $200,000.

FINANCIAL NOTES.

Joseph C. Andersen, formerly of the firm of Nicholas Ayres & Co., has joined the sales organization of Royal Securities.

George B. Gibbons & Co., Inc., has issued a circular concerning forty issues of municipals which they are offering.

Banque Belge Pour L'Etranger has removed its office to the sixth floor of 67 Wall Street.

Joseph B. Johnston, formerly an independent dealer in municipal bonds, has joined Hayden, Stone & Co., to be in charge of their municipal department.

Ward & Co. announce that Arthur A. Bolkan, formerly of Lawrence Chamberlain, has become associated with them in their sales department.

The Bankers' Trust Company has been appointed transfer agent for the capital stock of American Motor Body Corporation.

Ware & Co. have prepared a folder on Baltimore & Ohio Railroad Company, discussing earnings and prospects of dividends on the common stock.

Minton & Wolff are issuing a selected list of partially described guaranteed railroad stocks.

BROKER EXPELLED FROM CONSOLIDATED

Harvey A. Willis Accused of 'Obvious Fraud and False Pretense' by Exchange.

Expulsion of Harvey A. Willis, head of the brokerage firm of Harvey A. Willis & Co., was announced from the rostrum of the Consolidated Exchange of New York, shortly after the opening of business yesterday. Mr. Willis has been a member of the Exchange since Dec. 12, 1917. The following statement was issued by the Exchange:

"Committee on Ways and Means hereby charges Harvey A. Willis with obvious fraud and false pretense of having violated Section 5, Article 3 of the By-Laws, general rules, in that on many occasions, as shown by the evidence, under cover of two opposite transactions, he has nullified the effect of a client's order by taking the transactions to his own account.

"The firm issued the following statement following the action of the Exchange authorities:

"Harvey A. Willis & Co. is 100 per cent. solvent. We met the run a year ago and again a month ago. Our balance sheet of June 1 shows us to be absolutely solvent and shows a satisfactory surplus, all in addition to outside personal resources of Harvey A. Willis. We thank our old clients for their many courtesies of the past and bespeak their indulgence in this crisis."

LAWYERS MORTGAGE CO.

Earnings for First Half of Year Are Reported at $1,207,296.

The semi-annual report of the Lawyers Mortgage Company shows gross earnings for the first half of the year amounting to $1,207,296, compared with $1,013,441 for the corresponding period of 1922. Expenses were $496,745 against $460,797, and net profits $711,551 against $552,644.

The company's assets as of July 1, 1923, were $12,026,249.54, consisting of New York City mortgages $7,764,725.75, secured bonds and mortgages $194,206.72, company's office buildings $1,645,424.72, United States Treasury certificates $797,046.58, and cash $1,731,947.47. The company's surplus is shown as $2,000,000 and undivided profits as $735,787.80. Sales of guaranteed mortgages including extensions during the past six months amounted to $35,156,180. The company now has total outstanding mortgages of $168,446,721, which are held by 27 savings banks, 1,079 trustees, 256 charitable institutions, 22 insurance companies, 20 trust companies, and 6,962 individuals.

The semi-annual statement of the Railroad Co-operative Building and Loan Association of New York shows total assets of $8,406,810.33 as of June 30, compared with $5,827,535.51 on June 30, 1922. The Association on June 30 held first mortgages amounting to $7,826,304.29 compared with $5,190,058.46 on June 30, 1922.

McCRORY SALES INCREASE.

Gross for June $1,710,622, Against $1,213,755 a Year Ago.

The McCrory Stores Corporation reports gross sales of $1,710,622 for June, against $1,213,755 in the same month last year. For the six months ended June 30, 1923, the company reports gross sales of $9,072,585 against $7,038,596 in the first half of 1922.

The National Departments Stores, Inc., for June reports gross sales of $3,087,905, against $3,244,744 in the same month in 1922. Six months' sales of the company aggregated $15,653,721, against $13,040,234 in the first six months of 1922.

Associated Gas Earnings Up.

The Associated Gas & Electric Company reports for May gross earnings of $236,625 an increase of $80,250 compared with May, 1922. Net earnings were $77,295, an increase of $24,265 and net income of $19,819, an increase of $4,434. Gross earnings for twelve months ended May 31, were $2,736,152, against $1,950,481 in the same period of 1922 and net income was $217,104 against $246,204.

MINING STO

NEW HAVEN SYSTEM FOR RAIL COMBINE

Favors Many Proposals of Joint Committee for Consolidation of New England Roads.

DIRECTORS STUDY THE PLAN

Report Recommending Merger and Road's Suggestions Will Be Prepared.

The Directors and officials of the New York, New Haven and Hartford Railroad Company will prepare a report recommending the consolidation of the railroads of New England into one system, it was decided at a meeting in the Grand Central Terminal yesterday. This report will incorporate in it many of the recommendations in the Joint New England Railroad Committee report to the Governors of the New England States, it was learned.

When the board adjourned, Vice President and General Counsel E. G. Buckland made the following statement:

"The board is in hearty sympathy with the purpose of the Joint New England Committee to secure a New England system of railroads, and with the committee's proposed policy of 'rehabilitation by co-operation,' but has not yet had time to consider how far the various means proposed by the committee for reaching that end are feasible or desirable. The board is giving special attention to the report preparatory to making a statement at a later date."

Mr. Buckland said that the statement probably would not be made for some time, because a careful analysis would have to be made of the Joint New England Railroad Committee's report. He said there were many points worthy of consideration in the report and many that could be taken over by any plan that was finally worked out for the co-ordination of the lines of New England into one system.

Just what details would be evolved, Mr. Buckland said, could not be known until the Directors and officials had examined the report.

The attitude of the Board of Directors of the New Haven, it was pointed out by railroad men yesterday, is that of many of the business men and other residents of New England, who believe that by consolidating all the roads of New England into a single system it would be possible for such a group to enjoy the advantages of the competition of connecting lines, which they would lose if the New England roads were apportioned among the large systems of the country.

SWEDEN'S MARINE SHOW.

Contains More Than 400 Models of Different Types of Ships.

Shipping men who attend the International Navigation Congress in Gothenburg, Sweden, which is to be held the first week in August, will find at the Tercentennial Jubilee Exposition one of the most complete marine exhibitions ever shown. It occupies ten large rooms on the fair grounds, contains more than 400 ship models of every imaginable type and illustrates every phase of the development of seafaring out of Northern ports.

The Jubilee Exposition, which opened in May and will continue throughout the Summer, has an average daily attendance of 50,000 visitors, and it is reported that few neglect to visit the marine exhibition. The American visitors probably the most interesting object is the model ship Calmar Nyckel (Kalmar Key), because it was this historic vessel which, in 1637-38, brought the first Swedish expedition to America and was instrumental in the founding of the colony of New Sweden, which, in time, developed into the State of Delaware. The Calmar Nyckel was a three-masted, square rigger, with a lateen sail on the mizzen. Her length was 110 feet, her beam 27 feet, and there was a clearance of 6½ feet between the decks. She sailed in the trade between Sweden and America for eleven years.

In passing through the exhibition in the order intended, the first room shows models of Viking vessels and many interesting merchantman and warships of the Middle Ages. The ships which carried goods to and from Visby, the historic Hanseatic town of Sweden, are especially notable. An evidence of the care with which the Swedish models have been constructed may be seen in the Amaranth, a Swedish ship of war, carrying sixty-eight guns. This model cost more than $10,000. The first room, which covers the period down to 1720, also contains the Calmar Nyckel, mentioned above.

The second room, devoted to the period of 1720 to 1816, contains a complete display of material to illustrate the history of the Swedish East India Company, whose brilliant successes brought about the first great commercial expansion of the City of Gothenburg. Here the fighting fleet is represented by a famous ship of the line, the Swedish frigate Vasa, built by Chapman, the celebrated Swedish Admiral and marine architect. Here is also a model of the redoubtable 180-gunship of King Gustaf III., on which he took part in the war with Russia during the latter part of the eighteenth century.

The third room exhibits the development of sailing craft in Sweden after 1816, and is especially interesting in its representation of the alteration in lines and rigs which sailing vessels were forced to adopt in competition with steamers.

Development of steam navigation during one hundred years in Sweden is vividly shown in the fourth room. A perfect model of the steamship Stockholm of the Swedish-American Line is among the exhibits of the modern passenger-carrying trade.

The other six rooms contain exhibits of shipbuilding and other activities connected with seafaring and ocean trade. Thus the well-known Gothenburg shipyards, Gotaverken, Lindholmen and Eriksberg, the first especially noted for the large steaming motor ships which it has recently turned out, have contributed valuable educational material. One room shows the development of Swedish canal traffic, with special reference to the picturesque Gota Canal, now busier than ever, after a hundred years of service. Modern fishing vessels and their equipment, contrasted with the types used in ancient days, are arranged in a unique exhibit calculated to arouse more respect than ever for the men who provide our sea foods. Incidentally, there is an aquarium and a sea-food restaurant adjoining the fisheries exhibit.

EMPLOYS U. S. METHODS.

Belgium Puts Nation-Wide Health Program Into Effect.

Country-wide health education programs originated in the United States are being applied nationally in Belgium, according to Miss Sally Lucas Jean, Director of the Health Education Division of the American Child Health Association. Miss Jean took the health education message to Belgium last year under the sponsorship of the Commission for Relief in Belgium, and bases her statement on reports brought to her by three Belgian educators who were recently in New York en route to the International Health Conference in Oakland, Cal.

"These delegates from Belgium told me things which proved in my own mind that they had taken an American-made health program and put it into effect over there nationally," said Miss Jean, "even while we in this country were just beginning to think seriously of health education in a national way. Every phase of child health is being watched carefully in Belgium. That country is an example in national action in that respect."

The visitors are Mlle. Madeleine Kaiser, Director of a colony for debilitated children and representative of L'Oeuvre Nationale 'Enfance; M. L. De Paeuw, who holds a high place in the Belgian Ministry of Science and Arts as the Director General of Normal Training in Belgium, and M. Edmond Dronsart, Director General of the Belgian Red Cross. While in this country they are the guests of the Commission for Relief in Belgium Educational Foundation, and have visited several American cities to study at first hand their public health activities.

14 BANKS' DEPOSITS ARE $4,073,487,205

National City Heads List With $662,201,325, and Also Leads in Loans.

GUARANTY TRUST SECOND

Recent Mergers Bring Assets of Two Institutions Near the Top.

Total deposits of $4,073,487,205 are reported by fourteen leading New York City banks as of June 30, the date of the last call for condition by the Controller of the Currency. Total loans of these banks amounted to $2,783,690,037.

The National City Bank heads the list in total deposits and loans with $662,201,325 in deposits and $468,866,435 in loans. The Guaranty Trust comes second with deposits of $479,811,505 and loans of $326,048,745. The Chase National ranks third in deposits and the Bank of Commerce third in loans.

The following table compiled by Dow, Jones & Co. shows total deposits and loans as of June 30:

Institution.	Deposits	Loans.
National City	$662,201,325	$468,866,435
Guaranty Trust ..	479,811,505	326,048,745
Chase National ..	396,356,671	248,128,121
Bank of Commerce	345,653,767	304,535,763
Irving-Col. Trust.	319,898,961	221,987,860
Equitable Trust ..	301,194,606	186,342,933
Bankers Trust	268,567,700	204,320,419
First National ..	230,901,448	79,796,248
Central-Un. Trust.	226,317,320	155,795,878
Corn Exchange ...	191,980,065	164,297,470
National Park	155,038,856	131,905,581
Manhattan Co.	102,569,000	85,050,000
Hanover National.	140,752,426	60,630,121
Farmers Loan	122,165,479	78,074,367
Total	$4,073,487,205	$2,732,690,037

The compilation shows that the Irving Bank-Columbia Trust Company and the Equitable Trust Company have moved up near the top of the list of banks with large deposits. This is accredited to the recent mergers. The Irving National and the Columbia Trust merged and the Equitable Trust took over the Importers & Traders National Bank. Both banks now have deposits in excess of $300,000,000 each.

COMMODITY PRICES.

Wheat Lower, Corn Higher, in Cash Markets—Lead and Sugar Decline.

Cash values underwent interesting and opposite movements in yesterday's dealings, in the grains, for instance, wheat dropping 2¾ cents to $1.25, a new low point for the year, while corn improved 1 cent to $1.05¼, a new high, with oats at ¼ cent decline to 52¾ cents. Sugar, lard, tin and lead sagged, the latter going to a new low at 6 cents. Spot cotton and high score butter were slightly higher. Other provisions and metals firm.

Following are the cash prices for the principal commodities in the wholesale market at the close of business Tuesday, a week before, and a year ago:

	July 10, 1923.	July 3, 1923.	July 11, 1922.

Benefit to Aid Hospital.

The first of several benefit performances in aid of the building fund of the New York Theatrical Hospital Association will take place next Monday afternoon at the Lyric Theatre, where the film "Human Wreckage," will be shown. On July 21 there will be a vaudeville program at the Bayside Yacht Club, and on July 31 at water carnival will be given at Madison Square Garden. Tickets for the water carnival are on sale at Room 506, Times Building, and at the Bryant Music Store, 961 Eighth Avenue.

COTTON RECOVERS ON ADVERSE NEWS

Report of Fall in Crop Condition Contrary to Impressions as Prices Turn Upward.

Volume of business in cotton has become extremely limited and prices moved within the narrowest range of the season. A report that one of the bureaus of the Agricultural Department stated crop conditions have fallen the past two weeks was so much at variance with prevailing impressions that prices recovered yesterday. After starting lower, a slow upturn developed which left the list 10 to 26 points higher on the day. The local stock of certificated cotton has lost 10,000 bales lately, bringing the total down to 66,000. A decline in wheat to about $1 a bushel influenced trading. Texas still needs rain.

Liverpool became a sustaining factor in early trading and prevented any decline of importance from Southern selling in distant positions. The sale of July on the call brought an opening decline of 14 points, and this in turn was followed by several lines of December and January. One block of January was sold as low as 22.90. For half an hour after the opening scattered liquidation held October between 23.45 and 23.50, with enough cotton for sale at the even figure to discourage room support. But as the morning progressed, the quantity of contracts offered diminished, and when Liverpool not only held the early rise but gained about 30 American points after the local opening, prices here started upward. A quick gain of 25 points failed to attract pressing and after becoming dull for two hours, a second bulge occurred during the afternoon. Strength of July and absence of rain in Texas prevented opposition to the recovery. Several stop-loss orders reached at 23.60 and 23.70 assisted the advance. Outside interest continued lightest of the season.

Weather was favorable, though Texas temperatures were somewhat higher at various stations, and few showers in that region were reported. Seven points had temperatures over 100, with three over 100 in Oklahoma. Scattered showers occurred in the Mississippi Valley region, but generally weather remained clear. Temperatures at 8 o'clock were in the 70's. The question of sufficient moisture in the Southwest to prevent deterioration is now the most important factor in the market. Largely increased use of fertilisers this year appears to have strengthened the plant in the Eastern belt so that the extent of weevil damage remains to be determined as bolls mature later on. Many both excellent and unsatisfactory advices emanate from the South, leaving the problem of production as uncertain as heretofore. It will be some weeks before crop ideas crystallise, and in the meantime price movements continue limited. Actual outside interest is so light that the market fails to get far in either direction. Both domestic and foreign surroundings are not such as to encourage speculation for advancing values while the size of the crop remains so uncertain.

The covering movement carried October above 23.90, or 45 points from low figures of the morning. Irregularity in the afternoon stock market caused reselling the last hour and a 20 point setback in prices resulted. Closing buying orders left final quotations 20 points higher on the day.

Yesterday's quotations follow:

	Open.	High.	Low.	Close.	Prev. Day.
July	23.30	27.01	23.66	23.97	23.30
Oct.	23.45	23.90	23.44	23.77-23.79	23.30
Dec.	23.00	23.40	22.93	23.27-23.30	23.03
Jan.	22.90	23.05	22.60	22.95	22.72
March	22.56	23.03	22.55	22.91	22.65
May		22.92	22.69	22.90	22.56

The local market for spot cotton was quiet, 10 points advance, 27.65c for middling; 23 points advance in spot markets were: New Orleans, 27.63c, unchanged; Savannah, 27.00c, unchanged; Augusta, 27.63c, unchanged; Memphis, 27.50c, unchanged; Houston, 27.50c, unchanged; Little Rock, 27.75c, unchanged.

Yesterday's cotton statistics were:

	Yesterday.	Last Week.	Last Year.
Port receipts	2,470	6,970	10,208
Exports	615	12,973	4,737
Exports, season	4,686,653	4,673,981	5,886,043
N. Y. stocks	66,703	66,796	180,408
Ports stocks	277,172	277,403	613,474
N. Y. arrivals	143	1,288	534

Liverpool cables: Quiet, two points advance; 15.63d for middling. Sales, 5,000; American, 2,000; imports, 9,000; American, 5,000. Futures opened quiet, 3 points advance to 3 points decline. Closed firm, 7 to 23 points advance. Prices: July, 14.75d; October, 13.10d; December, 12.00d; January, 12.81d; March, 12.36d. Manchester: Yarns, irregular. Cloths: More demand.

SEPTEMBER WHEAT DOWN TO A DOLLAR

Day's Net Losses at Chicago Are 3 to 3½ Cents, With Outside Markets Quite as Low.

Special to The New York Times.

CHICAGO, July 10.—Wheat sold today at the lowest price since soon after the break of the war. September touched $1 for the first time and closed at that price to a fraction over. All deliveries were at a new inside figure on the crop. Buyers of yesterday were active sellers today on cooler weather in the Northwest, and some of the local operators who have been talking very bullish of late threw their lines overboard on the way down. Closing trades were at net losses of 3@3¼ cents with Winnipeg 2@2¾ cents lower and Minneapolis off 2@2¾ cents.

Crop experts who are in the James River Valley in South Dakota sent reports indicating that the wheat will mature ahead of rust damage.

Hedging sales have been in evidence at the opening for several days, with around 200,000 bushels put into the pit early today by houses with Southwestern connections.

Chicago received its first car of new wheat of the season—from Grand Pass, Ill., graded No. 1, and it sold at $1.05½, 2½ cents over July 1. Last year the first car arrived on June 30. The messages from the Southwest claimed that, after thrashing, movement would get under way next week with favorable weather. In two days the four leading interior Kansas and Oklahoma points have received 700 cars, and there is no scarcity of railroad facilities at any point. Three Illinois stations claimed that railroads had stored twenty-five cars at each station in order to handle the first rush of new grain.

Black rust reports from North Dakota received little attention and the Northwest was a good seller on the way down, while the support came largely from resting orders.

Export demand was very disappointing, considering the strength in exchange and the break in futures, and sales in all positions were estimated at 400,000 bushels. Gulf premiums were weaker at 5¼ cents over Chicago September for August loading.

Corn acted tight early, with both July and September showing congestion, but after shorts had covered on the advance of ¼ cent in spot prices the market weakened with wheat and closed ½ to 1¼ cents lower, December leading.

Messages from Kansas, Oklahoma and Nebraska claimed that unless there was rain inside of ten days crop damage reports would commence to come forward, but they were ignored as a market influence at the last.

The farmers are too busy with field work to haul much grain to interior stations, although the advance led to a little. No. 3 yellow sold booked at 68 cents for five-day shipment.

Rye was off 2@2¼ cents, with limited trade.

Primary points received 614,000 bushels of wheat today, week ago 763,000, last year 969,000. Shipments were 1,004,000 bushels, week ago 981,000, last year 1,008,000.

Corn receipts were 512,000 bushels, week ago 884,000, last year 1,024,000, and shipments 463,000 bushels, week ago 472,000, last year 553,000.

Today's Chicago prices for the principal commodities were as follows:

1,863,737 IN VIENNA.

Census Shows Population Less Than in 1910.

The population of Vienna totals 1,865,-738, according to the census taken on March 7, says Trade Commissioner William Ford Upson in a communication to Foreign and Domestic Commerce Reports. This number, although showing an increase in the last three years of 22,413, is still 167,759 less than the census figure in 1910.

In spite of this decrease, the demand for lodgings greatly exceeds the supply. This is explained by the fact that working people are no longer satisfied with the accommodations they had before the war and that the rents, kept down by the continuation of the laws for the protection of tenants, are so low that people are not inclined to accept subtenants.

American Trustee on Loan.

Copyright, 1923, by The New York Times Company.

By Wireless to THE NEW YORK TIMES.

GENEVA, July 10.—The Council of the League of Nations has appointed Albert E. Janssen of Belgium and N. D. Jay of the United States as Trustees representing the interests of bondholders of the long-term Austrian Loan which has just been issued.

Dr. McAllister Goes to Washington.

Dr. A. S. McAllister, engineer physicist of the Bureau of Standards, who, during the last two years, has been liaison officer of the United States Bureau of Standards and the Federal Specifications Board, assigned to New York City, has been recalled to Washington for special work.

Gregory Sure-Grip Sales Company, Buffalo, merchandise, 500 shares common stock, no par value; active capital, $37,000; O. T. Gregory, W

BUSINESS WORLD

COMMERCIAL PAPER.

Yesterday .....5 per cent. for the best names.
Monday .....5 per cent. for the best names.
The quotations are for six months' paper.

***

Sports Coats Are Liked.

Buyers in the market are said to be showing a healthy interest in sports coats, which promises to be big items in early Fall retail ready-to-wear business. The disposition of wholesalers is to believe these garments are headed for another season of marked popularity like that of last Spring. Straight-line coats with side-button effects predominate in the models shown. Wide, flowing sleeves are general. In patterns, these with broad stripes or those on the zebra order are said to be meeting with favor, followed by the solid colors and plaids. Various imported and domestic capped cloths are the weaves mainly used. On many of the models are fur trimmings, particularly red fox, Hudson seal and kit fox.

***

Indian Jute Acreage Larger.

The annual preliminary estimate of acreage under jute for the fiscal year 1923-1924, issued yesterday by the Indian Government for Bengal, shows a considerable increase that actually under the staple in 1922-1923. The estimate, as received by cable from Calcutta by C. E. Rockstroh & Co., Inc., is 2,297,500 acres, while the actual final total for 1922-1923 was 1,453,808 acres. The estimated yield for the coming year, which is apparently based on about 5¼ bales per acre, is set at about 8,000,000 bales, against a total crop in 1922-1923 of about 5,500,000 bales. The feeling here yesterday was that, inasmuch as the estimated crop is about of average size, there is no reason why the estimate should affect the goods market one way or the other as to price.

***

Velvets in Strong Demand.

Velvets continue in an exceptionally favorable position as far as their vogue for Fall is concerned. Demand for the various kinds is active, and neither the foreign nor domestic sources are described as able to take care of the orders that could be placed. There is a particularly noteworthy call for chiffon velvet. The mills here are all sold up on this fabric and supplies from abroad are difficult to secure. Jobbers have very little to offer in the desired shades. Lyons velvets promise to go very "big" with the millinery trade, especially in the wood brown shades, silver gray and bobolink. The available supply of low-end schappe was sold yesterday to be limited, with the indications being for further increases in price.

***

Is Optimistic on Silks.

In a statement issued yesterday, Charles Cheney, Treasurer of Cheney Brothers, expressed entire confidence in the outlook for broad silks. "There have been a few quiet weeks on the part of wholesale producers," he said, "who are watching the situation carefully and who are looking for lower prices, following the production of the new silks. I feel confident, however, that as the vacation period draws to a close, buyers will be forced into the market again and they will be rather lucky if they do not find it difficult to cover their requirements satisfactorily. It should not like to go as far as to predict a jam of orders, but I do believe that there will be a wholesome demand which will call for all that can be reasonably produced. One thing is worth noting and that is that the present calmness has in no way been brought about by reluctance on the part of retail purchasers. In other words, there has been no such thing as a 'buyers' strike,' but has been purely a manoeuvre on the part of the wholesale purchasers."

***

Gray Goods Very Quiet.

Gray goods lost yesterday most of the limited activity they enjoyed on Monday, with the result that very little business was put through. In the absence of buyers, which were again featureless, it was possible to get goods from second hands on a basis as low as 10¾ cents for 47-inch 48-square, four-yard cloths. The best that could be done on 39-inch checks was 11 cents, but very little business was done in them, if any. Printcloths were active in spots, "quick" sales of 39-inch 68-72s and 39½-inch 64-60s having been made, received at 10¾ and nearly 11 cents, second hands. First hands were asking a quarter of a cent more for both constructions.

***

Ribbed Goods Not Priced.

The situation in the ribbed goods end of the knitted underwear trade yesterday could easily be likened to a wedding that did not take place because the bridegroom did not show up. In other words, although the 1924 Spring ribbed lines were to have been priced yesterday, they were not. Up to the close of business yesterday afternoon, it was learned from a reliable source, no quotations on the goods had been made openly, and it was said even to be doubtful if any of the sales-promotion features that often mark a seasonal underwear opening was done during the day. Sellers were said to be acting more cautiously than for some time, and yesterday each was in the position of waiting for the other fellow to take the first step. While announcement of new prices on "ribs" are expected today, there is a bare possibility that nothing will be done on them until Monday, when the new balbriggan lines will be priced.

***

Tendency in Fall Dresses.

Stress is being placed on high lustre silk dresses in the Fall lines being shown. Those of satin-faced Canton, charmeuse and, to some extent, flat crêpe are predicted to be the ones that will probably get the largest attention from buyers. As far as volume is concerned, however, the staple twill dresses are looked upon to yield a big turnover from a retail standpoint. On these a considerable amount of embroidery or braid trimmings is used. On the other hand, several manufacturers here have commented upon the fact that quite a few buyers have said they were more interested in simpler effects. From present indications, the competition which suits will give dresses or coats this Fall will be small.

***

Browns Look Very Strong.

With the advance of the wholesale Fall season in silk hosiery, it is becoming more and more apparent that browns of various hues are going to top the color mode. Among the more staple hues that are favored in this color are log cabin and Autumn browns, as well as the other of the so-called shoe shades. In the more novel shadings are included such hues as new bronze, freckles, &c. Both local and out-of-town buyers are placing business well for Fall delivery at the moment, and the leading hosiery concerns are busier than for some time. Considerable added activity is expected soon as a result of the forthcoming merchandise fair and the increased number of buyers it will bring to town.

***

Return of Novelty Skirts.

Prediction was made yesterday by a well-known skirt manufacturer that skirts in novelty patterns will return to popularity in the Fall. Owing to the widespread vogue during the Spring of the fancy blouse, which demanded a plain skirt, the novelty effects found little favor. Now, this wholesaler thinks, there is a trend toward solid colors in skirt materials, as in chiffon velvet, and the result should be that the novelty patterns will again come forward. He said that this swing in blouses was toward such shades as silk fox, beaver, gray, brown and black and affected both the jacquette and the overblouse. Pleats will again be good, according to this man, in combination, cluster and plain box effects. Side pleats, he said, are played out. He also declared the pleats in the Fall skirtings, of which wool crêpe is an outstanding favorite, would not present the same difficulties of requiring to be replaced as was the case this Spring and Summer.

BUSINESS NOTES.

The firm of Feldman & Light Bros., Gown manufacturers, 143 West Thirty-ninth Street, is now trading under the style of Light Bros. Sons, Inc. In addition to Louis and George Light, the members of the firm now include Lazarus and Phil Light. A children's coat department has been added, managed by Phil and Louis Light.

A branch factory in Paris for the production of women's dresses has been established by Max Greenberg & Co., 112 Madison Avenue. The garments will be made up of fabrics and lines and details fashion and forecast best to the market.

A New Species of Dickey.

By way of camouflage and comfort, on occasions where it is necessary for a coat to be worn on a hot day, many girls and women throughout the country are using the female counterpart of the old-fashioned dickey for men on similar occasions—the combined collar and vestee. This is particularly so when sports costumes include the all-prevailing sweater or golf coat. Especially designed for wear with the sleeveless golf jacket are sets made up of collars, cuffs and sleeves of net, or whatever else the material in the set may be. According to a bulletin sent out yesterday by the United Women's Wear League of America, the development of these and other such wearables has been a great deal toward stimulating business in that branch of the apparel trade.

Atlantic Short Route Free of Ice.

WASHINGTON, July 10.—The Naval Hydrographic Office today notified shipping lines engaged in the North Atlantic trade that ice no longer constituted a menace to normal Summer lanes and that the ships might revert to the usual routes, which are considerably shorter than those now being utilized. Coast Guard cutters which have been on ice patrol will be withdrawn July 12.

FOR MERCHANDISE FAIR.

Novelties From Out-of-the-Way Places to Be Shown in It.

In order that the element of surprise may be injected into the showings of merchandise at the Mercandise Fair, to be held here from July 23 to Aug. 3, Europe and the Far East have been scoured for novelties of all kinds, rare bits of laces and embroideries and similar articles of appeal to the many buyers who are expected to attend. Many representatives of the wholesale houses which will exhibit have been abroad for the purpose and have recently been arriving with their novel importations.

Most of these, according to a statement issued yesterday by the fair management, are being guarded with the utmost secrecy. Those who purchased the merchandise abroad are said to be vaguely, but enthusiastically, referring to the new things that they will feature. A few of the lines of the goods that have been found in out-of-the-way corners of Europe include earrings, beaded bags, laces and embroideries, perfumes, necklaces of cornelian and crystal, Viennese tapestries, &c.

This is the time of the year, the statement points out, in which the novelty and gift wholesalers put forth special effort to entice dealers into buying attractive items for their Christmas trade, and the fair has given greater impetus to the search for the unusual. Every wholesale house which is planning to have a booth in utilizing all of its designing department to bring out something new to be shown under conditions of the keenest competition.

SERGES—Amoskeag's 8614 blue, 1852 gray V

TEN STATES BAR BIBLE IN SCHOOLS

Six Require That a Portion Be Read Daily and Six Permit It, Survey Shows.

LAW SILENT IN 19 STATES

Matter Somewhat in Doubt in Michigan and California—Many Views on the Book.

In ten States the Bible is not permitted to be read in the public schools at stated times, according to William R. Hood, specialist in school legislation for the Bureau of Education, who has just made public the results of a survey on this subject. Of these States three have Supreme Court decisions adverse to such reading, and in the remaining seven an opinion of the State Superintendent of Public Instruction, Attorney General or other authoritative construction has barred the Bible from the schools.

According to his information, six States require that a portion of the Bible be read daily in their schools. Six other States specifically permit by law the reading of the Bible in the public schools. In nineteen States and the District of Columbia the law is silent on the subject and under general terms of the law Bible reading is construed as permissible. In five States, whose laws otherwise contain no specific provision on the subject, the courts have rendered opinions favorable to Bible reading.

In Michigan and California Mr. Hood says the matter is at present somewhat in doubt. The Michigan Supreme Court held in a particular case that the reading of Bible stories, emphasizing "moral precepts" was not unconstitutional, "if the reader made no comment and pupils were permitted to absent themselves," but the court went no further in some other aspects of the matter, the writer states. A case involving Bible reading in the schools is at present pending in the Supreme Court of California.

"The laws of the six States which require that the Bible be used in the public schools are alike in that daily readings are prescribed, but in some other places there is want of likeness," Mr. Hood writes. "Alabama requires 'readings from the Holy Bible'; Georgia prescribes 'the Bible, including the Old and New Testament'; Massachusetts, a portion of the Bible'; the New Jersey law, 'at least five verses from that portion of the Holy Bible known as the Old Testament'; Pennsylvania 'requires at least ten verses from the Holy Bible'; and the Tennessee law uses the same language as that of Pennsylvania. In New Jersey, Pennsylvania and Tennessee reading must be without comment, and in Massachusetts, 'without written note or oral comment.' In Georgia, Massachusetts and Tennessee any pupil may be excused from the Bible reading exercises upon written request of his parents or guardian.

"Where a State constitution or statute prohibits 'religion,' 'religious instruction,' or 'religious exercises' in the public schools, it would seem that the Bible is generally understood to be excluded, particularly if its use is to be made a part of the morning exercises or other observance in which the religious element is prominent. Arizona, Idaho and Wyoming constitute a group of States in which Bible reading in the schools is not permitted for this reason. On the other hand, if the aim in the use of the Scriptures is purely instructional, apart from any religious aim, as when excerpts are used for literary study, such a use is in some jurisdictions permitted.

"It is around the word 'sectarian' that the sharpest controversy has been waged. Various States have constitutional or statutory provisions intended to prevent sectarian instruction and the use of sectarian books in the public schools, and primarily it is at sectarianism that these laws are aimed; but out of this has arisen the question whether a particular version of the Bible—as for example, the King James translation—is excluded by this class of legal provision. As yet this question remains unsettled. Of three State Supreme Court decisions bearing directly on the definition of the schools, and primarily it is at sectarianbook and two declared the opposite opinion. The former was Illinois and the latter Kentucky and Texas. A Nebraska decision inclines to the view that the Bible in itself is not excluded by that State's constitution, but that, in the hands of a sectarian propagandist its use may become illegal. A court of appeal in California has held the Bible to be a sectarian book."

The States in which Scripture reading at stated times is barred are Illinois, Louisiana, Wisconsin, Arizona, Idaho, Minnesota, Nevada, New York, Washington and Wyoming. In New York City, however, the book is permitted to be read under Section 1151 of the City Charter.

Laws specifically permitting Bible reading in the schools have been enacted in the following States: Indiana, Iowa, Kansas, North Dakota, Oklahoma and South Dakota.

"Plans of allowing credit toward graduation from high schools for approved Bible study are in operation in several States," reports Mr. Hood. "This is somewhat aside from the question of the legal status of the Bible in schools, but it would seem to constitute an effort to induce school pupils to acquire knowledge of Biblical literature and history. The Indiana plan, which has the approval of the State Department of Education, contemplates the taking of work according to an official syllabus in Sunday schools, Young Men's Christian Association classes, or in other approved ways and the accrediting of this work for not exceeding two high school units. In Iowa credit of one-half to one unit is allowed, and here also the plan has the approval of the State Department.

"In Virginia an 'official syllabus of Bible study for high school pupils' is issued by the State Board of Education. This comprises three courses, two on the Old and one on the New Testament. These are designed for use by Sunday school teachers and others, and credits are allowed on satisfactory examinations as for other high school electives. In some States, as Colorado and North Dakota, some schools have plans for accrediting Bible study."

LOS ANGELES HAS A RIVAL.

Engineer Predicts That Guadalajara Will Be Great Tourist Resort.

E. S. Foley of Guadalajara, Mexico, who is at the Hotel Pennsylvania, declared that his city bids fair to rival Los Angeles, and that the excellent climate and many social attractions will prove alluring as soon as the new railroad system is inaugurated.

"Los Angeles had best look to her laurels in the tourist trade," said Mr. Foley, "for within the next two years will be completed a branch of the Southern Pacific Railway making direct connections between Guadalajara and the famous California resort. It is the second city of the republic, has 360 days of sunshine a year and no extreme heat of the kind you have in New York. It is an enterprising city of 150,000 inhabitants. We have already about fifty families of Americans, many having been attracted by the silver mines. There is a Rotary Club and numerous bridge and other social clubs. They are now working on a broadcasting station which will permit our northern neighbors to listen in on some real Spanish music.

"The streets are broad and clean and the power company, of which I am chief engineer, is building a new 10,000 horsepower house to be completed within the next three or four months. The whole State of Jalisco, of which Guadalajara is the capital, is building excellent roads. We are only a two hours' ride from beautiful Lake Chapala, where there is a good beach and bathing and boating may be enjoyed. There is probably more English spoken in Guadalajara than in any other part of Mexico. The explanation is that a great many of the native girls have attended finishing school in Los Angeles and the boys come North to college."

WAR ON GYPSY MOTH.

Conservation Commission Prepares Circular Describing Pest.

In connection with its campaign against the gypsy moth, the State Conservation Commission has prepared an illustrated circular showing the moth in its different stages from egg clusters to the adult moth, to assist in its identification and extermination. The circulars are being distributed by Henry L. McIntyre, supervisor of the gipsy moth control work through county agricultural agents in the barrier zone east of the Hudson River.

Eight illustrations in the circular show the moth in natural size and color. The egg mass, which should not be removed on account of the danger of breakage, may be seen on the trunks of trees, on stone walls and fences, and often on house walls or rubbish heaps, where the gypsy moth is very plentiful from August to May. In May and frequently in an early season in April, the tiny caterpillars hatch from the eggs and feed on leaves of oak, birch, maple, elm, apple, pear and of almost all deciduous trees until full grown in July. They feed at night and rest in sheltered spots on the trees or in crotches of limbs during the day.

The full-grown caterpillars seek some spot in which to change to pupae, preferably under loose bark, burlap or other shelter. In the early part of August, or from about seven to ten days after entering the pupal stage, the moths emerge. The male moth flies. The female moth does not move far from the spot where she issues from the pupae. She lays her eggs near the spot where she emerged and dies soon after.

The gypsy moth has already cost the country more than $20,000,000 and threatens New York State now along a seven-mile front. The exclusion of this pest depends largely on team work, and all land owners are asked to co-operate with the agents of the Conservation Commission, particularly in the Hudson Valley, where the danger of invasion is grave.

The best and most economical treatment for the gypsy moth is painting the egg clusters with creosote (breaking the egg mass means scattering and is inadvisable), as the period when the insect is in this stage lasts from August until the next May. Spraying in June with arsenate of lead is very effective and should follow creosoting. Hand crushing of caterpillars, pupae and moths in times of industrial endeavor. The utilities, however, strike a comparatively even gait through the years, their trend being an expanding one.

"The employment is constant because the service of the utility is always in demand. Irrespective of whether other enterprises are flourishing, or the country's industrial corporations are working full time or half time, or marking time the demand for electric light and power, water supply, electric transportation, gas and telephone service endures. The utilities carry normal loads —sometimes abnormal loads—always they carry on."

F. A. Kates Jr., Statistician of Ware & Co., of Philadelphia, New York and Chicago, gave the following figures to the Pennsylvania Public Service Information Committee:

"For the year ended Dec. 31, 1922, the amount of steam railroad securities involved in receivership proceedings was almost nine times greater than those of electric tractions and over thirty-three times greater than those of electric light and power companies. For a period of thirty years prior to the World War the risk of receivership per $100 of securities outstanding for the industries figured $2.07; for railroads $1.84; for public utilities $0.37; and for National Banks about $.032."

These statistics indicate the measure of safety of the divers securities from the viewpoint of the investor or the prospective investor, points out the Committee.

Mr. Kates's figures also show that the insurance companies of the United States have more than $300,000,000 invested in the utilities, and the banks, with over 27,000,000 depositors, have more than $1,700,000,000 invested in public utilities. That is a total of more than two billions of dollars invested by two classes of investors. These classes, as is well known, are restricted to what is regarded as "secure securities."

SCHOOL MONEY MATTERS.

Those Fiscally Independent of City Officers Are Best, Educators Hold.

Shall city school systems be fiscally dependent upon city officials, or shall they depend solely upon the education officers? This matter, as well as that of the dual control of schools, which is of keen interest to educators, is discussed in a recently published pamphlet of the United States Bureau of Education by W. S. Deffenbaugh, Chief of the City School Division.

"Although the majority of the city school systems of the country are independent of the control of the city officials, and although the best authorities on school administration advocate Boards of Education fiscally independent of the Mayor, Council or Commission, the question of who shall appropriate the school funds, and even of who shall control their expenditure, seems to be a perennial one in several cities of the country," writes Mr. Deffenbaugh. "In Buffalo, N. Y., for instance, an attempt was made by the Common Council of that city to reduce the salary of the Superintendent of the City Schools from $10,000 a year, which had been fixed by the Board of Education, to $7,000 a year. The question was settled by the Court, which held that the Board of Education had exclusive power to fix the salaries of its employes under the teachers' salary law, and ordered that the Superintendent's salary be restored.

"If the Court had ruled that the city authorities of Buffalo could reduce salaries at will, the schools would in effect no longer be under the control of the Board of Education, but would be under the control of the City Council."

A similar decision regarding the control of school funds was recently made by the Massachusetts Supreme Court, says Mr. Deffenbaugh, which ruled that the School Committees of that State are independent in fixing salaries of teachers, and that they are not limited by appropriations made by the City Councils and towns.

"The control of school funds has been the subject of discussion in several cities in New Jersey as well, according to Mr. Deffenbaugh, the State Commissioner of Education having ruled that school boards are not municipal governing bodies and have power to select sites for school buildings. The question arose in Long Branch, where the City Commissioners disputed that right.

Referring to the dual control of schools, which the writer asserts is being assailed in practically every city where such control obtains, he gives the opinion of a New York State Regent, who charged that "dual control and red tape have delayed the building of schools under different administrations, and that today, despite the large appropriations for the public schools during the last few years, thousands are on part time and "are denied those full school opportunities that ought to be the inalienable right of every boy and girl of school age."

"That city school systems which are fiscally independent generally have better schools than those that are fiscally dependent has long been the opinion of school men and most others who have studied problems of city school administration," continues Mr. Deffenbaugh. He says that Professor George W. Frasier, Dean of the Colorado Teachers' College, has come to that conclusion after making a survey of 160 city school systems, giving the following reasons for his opinion:

Fiscal independence is right in principle; fiscal independence is not a violation of the correct principle of taxation; it works better in practice; it makes for a continuity of educational policy; it provides adequate financial safeguards for a community, and it tends to keep politics out of the schools.

Government May Sell Narcotics.

WASHINGTON, July 10.—The embargo on importations of narcotic drugs will be continued until a policy for disposing of surplus army and navy stores is decided upon, according to an announcement made today by the Federal Narcotics Control Board. The army and navy are said to have surplus supplies sufficient to stock up wholesale manufacturers who are asking for permission to import narcotics.

1,000,000 WORKERS IN PUBLIC UTILITIES

America's Investment in These Industries Is Placed at $15,000,000,000.

TOPS OIL, STEEL, AUTOS

Wages in 12 in the United States Estimated at More Than $1,000,000,000.

One million persons find employment in the nation's electric light and power, gas, telephone, electric railway and water supply industries, according to a bulletin issued by the Pennsylvania Public Service Information Committee. In Pennsylvania these industries employ approximately 100,000 and steam railways more than 200,000.

America's public utilities, exclusive of steam railroads, represent a total investment of $15,000,000,000. That is more than four times the investment in the steel industry. It is several times the amount invested in oil or automobile industries. In the State of Pennsylvania alone, these utilities represent an annual payroll of close to $130,000,000. Official figures for 1921, the latest available, show the amount to be $126,542,408.

Including the steam railroads, Pennsylvania utilities employ 301,211 wage earners. The wages paid in 1921 to these amounted to $474,165,279. Applying to the customary formula of multiplying the total of the Commonwealth's public utility employes by five to estimate the number of the persons in the State dependent upon them, it is found that public utility workers and their families number 1,506,055, or 17 per cent. of the population of Pennsylvania.

"In the United States, a conservative estimate of the 1922 wages paid to the nation's public utility employes (without considering the steam railroads), is well in excess of $1,000,000,000," says the Bulletin. "This represents the most consistent payroll in the country, for the public utility industry is essentially a consistent one. There may be pronounced fluctuations in other lines of industrial endeavor. The utilities, however, strike a comparatively even gait through the years, their trend being an expanding one.

"The employment is constant because the service of the utility is always in demand. Irrespective of whether other enterprises are flourishing, or the country's industrial corporations are working full time or half time, or marking time the demand for electric light and power, water supply, electric transportation, gas and telephone service endures. The utilities carry normal loads —sometimes abnormal loads—always they carry on."

F. A. Kates Jr., Statistician of Ware & Co., of Philadelphia, New York and Chicago, gave the following figures to the Pennsylvania Public Service Information Committee:

"For the year ended Dec. 31, 1922, the amount of steam railroad securities involved in receivership proceedings was almost nine times greater than those of electric tractions and over thirty-three times greater than those of electric light and power companies. For a period of thirty years prior to the World War the risk of receivership per $100 of securities outstanding for the industries figured $2.07; for railroads $1.84; for public utilities $0.37; and for National Banks about $.032."

These statistics indicate the measure of safety of the divers securities from the viewpoint of the investor or the prospective investor, points out the Committee.

Mr. Kates's figures also show that the insurance companies of the United States have more than $300,000,000 invested in the utilities, and the banks, with over 27,000,000 depositors, have more than $1,700,000,000 invested in public utilities. That is a total of more than two billions of dollars invested by two classes of investors. These classes, as is well known, are restricted to what is regarded as "secure securities."

NEW FUR LOFT.

Investor Buys Site for a Sixteen-Story Structure.

As a site for a sixteen-story loft building designed to meet the requirements of the fur trade, a client of Louis Brodsky, attorney, purchased from Norman S. Riesenfeld and Joseph F. A. O'Donnell the two five-story buildings at 256 and 258 West Thirty-fifth Street, on plot 50 by 98.9, and also from Benjamin Stern the five-story adjoining building at 254, on plot 25 by 98.9.

The purchaser now controls a plot 75 by 98.9. Pease & Elliman negotiated the deal.

Private Dwelling Buyers.

The three-story dwelling on a lot 21.10 by 103.3, at 39 West Eleventh Street, was sold by Louise Buel Field for E. A. Foster to a buyer for occupancy.

Otterbourg, Steindler & Houston have sold for a client to Annie Silver the five-story brownstone dwelling at 157 West Seventy-fifth Street, on a lot 20 by 100 feet.

Ernest T. Bower sold for A. Kendrick, the three-story private dwelling at 423 West 146th Street, on a lot 14.6 by 100 feet, to a client who will occupy it.

E. H. Ludlow & Co. sold for William H. Hurst the four-story private dwelling located at 238 Central Park West, on a lot 18 by 100 feet. This property had not changed hands in over thirty years. Marx Saritzky is the purchaser and expects to extensively alter the house to small suites.

BICYCLES BLAMED.

Great Increase in Street Accidents in Great Britain Noted.

Writing of the great increase in street accidents in Great Britain in recent years, the London correspondent of The New York Medical Journal and Medical Record says:

"During 1922 there were 70,000 accidents in the streets of Great Britain, 7,500 more than during the previous year. What are the causes of this increase? Is the greater proportion of them due to the carelessness of those who walk or to the indifference of those who drive? A large number of persons, of which the writer is one, believes that the push bicycle provides the most potent peril to the pedestrian. It comes on one silently and from nowhere. A motorcycle can be heard plainly, in fact, every kind of vehicle motor driven or horse drawn can be heard, but not the silent push bicycle. It is governed by no rules of the road, comes hurrying along, often far too fast, sometimes on the wrong side of the islands of refuge, dodging in and out of the traffic and a continual source of danger to persons stepping off the curb. Every pedal bicycle should carry a bell which should be rung without cessation.

"Bicycles have increased in number enormously during the last few years. In 1915 there were under 4,000 in this country; in 1919 there were nearly 6,000; in 1920 more than 8,000, and in 1921 about 11,000. Speaking in a general way, the cause of accidents is more often than not the fault of those on foot, and these accidents mostly happen either to the old, who are perhaps deaf and whose sight is defective, or to young children who do not realize the danger.

"However, there is no doubt that motor vehicles are often driven too fast, and in roads or streets in which there is a considerable amount of slow, heavy traffic as well, the risks of accidents are intensified. When approaching a crossing there should be no overtaking of one vehicle by another. The perils of the streets are great, and traffic should be organized in London and other big cities more systematically than it is at present."

Hail Devastates Strip in Manitoba.

BRANDON, Manitoba, July 10.—The worst hail and wind storm for 40 years swept the district of Kemnay, west of here, yesterday, mowing down crops over an area twelve miles long and from 2 to 3 miles wide, according to advices received here today. Telephone service was disorganized, roadways flooded and one stretch of railway track washed out by the rain that followed.

LATEST DEALINGS IN REALTY FIELD

Investor Buys the Jacawah Apartments, Two Five-Story Houses, on the Heights.

OPERATORS SELL CORNER

Multifamily Houses on the West Side Sold in Deals Aggregating $925,000.

The Jacawah Apartments, two five-story walk-ups at 572 to 578 West 161st Street on a plot 72 by 100 feet, containing four and five room suites, were sold by A. P. Sweet for Moses A. Kuh to an investor. The property was held at $150,000.

Lowenfeld & Prager sold 616 West 184th Street, southeast corner of Wadsworth Avenue, a five-story apartment, on a plot 50 by 100 feet, housing twenty families, to clients of Meltzer & Co. in conjunction with Milton L. Meltzer. The property, having a rental of $16,000, was held at $105,000. The buyers will hold the property for investment.

Samuel Sacks sold the five-story triple flat house at 3,752 Third Avenue, three doors south of 171st Street, on a lot 25 by 100 feet. There are three families on a floor of four rooms and bath, each with electric light. The purchaser paid $26,000, all cash, and will hold it as an investment. Louis Becker Company, as brokers, negotiated the sale.

George N. Bruno & Co. sold for the Lawrence Holding Company to the Saint Anthony Realty Corporation the six-story tenement house with stores known as 57 Thompson Street.

G. Tuoti & Co. sold for George Bruestle to a client for investment the six-story building at 20 Spring Street.

Clients of Benjamin Bernstein have purchased from Banned Friend 49 Forsyth Street, consisting of a five-story tenement and stores on a lot 25 by 100 feet. Title to this parcel had not changed hands since 1894.

The two five-story walk-ups on a plot 50 by 100 feet at 218 and 220 East Eighteenth Street were sold by Joseph Fried for Charles Hensle Imre Nemith.

West Side Deals Aggregate $935,000.

Harris Exchange sold 825 West 179th Street, northeast corner of Northern Avenue, on a plot 100 by 100 feet, a six-story elevator apartment, held at $250,000.

They also sold 518 to 521 West 147th Street, three buildings, on a plot 50 by 100 each, housing sixty families, renting for $42,000 and held at $250,000. They also sold 354 and 356 Wadsworth Avenue, two buildings on a plot 50 by 100 feet each, renting for $32,000, housing forty families and held at $200,000; also 62 West Ninety-third Street, near Central Park West, housing twenty families, renting for $18,000 and held at $100,000; also 506 and 508 West 122d Street, six-story elevator apartment on a plot 50 by 100 feet, renting for $22,000, the property being held at $125,000, and negotiations are pending for a resale.

J. C. Hough & Co. have sold for Daniel H. Jackson to the Carthage Realty Corporation, Henry S. Mansfield President, the five-story double flat with one large store at 370 Columbus Avenue, adjoining corner of Seventy-seventh Street, on a lot 26 by 103 feet, renting for about $6,000 and held at $46,000.

Ward Belknap & Son have sold to Simon Myers and William Goldstone for the estate of Busaman Reinhardt the two five-story and one six-story apartment houses at 218 to 222 East Ninety-eighth Street. This is the first sale of the property since 1897.

Charles M. De Rosa Company sold for the Neverland Corporation, K. C. McDonald President, the five-story cold water tenement at 583 West Fifty-second Street. The property has one store and fifteen apartments. It rents for $3,500 and was held at $25,000.

HOMES FOR THE BRONX.

Builders Buy Site for Two-Family Structures.

The Tiroso Associates of Brooklyn, builders, which has erected a number of one and two family dwellings in the Borough of the Bronx, has purchased from the Episcopal Church of St. Peter a tract of thirty-four lots on Waterbury, Havemeyer and Newbold Avenues in the East Bronx.

The buyers will improve the property with a group of two-family houses.

Jacob and Emil Leitner were the brokers in the sale, and John Kadel represented the church, which had owned the land since it was originally granted by the Crown two centuries ago.

$800,000 Mortgage Loan Placed.

H. Brinckerhoff MacCully has placed a loan of $800,000 for the 17 East Ninety-sixth Street Corporation, Joseph G. Seigel, President, on a fifteen-story apartment house on a plot 85 by 100 feet, adjoining the northwest corner of Madison Avenue.

Quinlan & Leland have placed a first mortgage loan of $350,000 with interest at 5 per cent. on 912 to 920 Seventh Avenue, southwest corner of Fifty-eighth Street, for Durham Realty Corporation, J. B. Thorn, President.

Lawrence, Blake & Jewell were the brokers in placing the loan of $300,000 with the Bowery Savings Bank for the 106 East Eighty-sixth Street Corporation, Loton Slawson, President, for the erection of a fourteen-story building at that address.

Dowdney & Richart have placed for the Naimart Holding Corporation a first mortgage loan of $133,000 at 5½ per cent. on premises situated on the east side of Fox Street, 100 feet north of Leggett Avenue. The property consists of a plot of land 95.23 by 117.34 by irregular, on which the owners have just completed a six-story and basement apartment house.

Childs & Humphries negotiated a first mortgage of $570,000 at 5 per cent. for five years for the Edinburgh Realty Corporation on the twelve-story and basement apartment house at 555 Park Avenue, southeast corner of Sixty-second Street.

William A. White & Sons have negotiated for Mrs. Amelia Hardy a first mortgage at 5½ per cent. for five years on her property at 677 Madison Avenue. This property, which is a five-story business and apartment building, is valued at $90,000 and brings the owner a rental of $12,900 a year.

By James J. Donovan.

East 135th St., 603 ft. e., 250 ft. s. of St. Ann's Av., 24x100, 4-story tenement; Henry Datar et al. vs. Emil Polack et al.; Max Gross (R); due, $18,920. To Morris Levy for $18,600.

WANTED A BROKER

To a renting broker of the highest calibre, an unusual opportunity is offered by one of the most successful real estate organizations in the City. Experienced man only will be considered. Straight commission.

V 891 TIMES DOWNTOWN.

J. P. MORGAN A BUYER.

Acquires Fourteen-Acre Tract at Locust Valley.

The Underhill Development Corporation sold a tract of land at Locust Valley, near Piping Rock Club, comprising about fourteen acres, being the southerly portion of the former Samuel V. Underhill farm. The property is situated on the west side of Locust Valley-Brookville Highway, just south of Locust Valley station.

The balance of the Underhill farm, comprising about fifty-seven acres, is now being developed by the present owners, a syndicate composed of about ten prominent neighbors, who purchased this farm some years ago for protective purposes.

The property has been laid out by the well-known landscape architect, Ralph M. Weisrichter, into villa plots comprising from two to four acres.

The fourteen acres just sold have been purchased by J. P. Morgan and the land which he is buying adjoins on the north the country homes of Mr. Morgan's son and daughter, Junius S. Morgan Jr. and Mrs. Paul G. Pennoyer. Wheatley Hills Real Estate Corporation were the brokers.

George Howe sold for the Bechstein estate the waterfront property on Davenport Neck, New Rochelle, to a client. The premises consist of about eight acres lying on both sides of the road, together with a Colonial residence of fifteen rooms, garage with chauffeur's quarters, gardens, &c. In the vicinity are such large waterfront properties as those of C. T. Church, H. H. Doehler and others. It was held at $85,000.

The Warranty Brokerage Corporation, in conjunction with Edward Brewer, sold for Arnold Rothstein an irregular plot in Great Neck Villa, Great Neck, L. I., to George J. Schweitzer.

Fish & Marvin sold for John Templeton two new houses now under construction on Townsend Avenue, Pelham Manor, to a client. Both properties were held at $40,000.

The same brokers sold for Bassett & O'Reilly a frame dwelling and garage, with three-quarters of an acre of land, on Midland Avenue, Rye. The same firm has purchased from E. V. Siedle three lots on Evergreen Avenue, on which they contemplate erecting a residence.

Deal Closed by Wireless.

Irving H. Kempner, who is now in Paris, France, disposed of a west side plot by wireless yesterday.

He sold to Benjamin Betzman, through Berley & Co., the three four-story tenements at 339, 341 and 341½ West Forty-first Street, forming a plot 50 by 100, near Eighth Avenue. It is understood that the purchaser intends to erect a twelve-story building for the printing trades.

THE BROOKLYN MARKET.

Entire Square Block Being Sold to Builders.

Meister Builders, Inc., have purchased through Joseph Berger & Son forty-three lots, taking in the whole square block bounded by Eighty-fifth Street and Twenty-fifth and Stillwell Avenues. There is an elevated station at this point, and negotiations are under way to sell these lots to builders. This parcel was held at $150,000.

Henry L. Nielsen Company sold the property containing two stores and six apartments at 164 Third Avenue, for the estate of Hudia Lees, to a client.

Bulkley & Horton Company have sold 648A St. Mark's Avenue, between Rogers and Nostrand Avenues, a three-story brick one-family building, lot 18 by 100, for Amy C. Welcher to a client for occupancy.

The three-story dwelling on lot 20 by 100 at 144 Lincoln Place was sold by John Pullman Real Estate Company for Mrs. Kate Mumford to Katherine Devan for occupancy.

Tutino & Co. sold for Alfred W. St. Jacques to a client the two-family frame dwelling at 536 Fifty-seventh Street.

Edward C. Cerny sold for Carl Mahler to a client for investment the three-story brick building located at 5,906 Seventh Avenue.

Bronx Borough Sales.

Joseph Sager purchased from Charles Tachanett and Henry S. Niewenhous a five-story apartment house at 2,405 Grand Avenue, 55 by 122, the building accommodating twenty-one apartments divided into five and six room apartments. Renting for $16,500, it was held for $100,000. Grudin & Dawkis were the brokers.

Harry T. F. Johnson sold for Holober Brothers to a builder for improvement the plot, 100 by 100, on the west side of Broadway, 200 feet north of 261st Street, the price being $35,000.

Investor Buys the Northern.

John A. Mansell, as President of the Tems Realty Company, has sold to an investor the six-story apartment house known as the Northern, at 96 to 100 Northern Avenue, northwest corner of 181st Street, on a plot 75 by 124 by irregular.

This property, which has a rent roll of about $41,000 a year, was acquired by the seller in July, 1922, from the Chalmers Realty Company. It was built in 1910 by the Codas Realty Company.

Millville, New Jersey, Manufacturing Plant
For Sale or Rent at a Reasonable Figure

Right in the center of the town is this fine new fireproof building—a real monument to Millville's progressiveness. Situated at the corner of Buck and Sassafras Streets—a half block from the car line.

It has 30,100 square feet—has light on all four sides—is ideal for any kind of manufacturing business.

Labor is very plentiful in the neighborhood—and the plant is easily reached.

Steam-heated, electric-lighted and with a sprinkler system throughout. The insurance is the lowest.

Fuller information gladly sent. For sale or rent on satisfactory terms.

INFANTRY RE-ENLISTMENTS.

A Problem for the Army, Says General Farnsworth in Letter.

Recruiting for the army and the infantry is progressing favorably under the present plan for conducting recruiting activities, but the number of recruits being obtained monthly is not yet sufficient to replace entirely the losses constantly occurring, says a letter sent out by General Farnsworth, Chief of Infantry. It has been estimated that more than 67.5 per cent. of all men now being discharged from the army do not re-enlist. Although this estimate of loss is for the entire army, it nevertheless permits one to visualize the loss to the infantry from the same cause, says the letter, and continuing, adds:

"The re-enlistment of the soldier, a phase of organization recruiting frequently overlooked, offers a valuable source of supply for trained personnel to augment the results obtained through the other recruiting activities of a command. Each re-enlistment for the same organization or station has a beneficial effect upon the morale of the unit concerned. The re-enlistment of a soldier in his organization creates a deep impression upon the minds of the newer men, and in many instances plants the seed of a similar decision in the minds of the latter. However, such a decision is not usually a hasty one. It is encouraged or discouraged by the conditions and influences surrounding the soldier during his term of enlistment. Naturally, it is the desire of all concerned to make the service so attractive that the decision of the soldier to re-enlist is made long before the day of his discharge."

The importance of this phase of recruiting was, indirectly, the subject of a letter from the Secretary of War to the Chief of Staff of the Army and its subject was "The Treatment of the Recruit." It clearly described the foundation upon which re-enlistments are built. Later, Circular No. 111, "Duties of Recruiting Officers at Posts, Camps and Stations," devoted a paragraph to the subject of re-enlistments. This circular imposed upon the company commander and the post, camp or station recruiting officer the responsibility for interviewing each soldier prior to discharge.

"Despite the importance of such an interview," continues the letter, "it is difficult to secure the re-enlistment of a soldier on the day of his discharge, unless proper measures have been taken during his entire period of service to mould in his mind progressively the decision to re-enlist in his organization. The work of securing the re-enlistment of a soldier should not begin on the day of his discharge, but on the day he joins the organization. This is emphasized by the sound principles expressed in the letter of the Secretary of War, which are so closely related to the problem of re-enlistments.

"On the other hand, it is not intended that the soldier should be asked to re-enlist upon the expiration of his term of service, on the day he joins his organization. As previously stated, such a decision is not usually a hasty one and can be built up only by the painstaking care and effort of organization commanders. The number of re-enlistments in any organization indicates, in no uncertain manner, the general morale and contentment of the unit concerned.

"If a soldier is contented and satisfied, his decision to re-enlist will have been made long before the date of his discharge. Let the lot of the soldier burden from our recruiters in the field by boosting up the re-enlistment rate. Trained soldiers make good material for non-commissioned officers and instructors. Their retention helps proportionately the efficiency of a command."

LIFE EXPECTANCY GAINS.

Insurance Figures Show It Went to 58.01 Years in 1921.

There was a marked gain in expectation of life in the United States during the year 1921, figures for which are just completed, according to a bulletin of the Metropolitan Life Insurance Company. The mortality rate among the population of the United States registration States during 1921 was the lowest, and the expectation of life the greatest on record.

At birth, the expected after-life span was 58.01 years, an increase of three and one-third years over the figure prevailing in 1920. The significance of the extraordinarily favorable health conditions prevailing in that year, it is pointed out, will be seen by comparing this gain in expectancy within one calendar year with the gain of two and three-fourth years in the decade 1910-1920. The average life-span was extended more during 1921 than during the whole of the preceding ten years.

Among males, the gain in the expectation at birth during 1921 was greater than for females, the male population of the United States showing an increase of 4.11 years in the life-span as compared with a gain of 3.99 years for females.

Gains in life expectancy were most pronounced at the younger ages. From ages 7 to 12, the increase was 2.19 years. Up to the age of 17, the life-span was lengthened more than two years over the figures prevailing in 1920. The more favorable balance of added years of after-lifetime among males than among females at birth resulted almost entirely from the more rapid decline of the infant death rate for males. After infancy, females in the population showed a greater gain in life expectancy, except at the most advanced ages.

In making any analysis or interpretation of the life expectations of 1921 and 1920, it should always be remembered that each set of figures relates to a single year only. The 1922 health record was almost as good as that for 1921, and present indications are that 1923 will actually show improvement over 1922, possibly even exceeding the 1921 record, which was the best ever registered.

MISSING PERSONS.

The following persons were reported to the police as missing yesterday:

ANTHONY DANDROBIA, 14 years old, 315 East Twelfth Street; 4 P. M., July 8; height, 5 feet; weight 90 pounds; brown eyes, brown hair, dark complexion; white and blue shirt-waist, blue trousers, white shoes, black stockings.

THE WEATHER.

WASHINGTON, July 10.—The weather map of Tuesday night showed a trough of low atmospheric pressure extending from Newfoundland southwestward to the lower Mississippi Valley, and the pressure was also relatively low over the Rocky Mountain plateau region, while the barometer was comparatively high over Manitoba, off the North Pacific Coast and east of Bermuda. Within the last twenty-four hours showers and thunderstorms have occurred rather generally from the Northern Plains States eastward across the upper Mississippi Valley and the lake region to the St. Lawrence Valley, and scattered thunder showers were also reported along and near the Gulf Coast and in the southern Rocky Mountain region. Elsewhere the weather has been generally fair.

High temperatures prevailed Tuesday in the Middle Atlantic States and in portions of the Canadian Northwest, and they were considerably lower in the upper Mississippi Valley and surrounding areas. The changes elsewhere were unimportant.

The outlook is for partly cloudy showery weather during the next forty-eight hours in the upper Ohio Valley, most of the Middle Atlantic States, Southern New England and Florida, with fair weather indicated elsewhere in the Weather Bureau forecast district. The temperature will be somewhat lower Wednesday in portions of the North Atlantic and Middle Atlantic States. No change of consequence will occur elsewhere in the district.

COUNTRY-WIDE WEATHER CONDITIONS.

Observations at United States Weather Bureau stations during the twenty-four hours preceding 8 P. M. yesterday:

BANKRUPTCY SALES.

UNITED STATES DISTRICT COURT, Southern District of New York, in the matter of SAMUEL E. EINSTEIN, MARSHALL E. WARD and DAVID S. EINSTEIN, individually and composing the firm of Einstein, Ward & Company, alleged bankrupts—No. 22004 in Bankruptcy.

Pursuant to an order of this Court, the undersigned, Receiver of the above named alleged bankrupts, offers for sale the property, assets and effects of said bankrupts. The property to be sold consists of the following:

15 Office chairs.
4 Swivel office chairs.
1 Oliver typewriter.
1 Customer's filing cabinet, small.
1 Flat top desk.
1 Large plain flat top desk.
1 Desk set.
1 Chair for wash room.
1 Large rolled top desks.
20 Large books on investments—Moody's Manuals.
1 Coat rack.
1 Filing cabinet, four drawers.
1 Large table.
1 Small table.
1 Letter press copy.
1 Typewriter desk.
1 Typewriter, Underwood.
1 Visitor Board—telephone.
1 Clock.
1 Safe.
1 Room covered with blue carpet.
Waste basket.

The property may be inspected at No. 25 Broad Street, in the Borough of Manhattan, City of New York, on any day between the hours of 9 A. M. and 5 P. M. by applying at the office of Olcott, Borough, McAdam & Street, attorneys for the Receiver.

The said property will be sold at public auction by Charles Haase & Son, Auctioneers, at the above premises in the City of New York, on the 23d day of July, 1923, at 2 o'clock in the afternoon of said day.

The Receiver reserves the right to withdraw any of said property from the sale, unless it shall bring at least 75% of the appraised value. Dated, New York, July 10, 1923.

WILLIAM D. STITT, Receiver.

OLCOTT, BONYNGE, McMANUS & STANLEY, Attorneys for Receiver.

Office and Post Office Address, 170 Broadway, Borough of Manhattan, City of New York.

George W. Harris's Place Given to His Democratic Opponent by a Party Vote.

HE LOSES FIGHT IN COURT

Board Grants $100,000 for Experts in City's Fight Against Gas Companies.

The Republican minority in the Board of Aldermen was reduced to eleven yesterday when by a strictly party vote of 46 to 7 the board unseated George W. Harris, a negro Republican member, whose election in 1921, following a recount proceedings lasting a year and a half, was declared void. John W. Smith, also a negro, but a Tammany man, was declared elected, and took the seat formerly occupied by Harris. With the acquisition of Smith the Democrats now have 54 members.

The Committee on Privileges and Elections in its report, which was adopted, contended that Smith had defeated Harris by 46 votes and that Smith should be seated. Before the board had taken action Harris, learning of the committee's report, had obtained from Supreme Court Justice John Ford early in the day an injunction which would stay the subsequent action, but Justice Ford, a few hours later, signed an order vacating his own injunction.

The Republican minority, of which Alderman Jacob W. Friedman is leader, voted solidly. It insisted that the unseating of Harris was the result of political steam-rolling tactics and that Harris unquestionably had been chosen by the voters of his district. Future court action, they insisted, would prove their contention.

At the meeting Thomas O'Reilly, Democratic alderman from the eleventh district, which includes the upper west side, was declared to be legally elected, thus throwing out the protest of James W. Sullivan, a Republican, who had been contesting the seat held by his Democratic opponent.

$100,000 For City's Gas Fight.

The Board voted $100,000 in special revenue bonds for use by Corporation Counsel George P. Nicholson in employing gas experts in the city's fight against the gas companies. The Board agreed to an amendment to an existing ordinance making it obligatory for motion picture operators at all public assemblages to be licensed. Heretofore only operators in theatres required licenses.

Three new public street markets were established, on Cannon Street, on Sheriff Street and on Columbus Avenue from Ninety-seventh to 101st Streets.

All elevated posts and pillars and similar street obstructions will hereafter be striped, according to a resolution adopted by the board. Important points as designated by the Borough Presidents will be lighted at night to safeguard against accidents.

A motion to discharge a special committee on traffic which has been considering a report dealing with the taxicab problem, was lost. The motion was made by Alderman Bruce M. Falconer, Republican, who declared that the matter was so important that the Aldermanic body should have made its report long ago.

"You're a lot of wooden men," shouted Alderman Wirth, Republican, of Brooklyn. "There isn't a more important matter in the city than this taxicab problem, and you should do something to help."

He was shouted down by the Democratic majority, who voted to continue the committee.

$12,000 a Year for Buckley.

The Board formally established the salary of the Commissioner of Purchase at $12,000 a year. Theofficialnow shrdlu at $12,000 a year. The office is now held by Edward W. Buckley, who was recently appointed by the Mayor. Alderman Fagoner criticised the large salary on the ground that it was unfair to Grover A. Whalen and other department heads who receive only $7,500 a year.

"It is even unfair to Commissioner of Accounts David Hirshfield," said the Alderman. "But at that, Mr. Hirshfield is worth $7,500 a year. Commissioner Buckley is worth fully $12,000."

The board voted to adjourn until Tuesday, Oct. 9.

COOK AND 25 OIL MEN ARE INDICTED AGAIN

Explorer-Promoter and Aids Face Trial in Cleveland as Well as in Fort Worth.

CLEVELAND, Ohio, July 10.—Twenty-six Texas oil promoters, including Dr. Frederick A. Cook, former Arctic explorer, were indicted by the Federal Grand Jury here today on charges of using the mails to defraud and conspiracy to make fraudulent use of mails.

Trial of the promoters both in Cleveland and Fort Worth, Texas, was predicted by Federal authorities in view of the fact that separate offenses are charged in the indictments returned in the two cities. In Fort Worth Cook and his associated promoters were charged with mailing alleged fraudulent stock offers in the Post Office here. The new indictments involve delivery of the offers within the jurisdiction of the Federal court of the Northern District of Ohio.

Defendants named as associates and employes of Cook are Thomas O. Turner, Leslie A. McKercher, Fred K. Smith, Beecher S. Henninger, O. L. Ray, Arthur Ekman, W. P. Welty, R. L. Maxwell, George A. de Montrond, Seymour E. J. Cox, W. L. Bradley, C. H. Meharon, K. J. Bower, Samuel L. Hess, C. W. Fleet and Henry O. Stephens of Fort Worth. Others are Henry W. Blean, H. G. Cooper, Ambrose Delcamore, J. S. Rocks, George Harvey Currier, H. E. Robinson and J. E. Burmeister.

According to District Attorney Bernsteen, audit of the books of the Petroleum Producers' Association by a Government accountant showed that the company took in from stock sales nearly $500,000 in a little more than six months. Payment of fraudulent dividends is one of the allegations against Cook. After advertising it was paying dividends of 2 per cent. monthly, it is charged, the company paid two dividends of that size six weeks apart—with money obtained from stock sales.

Joseph H. Crites, former painter and railroad brakeman, of East Liverpool, Ohio, and John T. Hones, former Sheriff of Tarrant County, Texas, also were indicted on charges of fraudulently selling stock in the Otex Production Company and the Mid-American Oil and Refining Company to Ohio residents. According to Federal investigators, persons living in and near East Liverpool lost about $170,000.

FORT WORTH, Texas, July 10.—Federal District Attorney Sweatt today received a $25,000 check in a letter which requested that the money be returned to a group of stockholders who bought shares in the Quichita Smackover Oil Company.

The letter was signed by J. B. Yett, under indictment in connection with reported illegal operations, and Dr. G. B. Miller, who at one time was interested in the company. Porter E. Glenn, who helped promote the Quichita Smackover Oil Company, is under Federal indictment for alleged illegal activities.

SEARCH THE HOME OF W. A. ROSSITER

Secretary of the Late Charlemagne Tower Has Been Missing for Several Days.

Special to The New York Times.

PHILADELPHIA, July 10.—Private papers in the home of William A. Rossiter, who was private secretary of the late Charlemagne Tower, former Ambassador to Germany, and who has been missing since June 29, have been scrutinized under the authority of a search warrant issued Saturday by a Justice of the Peace at Doylestown on complaint of Julius A. Bailey, a Trustee of the estate.

George Ross, a Doylestown attorney, acting for the Trustees, said that no warrant for Mr. Rossiter's arrest had been obtained, so far as he knew. Earl B. Putnam, a Trustee, stated that only the search warrant had been taken out.

Rumors that a $80,000 shortage had been found in the missing man's accounts were neither confirmed nor denied by the Trustees.

The affidavit of complaint on Saturday alleged that Rossiter abused the confidence reposed in him by manipulating two checks, totaling $7,000, which had been sent to the trustees.

It is stated that nothing was discovered in the search of the Rossiter home. One of the trustees is quoted as declaring the estate's securities are intact.

Rossiter is the owner of four farms and a model dairy in Bucks county, Pa., across the Delaware River from Trenton.

State Senator Buckman, counsel for Mrs. Rossiter, said there was no known reason for her husband's disappearance. His accounts at the office of the Tower Estate were declared to be in satisfactory shape, and it was said there was not the least suspicion of any "triangle" complications.

Mr. Rossiter traveled back and forth from his office to the farms daily, and friends say they had never before known him to be away from home over night.

Mr. Rossiter is 44 years old and has two children.

Tax Post Still Vacant.

Appointment of Emanuel I. Silberstein as an appraiser in the office of the State Tax Commission at 233 Broadway was not made to fill the vacancy caused by the resignation of Edward W. Buckley, it was learned yesterday. A successor to Mr. Buckley, who was a deputy in charge of the New York office, has not yet been named.

The Equitable opens two new offices in London
THE LONDON OFFICE of The Equitable has been moved from 3 King William Street, E.C. 4, to new and larger quarters at 10 Moorgate, E.C. 2—in the heart of the business and financial district of London.
At the same time, a second office has been opened in the Bush House, which has entrances on the Strand and Aldwych, into which runs Kingsway. This office is very convenient to the shopping and theatre districts, and to the Cecil, Savoy, Waldorf and other hotels.
Thus tourists in London may, through the Bush House Office, obtain the services of an American bank in London, without the inconvenience of a half hour's journey to the financial section.
In Paris, too, The Equitable's facilities have been augmented by the enlargement of its offices at 23 Rue de la Paix, in the Avenue de l'Opera.
Americans who go abroad this year are invited to make use of our London and Paris Offices in any way possible.
